- (a) Audited Ind AS interim consolidated financial statements of the Group as at and for the three-month period ended June 30, 2023 prepared in accordance with Ind AS 34 as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, (as amended from time to time) and other accounting principles generally accepted in India, along with the presentation requirements of Division II of Schedule III to the Companies Act (Ind-AS compliant Schedule III), as applicable which have been approved by the Board of Directors at their meeting held on October 13, 2023;

- (b) Audited Ind AS interim consolidated financial statements of the Group as at and for the three-month period ended June 30, 2022 prepared in accordance with Ind AS 34 as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, (as amended from time to time) and other accounting principles generally accepted in India, along with the presentation requirements of Division II of Schedule III to the Companies Act, (Ind-AS compliant Schedule III), as applicable which have been approved by the Board of Directors at their meeting held on October 13, 2023;
- (c) Audited Ind AS consolidated financial statements of the Group as at and for the year ended March 31, 2023 prepared in accordance with Indian Accounting Standards (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other accounting principles generally accepted in India, along with the presentation requirements of Division II of Schedule III to the Companies Act, (Ind-AS compliant Schedule III), as applicable which was approved by the Board of Directors at their meeting held on July 25, 2023;
- (d) Audited Ind AS consolidated financial statements of the Group as at and for the year ended March 31, 2022 prepared in accordance with Indian Accounting Standards (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other accounting principles generally accepted in India, along with the presentation requirements of Division II of Schedule III to the Companies Act, (Ind-AS compliant Schedule III), as applicable which was approved by the Board of Directors at their meeting held on August 31, 2022;
- (e) Audited Special Purpose Ind AS standalone financial statements of the Company as at and for the year ended March 31, 2021, which were prepared by the Company after taking into consideration the requirements of the SEBI Letter and were approved by the Board of Directors at their meeting held on December 15, 2022.

Pursuant to the Companies (Indian Accounting Standard) Second Amendment Rules, 2015, the Group voluntarily adopted March 31, 2022 as reporting date for first time adoption of Indian Accounting Standard (Ind-AS) - notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and consequently April 1, 2020 as the transition date for preparation of its statutory financial statements as at and for the year ended March 31, 2022. The financial statements as at and for the year ended March 31, 2022, were the first financial statements, prepared in accordance with Ind-AS. Upto the Financial year ended March 31, 2021, the Company prepared its financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (“**Indian GAAP**” or “**Previous GAAP**”) due to which the Special purpose Ind AS standalone financial statements were prepared as per SEBI Letter. The Special purpose Ind AS standalone financial statements are not the statutory financial statements under the Companies Act, 2013.

The Special Purpose Ind AS Standalone Financial Statements as at and for the year ended March 31, 2021 have been prepared after making suitable adjustments to the accounting heads from their Indian GAAP values following accounting policies and accounting policy choices (both mandatory exceptions and optional exemptions availed as per Ind AS 101) consistent with that used at the date of transition to Ind AS (April 1, 2020) and as per the presentation, accounting policies and grouping/classifications including the revised Schedule III disclosures pursuant to the SEBI Letter.

Financial information for the three months period ended June 30, 2023 and June 30, 2022 may not be indicative of the financial results for the full year and are not comparable with financial information for the years ended March 31, 2023, March 31, 2022, and March 31, 2021.

There are significant differences between Ind AS, U.S. GAAP and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or U.S. GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our financial data. Accordingly, the degree to which the financial information included in this Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting policies and practices, the Companies Act, Ind AS and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Prospectus should, accordingly, be limited. For risks relating to significant differences between Ind AS and other accounting principles, see “*Risk Factors – Significant differences exist between the Indian Accounting Standards (Ind AS) used to prepare our financial information and other accounting principles, such as the United States Generally Accepted Accounting Principles (U.S. GAAP) and the International Financial Reporting Standards (IFRS), which may affect investors’ assessments of our Company’s financial condition.*” on page 66.

Our Statutory Auditors have provided no assurance or services related to any prospective financial information in this Prospectus.

Unless the context otherwise indicates, any percentage amounts or ratios (excluding certain operational metrics), relating to the financial information of our Company in this Prospectus have been calculated on the basis of amounts derived from our Restated Ind AS Summary Statements.

Non-GAAP Financial Measures

Net Worth, NAV per share, gross profit, gross profit margin/ gross margin, EBITDA, EBITDA Margin, Adjusted EBITDA, Adjusted EBITDA margin, working capital days of sale, invested capital in business, cost of goods sold (“**Non-GAAP Measures**”), presented in this Prospectus are supplemental measures of our performance and liquidity that are not required by, or presented in accordance with Ind AS. Further, these Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the period/years or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS. In addition, the Non GAAP Measures are not standardised terms, hence a direct comparison of these Non-GAAP Measures between companies may not be possible. Other companies may calculate these Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. Although such Non-GAAP Measures are not a measure of performance calculated in accordance with applicable accounting standards, our management believes that they are useful to an investor in evaluating us as they are widely used measures to evaluate an entity’s operating performance.

Currency and Units of Presentation

All references to:

- “Rupees” or “₹” or “INR” or “Rs.” are to Indian Rupee, the official currency of the Republic of India; and
- “USD” or “US\$” are to United States Dollar, the official currency of the United States.

Our Company has presented certain numerical information in this Prospectus in “million” units. One million represents 1,000,000 and one billion represents 1,000,000,000. However, where any figures that may have been sourced from third-party industry sources are expressed in denominations other than millions, such figures appear in this Prospectus in such denominations as provided in the respective sources.

In this Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All per share and percentage figures have been rounded off to one/ two decimal places. However, where any figures may have been sourced from third-party industry sources, such figures may be rounded off to such number of decimal places as provided in such respective sources.

Exchange Rates

This Prospectus contains conversion of certain other currency amounts into Indian Rupees that have been presented solely to comply with the SEBI ICDR Regulations. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate or at all.

The following table sets forth, for the periods indicated, information with respect to the exchange rate between the Rupee and USD and Rupee:

(Amount in ₹, unless otherwise specified)

Currency	Exchange rate as at				
	June 30, 2023	June 30, 2022	March 31, 2023	March 31, 2022	March 31, 2021

Industry and Market Data

Unless stated otherwise, industry and market data used in this Prospectus has been obtained or derived from the RedSeer Report, GoldVIP Technology Solutions Private Limited (“**Crownit**”), NielsenIQ (India) Private Limited (formerly known as Nilsen (India) Private Limited) (“**NIQ**”) and publicly available information as well as other industry publications and sources.

RedSeer is an independent agency which has no relationship with our Company, our Promoters, any of our Directors or Key Managerial Personnel or Senior Management Personnel or the Book Running Lead Managers. The RedSeer Report has been exclusively commissioned by our Company pursuant to an engagement letter with RedSeer dated July 7, 2022, August 11, 2023 and August 29, 2023 for the purposes of confirming our understanding of the industry in which the Company operates, in connection with the Offer. The RedSeer Report will be made available on the website of our Company at <https://honasa.in/investor/> from the date of this Prospectus till the Bid/ Offer Closing Date.

Excerpts of the RedSeer Report are disclosed in this Prospectus and there are no parts, information or data from the RedSeer Report which would be relevant for the Offer that have been left out or changed in any manner by our Company for the purposes of this Prospectus. The data used in these sources may have been re-classified by us for the purposes of presentation. Data from these sources may also not be comparable, on account of there being no standard data gathering methodologies in the industry in which the business of our Company is conducted, and methodologies and assumptions may vary widely among different industry sources.

Accordingly, the extent to which the market and industry data used in this Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data.

Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in “*Risk Factors – This Prospectus contains information from third parties, including an industry report prepared by an independent third-party research agency, RedSeer Management Consulting Private Limited (RedSeer), which we have commissioned and paid for purposes of confirming our understanding of the industry exclusively in connection with the Offer.*”, on page 63. Accordingly, investment decisions should not be based solely on such information.

Disclaimer of RedSeer

This Prospectus contains data and statistics from certain reports and the RedSeer Report, which is subject to the following disclaimer:

“Redseer has taken due care and caution in preparing the Report titled “Beauty and Personal Care Market in India” based on the information obtained from sources generally believed to be reliable. The market information in this Report is arrived at by employing an integrated research methodology which includes secondary and primary research and other relevant ecosystem participants, and consultations with market participants and experts. In addition to the primary research, quantitative market information is also derived based on data from trusted portals and industry publications. Therefore, the information is subject to limitations of, among others, secondary statistics and primary research, and accordingly, the findings do not purport to be exhaustive. Its accuracy, completeness and underlying assumptions are subject to limitations like interpretations of market scenarios across sources, data availability amongst others. This Report is not a recommendation to invest / disinvest in any entity covered in the Report and no part of this Report should be construed as investment advice within the meaning of any law or regulation. Forecasts, estimates and other forward-looking statements contained in this Report are inherently uncertain and could fluctuate due to changes in factors underlying their assumptions, or events or combinations of events that cannot be reasonably foreseen. Additionally, the COVID-19 pandemic and the ongoing macroeconomic events have significantly affected economic activities. Nothing in the Report is to be construed as Redseer providing or intending to provide any services in jurisdictions where Redseer does not have the necessary permission and/or registration to carry out its business activities in this regard. No part of this Report may be published/reproduced in any form without Redseer’s prior written approval.”

Disclaimer of NIQ

“NielsenIQ Information reflects estimates of market conditions based on samples, and is prepared primarily as a marketing research tool for consumers, service providers and others in the industry. FORWARD-LOOKING STATEMENTS

This Prospectus contains certain “forward-looking statements”. All statements in this Prospectus that are not statements of historical fact are ‘forward-looking statements’.

These forward-looking statements generally can be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “likely to”, “objective”, “plan”, “propose”, “project”, “seek”, “will”, “will continue”, “will pursue” or other words or phrases of similar import. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements are subject to risks, uncertainties, expectations and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

Actual results may differ materially from those suggested by forward-looking statements due to risks or uncertainties associated with expectations relating to and including, regulatory changes pertaining to the industry in India in which we operate and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on its business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes and changes in competition in the industry in which we operate.

Certain important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

- If we fail to identify and effectively respond to changing consumer preferences and spending patterns or changing beauty and personal care trends in a timely manner, the demand for our products could decrease, causing our business, results of operations, financial condition and cash flows to be adversely affected.
- Our brands and reputation are critical to the success of our business and may be adversely affected due to various reasons, which could have an adverse effect on our business, financial condition, cash flows and results of operations.
- The launch of new brands or products that prove to be unsuccessful could affect our growth plans which could adversely affect our business, financial condition, cash flows and results of operations.
- We have issued Equity Shares during the preceding one year at a price that may be below the Offer Price and grants of stock options under our ESOP 2018 and ESOP 2021 may result in a charge to our profit and loss account and, to that extent, reduce our profitability and adversely affect our financial condition.
- Our dependence on third party manufacturers for all our products subjects us to risks, which, if realized, could adversely affect our business, results of operations, cash flows and financial condition.
- We derive a significant amount of revenue from a limited number of products. Any decrease in the sales of our key products will adversely affect our business, cash flows, financial condition and results of operations.
- We have recorded losses in the past. Any losses in the future may adversely impact our business and the value of the Equity Shares.
- The substantial majority of our revenue from operations comes from the sale of products under our flagship Mamaearth brand. Any decrease in demand for our Mamaearth branded products could have an adverse effect on our business, cash flows and results of operations.

For discussion regarding factors that could cause actual results to differ from expectations, see “*Risk Factors*”, “*Industry Overview*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 36, 135, 154, and 319, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

There can be no assurance to Bidders that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, Bidders are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Forward-looking statements reflect our current views as of the date of this Prospectus and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Neither our Company, our Directors, KMPs, SMPs, the Selling Shareholders, the Syndicate nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

In accordance with the requirements of SEBI, our Company was required to ensure that investors were informed of material developments from the date of the Red Herring Prospectus in relation to the statements and undertakings made by the Company and each of the Selling Shareholders, severally and not jointly, in relation to themselves as a Selling Shareholder and their respective portion of the Offered Shares pursuant to the Red Herring Prospectus until the time of the grant of listing and trading permission by the Stock Exchanges for this Offer. In this regard, each of the Selling Shareholders shall, severally and not jointly, ensure that the Company and BRLMs are informed of material developments in relation to the statements and undertakings specifically confirmed or undertaken by such Selling Shareholder in relation to itself as a Selling Shareholder and their respective portion of the Offered Shares pursuant to the Red Herring Prospectus until the time of the grant of listing and trading permission by the Stock Exchanges for this Offer. Only statements and undertakings which are specifically confirmed or undertaken by each Selling Shareholder in relation to itself as a Selling Shareholder and its portion of the Offered Shares, as the case may be, in the Red Herring Prospectus and this Prospectus shall be deemed to be statements and undertakings made by such Selling Shareholder.

SUMMARY OF THE OFFER DOCUMENT

The following is a general summary of the terms of the Offer and is not exhaustive, nor does it purport to contain a summary of all the disclosures in this Prospectus or all details relevant for prospective investors. Notes:

The ratios have been computed as under:

1. Net worth is the aggregate value of the paid-up share capital, instruments entirely in the nature of equity and all reserves created out of the profits, securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation.
2. Basic EPS amounts are calculated by dividing the profit/ (loss) for the period/years attributable to equity holders of our Company by the weighted average number of Equity shares outstanding during the period/years.
3. Diluted EPS are calculated by dividing the profit/(loss) for the period/years attributable to the equity holders of our Company by weighted average number of Equity shares outstanding during the period/years plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.
4. Net Asset Value per share represents net worth at the end of the year/period divided by the weighted average number of shares outstanding during the period/year post-conversion of NCCCPS and the proposed issuance of equity shares against the outstanding options under ESOP schemes.
5. Total Borrowings includes the non-current borrowings and current borrowings of our Company.
6. Our Company has split Rs.100 face value equity share to ₹10 each and ₹90 each on April 28, 2022. Our Company has issued bonus shares to the shareholders at same conversion ratio of 12,899: 1, considering they rank pari passu to the ₹10 face value equity shares. Exemption from complying with any provisions of SEBI ICDR Regulations, if any, granted by SEBI

Our Company has not made any application under Regulation 300(2) of the SEBI ICDR Regulations for seeking exemption from strict compliance with any provisions of securities laws, as on the date of this Prospectus.

SECTION II: RISK FACTORS

An investment in Equity Shares involves a high degree of risk. Prospective investors should carefully consider all the information in this Prospectus, including the risks and uncertainties described below before making an investment in the Equity Shares.

We have described the risks and uncertainties that we believe are material, but these risks and uncertainties may not be the only risks relevant to us, the Equity Shares, or the industry in which we currently operate or propose to operate. Unless specified or quantified in the relevant risk factor below, we are not in a position to quantify the financial or other implication of any of the risks mentioned in this section. If any or a combination of the following risks actually occur, or if any of the risks that are currently not known or deemed to be not relevant or material now actually occur or become material in the future, our business, cash flows, prospects, financial condition and results of operations could suffer, the trading price of the Equity Shares could decline, and you may lose all or part of your investment.

To obtain a more detailed understanding of our business and operations, see this section in conjunction with the sections titled “Industry Overview”, “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 135, 154 and 319, respectively, as well as other financial and statistical information contained in this Prospectus. Unless otherwise indicated or unless the context requires otherwise, our financial information used in this section are derived from our Restated Ind AS Summary Statements. In making an investment decision, prospective investors must rely on their own examination of our business and the terms of the Issue, including the merits and risks involved. Prospective investors should consult their tax, financial and legal advisors about the particular consequences to them of an investment in our Equity Shares.

This Prospectus also contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including but not limited to the considerations described below. For details, see “Forward-Looking Statements” beginning on page 24.

Unless otherwise indicated, the industry-related information contained in this section is derived from the industry report titled “Report on Beauty and Personal Care Market in India” dated October 7, 2023 prepared by RedSeer Management Consulting Private Limited (“RedSeer” and such report, the “RedSeer Report”). We have commissioned and paid for the RedSeer Report for the purposes of confirming our understanding of the industry exclusively in connection with the Offer. We officially engaged RedSeer in connection with the preparation of the RedSeer Report pursuant to the engagement letters dated July 7, 2022, August 11, 2023 and August 29, 2023. A copy of the RedSeer Report shall be available on the website of our Company from the date of this Prospectus until the Bid/Offer Closing Date. The data included in this section includes excerpts from the RedSeer Report and may have been re-ordered by us for the purposes of presentation.

Unless otherwise indicated or the context otherwise requires, in this section, references to “we”, “us” and “our” are to Honasa Consumer Limited together with its subsidiaries on a consolidated basis.

INTERNAL RISK FACTORS

- 1. Failure to identify and effectively respond to changing consumer preferences and spending patterns or changing beauty and personal care trends in a timely manner, may adversely affect the demand for our products, causing our business, results of operations, financial condition and cash flows.***

The beauty and personal care (“BPC”) products market is characterized by frequent changes, particularly in consumer preferences, new products and product variations. The popularity and demand of BPC products may vary over time due to changing consumer preferences, including those relating to sustainability and ‘clean’ beauty factors such as recycling plastic, methods of production, ingredients and testing and support for cruelty-free and eco-friendly products. Consumer preferences in the BPC market are difficult to predict and changes in those preferences or the introduction of new products by our competitors could put our products at a competitive disadvantage. Our continued success depends on our ability to anticipate, gauge and react in a timely and cost-effective manner to changes in consumer preferences for our products, as well as to where and how consumers shop for those products.

We continually work to enhance the recognition of our brands and products and refine our approach as to how, when and where we market and sell our products using data and technology. While we aim to introduce new brands and products from time to time, we recognize that consumer preferences cannot be predicted with certainty and can change rapidly, and that there is no certainty that these will be commercially viable or effective or accepted by our consumers. For further details, see “— The launch of new brands or products that prove to be unsuccessful could affect our growth plans which could adversely affect our business, financial condition, cash flows and results of operations.” on page 37. If we are unable to foresee or respond effectively to the changes in market conditions, new and changing trends or desired consumer preferences, accurately anticipate and forecast demand for products, then there may be a decline in the demand and sales for our products, thereby reducing our market share and preventing us from acquiring new customers and retaining existing customers, which could have an adverse effect on our business, results of operations, financial condition and cash flows.

2. Our brands and reputation are critical to the success of our business and may be adversely affected due to various reasons, which could have an adverse effect on our business, financial condition, cash flows and results of operations.

Our brands and reputation are among our most important assets, as they attract consumers to our products over those of our competitors. The recognition and reputation of our flagship brand, Mamaearth, and our other brands such as The Derma Co., Aqualogica, Ayuga, BBlunt and Dr. Sheth's, amongst our consumers, distributors and our workforce has contributed to the growth and success of our business.

Our brand reputation may be adversely affected in many ways. For example, any failure by our contract manufacturers to comply with their contractual obligations, including maintenance of requisite licenses and approvals (including product related approvals which are required to be obtained and maintained by the contract manufacturers and not by us), our quality control and assurance standards; retail of counterfeit products in the market; and unsatisfactory customer service could adversely impact our brand reputation and subject us to additional risks and scrutiny. In addition, any damage in reputation of our contract manufacturers, distributors or suppliers may in turn damage our reputation, as they may unilaterally brand and claim themselves to be distributors authorized by us in their advertising material. Further, any public perception that our consumer data is breached and illegally shared as a result of cybercrime could damage our reputation.

Other factors that could affect our brand image include adverse media coverage. Adverse publicity regarding, among others, our brand ambassadors, social media partners and unsuccessful product introductions may also erode our brand image. Further, social media influencers and celebrities who we may or may not be directly associated with can shape public perception about us and our brands/products, or they themselves may face adverse impacts to their personal reputation and public standing for any number of reasons, all of which could hurt our brands and reputation. For instance, certain influencers have publicized their negative reviews of our products in the past. Further, an employee's personal posts, unapproved posts or posts that are not in line with our policy may be perceived as an official statement, which may adversely impact our reputation. If we are unable to maintain our reputation, enhance our brand recognition or increase positive awareness of our mobile application, websites and products, it may be difficult to maintain and grow our consumer base, and our business, financial condition, cash flows and results of operations may be adversely affected.

In addition, owing to allegations of product defects or lack of consumer interest in certain products, we may be required from time to time to recall products entirely or from specific markets, which may have an adverse effect on our reputation, business, financial condition, cash flows and results of operations and may also lead to a loss of confidence of consumers in our products. For further details, see “— Product liability claims and product recalls could harm our reputation, business, financial condition, cash flows and results of operations.” on page 45.

3. The launch of new brands or products that prove to be unsuccessful could affect our growth plans which could adversely affect our business, financial condition, cash flows and results of operations.

New brand and product introductions from time to time is a key element of our growth strategy. Details relating to our new SKUs introduced (across all our brands) and new products launched (across all our brands) during the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, is set forth in the table below:

	For the three months period ended June 30, 2023	For the three months period ended June 30, 2022	For the year ended March 31, 2023	For the year ended March 31, 2022	For the year ended March 31, 2021
New SKUs (across all our brands) introduced in the BPC market in India	109	137	301	159	126
Contribution of new SKUs (across all our brands) introduced in the BPC market in India to our revenue from operations (₹ in millions)	399.46	337.53	2,793.68	1,989.61	1,391.94
Contribution of new SKUs (across all our brands) to absolute increase in revenue from operations during the period, as compared to the preceding corresponding period (%)	25.46%	N/A	56.58%	42.17%	N/A
New products (across all our brands) launched in the BPC market in India	89	121	252	122	91

In recent years, we have expanded our brand and product categories, by introducing new brands such as The Derma Co., Aqualogica and Ayuga and by acquiring brands such as BBlunt and Dr. Sheth's. New brands and product categories require us to understand and make informed judgments as to consumer demands, trends and preferences. Various elements of new brand and product initiatives entail significant costs and risks, as well as the possibility of unexpected consequences, including:

- acceptance of our new brand/product initiatives by our consumers may not be as high as we anticipate;
- sale of new products or brands may not sustain initial levels of high sales volumes;
- our marketing strategies for new brands/products may be less effective than planned and may fail to effectively reach the targeted consumer base or result in the expected level of sales;
- we may incur costs exceeding our expectations;
- we may experience a decrease in sales of our existing products as a result of the introduction of related new products;
- we may need to introduce trade promotions and increase marketing expenditure to obtain traction with consumers and improve brand awareness; and
- any delays or other difficulties impacting our ability, or the ability of our third party manufacturers and suppliers, to manufacture, distribute and ship products in a timely manner in connection with launching the new product initiatives.

We expend considerable time and financial resources in the development and launch of new brands and products. Each of the above risks could delay or impede our ability to achieve our growth objectives, which could adversely affect our business, financial condition, cash flows and results of operations. While there has not been a significant impact of the launch of new products on the sales of our existing product in the past, we cannot assure you that our launch of new products in the future will not have an impact on the sales of our existing products. Further, while there has been no material difficulty in manufacturing, distribution, and marketing of new products launched in the past, we cannot assure you that we will not face any difficulty in manufacturing, distribution and marketing of new products in the future

4. ***Our Company has issued Equity Shares during the preceding one year at a price that may be below the Offer Price, and has granted and will continue to grant stock options under our ESOP 2018 and ESOP 2021, which may result in a charge to our profit and loss account and, to that extent, reduce our profitability and adversely affect our financial condition. Further, pursuant to the last preferential allotment on September 13, 2022, our Company issued Equity Shares at an issue price of ₹262.40 per Equity Share.***

Our Company has, in the preceding one year prior to the date of this Prospectus, issued Equity Shares pursuant to exercise of vested stock options under the ESOP Schemes, as applicable, as well as pursuant to conversion of outstanding NCCCPS of our Company. Additionally, our Company, pursuant to the last preferential allotment on September 13, 2022 issued Equity Shares at an issue price of ₹262.40 per Equity Share. The price at which such Equity Shares were issued is not indicative of the Offer Price, or the price at which the Equity Shares will be traded going forward. Additionally, our Offer Price may be higher than the acquisition price of our Shareholders. Further, WACA of Equity Shares that were issued by our Company (primary transactions) during the 18 months preceding the date of this Prospectus, where such issuance is equal to or more than 5% of the fully diluted paid-up share capital of the Company is ₹37.70 per Equity Share, and WACA of Equity Shares that were acquired or sold by way of secondary transactions where Promoters, members of the Promoter Group, Selling Shareholders or Shareholder(s) having the right to nominate Director(s) on our Board, are a party to the transaction, not older than three years prior to the date of this Prospectus is ₹227.30 per Equity Share. The weighted average cost of acquisition of all shares transacted in the last three years, 18 months and one year is ₹33.42 per Equity Share, ₹ 28.44 per Equity Share and ₹50.92 per Equity Share, respectively.

Further, our Company may, in the future, continue to issue Equity Shares, including pursuant to exercise of vested stock options or through grant of stock options under our ESOP 2018 and ESOP 2021, at prices that may be lower than the Offer Price, subject to compliance with applicable law. Grant of stock options result in a charge to our statement or profit and loss and reduce, to that extent, our reported profits in future periods. Any issuances of Equity Shares by our Company, including through exercise of vested stock options or grant of stock options under ESOP 2018 and ESOP 2021, may dilute your shareholding in our Company, thereby adversely affecting the trading price of the Equity Shares and our ability to raise capital through any issuance of new securities. For further details, see “*Capital Structure — Notes to the Capital Structure — Share capital history of our Company*” and “*Capital Structure— Employee Stock Options Schemes of our Company*” on page 87 and 101, respectively.

5. ***We do not manufacture any of our products and rely entirely on third-party manufacturers for the manufacturing of all our products. In the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, the top three manufacturers for each year/period contributed to 81.95%, 70.97%, 51.73%, 61.02% and 46.01% of the total value of our purchase of traded goods, respectively. Our dependence on third-party manufacturers for the manufacturing of all our products subjects us to risks, which, if realized, could adversely affect our business, results of operations, cash flows and financial condition.***

We outsource the manufacturing of all our products to third-party manufacturers, primarily under non-exclusive contract manufacturing arrangements, and do not own any manufacturing facilities. During the three months period ended June 30,

2023, we sourced our products from 37 contract manufacturers. Of such manufacturers, the average value of purchase of traded goods from our top three manufacturers for each year/period were ₹439.19 million, ₹720.40 million, ₹832.96 million, ₹244.79 million and ₹232.75 million, respectively, and the top three manufacturers for each year/period collectively contributed to 81.95%, 70.97%, 51.73%, 61.02% and 46.01% of the total value of our purchase of traded goods for Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, respectively.

The details of our top three manufacturers for the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023 are set forth below:

Contract Manufacturer*	Location	Tenure agreements	Expiry of agreements	Contribution to total value of purchase of traded goods (%)
Party I	New Delhi	5 Years	November 24, 2025	Financial Year 2021: 34.99%
Party II	Himachal Pradesh	5 Years	October 28, 2025	Financial Year 2021: 16.42% Financial Year 2022: 16.10% Financial Year 2023: 12.29% Three months period ended June 30, 2022: 15.78% Three months period ended June 30, 2023: 11.39%

Party IV	New Delhi	5 Years	January 24, 2026	Financial Year 2022: 22.04% Financial Year 2023: 25.65% Three months period ended June 30, 2022: 27.60% Three months period ended June 30, 2023: 16.00%

*The names of the contract manufacturers cannot be disclosed due to confidentiality reasons.

The details of our cost of goods sold as a percentage of our revenue from operations for the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023 are set forth below:

Particulars	Three months ended June 30, 2023	Three months ended June 30, 2022	Financial Year 2023	Financial Year 2022	Financial Year 2021
Revenue from Operations (A) (₹ million)	4,644.87	3,122.45	14,927.48	9,434.65	4,599.90
Purchases of traded goods (I) (₹ million)	1,618.94	1,225.22	5,024.23	3,047.68	1,607.77
Increase in inventories of traded goods (II) (₹ million)	(273.26)	(368.66)	(556.90)	(213.29)	(280.71)
Cost of goods sold (₹ million) (B = I + II)	1,345.68	856.56	4,467.33	2,834.39	1,327.06
Cost of goods sold as a percentage of our revenue from operations (B/A) (%)	28.97%	27.43%	29.93%	30.04%	28.85%

Our reliance on third-party manufacturers subjects us to various risks, including:

- dependence on relationships with third party manufacturers, particularly for continuity of supply of products to us;

- changes in cost of acquisition of our products from such manufacturers which would directly affect our profit margins and selling prices of our products;
- potential liability for incidents, including injuries to our contract manufacturers' employees, at manufacturing sites that we do not control;
- despite quality control exercised by our executives stationed at respective contract manufacturer facilities, there is dependence on quality control systems and processes of such manufacturers. In the past, we have rejected products manufactured by certain third party manufacturers as those products did not meet our quality standards;
- reliance on agreements with such manufacturers and the periodic expiry (typically five years) of such agreements. We may be unable to replace our existing contract manufacturers at short notice, or at all, and may face delays in production and added costs as a result of the time required for new contract manufacturers to undertake manufacturing in accordance with our standard processes and quality control standards;
- dependence on third party manufacturing facilities, which are subject to customary operational risks, such as the breakdown or failure of equipment, power supply or processes, performance below expected levels of output or efficiency, unavailability of consumables and spare parts, labor disputes, natural or man-made disasters, accidents, planned or unplanned shutdowns, and compliance with relevant government regulations;
- protection of our trade secrets and intellectual property rights;
- failure to comply with various product-related regulations and laws in India and globally, including those related to the product registration, product ingredients, health and safety, imports, customs clearance, manufacturing standards, labelling declaration standards, environmental and waste management including plastic generation and management, public disclosure, product testing and storage;
- compliance with the evolving regulatory and policy environment in which we operate;
- adverse changes in the financial or business condition of our contract manufacturers; and
- misappropriation of our intellectual property and delays in delivery and shipment;

We have in the past experienced certain instances of disruption of supplies from our third-party manufacturers. Between July 2020 and September 2020, we faced a disruption of supply of shampoo and conditioner products from our third-party manufacturers because of certain supply chain disruptions caused by the COVID-19 pandemic, along with a sudden increase in demand for our shampoo and conditioner products. Further, from May 2022 to July 2022, we also faced a disruption of supply of face wash and sunscreen products from our third-party manufacturers because of a supply constraint of oval tubes, a necessary component to manufacture our face wash and sunscreen products, on our third-party manufacturer's end, and a sudden increase in demand for our face wash and sunscreen products. While these past instances of disruption of supplies from our third-party manufacturers were not material and are not currently subsisting, we cannot assure you that we will not face any material disruption of supplies from our third-party manufacturers in the future, which could adversely affect our business, results of operations, cash flows and financial condition.

Further, we have in the past faced instances of third parties misusing our intellectual properties. For example, our Company filed two petitions dated May 19, 2022, and November 9, 2021, for cancellation of the registered mark "Mamaveda" obtained by Prashant Manchanda and "Mamaearth" obtained by Malika Sadani before the High Court of Delhi and the High Court of Bombay respectively. For details relating to other instances of third parties misusing our intellectual properties, see "*Outstanding Litigation and Material Developments – Litigation involving our Company*" on page 356.

Further, we have in the past rejected manufactured products from our third-party manufacturers due to certain quality issues. These quality issues include issues relating to, among others, finished goods packaging, coding, and leakage. While these quality issues were all rectified by our third-party manufacturers within a short period of time, we cannot assure you that any such quality issues in the future will be rectified within a short period of time, or at all, which could adversely affect our business, results of operations, cash flows and financial condition.

Our dependence on third party manufacturers could adversely affect our business, results of operations, cash flows and financial condition, as a result of occurrence of factors mentioned above or violation of terms of engagement by such manufacturers.

Our contract manufacturers do not manufacture products exclusively for us and accordingly, some of them may choose to manufacture products for other parties, including our competitors, at any time, which may lead to conflicts of interest that exacerbate the risks mentioned above. In addition, they may manufacture products identical to ours by making use of the

formulations supplied by us, and we may not be able to prevent the same, in the absence of adequate intellectual property protections, which in turn may adversely affect our business, results of operations, financial condition and cash flows.

6. ***We derive a significant amount of revenue from a limited number of products. In Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023 we derived 30.38%, 30.17%, 27.38%, 29.20% and 29.10% of our revenue from operations, respectively, from the sales of our top 10 products. Any decrease in the sales of our key products will adversely affect our business, cash flows, financial condition and results of operations.***

As of the date of this Prospectus, we have a portfolio of six brands in the BPC segment. In Financial Years 2021, 2022, and 2023, and the three months period ended June 30, 2022 and June 30, 2023, we derived ₹1,397.26 million, ₹2,846.38 million, ₹4,086.87 million, ₹911.90 million and ₹1,351.75 million, or 30.38%, 30.17%, 27.38%, 29.20% and 29.10% of our revenue from operations, respectively, from the sales of our top 10 products. For the three months period ended June 30, 2023, these top 10 products were under our Mamaearth brand, The Derma Co., Dr Sheth's and Aqualogica brands in the face care and hair care categories. Further, we derived ₹663.24 million, ₹1,204.69 million, ₹1,725.58 million, ₹382.22 million and ₹455.35 million, or 14.42%, 12.77%, 11.56%, 12.24% and 9.80%, of our revenue from operations for Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, respectively, from the sales of our top two products, which were under our Mamaearth brand. While our dependence on sales of our top 10 products has been declining with increasing contributions from our other products, any decrease in the sales of our top 10 products, whether due to increase in sale of products or market share of competitors with similar products or any other reason, will adversely affect our business, results of operations, financial condition and cash flows.

7. ***We have recorded losses in the past. Any losses in the future may adversely impact our business and the value of the Equity Shares.***

We have recorded losses in the past for Financial Years 2021 and 2023, and the three months period ended June 30, 2022, wherein our restated loss was ₹13,322.15 million, ₹1,509.66 million, and ₹115.26 million, respectively.

Our restated profit/(loss) for Financial Year 2021 was significantly impacted by the change in fair valuation of NCCCPS being borrowings in nature. The NCCCPS holders of the Company, in terms of the shareholders agreement, had exit rights including requiring the Company to buy back shares held by them. Accordingly, on transition to Ind AS, since the redemption feature is conditional upon an event not under the control of the issuer, and may require entity to deliver cash, which issuer cannot avoid, NCCCPS are classified as liability at fair value of ₹19,539.99 million as at March 31, 2021 and the change in fair value of liability of ₹13,612.43 million has been recognized as an expense in the Restated Ind AS Summary Statement of Profit and Loss for the year ended March 31, 2021. The significant increase in fair value of the NCCCPS during the Financial Year 2021 is attributable to the increase in fair value per share of our business as on March 31, 2021, as calculated by independent registered merchant banker and valuer, primarily due to (i) an increase in scale of our business operations, (ii) the establishment of our omnichannel distribution network across online and offline channels, and (iii) an increase in profitability of our business. Further, subsequently on April 1, 2021, the Company and the NCCCPS holders have agreed to waive the buy-back rights granted to the NCCCPS holders under the shareholders agreement. Hence, the NCCCPS was no longer classified as a debt instrument with effect from April 1, 2021 and instead was classified as instruments entirely in the nature of equity. Thus, the fair value of NCCCPS liability amounting to ₹19,539.99 million has been classified from borrowings to instruments entirely in the nature of equity to the extent of ₹17,929.34 million and ₹1,610.65 million representing securities premium on the NCCCPS has been reclassified to other equity. For details relating to reasons for the increase in fair value of the NCCCPS during the Financial Years 2021 and the impact of the accounting treatment of the NCCCPS, see Note 1 to the table under “*Management's Discussion and Analysis of Financial Condition and Results of Operations – Results of Operations*”.

Further, our restated profit/(loss) for Financial Year 2023 was significantly impacted by the impairment loss on goodwill and other intangible assets of ₹1,546.97 million in Financial Year 2023. This was primarily due to the management decision to scale down the majority of the business verticals of Momspresso, a content platform operating under our Subsidiary, Just4Kids Services Private Limited, and acquired by us in December 2021. This resulted in an impairment loss on goodwill of ₹1,360.63 million, impairment loss on software of ₹19.14 million and impairment loss on trademarks of ₹167.20 million, in Financial Year 2023. For details, see “*Management's Discussion and Analysis of Financial Condition and Results of Operations — Our Results of Operations - Financial Year 2023 compared to Financial Year 2022*” on page 345

Our ability to operate profitably depends upon a number of factors, some of which are beyond our control. For further information, see “*Management's Discussion and Analysis of Financial Condition and Results of Operations — Our Results of Operations*” on page 343. Any losses in the future may adversely affect our business and the value of our Equity Shares.

8. *The Auditor's report on internal financial controls issued on our standalone financial statements for the Financial Year 2020 contains a disclaimer of opinion relating to the Auditors' inability to obtain appropriate audit evidence to provide a basis for opinion on adequate internal financial controls.*

The Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (“**Guidance Note on IFC**”) issued by the Institute of Chartered Accountants of India (“**ICAI**”) contains certain requirements relating to internal financial controls over financial reporting. Our Company was initially exempt from compliance with the Guidance Note on IFC, as our Company was then a private limited company with less than ₹500 million in annual turnover. There were delays of 38 days and 68 days in the filing of our annual returns for the Financial Year 2018 under sections 92 and 137 of the Companies Act, 2013, respectively. As such, our exemption from the Guidance Note on IFC ceased, and our Company was subject to the requirements of the Guidance Note on IFC. As such, our Company required additional resources and needed to implement frameworks to comply with the documentation requirements of the Guidance Note on IFC. Accordingly, the Auditor's Report on internal financial controls issued on our standalone financial statements for the Financial Year 2020 contained a disclaimer of opinion that:

According to the information and explanations we gave to the Auditor, we have certain internal financial controls over financial reporting. However, such internal financial controls over financial reporting with reference to our financial statements were not established, considering the essential components of internal control stated in the Guidance Note on IFC. As a result, the Auditor was unable to obtain sufficient appropriate audit evidence to provide a basis for the Auditor's opinion on whether we had adequate internal financial controls over financial reporting with reference to our financial statements and whether such internal financial controls were operating effectively. Accordingly, the Auditor did not express an opinion on internal financial controls over financial reporting with reference to our financial statements.

Subsequently, our Company filed for compounding of the matter of delays in filing annual returns and approached the Regional Director (Northern Region, Delhi) of the Ministry of Corporate Affairs of India, and the matter was compounded in September 2020 upon payment of the requisite compounding fees aggregating to ₹0.32 million on behalf of our Company and our Promoters. We cannot assure you that we will be able to exercise adequate internal controls over financial reporting, including in line with requirements of the ICAI, or in a manner that will not lead to a modification in the report.

9. *The substantial majority of our revenue from operations comes from the sale of products under our flagship Mamaearth brand. Any decrease in demand for our Mamaearth branded products could have an adverse effect on our business, cash flows and results of operations.*

For the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, our revenue from operations from our Mamaearth brand amounted to ₹4,418.83 million, ₹8,670.58 million, ₹11,680.18 million, ₹2,567.79 million and ₹3,036.34 million, respectively, representing 96.06%, 93.04%, 81.94%, 87.09% and 67.06% and of our total revenue from operations (excluding revenue from sale of services), respectively. For the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, our revenue from operations from our other five brands in the BPC segment amounted to ₹181.07 million, ₹648.16 million, ₹2,574.93 million, ₹382.06 million and ₹1,491.60 million, respectively, representing 3.94%, 6.96%, 18.06% and 12.91% and 32.94% of our total revenue from operations (excluding revenue from sale of services), respectively. As our other five brands in the BPC segment are currently less established than our Mamaearth brand, and contribute to only a minority of our total revenue from operations, any decrease in demand for our Mamaearth branded products could have an adverse effect on our business, cash flows and results of operations. Further, while our revenue from operations from our other five brands in the BPC segment have increased during the past years/period, we cannot assure you that this trend will continue in the future. If we are unable to further establish and grow our other five brands in the BPC segment, we may become increasingly reliant on our Mamaearth brand and our business, cash flows and results of operations may become even more susceptible to fluctuations in demand for our Mamaearth branded products.

10. *We have in the past incurred significant advertisement expenses which has contributed to the growth in our revenue from operations in the past. For the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, our advertisement expense as a percentage of revenue from operations was 38.68%, 41.49%, 35.52%, 41.33% and 34.99%, respectively. If we reduce our advertisement expenses in the future, there is no assurance that we will be able to maintain similar growth in revenue from operations in the future as compared to previous years/periods.*

We have in the past incurred significant advertisement expenses. For the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, our advertisement expense amounted to ₹1,779.38 million, ₹3,914.74 million, ₹5,302.78 million, ₹1,290.49 million and ₹1,625.12 million, respectively, and our advertisement expense as a percentage of revenue from operations was 38.68%, 41.49%, 35.52%, 41.33% and 34.99%, respectively. Our advertisement expense amounted to ₹1,779.38 million, ₹3,914.74 million, ₹5,302.78 million for the Financial Years 2021, 2022 and 2023, respectively, and our increase in advertisement expense for Financial Year 2022 as compared to Financial Year 2021 was 120.01% and increase in advertisement expense for Financial Year 2023 as compared to Financial Year 2022 was 35.46%. Our revenue from operations amounted to ₹4,599.90 million, ₹9,434.65 million and ₹14,927.48 million for the Financial Years 2021, 2022 and 2023, respectively, and our increase in revenue from operations for Financial year

2022 as compared to Financial year 2021 was 105.11% and increase in revenue from operations for Financial year 2023 as compared to Financial year 2022 was 58.22%.

While our revenue from operations have increased from ₹4,599.90 million for Financial Year 2021 to ₹9,434.65 million, ₹14,927.48 million in Financial Years 2022 and 2023, respectively, we may not be able to maintain similar growth in revenue from operations in the future if we reduce our advertisement expenses in the future, as our advertisement related promotion activities have been instrumental to promote and improve the visibility of our brands

11. *Our historical performance is not indicative of our future growth or financial results and we may not be able to sustain our historical growth rates.*

Our business has experienced significant growth in prior periods. Our revenue from operations has increased from ₹4,599.90 million for Financial Year 2021 to ₹9,434.65 million, ₹14,927.48 million, ₹3,122.45 million and ₹4,644.87 million in Financial Years 2022 and 2023, the three months periods ended June 30, 2022 and June 30, 2023, respectively. We cannot assure you that we will be able to sustain the levels of revenue growth that we have had in the past. As a relatively new player in the BPC market, we have a limited operating history and there is no assurance that we will be able to maintain our past rate of growth and succeed in realizing our growth strategy. Further, a number of our strategic initiatives are in initial stages. While we may experience initial success with such initiatives, there is no assurance that these will succeed in the long term.

12. *Reliance on celebrities and social media influencers as part of our marketing strategy may adversely affect our business and demand for our services.*

Our marketing strategies include engaging influencers, entering into celebrity endorsement agreements and maintaining a presence on social media platforms on whom we rely upon for our marketing and endorsement. For the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, the promotional costs incurred on a standalone basis in connection with our engagement of celebrities and social media influencers were ₹227.49 million, ₹399.36 million, ₹671.40 million, ₹156.17 million and ₹193.81 million, respectively, representing 4.95%, 4.29%, 4.81%, 5.33% and 4.55% of our revenue from operations on a standalone basis, respectively, for the same periods. For further details, see “*Our Business — Description of our Business — Marketing and Advertising*” on page 174.

The risks of engaging with influencers and celebrities include:

- any deterioration in our relationship with our celebrities and influencer network or damage to the reputation of such influencers or celebrities; our relationships with influencers may not always include contractual commitments to continue to be supportive of our brands or products, and there can be no assurance that they will continue to do so; for example, changes in beauty and fashion trends, consumer sentiment or public perceptions of brands could adversely impact our relationships with influencers;
- any negative publicity created by current influencers or celebrities, or influencers or celebrities whom we formerly engaged or who is no longer supportive of our brands;
- if we were held responsible for the content of posts by influencers or their actions, and such posts were found to be illegal or inappropriate, we could be fined or forced to alter our practices, even when we may not always prescribe what our influencers post or act or promote;
- influencers may use their platforms to communicate directly with our consumers without our knowledge in a manner that reflects poorly on our brands and may be attributed to us; and
- any drop in celebrities’ or influencers’ satisfaction to endorse our products, brand, our platform, or consumer experience.

As social media platforms continue to rapidly evolve and new platforms continue to develop, we must continue to maintain a strong presence on these platforms and stay relevant on new or emerging trends on popular social media platforms. From time to time, our Promoters are tagged on social media posts raising complaints about our brands and products. Our target consumers often believe readily available information and any negative commentary could drive large-scale social media campaigns and posts against us, our products or brands, whether motivated or otherwise, and result in consumer boycotts, without further investigation and without regard to accuracy of facts. It is not possible for us to prevent or moderate such behavior, and the precautions we take to detect or restrict this activity may not be effective in all cases. The harm may be immediate and may be long-lasting, without affording us an opportunity for redress or correction. Impersonated or fake e-commerce platforms or websites, and fake social media pages and accounts, fake consumer service calls impersonating themselves as associated with our brand or business or selling our brand of products may lead to fraud and dissatisfied consumers.

Furthermore, as laws, regulations, policies governing digital platforms and public opinion rapidly evolve to govern the use of these platforms, the failure by us, our employees, our network of influencers or any third parties acting at our direction

to abide by applicable laws, regulations, policies and guidelines (such as certain guidelines prescribed under the Advertising Standards Council of India (“ASCI”) Code of Self-Regulation (the “ASCI Guidelines”)) in the use of these platforms or in the process of content creation for us or otherwise could subject us to regulatory investigations, liability, fines or other penalties and have an adverse effect on our business, financial condition, cash flows and results of operations. In addition, an increase in the use of social media for product promotion and marketing may cause an increase in the burden on us to monitor compliance of such materials and content. Also, it increases the risk that such materials could contain product restricted by local regulations, or otherwise, or marketing claims in violation of applicable regulations.

Also, the costs to enter into relationships with influencers and celebrities or engage in sponsorship initiatives may also increase over time, which may also negatively impact our margins, cash flows and results of operations. Also if we are unable to cost-effectively use social media platforms as marketing tools or if the platforms we use change their policies or algorithms, we may not be able to fully optimize such platforms, and our ability to maintain and acquire consumers and our financial condition might get impacted.

- 13. We rely on our relationships with certain marketplaces and web traffic drivers for sales through our online channel. Any failure by us to maintain such relationships may adversely affect our business, results of operations, financial condition and cash flows. For the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, our revenue from online channels constituted 81.37%, 69.91%, 59.36%, 62.86% and 64.01% of our revenue from operations (including sale of services) for the same year/period, respectively.**

As part of our online sales channels, we sell products through both our direct-to-consumer channel, which includes our brand websites, mobile websites and mobile applications, and our third party e-commerce marketplaces. For Financial Years 2021, 2022, and 2023 and the three months period ended June 30, 2022 and June 30, 2023, our revenue from online channels across all our brands amounted to ₹3,742.93 million, ₹6,595.34 million, ₹8,861.04 million, ₹1,962.65 million and ₹2,973.18 million, respectively, representing 81.37%, 69.91%, 59.36%, 62.86% and 64.01% of our revenue from operations (including sale of services), respectively. The table below sets forth a breakdown of our revenue from online channels for the periods indicated in terms of revenues derived from our direct-to-consumer channel and from third party e-commerce marketplaces:

	For the three months period ended June 30, 2023		For the three months period ended June 30, 2022		For the year ended March 31, 2023		For the year ended March 31, 2022		For the year ended March 31, 2021	
	(₹ millions)	in (%)	(₹ millions)	in (%)	(₹ millions)	in (%)	(₹ millions)	in (%)	(₹ millions)	in (%)

*Includes our brand websites, mobile websites and mobile applications

The table below sets forth our overall sales commission and fulfilment costs as a percentage of our revenue generated from our online sales on major platforms:

Methods of payment	Three months period ended June 30, 2023	Three months period ended June 30, 2022	Financial Year 2023	Financial Year 2022	Financial Year 2021
Overall sales commission* and fulfilment costs^ as a percentage of our revenue generated from online sales on major platforms (%)	27.25%	27.42%	34.00%	28.61%	27.08%

*Sales commission refers to the sales commission as agreed with the individual platforms.

^Fulfilment cost refers to the cost charged by the marketplace such as logistics, product packaging, product picking and warehousing.

We have longstanding relationships with several e-commerce marketplaces for the sale of our products and have an established presence across leading e-commerce marketplaces. We operate an inventory-based selling model for all sales made on the online and offline sales platforms of one of our e-commerce marketplaces. We cannot assure you that we will be able to secure any promotions from these e-commerce marketplaces, and our inability to do so may affect our brand visibility and sales.

Further, purchase orders made by online marketplaces may generally also be amended or cancelled at any time prior to finalization. Online marketplaces could also change their business practices or seek to modify their contractual terms, such as payment terms or increase their focus on selling private label products that compete with our products. Further, such entities may also increase the cost of their services, due to inflationary pressures or other reasons, which may adversely impact our expenses and profitability.

14. We have experienced negative cash flows from operating, investing and financing activities in the past.

We have in the past, and may in the future, experience negative cash flows from operating, investing and financing activities. The following table sets forth our net cash inflow/(outflow) from operating, investing and financing activities for the periods/years indicated:

	<i>(₹ in millions)</i>				
	For the three months period ended June 30, 2023	For the three months period ended June 30, 2022	For the year ended March 31, 2023	For the year ended March 31, 2022	For the year ended March 31, 2021
Net cash flows generated from / (used in) operating activities	486.62	78.79	(515.54)	445.88	297.26
Net cash flows generated from / (used in) investing activities	(427.10)	(101.81)	428.63	(4,997.57)	(206.06)
Net cash flows generated from / (used in) financing activities	(63.80)	(59.84)	(140.56)	4,807.97	(12.77)

We had a net cash flow used in operating activities of ₹(515.54) million in Financial Year 2023. While we had a restated loss before tax of ₹1,410.40 million for the Financial Year 2023, we had an operating cash flow before working capital changes of ₹657.21 million, primarily due to the impairment loss on goodwill and other intangible assets of ₹1,546.97 million and share based payments expenses (equity settled) of ₹273.91 million, which was partially offset by gain on sale of investments of ₹77.41 million. Any negative cash outflows from operating activities over extended periods, or significant cash outflows in the short term from investing and financing activities, could have an adverse impact on our cash flow requirements, business operations and growth plans. As a result, our cash flows, business, future financial performance and results of operations could be adversely affected. For further details, see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations — Cash Flows*” on page 351.

15. We face intense competition which may lead to a reduction in our market share, cause us to increase our expenditure on marketing and promotion as well as cause us to offer discounts, which may result in an adverse effect on our business and a decline in our profitability. According to RedSeer, our market share was 1.5% of the total BPC market for calendar year 2022. For Financial Years 2021, 2022 and 2023, and the three month periods ended June 30, 2022 and June 30, 2023, our advertisement expenses constituted 38.68%, 41.49%, 35.52%, 41.33% and 34.99% of our revenue from operations, respectively.

We face intense competition from a number of competitors, some of which are larger and have substantially greater resources than us, including the ability to spend more on advertising and marketing and offer substantial discounts. We also face competition from new entrants that may have more flexibility in responding to changing business and economic conditions than us. As the BPC products space has a fairly low barrier to entry, these new entrants could potentially heighten the competitive landscape, which may lead to intensified competition on pricing. Furthermore, our competitors may innovate faster and more efficiently, and new technologies may increase competitive pressures by enabling competitors to offer more efficient or lower-cost products. If we are unable to change our offerings in ways that reflect the changing demands of offline and online buyers and marketplaces or compete effectively with and adapt to such changes, our business, results of operations and cash flows could be adversely affected.

Some of our competitors including major established players with strong brands and extensive market presence in the BPC products space, possess significant competitive advantages. This includes longer operating histories, more experience in implementing their business plan and strategy, better brand recognition, popular offline locations, greater negotiating leverage, and established supply relationships. In addition, the markets in which we compete have attracted significant investments from a wide range of funding sources, and our competitors could be better capitalized, which could allow them to increase the incentives, discounts and promotions they offer.

Competition in our industry is based on brand recognition, quality, innovation, perceived value and pricing of products, distribution reach, promotional activities, advertising and other activities. It is difficult for us to predict the timing and scale of our competitors’ actions in these areas. We expect competition to continue to be intense as our competitors expand their operations and introduce new products. Failure by us to compete effectively may have an adverse effect on our business and profitability.

16. We may be subject to unfair competitive or trade practices, which may reduce our sales and harm our brands, adversely affecting our business, financial condition, cash flows and results of operations.

We face pressures from various forms of unfair trade practices, such as the sale of counterfeit, cloned, lookalike and pass-off products. Counterfeit and cloned products are products manufactured and sold illegally as our products, whereas lookalike products are manufactured and packaged to resemble our products. For example, businesses could imitate our brand name, packaging material or attempt to create look-alike products. In the past, we have experienced incidents of passing-off and the sale of counterfeit products. For example, we have filed a commercial suit dated May 24, 2022 against Manchanda Herbal Products Private Limited, Prashant Manchanda, and Triple Play Technologies Private Limited before the High Court of Delhi seeking permanent injunction and damages, against infringement of trademark, passing off and unfair competition, and also contended that the defendants were engaging in passing off their products as ours by using deceptively similar name, packaging and overall impression. For further details, see “*Outstanding Litigation and Material Developments — Litigation by our Company — Material Civil Litigation*” and “*— We may not be able to adequately protect our intellectual property, which may result in the inability to prevent our competitors from developing, using or commercializing products that are functionally equivalent or similar to our products.*” on pages 357 on 51, respectively. The sale of counterfeit, cloned and pass-off products may result in heightened public reputation risk for us along with possibility of legal and regulatory claims. This is exacerbated by the fact that such products are often cheaper than genuine products. Such products may also be harmful to consumers or less effective than genuine products, which could have an adverse effect on our brands and reputation. The proliferation of unauthorized copies of our products, and the time lost in pursuing claims and complaints about such spurious products could have an adverse effect on our business, financial condition, cash flows and results of operations.

17. Our business depends on our ability to maintain and scale our technology. Any interruptions or delays in service on our websites or mobile applications or any undetected errors or design faults could result in limited capacity, reduced demand, processing delays, and loss of consumers, suppliers or sellers.

A key element of our growth strategies is to continue to acquire new consumers through brand awareness and enhanced consumer engagement, and generate a high volume of traffic on the digital platforms we offer. Our reputation and ability to attract, retain and serve our consumers depend upon the reliable performance of our websites, mobile websites and mobile applications and the underlying network infrastructure. While we have experienced interruptions in these systems in the past, such as server failures that disrupted the performance of our websites, mobile websites and mobile applications, including during periods when we had our promotional sales, these interruptions (including system failures) did not have a material impact on our business operations. We may experience interruptions in the future, which may adversely affect our business, financial condition, cash flows and results of operations. Further, while we typically make major architectural changes on a quarterly basis, and performance related changes once a month, we cannot assure you that this is sufficient to address the continuously increasing traffic on our platforms.

As our consumer base and the amount of information shared on our websites and mobile application continue to grow, we will need an increasing amount of network capacity and computing power. We have spent and expect to continue to spend substantial amounts on our technology infrastructure to handle the traffic on mobile application and websites. The operation of these systems is complex and could result in operational failures. If the volume of traffic of our consumers exceeds the capacity of our technology infrastructure or if our consumer base or the amount of traffic on our websites, mobile websites and mobile applications grows more quickly than anticipated, we may be required to incur additional costs to enhance our underlying technology infrastructure.

The volume of traffic and activity on our mobile application and websites spikes on certain days, such as during our sales periods, and any such interruption would be particularly problematic if it were to occur at a time of high volume. If sustained or repeated, these performance issues could reduce the attractiveness of our products and platform. In addition, the costs and complexities involved in expanding and upgrading our systems may prevent us from doing so in a timely manner and may prevent us from adequately meeting the demand placed on our systems. Any interruption or inadequacy that causes performance issues or interruptions in the availability of our mobile application and websites could reduce consumer satisfaction and result in a reduction in the number of consumers purchasing our products and services, adversely affecting our business and financial position.

18. Our Subsidiaries which we have acquired in the past, including Just4Kids, BBlunt, B:Blunt Spratt and Fusion, have incurred losses for certain historical periods. There is no assurance that these entities will be profitable in the future.

In calendar years 2021 and 2022, we completed the acquisitions of majority stakes in our Subsidiaries, Just4Kids, BBlunt and BBlunt Spratt, as well as 100% of the shareholding of Fusion. On June 23, 2022, we incorporated Honasa Consumer General Trading L.L.C., a limited liability company in the United Arab Emirates, and subscribed to the share capital and invested an amount of ₹2.34 million during Financial Year 2023. The table below sets forth the revenue from operations and profit after tax of our Subsidiaries (derived from the audited financial statements of the respective Subsidiaries), for the periods indicated below (gross of elimination with Honasa Consumer Limited):

(₹ in million)

Subsidiaries	Three months period ended June 30, 2023		Financial Year 2023	
	Revenue from operations	Profit/(loss) after tax	Revenue from operations	Profit/(loss) after tax
Just4Kids	39.09	(54.66)	404.43	(210.09)
BBlunt*	45.58	13.30	195.81	(8.73)
B:Blunt Spratt	42.91	10.35	145.30	19.83
Fusion	250.91	9.18	270.54	(153.06)
Honasa Consumer General Trading L.L.C.	5.01	(4.20)	-	(8.66)
Total / Overall contribution of our Subsidiaries to our consolidated statement of profit and loss	383.50	(26.03)	1,016.08	(360.71)

*This does not include performance for BBlunt's products business, which is included in the standalone financials of Honasa Consumer Limited

While we continue to focus on improving the financial performance of these Subsidiaries, we cannot assure you that these Subsidiaries and/or other Subsidiaries which we may strategically acquire in the future will not be unprofitable and loss making, which could have an adverse effect on our business, results of operations, cash flows and financial condition. Our management recently decided to scale down the majority of the business verticals of Momspresso, a content platform operating under our Subsidiary, Just4Kids Services Private Limited. For details relating to the scaling down of Momspresso, see “- We have recorded losses in the past. Any losses in the future may adversely impact our business and the value of the Equity Shares” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Our Results of Operations - Financial Year 2023 compared to Financial Year 2022” on pages 41 and 345, respectively. For details of risks relating to acquisitions of businesses, see “- We may not be able to successfully identify and conclude acquisitions, or manage the integration of or harness synergies from acquired businesses, or the performance of such acquired businesses may be below our expectations, any of which may adversely affect our business, results of operations, cash flows and financial condition” on page 47.

19. We may not be able to successfully identify and conclude acquisitions, or manage the integration of or harness synergies from acquired businesses, or the performance of such acquired businesses may be below our expectations, any of which may adversely affect our business, results of operations, cash flows and financial condition.

We have carried out strategic acquisitions in the past, as a means of inorganic growth. For instance, in calendar year 2021 and 2022, we completed the acquisitions of majority stakes in our Subsidiary, Just4Kids Services Private Limited, as well as 100% of the shareholding of Bhabani Blunt Hairdressing Private Limited (BBlunt) and Fusion Cosmeceutics Private Limited, which owns Momspresso and the BBlunt and Dr. Sheth’s brands in India, respectively. We may continue to evaluate select acquisition opportunities, particularly to supplement our market position, product offerings, functional capabilities and channels. Following our recent acquisition of BBlunt in calendar year 2022, we intend to continue expanding our salon footprint. The number of salons across different regions of India for the periods indicated is set forth below:

Regions of India	As at June 30, 2023	As at March 31, 2023
	Number of salons	Number of salons
North	0	0
South	4	4
East	3	3
West	3	3
Total	10	10

For further details, see “*Our Business — Our Strategies — Incubate or acquire new engines of growth*” on page 165. We may not be able to identify or conclude acquisitions in a timely manner. These transactions involve challenges and risks, including but not limited to:

- potential difficulties in identifying suitable acquisition targets and competition from other potential acquirers;
- exposure to unanticipated liabilities of acquired businesses, including, but not limited to, taxation, litigation, intellectual property rights or compliance under applicable laws and regulations;
- obtaining requisite governmental, statutory and other regulatory approvals in connection with any potential acquisition(s);
- not realizing the benefits, expected return on investment or synergies from such transactions; and
- diverting management’s attention, particularly in circumstances of an unsuccessful venture.

While we conduct financial and legal due diligence on target entities before making investments, we cannot assure you that we will be able to identify all material risks and liabilities associated with the relevant target entity. For instance, Mompresso was acquired by us in December 2021 and operated as a content platform under our Subsidiary, Just4Kids Services Private Limited. However, our performance and profitability was deteriorating with the business significantly underperforming and business synergies envisaged from the investment could not be realized despite best efforts of the management, which led to our management’s decision to scale down the majority of the business verticals of Mompresso. This resulted in an impairment loss on goodwill of ₹1,360.63 million, impairment loss on software of ₹19.14 million and impairment loss on trademarks of ₹167.20 million, in Financial Year 2023. For details, see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations – Our Results of Operations – Financial Year 2023 compared to Financial Year 2022*” on page 345.

We may in the future also experience similar difficulty in integrating operations and harmonizing cultures leading to a non-realization of anticipated synergies or efficiencies from such acquisitions. The integration of newly acquired companies into our existing businesses will require dedication of management and financial resources that may divert management attention or require us to assume liabilities. The integration of these businesses involves other risks, including difficulties in integrating the financial, technological and management standards, processes, procedures and controls of our newly acquired companies with our existing operations; difficulties in managing varying geographies and product categories; challenges in managing the increased scope and complexity of our operations; adverse effects on existing business relationships with suppliers and consumers; entering distribution channels, categories or markets in which we have limited or no prior experience; and increased administrative and operational costs.

The expected performance of such acquired businesses and anticipated benefits of these acquisitions may not be achieved within the anticipated timeframe, or at all. Any of these factors, including the failure to achieve the anticipated benefits of these acquisitions, could have an adverse effect on our business, results of operations, cash flows and financial condition.

20. *Our Promoters will continue to retain significant shareholding in us after this Offer, which will allow them to exercise significant influence over us and any substantial change in our Promoters’ shareholding may have an impact on the trading price of our Equity Shares which could have an adverse effect on our business, financial condition, results of operations and cash flows.*

Following the completion of the Offer, our Promoters will continue to hold a significant percentage of our Equity Share capital. Our Promoters will, therefore, be able to control the outcome of matters submitted to our Board or Shareholders for approval. After the Issue, our Promoters will continue to exercise significant control or influence over our business and major policy decisions. The trading price of our Equity Shares could be adversely affected if potential new investors are disinclined to invest in us because they perceive disadvantages to a large shareholding being concentrated in our Promoter.

As at the date of this Prospectus, our Promoters together hold 116,801,850 Equity Shares, or 37.34 % of our issued, subscribed and paid-up Equity Share capital on a fully diluted basis. Upon completion of the Offer, our Promoter will hold 35.02% (subject to finalisation of the Basis of Allotment) of our Equity Share capital, on a fully diluted basis. For details of our Equity Shares held by our Promoters, see “*Capital Structure — Notes to the Capital Structure — History of the equity share capital held by our Promoters*” on page 97. Following our listing, the Promoter also seeks to retain his right to nominate Directors on the Board, subject to the receipt of the requisite regulatory authorization and corporate authorizations (including special resolution to be passed by the shareholders in a general meeting post-listing of the Equity Shares pursuant to the Offer). For further details in relation to the current and proposed nominee rights of our Promoter, see “*History and Certain Corporate Matters – Shareholders’ agreements and other agreements*” and “*Description of Equity Shares and Terms of Articles of Association*” on pages 196 and 404, respectively.

Accordingly, our Promoters will continue to exercise significant influence over our business policies and affairs and all matters requiring shareholders’ approval, including the composition of our Board of Directors, the adoption of amendments to our certificate of incorporation, the approval of mergers, strategic acquisitions or joint ventures or the sales of substantially all of our assets, and the policies for dividends, lending, investments and capital expenditures. This

concentration of ownership also may delay, defer or even prevent a change in control of our Company and may make some transactions more difficult or impossible without the support of these shareholders. The interests of the Promoters as our controlling shareholders could conflict with our interests or the interests of our other shareholders.

21. *Product liability claims and product recalls could harm our reputation, business, financial condition, cash flows and results of operations.*

We face risks of exposure to product liability or recall claims if our products fail to meet the required quality standards, or are alleged to result in side effects or harm to consumers. For instance, in 2020, we had to recall a certain quantity of products provided to a corporate consumer, due to quality issues. Apart from this instance in 2020, there are no other instances of product liability claims and recalls for the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2023. We face the risk of legal proceedings and product liability claims being brought against us by various entities including consumers, distributors and government agencies for various reasons including for defective products sold or services rendered. Further, we may also face product liability claims due to the fault of our contract manufacturers as well. While our agreements with our contract manufacturers require them to maintain product liability insurance, we cannot assure you that the same will be maintained at all times by them, or that the insurance cover will be sufficient to cover the liability incurred. We cannot assure you that we will not experience any product recalls or material product liability losses in the future or that we will not incur significant costs to defend any such claims. We do not maintain product liability and product recall insurance cover. A product recall or a product liability claim may adversely affect our reputation and brand image, which may adversely affect our reputation, business, financial condition, cash flows and results of operations.

22. *If we are unable to identify consumer demand accurately and maintain an optimal level of inventory, our business, results of operations, cash flows and financial condition may be adversely affected.*

The success of our business depends upon our ability to anticipate and forecast consumer demand and trends. Any error in our forecast could result in either surplus stock, which we may be unable to sell in a timely manner, or at all, or under-stocking, which will affect our ability to meet consumer demand. We plan our inventory and commence our design process prior to launch and estimate our sales based on the forecasted demand. We have inventory manufactured and stored at our warehouse ahead of an upcoming season. An optimal level of inventory is important to our business as it allows us to respond to consumer demand effectively and to maintain a full range of products at our stores and for sale through our other retail channels. Ensuring availability of our products requires prompt turnaround time and a high level of coordination amongst manufacturers, warehouse management and physical stores and staff. While we aim to avoid under-stocking and over-stocking through our technology-enabled distribution model, our estimates and forecasts may not always be accurate. If we fail to accurately forecast consumer demand, we may experience excess inventory levels or a shortage of products available for sale. Any unsold inventory may have to be sold at a discount or discarded, potentially leading to losses. We cannot assure you that we will be able to sell surplus stock in a timely manner, or at all, which in turn may adversely affect our business, results of operations, cash flows and financial condition.

23. *The Price Band, Offer Price, market capitalization to total turnover and price to earnings ratio based on the Offer Price of our Company, may not be indicative of the market price of our Company on listing or thereafter. Additionally, we are unable to ascertain the P/E ratio for Fiscal 2023, while the average P/E ratio of competitor entities is 53.63.*

For the Financial Year 2023, our revenue from operations was ₹14,927.48 million and restated profit/(loss) for the year attributable to equity holders of the parent was ₹ (1,428.09) million, respectively, and our market capitalization to revenue from operations (for the Financial Year 2023) multiple is 7.03 times at the upper end of the Price Band. Further we are unable to ascertain the P/E ratio since our EPS for the year ended March 31, 2023 is negative, while the average P/E ratio of our competitor entities (which are listed companies in India that are of larger size with longer operating histories and varied business models and offerings, that operate in the fast-moving consumer goods space, including the BPC segment) is 53.63. The Offer Price of the Equity Shares is proposed to be determined on the basis of assessment of market demand for the Equity Shares offered through a book-building process and certain quantitative and qualitative factors as set out in the section titled “*Basis for Offer Price*” on page 122. The Price Band, Offer Price and derived multiples and ratios may not be indicative of our market price on listing or thereafter.

Prior to the Offer, there has been no public market for our Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Offer. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. Any valuation exercise undertaken for the purposes of the Offer by us, the Investor Selling Shareholders and the Promoter Selling Shareholders, in consultation with the Book Running Lead Managers, is not based on a benchmark with our industry peers. The relevant financial parameters based on which the Price Band would be determined, shall be disclosed in the advertisement that would be issued for publication of the Price Band. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in, developments relating to India, announcements by us or our competitors of significant acquisitions, strategic alliances, our competitors launching new products or superior products, COVID-19 related or similar situations, announcements by third parties or governmental entities of significant claims or proceedings against us, volatility in the securities markets in India and other jurisdictions, variations in the growth rate of financial indicators, variations in revenue

or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

24. *Our inability to effectively manage or expand our offline sales network may have an adverse effect on our business, results of operations, cash flows and financial condition. For Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, our revenue from offline channels as a percentage of our revenue from operations were 18.63%, 28.87%, 36.14%, 31.90% and 33.47%, respectively.*

Our offline channel consists of our general trade channels and modern trade retail channels, and is supplemented by our 85 EBOs across India as of June 30, 2023. Our general trade channel includes a network of retail chains, open format stores, beauty and cosmetics-focused stores and chemists, where we sell our products on a business-to-business (B2B) basis. We access this channel through our network of distributors, super distributors and sub-stockists. The number of our distributors and super distributors (collectively) across different regions of India for the periods indicated is set forth below:

Regions of India	As at June 30, 2023	As at June 30, 2022	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021

Notes:

- (1) Covers Punjab, Uttar Pradesh, Himachal Pradesh, Haryana, Delhi, Jammu and Kashmir, Ladakh and Uttarakhand.
(2) Covers Andhra Pradesh, Telangana, Karnataka, Tamil Nadu, Kerala, Lakshadweep, Puducherry and Andaman and Nicobar Islands.
(3) Covers Bihar, Assam, Jharkhand, Odisha, Chhattisgarh, West Bengal, Meghalaya, Manipur, Mizoram, Nagaland, Tripura, Arunachal Pradesh and Sikkim.
(4) Covers Rajasthan, Madhya Pradesh, Maharashtra, Gujarat, The Dadra and Nagar Haveli and Daman and Diu, and Goa.

In certain geographies, as our business has scaled-up, we have consolidated our distribution network, based upon our assessment of the distribution capabilities of distributors/ super-distributors in such geographies. This has resulted in a reduction in the number of distributors and super distributors (collectively) across the regions from 220 as at March 31, 2023 to 130 as at June 30, 2023.

Moreover, our modern trade channel includes a network of 31 retail chains, as of June 30, 2023, with whom we have contractual arrangements for the sale of our products. These retail chains include national retail chains, regional retail chains, pharmacies, and cash-and-carry stores across India. For Financial Years 2021, 2022, and 2023, and the three months period ended June 30, 2022 and June 30, 2023, our revenue from offline channels across all our brands was ₹856.97 million, ₹2,723.38 million, ₹5,394.08 million, ₹996.20 million and ₹1,554.76 million, respectively, representing 18.63%, 28.87%, 36.14%, 31.90% and 33.47% of our revenue from operations for the same periods, respectively. The number of our EBOs (launched in calendar year 2021) across different regions of India for the periods indicated is set forth below:

Regions of India	As at June 30, 2023	As at March 31, 2023
	Number of EBOs	Number of EBOs
North	38	33
South	19	19
East	11	9
West	17	16
Total	85	77

Our ability to expand and grow our offline sales depends on the reach and effective management of our retail network of general trade stores and modern trade stores. We compete with other BPC companies in relation to selling our products on such general trade channels and modern trade retail channels. We also face the risk of attrition of our network of distributors and super distributors, especially if our reputation with our distributors, super distributors and retailers is tarnished. If we are unable to manage or expand our offline sales network, change our offerings in ways that reflect the changing demands of our general trade channel partners and modern trade channel partners or compete effectively with and adapt to such changes, our business would be adversely affected.

25. *Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by any bank or financial institution or any other independent agency. Our management will have broad discretion over the use of the Net Proceeds.*

We intend to utilize the Net Proceeds of the Offer as set forth in “*Objects of the Offer*” beginning on page 110. The funding requirements disclosed as a part of the objects of the Offer are based on internal management estimates in view of past expenditures, and have not been appraised by any bank or financial institution. These are based on current conditions and are subject to change in light of changes in external circumstances, costs, other financial conditions or business strategies. Our management, in accordance with the policies established by our Board of Directors from time to time, will have flexibility in deploying the Net Proceeds of the Offer. Based on the competitive nature of our industry, we may have to revise our business plan and/or management estimates from time to time and consequently our funding requirements may also change. Our management estimates may differ from the value that would have been determined by third party appraisals, which may require us to reschedule or reallocate our expenditure, subject to applicable laws, and may have an adverse impact on our business, financial condition, results of operations and cash flows.

Various risks and uncertainties, including those set forth in this section as well as in “*Objects of the Offer*” beginning on page 110, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business. For example, the modes we shall utilize to undertake expenditures and investments towards our advertising and marketing strategies are not specific or identified at this stage. Further, the outcome of this expenditure and investment is not ascertainable or quantifiable at this stage and may be disproportionate to the revenue generated or consumer conversion rates. Similarly, we are also yet to identify the exact locations or enter into agreements for lease of properties for the EBOs or salons which we intend to utilize the Net Proceeds towards the setting up of. While we have included estimated capital expenditure for the EBOs and salons of estimated average sizes on the basis of sample quotations, we have not yet placed any orders for purchase of fit-outs and other installations. As a consequence of any increased costs, our actual deployment of funds may be higher than our management estimates. We may also face delays or incur additional costs due to failure to receive regulatory approvals, technical difficulties, human resource, technological or other resource constraints, or for other unforeseen reasons, events or circumstances. We may also use funds for future businesses which may have risks significantly different from what we currently face or may expect. Further, we may not be able to attract personnel with sufficient skills or sufficiently train our personnel to manage our expansion plans. Accordingly, use of the Net Proceeds for other purposes identified by our management may not result in actual growth of our business, increased profitability or an increase in the value of our business and your investment.

26. *We are dependent on several third party service providers to sell or distribute our products to consumer, and on third party technology providers for certain aspects of our operations. Any disruptions or inefficiencies in these operations may adversely affect our business, financial condition, cash flows and results of operations.*

We depend on our distribution network and supply chain for the sale and distribution of our products to our consumers. We have developed a network of distributors, super distributors and sub-stockists in various parts of India. As part of this network, these parties procure our products from us for distribution to retailers. Further, as part of our modern trade channel, we also have a network of retail chains with whom we have contractual agreements for the sale of our products. In addition, as part of our online sales channel, we rely on third-party courier and logistics companies for the delivery of our products. We need to keep optimum inventory at our warehouses, including outsourced third-party warehouses, and maintain high levels of coordination with our courier and logistics providers to ensure availability of our products in the markets. Such service providers may not be able to provide satisfactory services to us or our consumers, which could also be due to events that are beyond our or their control, such as inclement weather, transportation disruptions or poor quality of infrastructure. Further, some of the agreements with such third-party providers may not be adequately registered or stamped or duly executed. As we work with a network of distributors in the market, we do not face any material concentration risk in relation to any of our top distributors within our distributor network. Further, while we do store our inventory at third-party warehouses, we also operate our own warehouses and thus, we do not face any material concentration risk in relation to any of our top warehousing operators within our warehousing network. In addition, we also engage an aggregator for our logistics operations which further utilises a number of logistics service providers for its operations, and hence we do not face any material concentration risk in relation to us operating through such aggregator.

Any disruptions, delays or inefficiencies by our distributors, super distributors, sub-stockists, courier and logistics providers could adversely affect our operations and may lead to disruption of supply chain, loss of cash and goods resulting in higher costs or lost sales. We may also suffer reputational damage, and our business, financial condition, cash flows and results of operations may be adversely affected. Most of these parties do not provide their service exclusively to us and may be providing the same or similar service to other parties, including our competitors. Further, most of our distributors and super

distributors are not contractually bound to provide us with a specific volume of business and can terminate our relationship with or without cause, with little advance notice and without compensation.

We have in the past experienced certain disruptions and delays from our third party service providers. For instance, during the Financial Year 2023, due to an integration issue on our logistics provider's end, the delivery timelines to our customers were briefly delayed. The impact of this disruption and delay was mitigated as we promptly reallocated the supplies to our other logistics providers. Further, during the Financial Year 2023, due to certain operational issues on our courier provider's end, the turnaround time for our deliveries were affected. The impact of this disruption and delay was mitigated as we promptly reallocated the supplies to our other courier providers. While these two instances of disruptions and delays were not material, we cannot assure you that we will not face any material delays and/or disruptions in the future, and that we will continue to be successful in continuing to receive uninterrupted, high quality service from our distribution network or supply chain service providers for our products. In addition, we rely on the Google Play Store and the Apple App Store to offer and promote our app. Their terms and conditions may change to our detriment, and we may violate, or be alleged to have violated, the terms and conditions of their platforms. We also rely on email service providers, bandwidth providers, internet service providers, and mobile networks to deliver emails and "push" communications to consumers and to allow consumers to access our mobile applications and websites. If the systems of these third parties are disrupted, we could lose consumer data and miss order fulfilment deadlines, which could result in decreased sales, increased overhead costs and product shortages. In addition, the technology infrastructure of our third party providers may be vulnerable to damage or interruption as a result of, among others, software or hardware malfunctions, system implementations or upgrades, computer viruses, third party security breaches and other similar events. The occurrence of such events may adversely affect our business, financial condition, cash flows and results of operations.

- 27. *We may not be able to adequately protect our intellectual property. As we do not hold any patents over our product formulae and have not made any applications in this respect, we may therefore not be able to prevent our competitors from developing, using or commercializing products that are functionally equivalent or similar to our products.***

We depend on our brands and their brand equity. We have trademarks registered in India for our brand names such as Mamaearth, Aqualogica, Ayuga, BBlunt and Dr. Sheth's. Further, we have applications pending for the registration of the "Mamaearth" trademark in nine countries, where it has been refused in one country. Additionally, we have also made three trademark applications for the new logo of our Company which are currently pending in India. For details relating to intellectual property rights related pendencies and oppositions before the Registrar of Trademarks, see "*Our Business — Description of our Business — Intellectual Property*" on page 180. For details relating to intellectual property rights litigation filed by us against third parties, see "*Outstanding Litigation and Material Developments*" on page 356. We rely on our trademarks, domain names and other intellectual property to protect our intellectual property, which is critical to our business. As on the date of this Prospectus, we have applied for the trademark registration of The Derma Co. logo under various classes, including 3, 5, 35 and 44, which have been objected and opposed. As of June 30, 2023, we have received four notices of opposition dated June 29, 2017, for the registration of the trademark 'B BLUNT TOTAL CONTROL', dated August 29, 2020 and June 1, 2022, respectively, for the registration of the trademark The Derma Co, and dated April 18, 2023 for the registration of the trademark of the 'Colour Seal technology', which we are currently in the process of countering. We cannot assure you that we will be able to successfully obtain this trademark registration.

We do not hold any patents over our product formulae and have not made any applications in this respect. We may therefore not be able to prevent our competitors from developing, using or commercializing products that are functionally equivalent or similar to our products. This may have an adverse impact on the sales of some of our products.

The protection of our intellectual property rights may require the expenditure of financial, managerial and operational resources. We rely on a combination of laws and regulations, confidentiality of information and contractual restrictions to protect our intellectual property. Despite our efforts to protect and enforce our proprietary rights, unauthorized parties have used, and may in the future use, our trademarks or similar trademarks, copy aspects of our website images, features, compilation and functionality or obtain and use information that we consider as proprietary, such as trade secrets. For instance, we have filed petitions seeking cancellations of, injunctions against and damages arising from the use of trademarks of other companies which are identical or deceptively similar to our registered "Mamaearth" trademark, which are pending as of the date of this Prospectus.

We do not have comprehensive registered protection for all of our brands in all jurisdictions in which we operate or plan to operate. We cannot assure you that our pending trademark applications will proceed to registration, and even registered trademarks could be challenged by a third party including by way of revocation or invalidity actions. In addition, there could be potential trade name or trademark ownership or infringement claims brought by owners of other rights, including registered trademarks, in our marks or marks similar to ours. For instance, in April 2022, we received a notice for infringement of intellectual property including trademark and packaging by Uprising Science Private Limited. Subsequently, we filed a detailed reply countering the allegations of infringement. Any such claims, brand dilution or consumer confusion related to our brands could damage our reputation and brand identity and substantially harm our business, financial condition, cash flows and results of operations.

Additionally, the process of obtaining intellectual property protection is expensive and time-consuming, and the amount of compensation for damages can be limited. Even if issued, patents or trademarks may not adequately protect our

intellectual property, as the legal standards relating to the validity, enforceability and scope of protection of patent, trademark and other intellectual property rights are applied on a case-by-case basis and it is generally difficult to predict the results of any litigation relating to such matters. Any litigation, whether or not it is resolved in our favor, could result in significant expense to us and divert the efforts of our technical and management personnel, which may adversely affect our business, financial condition, cash flows and results of operations.

28. *We are yet to identify the exact locations or properties for the setting up EBOs or salons pursuant to which we intend to utilize the amount from Net Proceeds.*

As on the date of this Prospectus, we are yet to identify the exact locations or enter into agreements for lease of suitable properties for setting up the EBOs or salons pursuant to which we intend to utilize the amount from Net Proceeds. While we may open EBOs in, inter alia, the following Indian cities namely, Mumbai, Bangalore, Hyderabad, Ahmedabad, Chennai, Kolkata, Pune, Jaipur, Lucknow, Ludhiana, Amritsar, Coimbatore, Calicut, Cochin and Delhi/ National Capital Region, these locations are not exhaustive and may undergo changes. These locations will be decided by our Company after conducting a detailed analysis of the demographics, foot falls, lease rentals and other business and market considerations. For further details, please see “*Objects of the Offer*” on page 110 of this Prospectus.

29. *The success of our business depends substantially on our management team and operational workforce. Our inability to retain them could adversely affect our businesses. Further, we appoint contract labor for carrying out certain of our operations and we may be held responsible for paying the wages of such workers if the independent contractors through whom such workers are hired default on their obligations.*

Our senior management and key management personnel are difficult to replace. Our success and growth depends upon consistent and continued performance of our employees with direction and leadership from senior management. From time to time, there may be changes in our executive management team or other key employees to enhance the skills of our teams or as a result of attrition. We cannot assure you that we will continue to retain any or all of the key members of our management. We do not maintain key personnel insurance in respect of the risk of the loss of any of our Promoters, senior managers or other key managerial personnel.

In addition, our success in large part depends upon the continued service of our Whole-time Director and Chief Innovation Officer, Ghazal Alagh, and Chairman, Whole-time Director and Chief Executive Officer, Varun Alagh. They have deep industry knowledge and, along with other key individuals in our business, play a strategic role in developing and building relations with our key stakeholders, including investors, board members, suppliers and other strategic business relationships on a regular basis. They have played, and are expected to continue to play, a significant role in building and maintaining strong relationships with critical stakeholders into the future. If they were to step down from their leadership positions in our Company, our reputation could deteriorate and our business could be adversely affected. During the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2023, we did not face any senior management attrition.

Our success also depends on our ability to recruit, develop and retain qualified and skilled personnel, for all our lines of business. We compete in the market to attract and retain skilled personnel, in areas such as engineering, product and design, technology, sales, digital marketing and brand management, omni-channel retailing and consumer service, supply chain and operations, as well as enabling corporate functions.

As of June 30, 2023, we had 993 full-time employees, and during Financial Years 2021, 2022, and 2023, and the three months period ended June 30, 2022 and June 30, 2023, we had an overall employee attrition rate (annualized¹) of 36.93%, 29.29%, 47.01%, 45.86% and 81.71%, respectively. Our employee attrition rate was higher for the three months period ended June 30, 2023 due to our management’s decision to scale down the majority of the business verticals of Momspresso. For details relating to the scaling down of Momspresso, see “- *We have recorded losses in the past. Any losses in the future may adversely impact our business and the value of the Equity Shares*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations — Our Results of Operations - Financial Year 2023 compared to Financial Year 2022*” on pages 41 and 345, respectively. For details relating to our employees, see “*Our Business – Description of our Business – Employees*” on page 179. As of June 30, 2023, our contractual workforce comprised 1,269 beauty advisors and 498 sales representatives.

If we fail to identify, recruit and integrate strategic personnel, our business could be adversely affected. Any loss of members of our senior management team or key personnel could significantly delay or prevent the achievement of our business objectives, affect our succession planning and could harm our business and consumer relationships. We may need to invest significant amounts of cash and equity to attract and retain new employees, and we may never realize returns on these investments. If we are not able to retain and motivate our current personnel or effectively integrate and retain employees, our ability to achieve our strategic objectives, and our business could be adversely affected.

Further, we appoint independent contractors who in turn engage on-site contract manpower for performance of certain of our operations, including at our offline channels. During the month of June 2023, we engaged 1,767 personnel on a contractual basis. Although we do not engage such labor directly, we may be held responsible to pay their social benefits

¹ For the three months period ended June 30, 2022 and 2023, the overall employee attrition rate is not annualized as the full year period has not lapsed.

or shortfall in wages and provide certain amenities and facilities, if the independent contractors fail to do so, by a regulatory body or court, which may adversely affect our cash flows and results of operations. See “*Our Business – Description of our Business – Employees*” on page 179.

30. *Our technology infrastructure and the technology infrastructure of our third-party providers are susceptible to security breaches and cyberattacks*

Our business generates, stores and processes a large quantity of personal, transactional, demographic and behavioral information and data. We may experience disruptions, failures or breaches of our technology platforms, due to the large volume of data handled. We also face risks inherent in protecting the security of such data, such as protecting the data in and hosted on our system, including against attacks on our system by outside parties or fraudulent behavior by our employees; addressing concerns related to privacy and sharing, safety, security and other factors; and complying with applicable laws, rules and regulations relating to the collection, use, disclosure, transfer or security of personal information, including any requests from regulatory and government authorities relating to such data. In addition, our data is also stored, transmitted and backed up on servers not owned by us, and therefore, we cannot guarantee that there may not be unauthorized access to such data, and we may be exposed to liability in relation to such breaches. Data that is critical to our business is stored in-house with access restrictions, and other data that is used for operationally servicing customers, dashboarding and reporting is shared with reputable third party providers. Any failure, or perceived failure, by us to comply with our posted privacy policies or with any regulatory requirements or privacy and data protection-related laws, rules and regulations could result in proceedings or actions against us by governmental entities or others, which could have an adverse effect on our results of operations, cash flows and business.

Further, although we employ resources to develop security measures against breaches, such measures may not detect or prevent all attempts to compromise our systems, including distributed denial-of-service attacks, viruses, malicious software, break-ins, ransomware attacks, phishing attacks, social engineering, fraudulent emails and related payments scams, security breaches or other attacks and similar disruptions that may jeopardize the security of information stored in and transmitted by our systems or that we otherwise maintain. Breaches of our cybersecurity measures could result in unauthorized access to our systems, misappropriation of information or data, unforeseen disclosure or transfer of data, deletion or modification of consumer information, or a denial of service or other interruption to our business operations. As some of our data are not end-to-end encrypted, this may pose a greater risk of cybersecurity breach. As techniques used to obtain unauthorized access to or sabotage systems change frequently and may not be known until launched against us or our third-party service providers, we may be unable to anticipate, or implement adequate measures to protect against, these attacks.

We may not have the resources or technical sophistication to anticipate or prevent rapidly evolving types of cyberattacks and cyber frauds. Cyberattacks and cyber frauds may target us, the participants on our websites, or the communication infrastructure on which we depend. We have in the past been, and may in the future be, exposed to vulnerabilities in our systems and to cyberattacks and cyber frauds. For example, in December 2021, we received complaints from several consumers alleging that fraudulent promotional offers were made to them by unknown persons claiming to be our representatives, who had access to their consumer data. We have filed a first information report registered at the Cyber Crime Police Station in Gurgaon on January 13, 2022, which is currently pending. We have also filed a complaint dated May 18, 2022, with the Indian Computer Emergency Response Team (CERT-In), Ministry of Electronics and Information Technology, Government of India, in relation to this matter and another occurrence of attempted cyber fraud. For further details, see the section entitled “*Outstanding Litigation and Material Developments — Litigation by our Company — Criminal Litigation*” on page 357.

31. *The locations of our EBOs may become unattractive, and suitable new locations may not be available for a reasonable price. In addition, as the underlying properties for our EBOs are held by us on a leasehold basis, we are exposed to all of the risks associated with leasing real estate and any adverse developments could affect our business, results of operations, cash flows and financial condition.*

Our EBOs exclusively retail products of our Mamaearth brand and are owned and operated by us, with all premises held on a leasehold basis. As of June 30, 2023, we operate 85 EBOs in India.

The success of our EBOs depends in part on location. We cannot assure you that current locations of our EBOs will continue to be attractive or profitable as demographic patterns change, or as leases are renewed/ extended on terms less favorable to us. Neighbourhood or economic conditions where EBOs are located could decline in the future, thus resulting in reduced sales in those locations. Alternatively, neighbourhoods could continue to improve and escalate real estate prices, which may not be proportionate to the sales we are able to carry out. In the event that real estate prices increase or if we are unable to renew lease agreements for our existing stores on terms favorable to us, such store locations may not be profitable for our business, and we may be compelled to reassess the feasibility of such stores.

In addition, lease agreements are required to be duly registered and adequately stamped under Indian law and if any of our lease agreements are not duly registered and adequately stamped, we may face challenges in enforcing them and they may be inadmissible as evidence in a court in India subject to penalties along with the requisite stamp duty prescribed under applicable Indian law being paid.

32. We are subject to payment-related risks, including risks associated with cash on delivery and payment processing risks.

We accept payments using a variety of methods, including credit and debit cards, digital wallets, UPI, money transfers, and cash on delivery. Cash on delivery is a preferred method of payment for online purchases in India. For Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, our revenue from online purchases in our direct-to-consumer channels on cash on delivery basis amounted to ₹663.74 million, ₹1,218.47 million, ₹1,297.05 million, ₹334.42 million and ₹331.81 million, respectively, representing 41.94%, 40.87%, 35.99%, 36.93% and 33.68% of our revenue from direct-to-consumer channels, respectively. We are subject to the risk of fraudulent activity associated with cash on delivery, such as payment of purchases with counterfeit currency. In addition, if a consumer does not pay the amount due, the purchase will be returned to us, which does not contribute to our revenue. For Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, our loss of revenue from products returned to origin² in our direct-to-consumer channels on cash on delivery basis amounted to ₹155.19 million, ₹218.67 million, ₹276.11 million, ₹60.31 million and ₹70.74 million, respectively, representing 9.81%, 7.33%, 7.66%, 6.66% and 7.18% of our revenue from direct-to-consumer channels, respectively. We also absorb the costs of return shipping fees. Increases in the returns of our products may increase our operating costs. For certain payment methods, including credit and debit cards, we pay bank interchange and other fees, although we may receive cashback on certain transactions. In June 2023, for our Mamaearth brand alone, we had over 21,000 instances of products returned to origin in our direct-to-consumer channels, and as a result, we incurred total freight costs (excluding goods and services tax) of ₹1.61 million, which amounted to average freight costs (excluding goods and services tax) of ₹76.17 for every instance of product returned by customers in our direct-to-consumer channels. These fees may increase over time, which would increase our operating costs. We use various third parties and payment gateways to provide payment processing services, including the processing of credit and debit cards. The suspension or termination of such payment gateways may disrupt our sales and business operations.

We are required to comply with payment card network operating rules, which are set and interpreted by the payment card networks for the third-party payment processors. The payment card networks could adopt new operating rules or interpret or re-interpret existing rules, as revised by regulatory bodies such as the Reserve Bank of India (“RBI”) from time to time, in ways that might prohibit us from providing certain services to some consumers, be costly to implement, or difficult to follow. While we have not faced any past instances of fines, indemnities or higher transaction fees arising from RBI rules related to payment card networks, our failure to comply with such rules in the future may render us liable for fines, indemnities or higher transaction fees, or result in us losing our ability to accept credit and debit card payments or other types of online payments. Occurrences of such events could adversely affect our business, financial condition, cash flows and results of operations.

33. There is outstanding litigation pending against us and our Subsidiaries which, if determined adversely, could affect our business, results of operations, cash flows and financial condition.

In the ordinary course of business, we, our Promoter, our Directors, and our Subsidiaries are involved in certain legal proceedings, at different levels of adjudication before various courts, tribunals and statutory, regulatory and other judicial authorities in India and abroad, and, which if decided against us, could adversely affect our reputation, business, results of operations, cash flows and financial condition. For instance, R S M General Trading LLC, one of our former distributors has filed a suit against our Company before the Dubai court, alleging breach of the distribution agreement entered into with them, and seeking damages amounting to AED 45 million, along with interest. We cannot assure you that the currently outstanding legal proceedings will be decided favourably or that no further liability will arise from these claims in the future. The amounts claimed in these proceedings have been disclosed to the extent ascertainable and include amounts claimed jointly and severally.

For details, see “Outstanding Litigation and Material Developments” on page 356. Brief details of material outstanding litigation that have been initiated by and against us, our Promoter, our Directors and Subsidiaries is set forth below:

For details of such notices, see “Outstanding Litigation and Material Developments - Litigation Involving Our Company”, “Outstanding Litigation and Material Developments - Litigation Involving Our Promoters”, and “Outstanding Litigation and Material Developments - Litigation Involving Our Directors” on pages 356, 358 and 359, respectively.

[^] For the civil matter involving our Company, our Promoters, our subsidiary, Honasa Consumer General Trading LLC and R S M General Trading for which the claim amount is AED 45 million, the amount involved has been disclosed assuming exchange rate of ₹22.25. For details, see “Outstanding Litigation and Material Developments - Litigation Involving Our Company”, “Outstanding Litigation and Material Developments - Litigation Involving Our Promoters”, and “Outstanding Litigation and Material Developments - Litigation Involving Our Directors”, “Outstanding Litigation and Material Developments - Litigation Involving Our Promoters”, and “Outstanding Litigation and Material Developments - Litigation Involving Our Subsidiaries” on pages 356, 358, 359 and 359, respectively.

If any new developments arise, such as a change in Indian law or rulings against us by appellate courts or tribunals, we may need to make provisions in our financial statements that could increase our expenses and current liabilities. An adverse decision in any of these proceedings may have an adverse effect on our business, results of operations, cash flows and financial condition.

34. The audit report on our Special Purpose Ind AS Standalone Financial Statements as at and for the Financial Year 2021 contains an emphasis of matter paragraph and the annexure to auditor's report on the Indian GAAP financial statements as at and for the Financial Year 2021 included certain qualifications on matters pertaining to Companies (Auditor's Report) Order, 2016.

The auditors report on our Special Purpose Ind AS standalone financial statements as at and for the Financial Year 2021 contains an emphasis of matter paragraph:

Emphasis of matter – Basis of preparation and restriction of use

The Auditor draws attention to a note to the Special Purpose Ind AS standalone financial statements, which describes the basis of preparation of such financial statements, which states that such financial statements have been prepared to comply with an e-mail dated June 24, 2022 received from the BRLMs confirming that we should prepare these financial statements in accordance with Ind AS and that these are required based on an email dated October 28, 2021 from SEBI to the Association of Investment Bankers of India. We cannot assure you that our audit reports for any future fiscal periods will not contain qualifications, emphasis of matters or other observations which affect our results of operations in such future periods. For further details, see “Restated Ind AS Summary Statements” beginning on page 220.

Pursuant to the Companies (Indian Accounting Standard) Second Amendment Rules, 2015, the Group voluntarily adopted March 31, 2022 as reporting date for first time adoption of Indian Accounting Standard (Ind-AS) - notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and consequently April 1, 2020 as the transition date for preparation of its statutory financial statements as at and for the year ended March 31, 2022. The financial statements as at and for the year ended March 31, 2022, were the first financial statements, prepared in accordance with Ind-AS. Up to the financial year ended March 31, 2021, the Company prepared its financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (“**Indian GAAP**”) due to which the Special Purpose Ind AS standalone financial statements were prepared as per E-mail dated June 24, 2022 received from Book Running Lead Managers, which stated that the Company should prepare financial statements in accordance with Indian Accounting Standards (Ind AS) and that these financial statements are required for all the three years including stub period, based on email dated October 28, 2021 from Securities and Exchange Board of India (“**SEBI**”) to Association of Investment Bankers of India (“**SEBI Letter**”).

Hence, the auditors included an emphasis of matter paragraph on basis of preparation of the Special Purpose Ind AS standalone financial statements which states that the Special Purpose Ind AS standalone financial statements have been prepared to comply with SEBI Letter and are not general purpose financial statements and not the statutory financial statements under the Companies Act, 2013. Accordingly, the Special Purpose Ind AS standalone financial statements may not be suitable for any other purpose and this report should not be used, referred to or distributed for any other purpose.

The annexure to auditors' report on our Indian GAAP financial statements for the year ended March 31, 2021 issued under the Companies (Auditor's Report) Order, 2016 issued by the Central Government of India in terms of sub section (11) of section 143 of the Companies Act included a qualification which did not require any adjustments. The qualification stated that "undisputed statutory dues including provident fund, employees' state insurance, income-tax, duty of customs, goods and services tax, cess and other material statutory dues have generally been regularly deposited with the appropriate authorities though there have been slight delays in remittance of withholding taxes in few cases". For further details, see "Restated Ind AS Summary Statements" beginning on page 220.

35. *In this Prospectus, we have compared consolidated financial information as of and for the year ended March 31, 2022 and March 31, 2023 with our standalone financial information as of and for the year ended March 31, 2021, and consolidated financial information for the three months period ended June 30, 2022 and June 30, 2023. These periods are not comparable to each other.*

Prior to December 24, 2021, we did not have any subsidiaries. On December 24, 2021, we acquired a 74.32% shareholding in Just4Kids, which was pursuant to a share purchase and share subscription agreement entered into on December 22, 2021. Our shareholding in Just4Kids as of March 31, 2022 was 74.32%. On March 16, 2022, we acquired a 100.00% shareholding in BBlunt. Our shareholding in BBlunt as of March 31, 2022 was 100.00%. As a result, our audited, consolidated statement of profit and loss for the year ended March 31, 2022 consolidates the operations of Just4Kids for the period December 24, 2021 to March 31, 2022 and the operations of BBlunt for the period March 16, 2022 to March 31, 2022. In addition, our audited, consolidated balance sheet as of March 31, 2022 consolidates the assets and liabilities of Just4Kids and BBlunt as of March 31, 2022. Further, as of March 31, 2023, our shareholding in Just4Kids and BBlunt, was 77.19% and 100.00%, respectively. Thus, our audited, consolidated statement of profit and loss for the year ended March 31, 2023 consolidates the operations of Just4Kids and BBlunt, for the Financial Year 2023, and our audited, consolidated balance sheet as of March 31, 2023 consolidates the assets and liabilities of Just4Kids and BBlunt, as of March 31, 2023.

Further, on April 6, 2022, we acquired a 65.49% shareholding in Fusion Cosmeceutics Private Limited. Our shareholding in Fusion Cosmeceutics Private Limited was 100.00% as of March 31, 2023. On June 23, 2022, we incorporated and held a 100.00% shareholding in Honasa Consumer General Trading L.L.C. Our shareholding in Honasa Consumer General Trading L.L.C. was 100.00% as of March 31, 2023. As a result, our audited, consolidated statement of profit and loss for the year ended March 31, 2023 consolidates the operations of Fusion Cosmeceutics Private Limited for the period April 7, 2022 to March 31, 2023 and the operations of Honasa Consumer General Trading L.L.C. for the period June 23, 2022 to March 31, 2023.

Consolidated and unconsolidated financial statements and information are not comparable. As a result, our audited, consolidated financial statements for the year ended March 31, 2022 and March 31, 2023 are not comparable with prior period standalone financial statements and consolidated financial statements for the three months period ended June 30, 2022 and June 30, 2023. Further, our consolidated financial statements for the three months period ended June 30, 2022 and June 30, 2023 are not indicative of full year financial results.

36. *We rely on our information technology systems in managing our supply chain, logistics and other integral parts of our business. Any failure in our information technology systems could adversely affect our financial condition, cash flows and results of operations.*

Our information technology systems are of paramount importance to our business. We have built our proprietary technological platforms that are integrated across our brands with the flexibility to customize based on the requirements of each brand. For further details, see "Our Business — Description of Our Business — Technology" on page 174. We also rely on certain third parties for some of our technological infrastructure. While we have not experienced any material failure in our information technology systems, any failure in our information technology systems or those of our service providers could result in business interruption, adversely impacting our reputation and weakening of our competitive position and could have an adverse effect on our financial condition, cash flows and results of operations.

The software underlying our application and website may contain undetected errors or vulnerabilities, some of which may only be discovered after the code has been released. Our software and the third-party software that we incorporate into our platform may also be subject to errors or vulnerabilities. Any errors or vulnerabilities discovered in our code or from third-party software after release could result in negative publicity, a loss of users or loss of revenue, and access or other performance issues. Such vulnerabilities could also be exploited in a malicious manner and may result in exposure of data of users on our platform, or otherwise result in a security breach or other security incident. We may need to expend significant financial and development resources to analyze, correct, eliminate, or work around errors or defects or to address and eliminate vulnerabilities. Any failure to timely and effectively resolve any such errors, defects, or vulnerabilities could

adversely affect our business, reputation, brand, financial condition, cash flows and results of operations. We have limited control over the operational security or data security of any of these third-party providers. Our third-party providers, including our cloud computing providers and our payment processing partners, may be subject to intrusions, computer viruses, denial-of-service attacks, sabotage, acts of vandalism, acts of terrorism, and other misconduct. They are vulnerable to damage or interruption from power loss, telecommunications failures, fires, floods, earthquakes, hurricanes, tornadoes, and similar events, and they may be subject to financial, legal, regulatory, and labor issues, each of which may impose additional costs or requirements on us.

37. *Our warehousing operations are being conducted on premises that have been taken on lease. Any difficulty in seeking renewal or extension of such lease terms may cause disruption in our operations.*

As of June 30, 2023, our integrated supply chain comprised of 13 warehouses spread across seven districts in India. Of these 13 warehouses, three warehouses are directly managed by us while management of the remaining 10 are outsourced to third-party partners. Our warehousing premises on which we operate are taken on lease or leave and license agreements with various third parties. We also enter into third party warehousing agreements. We may enter into such transactions with third parties in the future too. We may not be able to successfully extend or renew such leases upon expiration of the current term on commercially reasonable terms or at all, and may therefore be forced to relocate our affected operations. This could disrupt our operations and result in relocation expenses, which could adversely affect our business, financial condition, cash flows and results of operations. In addition, we may not be able to locate desirable alternative sites for our operations as our business continues to grow or our leases near their expiry, and failure in relocating our affected operations could adversely affect our business and operations. Further, there are risks associated with disputes relating to the property that may also lead to business disruptions. See also, “*Our Business – Description of our Business – Our Capabilities – Supply Chain and Logistics*” on page 172.

Any adverse impact on the title, ownership rights, development rights of the owners from whose premises we operate or breach of the contractual terms of such leave and license agreements, or any inability to renew the said leases or leave and license agreements on terms acceptable to us, may adversely affect our business, financial condition, cash flows and results of operation.

38. *Environmental, health, employee and safety laws and regulations may expose us to liability and result in an increase of our costs and a decrease in our profits.*

Environmental laws in India have been increasing in stringency and it is possible that they will become significantly more stringent in the future. Operating facilities, such as those of our contract manufacturers that manufacture hair care, skincare and beauty care products, entail an inherent risk of environmental damage, and our contract manufacturers may incur liabilities in the future arising from the discharge of pollutants into the environment or their waste disposal or hazardous material handling practices. If any of the manufacturing facilities are shut down, our contract manufacturers may continue to incur costs in complying with environmental regulations, appealing any decision to close those facilities, increasing production levels at operational facilities and paying labor and other costs, while not generating any revenues or products from such facilities. As a result, our overall operation expenses may increase and our profits may decrease.

Our operations, such as our warehousing and manufacturing activities pursuant to arrangements entered into with our workers, contract manufacturers and third party service providers, are subject to extensive laws and government regulations, including in relation to safety, health and environmental protection. We, as well as such contract manufacturers and service providers, are also subject to the laws and regulations governing relationships with employees in areas such as minimum wages, maximum working hours, overtime, working conditions, hiring and termination of employees, contract labour, work permits, maintenance of regulatory and statutory records and making periodic payments. See “*Key Regulations and Policies in India*” on page 182. We and such service providers may fail to comply with such regulations, which could lead to enforced shutdowns and other sanctions imposed by the relevant authorities. We and such contract manufacturers, service providers may become involved or liable in litigation or other proceedings, incur increased costs or penalties, have our approvals and permits revoked or suffer a disruption in our operations, any of which could adversely affect our business, financial condition, cash flows and results of operations. While we have been compliant with all the relevant environmental, health, employee and safety laws and regulations in the past, we cannot assure you that we will continue to be compliant with all the relevant environmental, health, employee and safety laws and regulations in the future, which could adversely affect our business, financial condition, cash flows and results of operations.

39. *Our business depends upon the user behavior, growth of online commerce industry in India and continued acceptance of digital platforms. If the online commerce industry in India and in particular the online market for beauty and fashion products does not further develop and grow, our business, results of operations, financial condition, cash flows and prospects could be adversely affected.*

Factors applicable to our industry that might prevent potential consumers from purchasing products from direct to consumer platforms (such as our websites or mobile applications) or e-commerce platforms through which we sell our products include:

- concerns about delayed shipments or the inconvenience and cost of returning or exchanging items purchased online;
- concerns about the security of online transactions and the privacy of personal information; and
- usability, functionality and features of online platforms.

Although we derive a significant proportion of our sales through offline channels, our revenues depend substantially on the receptiveness of Indian consumers to the internet as a way to conduct commerce, purchase goods and services, and carry out financial transactions. If the online commerce industry in India and in particular the online market for beauty and fashion products does not further develop and grow, our business, results of operations, financial condition, cash flows and prospects could be adversely affected. For our online revenue base to grow, consumers, sellers and suppliers must continue to adopt new and alternative ways of conducting commerce, purchase goods and services and exchanging information, such as through the internet and mobile devices, and we must hence effectively respond to changing consumer behavior on such digital platforms. Furthermore, we are exposed to the inherent risks affiliated with the online commerce industry. This includes logistics risks that require us to ensure the timely and reliable delivery of products. Additionally, heightened discounting practices across the market, while fostering demand, may erode our profit margins. With a large array of alternative product selections available on online platforms, we are also exposed to the risk of customer attrition and may be required to formulate strategies aligned with shifting consumer preferences.

As the development of e-commerce is dynamic and subject to risk of rapid disruption driven by technology innovations, we must continuously innovate to overcome the fact that potential consumers are presented with an increasingly large number of options to choose from. Such potential growth is dependent on the overall internet penetration in India which despite recent growth, is still relatively low as compared to certain developed countries. We cannot assure you that a more technologically-sophisticated and reliable fixed telecommunications network or internet infrastructure will develop that would further facilitate growth of online e-commerce in India. Should the telecommunications operators not sustain or invest in expanding and upgrading the telecommunications infrastructure in India, it may impact the of e-commerce sector adversely. In addition, the growth of the e-commerce sector may be affected by changes in and the evolving nature of government regulation.

40. *Our culture and values have been critical to our success and if we cannot maintain this culture and our values as we grow, our business and reputation could be adversely affected.*

We believe that our culture and values have been critical to our success. We may face a number of challenges that may affect our ability to sustain our corporate culture and values, including a potential failure to attract and retain employees who embrace and further our culture and values, any expansion into additional markets and competitive pressures that may divert us from our priorities, vision and integration of new personnel.

While we aim to build a fair, admired, compliant and performing culture with regular education and training to employees, including zero tolerance of any violations around our code of conduct (including on the prevention of sexual harassment), there could be violations which could affect our reputation and impact our cultural fabric. Any unethical or illegal employee actions and behaviour may harm our reputation and possibly expose us to sanctions or penalties. Employee misconduct, fraud or error could harm us by impairing our ability to attract and retain consumers and we may be subject to significant legal liability and reputational harm. If we are not able to maintain our culture and values as we continue to grow, our business, financial condition, cash flows and results of operations could be adversely affected.

41. *We may not be successful in implementing our business strategies.*

The success of our business will depend greatly on our ability to effectively implement our growth strategies. For further details on our strategies, see “*Our Business — Our Strategies*” on page 165. There can be no assurance that we will be able to successfully execute our strategies, which may adversely affect our business, financial condition, cash flows and results of operations.

We expect our strategies to place significant demands on our management and other resources and require us to continue developing and improving our operational, financial and other internal controls. Our inability to manage our business and strategies could have an adverse effect on our business, financial condition, cash flows and profitability.

42. *We have contingent liabilities and our financial condition could be adversely affected if these contingent liabilities materialize.*

As at June 30, 2023, our contingent liabilities are set forth in the table below, as per Ind AS 37:

Nature of Contingent Liability	As at June 30, 2023
	(₹ in millions)
Claims against the Group not acknowledged as debts	-
Bank guarantee	201.99
Disputed statutory demands pending before the Appellate Authorities	8.83

Notes:

- (1) *We have certain disputes, lawsuits and claims, which arise in from time to time in the ordinary course of business. We believe these matters are not expected to have a material impact on the Restated Ind AS Summary Statements.*
- (2) *RSM General Trading LLC ('RSM'), an overseas distributor of the Company has filed a case against the Company during the Financial Year 2023 on the ground that the Distributorship Agreement between RSM and the Company has been terminated illegally by the Company without complying with provisions of the Distributorship Agreement and RSM has claimed damages to the tune of AED 45,000,000 (equivalent to ₹1,001.25 million) citing various reasons such as loss of future business opportunities, moral damage, recovery towards damaged inventory etc. The matter is in the court of UAE for hearing. The management, based on litigating counsel's legal confirmation, is of the view that there are no merits in the aforesaid case and is hopeful of a favourable decision. Accordingly, no provision has been made in this regard against the claim as at March 31, 2023 and June 30, 2023.*
- (3) *Includes Bank Guarantees issued in favour of Hewlett Packard Financial Services (India) Pvt Ltd against laptops taken on lease amounting to ₹48.79 million as at June 30, 2023 (June 30, 2022: ₹31.20 million; March 31, 2023: ₹48.79 million; March 31, 2022: ₹31.20 million and March 31, 2021: ₹14.27 million), performance guarantees issued in favour of The Deputy General Manager - Canteen Stores Department amounting to ₹153.20 million as at June 30, 2023 (June 30, 2022: ₹63.40 million; March 31, 2023: ₹153.20 million; March 31, 2022: ₹33.40 million and March 31, 2021: Nil), performance guarantees issued in favour of TLG India Pvt. Ltd. Nil as at June 30, 2023 (June 30, 2022: ₹175 million; March 31, 2023: Nil; March 31, 2022: ₹214.80 million and March 31, 2021: Nil)*
- (4) *Represents demands raised by income tax and service tax authorities pending before appellate authorities.*

We cannot assure you that we will not incur similar or increased levels of contingent liabilities in the future. If any of these contingent liabilities materialize, our financial condition, cash flows and results of operation may be adversely affected.

43. We may require additional financing in the form of debt or equity to meet our business requirements.

Although our Company has no outstanding loan amounts, except bank guarantees and overdraft facility as of the date of this Prospectus, in order to meet our business requirements (including to undertake growth), we may require loans from banks and financial institutions or the sale or issue of equity or debt securities in private or public offerings. In the event that we incur debt in the future, our interest payment obligations will increase, and we may be subject to additional conditions from lenders, who could place restrictions on how we operate our business and result in reduced cash flows. If we decide to issue equity, the ownership interest of our existing shareholders will be diluted. We cannot provide any assurance that we will be able to raise adequate financing on acceptable terms, in a timely manner or at all. Our failure to obtain sufficient financing could result in a lack of cash flow to meet our operating requirements and, therefore, have an adverse effect on our business, results of operations, cash flows and financial condition. Additionally, our Company has also provided a security free intercorporate loan to our Subsidiary, Fusion of ₹50 million.

44. We may not be sufficiently protected or insured for certain losses that we may incur or claims that we may face against us.

Our insurance may not be adequate to cover our claims or may not be available to the extent we expect. We maintain insurance coverage under various insurance policies such as burglary policy, corporate cover policy, combined general liability insurance, standard fire and special perils policy, group active health policy, cyber security policy, marine open export declaration policy, marine open import declaration policy and directors, and officers' policy.

In such event, our insurance policies do not cover all risks and are subject to exclusions and deductibles and so, may not protect us from liability for damages. These may lead to financial liability and other adverse consequences. As of June 30 2023, our property, plant and equipment, and inventories were ₹131.77 million and ₹1,413.57 million, constituting 1.26% and 13.49% of our total assets, respectively, and the insurance coverage on such property, plant and equipment, and inventories were ₹131.77 million and ₹1,413.57 million, respectively, or 100.00% and 100.00% of our property, plant and equipment, and inventories, respectively. For details, see "*Our Business — Description of Our Business — Insurance*" on page 180.

45. We require certain approvals and licenses in the ordinary course of business, and the failure to obtain or retain them in a timely manner or at all may adversely affect our operations.

We require certain approvals, licenses, registrations and permissions for operating our business. While we have obtained a significant number of approvals, licenses, registrations and permits from the relevant authorities, we are in the process of applying for certain licenses and registrations which are required to be obtained, such as, professional tax registrations for certain states, registrations under the state shops and establishments act or municipal corporation acts for shops and

establishments registration and trade licenses, respectively, in respect of certain EBOs and warehouses. In addition, some of our approvals, licenses, registrations or permissions may have expired, for which we may have either made or are in the process of making an application for obtaining the approval or its renewal. The date of expiry/ date of renewal of the material approvals required to be obtained by our Company is provided below:

S. No.	Name of the approval	Date of expiry
1.	Trade license for our warehouse in Bangalore	March 31, 2024
2.	Trade license for our warehouse in Bharthal	March 31, 2024
3.	FSSAI state license for our warehouse in Bharthal	September 7, 2024
4.	FSSAI state license for our warehouse in Pataudi	January 1, 2025
5.	FSSAI central license	February 8, 2025

In addition, our Company would in due course be required to apply for renewal of certain material approvals (including the registration of establishment under the respective state shops and establishment acts, trade licenses including provisional trade licenses, under the respective municipal corporation acts for our EBOs, as applicable) which are subject to periodic renewals, as and when such material approvals expire. For further details, please see “*Government and Other Approvals*” on page 362 of the DRHP. If we fail to obtain, renew, maintain or retain any of the required permits, approvals or licenses, including those set out above, in a timely manner or at all, we could be subject to penalties by the relevant regulatory authorities, including withdrawal of the relevant approval and may cease to be permitted to operate our business or the concerned business operation, which may disrupt our operations and delay or prevent our expansion plans. While our Company has not been subjected to such an instance of withdrawal of the approval as on the date of this Prospectus, such occurrences could adversely affect our business, financial condition, results of operations and cash flows.

Further, we have made and are in the process of making applications to relevant authorities for updating the name of our Company in current registrations and approvals, pursuant to the conversion of our Company into a public company. Also, we are in the process of making applications to relevant authorities updating the address of Corporate Office of our Company in current registrations and approvals, pursuant to change in the Corporate Office of our Company. Furthermore, our government approvals and licenses are subject to numerous conditions, some of which are onerous and require us to make substantial expenditure. If we fail to comply or a regulator claims we have not complied with these conditions, our business, prospects, financial condition, cash flows and results of operations may be adversely affected. For further details, see “*Government and Other Approvals*” on page 362. Additionally, unfavorable changes in or interpretations of existing laws, or the promulgation of new laws, governing our business and operations, including in the telecom and e-commerce sectors in India, in the future could require us to obtain additional licenses, registrations and permissions. We cannot assure you that we will be able to obtain such additional licenses, registrations or permissions in the future, and our inability to do so could adversely affect our business, financial condition, results of operations and cash flows.

46. Our online marketing listings or reviews may constitute internet advertisement, which subjects us to laws, rules and regulations applicable to advertising.

We advertise our products on online and offline mediums, such as social media, print and television. Indian and international advertising laws, rules and regulations require advertisers, advertising operators and advertising distributors to ensure that the content of the advertisements they prepare or distribute is fair and accurate, is not false or misleading and is in compliance with applicable law. Violation of these laws, rules or regulations may result in, amongst other things, penalties and/or fines for issuing misleading advertisements, including fines, confiscation of advertising costs, orders to cease dissemination of the advertisements and orders to issue a corrective advertisement to neutralize the effect of advertisements that may be deemed misleading. As a member of the ASCI, a voluntary self-regulatory organization of the advertising industry in India, we receive from time to time recommendations from the ASCI in relation to some of our advertisements, and are subject to the ASCI Guidelines relating to marketing and advertising campaigns, which include guidelines targeted at ensuring truthful and honest representations, fairness in competition and non-offensiveness of advertising content to the public. We may also be subject to notices from and complaints to the ASCI in respect of our advertisements. Complying with these requirements or recommendations may reduce the attractiveness of our platform, and any penalties or fines for any failure to comply may increase our costs. Such occurrences could adversely affect our business, financial condition, cash flows and results of operations.

In addition, for advertising content related to specific types of products and services, advertisers, advertising operators and advertising distributors must confirm that the advertisers have obtained the requisite government approvals, including the advertiser’s operating qualifications, proof of quality inspection of the advertised products and services, and, with respect to certain industries, government approval of the content of the advertisement and filing with the local authorities. In certain cases, applicable guidelines (such as the Guidelines for Influencer Advertising on Digital Media, 2021 (“**Digital Media Guidelines**”) and ASCI guidelines) require that content created by influencers should carry a disclosure label identifying their posts as advertisements. Additionally, pursuant to the Digital Media Guidelines, the influencer must have labels on the advertisements inter alia ‘ad’, ‘sponsored collaboration’, ‘partnership’. Such responsibility of disclosure in terms of the

Digital Media Guidelines is on our Company and also the influencer. While we have not been in contravention of the applicable media guidelines in the past, including the Digital Media Guidelines, we cannot assure you that we will not be in contravention of such media guidelines in the future. Pursuant to the internet laws in India, we are required to take steps to moderate the content displayed on our apps and websites, such as reviews and images posted by consumers or influencers. These requirements entail considerable resources and time, and could significantly affect the operation of our business, while at the same time also exposing us to increased liability under the relevant laws, rules and regulations. The costs associated with complying with these applicable laws, rules and regulations, including any penalties or fines, could adversely affect our business, financial condition, cash flows and results of operations.

47. *We track certain operational and key business metrics with internal systems and tools. Certain of our operational metrics are subject to inherent challenges in measurement which may adversely affect our business and reputation.*

We track certain operational and key business metrics with internal systems and tools and which may differ from estimates or similar metrics published by third parties due to differences in sources, methodologies, or the assumptions on which we rely. Our methodologies for tracking these metrics may change over time, which could result in unexpected changes to our metrics, including the metrics we publicly disclose. If the internal systems and tools we use to track these metrics undercount or over count performance or contain algorithmic or other technical errors, the data we report may not be accurate.

Further, these (and other non-GAAP metrics presented in this Prospectus, such as Net Worth, NAV per Equity Share, Gross Profit, Gross Profit Margin/ Gross Margin, EBITDA, EBITDA margin, Adjusted EBITDA, Adjusted EBITDA Margin, working capital days of sale, invested capital in business, and cost of goods sold) are supplemental measure of our performance and liquidity that is not required by, or presented in accordance with, Ind AS, Indian GAAP, IFRS or US GAAP. Further, these metrics are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, IFRS or US GAAP and should not be considered in isolation or construed as an alternative to cash flows, profit/(loss) for the period/year or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, IFRS or US GAAP. Although these non-GAAP metrics are not a measure of performance calculated in accordance with applicable accounting standards, our management believes that they are useful to an investor in evaluating us, as these metrics are widely used measured to evaluate an entity's operating performance. In addition, these are not standardised terms, hence a direct comparison of these measures between companies may not be possible. Other companies may calculate these measures differently from us, limiting its usefulness as a comparative measure. If our operating metrics are not accurate representations of our business, if investors do not perceive our operating metrics to be accurate, or if we discover material inaccuracies with respect to these figures, we expect that our business, reputation, financial condition, results of operations and cash flows would be adversely affected. For further details, see "*Our Business*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" on pages 154 and 390, respectively.

48. *We do not own our Registered and Corporate Offices.*

As of June 30, 2023, all of our offices, including our Registered and Corporate Offices situated at Unit No. 404, 4th Floor, City Center, Plot No. 5, Sector – 12, Dwarka – South West Delhi, New Delhi – 110 075, India and at 10th & 11th Floor, Capital Cyberscape, Ullahwas, Sector 59, Gurugram 122 102, Haryana, India, respectively and other key properties to our business are located on leased premises. For further details, see "*Our Business – Description of Our Business – Properties*" on page 181.

We cannot assure you that we will be able to renew our leases in the future, on commercially acceptable terms or at all. We also cannot assure you that, if required to vacate our current premises, we would be able to obtain alternative arrangements for the premises, on commercially acceptable terms or at all. Relocation of our business operations may disrupt our operations and entail substantial costs, which could have an adverse effect on our business, prospects, results of operations and financial condition. Further, the lease deeds for our properties may not be adequately registered or stamped and consequently, may not be accepted as evidence in a court of law and we may be required to pay penalties for inadequate stamp duty or registration.

49. *Our Promoters, Directors and Key Management Personnel may have interests other than reimbursement of expenses incurred and receipt of remuneration or benefits from our Company. A Nominee Director is interested in an entity which invests in businesses similar to ours.*

Certain of our Promoters, Directors and Key Management Personnel are interested in us, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding, direct and indirect, and our stock options and benefits arising therefrom. Our Promoters are also interested in us to the extent of their shareholding in us and any benefits arising therefrom. Our Promoters do not have any material interest in other entities (including our Subsidiaries) which are in businesses similar to ours (including certain of our Subsidiaries). However, one of our shareholders which is a private equity investor and has a Nominee Director on our Board, is engaged in the business of investing in other entities and may have financial interests in such other entities which are in businesses similar to ours. We, however believe, that

this is unlikely to result in a conflict of interest with us because such shareholder's interests in our Company is purely financial in nature.

50. *This Prospectus contains information from third parties, including an industry report prepared by an independent third-party research agency, RedSeer Management Consulting Private Limited (RedSeer), which we have commissioned and paid for purposes of confirming our understanding of the industry exclusively in connection with the Offer.*

The industry and market information contained in this Prospectus includes information derived from an industry report prepared by RedSeer Management Consulting Private Limited (the “**RedSeer Report**”) titled “*Report on Beauty and Personal Care Market in India*” and dated October 7, 2023. The RedSeer Report has been commissioned and paid for by us for the purposes of confirming our understanding of the industry exclusively in connection with the Offer. We officially engaged RedSeer in connection with the preparation of the RedSeer Report pursuant to the engagement letters dated July 7, 2022, August 11, 2023 and August 29, 2023. The RedSeer Report uses certain methodologies for market sizing and forecasting, and may include numbers relating to our Company that differ from those we record internally. Given the scope and extent of the RedSeer Report, disclosures herein are limited to certain excerpts and the RedSeer Report has not been reproduced in its entirety in this Prospectus. Accordingly, investors should read the industry-related disclosure in this Prospectus in this context. Neither our Company, the Selling Shareholders nor the BRLMs are related to RedSeer. Further, we have also commissioned third-party research agencies, Crownit and NielsenIQ, to conduct consumer market research studies. For details, see “*Our Business*” on page 154.

Industry sources and publications are also prepared based on information as of specific dates. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Prospectus. Accordingly, investors should not place undue reliance on, or base their investment decision solely on this information.

51. *We have entered into, and will continue to enter into related party transactions. We cannot assure you that such transactions, individuals or in the aggregate, will not have an adverse effect on our business, financial condition, cash flows and results of operations.*

We have entered into various related party transactions, which arithmetically aggregated to an absolute total amount (post-elimination) of ₹47.98 million, representing 0.32% of our total revenue from operations during the Financial Year 2023, and to ₹15.80 million, representing 0.34% of our total revenue from operations during the three months period ended June 30, 2023. For further details of the related party transactions, see “*Other Financial Information — Related Party Transactions*” on page 313.

While we believe that all our related party transactions have been conducted on an arm's length basis, we cannot assure you that we could not have achieved more favourable terms had such transactions been entered into with unrelated parties. It is possible that we may enter into related party transactions in the future. We cannot assure you that such future transactions, individually or in the aggregate, will not have an adverse effect on our business, financial condition, cash flows and results of operations or that we could not have achieved more favourable terms if such future transactions had not been entered into with related parties. We cannot assure you that our Directors and officers will be able to address such conflicts of interests or others in the future.

EXTERNAL RISK FACTORS

Risks Related to India

52. *A substantial portion of our business and operations are located in India and as such, we are subject to regulatory, economic, social and political uncertainties in India, many of which are beyond our control.*

The Indian economy and capital markets are influenced by economic, political and market conditions in India and globally. We are incorporated in India, and almost all of our business and all of our personnel are located in India. Consequently, our business, cash flows and results of operations will be affected by a number of macroeconomic and demographic factors in India which are beyond our control. In particular, our total income and profitability are strongly correlated to consumer discretionary spending in India, which is influenced by general economic conditions, salaries and employment levels and consumer confidence. Recessional economic cycles, a protracted economic slowdown, a worsening economy, increased unemployment, increased energy prices, rising interest rates or other industry-wide cost pressures could also affect consumer behavior and spending for BPC products and lead to a decline in our total income and profitability.

While our results may not necessarily track India's economic growth figures, the Indian economy's performance affects the environment in which we operate. These factors could have an adverse effect on our business, financial condition, cash flows and results of operations.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely affect our business, results of operations, cash flows and financial condition and the price of the Equity Shares.

53. *Changing laws, rules and regulations and legal uncertainties, including any adverse application of corporate and tax laws, may adversely affect our business, cash flows, prospects and results of operations.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, cash flows, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

For instance, GoI has notified the Finance Act, 2021 ("**Finance Act**"), which introduced various amendments to the taxation laws in India. Under the Finance Act, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. Furthermore, the Government of India has announced the Union Budget for Fiscal 2024, pursuant to which the Finance Bill, 2023, introduced various amendments to taxation laws in India. The Finance Bill received assent from the President of India on March 31, 2023, and has been enacted as the Finance Act, 2023. Unfavorable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

In India, the Supreme Court, in a judgment delivered on 24 August 2017, has held that the right to privacy is a fundamental right. Following this judgment, the Government of India is considering the enactment of the Personal Data Protection Bill, 2022 on personal data protection for implementing organizational and technical measures in processing personal data and lays down norms for cross-border transfer of personal data and to ensure the accountability of entities processing personal data. The enactment of the aforesaid bill may introduce stricter data protection norms for a company such as us and may impact our processes.

Further, the GoI introduced new laws relating to social security, occupational safety, industrial relations and wages namely, the Code on Social Security, 2020 ("**Social Security Code**"), the Occupational Safety, Health and Working Conditions Code, 2020, the Industrial Relations Code, 2020 and the Code on Wages, 2019, which consolidate, subsume and replace numerous existing central labor legislations, were to take effect from April 1, 2021 (collectively, the "**Labour Codes**"). The GoI has deferred the effective date of implementation of the respective Labour Codes, and they shall come into force from such dates as may be notified. Different dates may also be appointed for the coming into force of different provisions of the Labour Codes. While the rules for implementation under these codes have not been finalized, as an immediate consequence, the coming into force of these codes could increase the financial burden on our Company, which may adversely impact our profitability. For instance, under the Social Security Code, a new concept of deemed remuneration has been introduced, such that where an employee receives more than half (or such other percentage as may be notified by the Central Government) of their total remuneration in the form of allowances and other amounts that are not included within the definition of wages under the Social Security Code, the excess amount received shall be deemed as remuneration and accordingly be added to wages for the purposes of the Social Security Code and the compulsory contribution to be made towards the employees' provident fund.

Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, cash flows, results of operations and prospects. Uncertainty in the application, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our businesses in the future.

54. *A downgrade in ratings of India, may affect the trading price of the Equity Shares.*

India's sovereign debt rating could be downgraded due to several factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, all which are outside the control of our Company. Our borrowing costs and our access to the debt capital markets depend significantly on the sovereign credit ratings of India. Any adverse revisions to India's credit ratings for domestic and overseas debt by international rating agencies may adversely impact our ability to raise additional external financing, and the interest rates and other commercial terms at which such additional financing

is available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of the Equity Shares.

55. *Our ability to raise foreign debt may be constrained by Indian law.*

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions limit our financing sources and could constrain our ability to obtain financings on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that any required regulatory approvals for borrowing in foreign currencies will be granted to us without onerous conditions, or at all. Limitations on raising foreign debt may have an adverse effect on our business growth, financial condition, cash flows and results of operations.

56. *Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.*

Foreign investment in Indian securities is subject to regulation by Indian regulatory authorities. Under foreign exchange regulations which are currently in force in India, transfer of shares between non-residents and residents is freely permitted (subject to compliance with sectoral norms and certain other restrictions) provided they comply with the pricing guidelines and reporting requirements specified under applicable law. Further, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. We sell our products on a retail and on a business-to-business basis under the manufacturing model (on a contract manufacturing basis), wholesale trading model and single brand retail. Under the Consolidated FDI Policy, 100% foreign direct investment is permitted in a company engaged in manufacturing, wholesale trading as well as single brand product retail, under the automatic route, subject to certain conditions specified thereunder. In the event of foreign direct investment beyond 51%, an investee entity is also required to comply with certain local sourcing norms as specified in the FEMA Rules and the Consolidated FDI Policy. Further, we may be constrained to limit the distribution channels to wholesale basis only for certain products if manufactured overseas in the future. Our inability to comply with any such conditions may restrict our ability to raise capital in the future or in the ability of foreign investors to purchase Equity Shares.

Further, in accordance with Rule 6(a) of the FEMA Rules and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares a land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government of India. These investment restrictions shall also apply to subscribers of offshore derivative instruments. We cannot assure investors that any required approval from the RBI or any other governmental agency can be obtained on any particular terms and conditions or at all. For further information, see “*Restrictions on Foreign Ownership of Indian Securities*” on page 403. Our ability to raise any foreign capital under the FDI route is therefore constrained by Indian law, which may adversely affect our business, cash flows, financial condition, results of operations and prospects.

57. *Financial instability in other countries may cause increased volatility in Indian financial markets.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial turmoil in Asia, Russia and elsewhere in the world in recent years has adversely affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us.

Furthermore, economic developments globally can have a significant impact on India. In particular, the global economy has been negatively impacted by the conflict between Russia and Ukraine. Governments in the United States, United Kingdom, and European Union have imposed sanctions on certain products, industry sectors, and parties in Russia. The conflict could negatively impact regional and global financial markets and economic conditions, and result in global economic uncertainty and increased costs of various commodities, raw materials, energy and transportation. In addition, recent increases in inflation and interest rates globally, including in India, could adversely affect the Indian economy.

In addition, China is one of India’s major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries. The sovereign rating downgrades for Brazil and Russia (and the imposition of sanctions on Russia) have also added to the growth risks for these markets. These factors may also result in a slowdown in India’s export growth. Any significant financial disruption could have an adverse effect on our business, financial condition, cash flows and results of operation.

58. *If inflation rises in India, increased costs may result in a decline in profits and result of operations may be adversely affected.*

Inflation rates in India have been volatile in recent years, and such volatility may continue. Increasing inflation in India could cause a rise in the costs of third party suppliers and contract manufacturers, rents, wages, raw materials and other

expenses. In recent years, India has experienced consistently high inflation, especially and increasingly so in recent months, which has increased the price of, among other things, our rent, raw materials and wages. Further, while the Government of India has previously initiated economic measures to combat high inflation rates, it is unclear whether these measures will remain in effect, and there can be no assurance that Indian inflation levels will not worsen and rise in the future. If we are unable to increase our revenues sufficiently to offset our increased costs due to inflation, it could have an adverse effect on our business, prospects, financial condition, results of operations and cash flows.

59. Significant differences exist between the Indian Accounting Standards (Ind AS) used to prepare our financial information and other accounting principles, such as the United States Generally Accepted Accounting Principles (U.S. GAAP) and the International Financial Reporting Standards (IFRS), which may affect investors' assessments of our Company's financial condition.

Our Restated Ind AS Summary Statements included in this Prospectus have been compiled from:

- (a) Audited Ind AS consolidated financial statements of the Group as at and for the year ended March 31, 2023 and March 31, 2022 prepared in accordance with Indian Accounting Standards (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other accounting principles generally accepted in India, along with the presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind-AS compliant Schedule III), as applicable which was approved by the Board of Directors at their meeting held on July 25, 2023 and August 31, 2022, respectively;
- (b) Audited Ind AS interim consolidated financial statements of the Group as at and for the three-month period ended June 30, 2023 and June 30, 2022 prepared in accordance with Ind AS 34 as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, (as amended from time to time) and other accounting principles generally accepted in India, along with the presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind-AS compliant Schedule III), which have been approved by the Board of Directors at their meeting held on October 13, 2023;
- (c) Audited Special Purpose Ind AS standalone financial statements of the Company as at and for the year ended March 31, 2021, which were prepared by the Company after taking into the consideration the requirements of the SEBI Letter and prepared after making suitable adjustments to the accounting heads from their Indian GAAP values following accounting policies and accounting policy choices (both mandatory exceptions and optional exemptions availed as per Ind AS 101) consistent with that used at the date of transition to Ind AS (April 1, 2020) and as per the presentation, accounting policies and grouping/classifications, including the revised Schedule III disclosures, pursuant to the SEBI Letter, and were approved by the Board of Directors at their meeting held on December 15, 2022 (the “**Special Purpose Ind AS Standalone Financial Statements**”).

Ind AS differs from accounting principles with which prospective investors may be familiar, such as Indian GAAP, IFRS and U.S. GAAP. Accordingly, the degree to which the Restated Consolidated Financial Information and financial information included in this Prospectus, will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Persons not familiar with Indian accounting practices, Ind AS, the Companies Act and the SEBI ICDR Regulations should limit their reliance on the financial disclosures presented in this Prospectus.

60. Our business and activities may be regulated by the Competition Act, 2002 and proceedings may be enforced against us.

The Competition Act, 2002, as amended (the “**Competition Act**”) was enacted for the purpose of preventing practices that have or are likely to have an adverse effect on competition in India and has mandated the Competition Commission of India (the “**CCI**”) to separate such practices. Under the Competition Act, any arrangement, understanding or action, whether formal or informal, which causes or is likely to cause an appreciable adverse effect on competition is void and attracts substantial penalties.

Further, any agreement among competitors which directly or indirectly involves determination of purchase or sale prices, limits or controls production, or shares the market by way of geographical area or number of consumers in the relevant market is presumed to have an appreciable adverse effect on competition in the relevant market in India and shall be void. Further, the Competition Act prohibits abuse of dominant position by any enterprise.

The combination regulation (merger control) provisions under the Competition Act require that the acquisition of shares, voting rights, assets or control or mergers or amalgamations which exceed any of the prescribed asset and turnover based thresholds shall be mandatorily notified to and pre-approved by the CCI. Further, the CCI has extraterritorial powers and can investigate any agreements, abusive conduct or combination occurring outside of India if such agreement, conduct or combination has an appreciable adverse effect in India. Any breach of the provisions of the Competition Act by our Company may attract substantial monetary penalties.

The applicability or impact of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage. However, if we pursue an acquisition driven growth strategy, we may be affected,

directly or indirectly, by the application or interpretation of any provision of the Competition Act, any enforcement proceedings initiated by the CCI, any adverse publicity that may be generated due to scrutiny or prosecution by the CCI, or any prohibition or substantial penalties levied under the Competition Act, which would adversely affect our business, results of operations, cash flows and prospects. We are not currently party to any outstanding proceedings, nor have we ever received any notice in relation to non-compliance with the Competition Act. Any enforcement proceedings initiated by the CCI in future, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI may affect our business, financial condition and results of operations.

Risks Related to the Offer

61. *We cannot assure payment of dividends on the Equity Shares in the future and our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants of our financing arrangements.*

We have a formal dividend policy as on the date of this Prospectus. Further, we have not declared dividends on the Equity Shares during the current Financial Year and the last three Financial Years. Our ability to pay dividends in the future will depend upon our future results of operations, financial condition, cash flows, sufficient profitability, working capital requirements and capital expenditure requirements and other factors considered relevant by our directors and shareholders. Our ability to pay dividends may also be restricted under certain financing arrangements that we may enter into. We cannot assure you that we will be able to pay dividends on the Equity Shares at any point in the future. For details, see “*Dividend Policy*” on page 219.

The declaration and payment of dividends will be recommended by the Board of Directors and approved by the Shareholders, at their discretion, subject to the provisions of the Articles of Association and applicable law, including the Companies Act. We may retain all future earnings, if any, for use in the operations and expansion of the business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on factors that our Board deems relevant, including among others, our future earnings, financial condition, cash requirements, business prospects and any other financing arrangements. We cannot assure you that we will be able to pay dividends in the future. Accordingly, realization of a gain on the Shareholders’ investments will depend on the appreciation of the price of our Equity Shares. We cannot assure you that our Equity Shares will appreciate in value.

62. *Our Equity Shares have never been publicly traded, and after the Offer, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the Offer Price may not be indicative of the market price of the Equity Shares after the Offer.*

Prior to the Offer, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Offer. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares.

The determination of the Price Band is based on various factors and assumptions, and will be determined by us, the Promoter Selling Shareholders and the Investor Selling Shareholders in consultation with the BRLMs. The Offer Price of the Equity Shares is proposed to be determined by us, the Promoter Selling Shareholders and the Investor Selling Shareholders in consultation with the BRLMs, through a book-building process. The Offer Price will be based on numerous factors, including factors as described under “*Basis for Offer Price*” beginning on page 122, and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. Further, the current market prices of some securities listed pursuant to certain previous issues managed by the BRLMs are below their respective issue prices. For further details, see “*Other Regulatory and Statutory Disclosures — Price information of past issues handled by the Book Running Lead Managers (during the current Financial Year and two Financial Years preceding the current Financial Year)*” on page 370. The market price of our Equity Shares may be subject to significant fluctuations, and may decline below the Offer Price, in response to, among other factors:

- quarterly variations in our results of operations;
- results of operations that vary from the expectations of research analysts and investors;
- results of operations that vary from those of our competitors;
- changes in expectations as to our future financial performance, including financial estimates by research analysts and investors;
- conditions in financial markets, including those outside India;
- a change in research analysts’ recommendations;

- announcements by us or our competitors of new products, significant acquisitions, strategic alliances or joint operations;
- claims or proceedings by third parties or governmental entities of significant claims or proceedings against us;
- new laws and governmental regulations or changes in laws and governmental regulations applicable to our industry;
- developments relating to our peer companies;
- additions or departures of Key Management Personnel; and
- general economic and stock market conditions

In addition, the stock market often experiences price and volume fluctuations that are unrelated or disproportionate to the operating performance of a particular company. There has been significant volatility in the Indian stock markets in the recent past, and the market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. These broad market fluctuations and industry factors may materially reduce the market price of the Equity Shares, regardless of our performance. Consequently, the price of our Equity Shares may be volatile, and you may be unable to resell your Equity Shares at or above the Offer Price, or at all. A decrease in the market price of our Equity Shares could cause investors to lose some or all of their investment.

63. Investors may be subject to Indian taxes arising out of income arising on the sale of and dividend on the Equity Shares.

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares held as investments in an Indian company are generally taxable in India. Any capital gain realized on the sale of listed equity shares on a Stock Exchange held for more than 12 months immediately preceding the date of transfer will be subject to long term capital gains in India at the specified rates depending on certain factors, such as whether the sale is undertaken on or off the Stock Exchanges, the quantum of gains and any available treaty relief. Accordingly, you may be subject to payment of long term capital gains tax in India, in addition to payment of Securities Transaction Tax (“STT”), on the sale of any Equity Shares held for more than 12 months immediately preceding the date of transfer. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold.

Further, any capital gains realized on the sale of listed equity shares held for a period of 12 months or less immediately preceding the date of transfer will be subject to short term capital gains tax in India. Further, withholding tax may be applicable on sale of shares by Non- Resident / FII under section 115E and 115AD.

No dividend distribution tax is required to be paid in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020 and, accordingly, such dividends would not be exempt in the hands of the Shareholders both for residents as well as non-residents. Our Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident Shareholder for the purposes of deducting tax at source pursuant to any corporate action, including dividends.

Similarly, any business income realized from the transfer of Equity Shares held as trading assets is taxable at the applicable tax rates subject to any treaty relief, if applicable, to a non-resident seller. Additionally, in terms of the Finance Act, 2018, which has been notified on March 29, 2018 with effect from April 1, 2018, the tax payable by an assessee on the capital gains arising from transfer of long term capital asset (introduced as section 112A of the Income Tax Act, 1961) shall be calculated on such long-term capital gains at the rate of 10.00%, where the long-term capital gains exceed ₹100,000, subject to certain exceptions in case of a resident individuals and HUF.

The Government of India announced the union budget for Fiscal 2024, following which the Finance Bill, 2023 (“**Finance Bill**”) has introduced various amendments. Subsequently, the Finance Bill received the assent from the President of India on March 31, 2023, and became the Finance Act, 2023 (“**Finance Act**”). There is no certainty on the impact of Finance Act on tax laws or other regulations, which may adversely affect the Company’s business, financial condition, results of operations or on the industry in which we operate. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning Equity Shares.

64. Pursuant to listing of the Equity Shares, we may be subject to pre-emptive surveillance measures like Additional Surveillance Measure (“ASM”) and Graded Surveillance Measures (“GSM”) by the Stock Exchanges in order to enhance market integrity and safeguard the interest of investors.

SEBI and the Stock Exchanges have introduced various pre-emptive surveillance measures in order to enhance market integrity and safeguard the interests of investors, including ASM and GSM. ASM and GSM are imposed on securities of companies based on various objective criteria such as significant variations in price and volume, concentration of certain client accounts as a percentage of combined trading volume, average delivery, securities which witness abnormal price rise not commensurate with financial health and fundamentals such as earnings, book value, fixed assets, net worth, price / earnings multiple, market capitalization etc.

Upon listing, the trading of our Equity Shares would be subject to differing market conditions as well as other factors which may result in high volatility in price, low trading volumes, and a large concentration of client accounts as a percentage of combined trading volume of our Equity Shares. The occurrence of any of the abovementioned factors or other circumstances may trigger any of the parameters prescribed by SEBI and the Stock Exchanges for placing our securities under the GSM and/or ASM framework or any other surveillance measures, which could result in significant restrictions on trading of our Equity Shares being imposed by SEBI and the Stock Exchanges. These restrictions may include requiring higher margin requirements, requirement of settlement on a trade for trade basis without netting off, limiting trading frequency, reduction of applicable price band, requirement of settlement on gross basis or freezing of price on upper side of trading, as well as mentioning of our Equity Shares on the surveillance dashboards of the Stock Exchanges. The imposition of these restrictions and curbs on trading may have an adverse effect on market price, trading and liquidity of our Equity Shares and on the reputation and conditions of our Company.

65. QIBs and Non-Institutional Investors were not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid, and Retail Individual Investors and Eligible Employees Bidding in the Employee Reservation Portion were not permitted to withdraw their Bids after Bid/Offer Closing Date.

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are required to pay the Bid Amount on submission of the Bid and were not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors and Eligible Employees Bidding in the Employee Reservation Portion can revise their Bids during the Bid/Offer Period and withdraw their Bids until the Bid/Offer Closing Date. While we are required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed including Allotment pursuant to the Offer within six Working Days from the Bid/Offer Closing Date, events affecting the Bidders’ decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operation or financial condition may arise between the date of submission of the Bid and Allotment. We may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Bidders’ ability to sell the Equity Shares allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline upon listing. QIBs and Non-Institutional Bidders will therefore not be able to withdraw or lower their bids following adverse developments in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or otherwise, between the dates of submission of their Bids and Allotment.

66. The Offer Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Offer.

The Offer Price of the Equity Shares is proposed to be determined by us, the Promoter Selling Shareholders and the Investor Selling Shareholders in consultation with the Book Running Lead Managers, through a book-building process. This price is based on numerous factors, as described under “Basis for Offer Price” beginning on page 122, and may not be indicative of prices that will prevail in the open market following the Offer. The market price of our Equity Shares could be subject to significant fluctuations after the Offer, and may decline below the Offer Price. In addition, the stock market often experiences price and volume fluctuations that are unrelated or disproportionate to the operating performance of a particular company. These broad market fluctuations and industry factors may materially reduce the market price of the Equity Shares, regardless of our Company’s performance. As a result of these factors, we cannot assure you that investors will be able to resell their Equity Shares at or above the Offer Price.

67. Investors may have difficulty enforcing foreign judgments against us or our management.

The Company is a limited liability company incorporated under the laws of India. The majority of our directors and executive officers are residents of India. A substantial portion of our assets and the assets of our Directors and executive officers resident in India are located in India. As a result, it may be difficult for investors to effect service of process upon us or such persons outside India or to enforce judgments obtained against us or such parties outside India.

Recognition and enforcement of foreign judgments is provided for under Section 13 of the Code of Civil Procedure, 1908 (“CPC”), on a statutory basis. Section 13 of the CPC provides that foreign judgments shall be conclusive

regarding any matter directly adjudicated upon, except: (i) where the judgment has not been pronounced by a court of competent jurisdiction; (ii) where the judgment has not been given on the merits of the case; (iii) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or a refusal to recognize the law of India in cases to which such law is applicable; (iv) where the proceedings in which the judgment was obtained were opposed to natural justice; (v) where the judgment has been obtained by fraud; and (vi) where the judgment sustains a claim founded on a breach of any law then in force in India. Under the CPC, a court in India shall, upon the production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on record. However, under the CPC, such presumption may be displaced by proving that the court did not have jurisdiction.

India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. Section 44A of the CPC provides that where a foreign judgment has been rendered by a superior court, within the meaning of that Section, in any country or territory outside of India which the GoI has by notification declared to be in a reciprocating territory, it may be enforced in India by proceedings in execution as if the judgment had been rendered by the relevant court in India. However, Section 44A of the CPC is applicable only to monetary decrees not being of the same nature as amounts payable in respect of taxes, other charges of a like nature or of a fine or other penalties. Some jurisdictions including the United Kingdom, United Arab Emirates, Singapore and Hong Kong have been declared by the GoI to be reciprocating countries for the purposes of Section 44A of the CPC.

The United States and India do not currently have a treaty providing for reciprocal recognition and enforcement of judgments, other than arbitration awards, in civil and commercial matters. Therefore, a final judgment for the payment of money rendered by any federal or state court in the United States on civil liability, whether or not predicated solely upon the federal securities laws of the United States, would not be enforceable in India.

However, the party in whose favor such final judgment is rendered may bring a new suit in a competent court in India based on a final judgment that has been obtained in the United States. The suit must be brought in India within three years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India.

Further, there may be considerable delays in the disposal of suits by Indian courts. It is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India. Furthermore, it is unlikely that an Indian court would enforce a foreign judgment if that court were of the view that the amount of damages awarded was excessive or inconsistent with public policy or Indian law. It is uncertain as to whether an Indian court would enforce foreign judgments that would contravene or violate Indian law. However, a party seeking to enforce a foreign judgment in India is required to obtain approval from the RBI under the FEMA to execute such a judgment or to repatriate any amount recovered.

68. Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.

Under the Companies Act, a company having share capital and incorporated in India must offer holders of its Equity Shares pre-emptive rights to subscribe and pay for a proportionate number of Equity Shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the Equity Shares who have voted on such resolution.

However, if the laws of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, you may suffer future dilution of your ownership position and your proportional interests in us would be reduced.

69. Fluctuations in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results.

On listing, our Equity Shares will be quoted in Indian Rupees on the NSE and BSE. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by Equity Shareholders. The exchange rate between the Indian Rupee and the U.S. dollar has fluctuated in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the returns on our Equity Shares, independent of our operating results.

70. Any future issuance of Equity Shares or convertible securities or other equity linked securities by us may dilute your shareholding and sales of the Equity Shares by our major shareholders may adversely affect the trading price of the Equity Shares.

We may be required to finance our growth through future equity offerings. Any future issuance of our Equity Shares, convertible securities or securities linked to our Equity Shares by us, including through exercise of employee stock options may dilute your shareholding in us. Any future equity issuances by us, including a primary offering, may lead to the dilution of investors' shareholdings in us. Any disposal of Equity Shares by our major shareholders or the perception that such issuance or sales may occur, including to comply with the minimum public shareholding norms applicable to listed companies in India may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of the Equity Shares or incurring additional debt. We cannot assure you that we will not issue further Equity Shares or that the shareholders will not dispose of, pledge or encumber the Equity Shares in the future. Any future issuances could also dilute the value of your investment in the Equity Shares. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of the Equity Shares.

71. A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of the Company, even if a change in control would result in the purchase of your Equity Shares at a premium to the market price or would otherwise be beneficial to you. Such provisions may discourage or prevent certain types of transactions involving actual or threatened change in control of our Company. Under the Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted or consummated because of the SEBI Takeover Regulations.

72. Rights of shareholders of companies under Indian law may be more limited than under the laws of other jurisdictions.

Our Articles of Association, composition of our Board, Indian laws governing our corporate affairs, the validity of corporate procedures, directors' fiduciary duties, responsibilities and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights under Indian law may not be as extensive and widespread as shareholders' rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as shareholder in an Indian company than as shareholders of an entity in another jurisdiction.

Illustration of the Book Building Process

Book building in the context of the Offer referred to the process of collection of Bids on the basis of the Red Herring Prospectus and the Bid Cum Application Forms (and the Revision Forms) within the Price Band and the minimum Bid Lot, which was decided by our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders in consultation with the Book Running Lead Managers, and was advertised in all editions of Financial Express, an English national daily newspaper, all editions of Jansatta, a Hindi national daily newspaper (Hindi being the regional language of New Delhi, where our Registered Office is located) at least two Working Days prior to the Bid/ Offer Opening Date and was made available to the Stock Exchanges for the purpose of uploading on their respective websites. The Offer Price was determined by our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders in consultation with the Book Running Lead Managers, after the Bid/ Offer Closing Date. For further details, see "*Offer Procedure*" on page 386.

All Bidders (other than Anchor Investors) participated in this Offer mandatorily through the ASBA process by providing the details of their respective bank accounts in which the corresponding Bid Amount was blocked by the SCSBs. In addition to this, the UPI Bidders participated through the ASBA process by either (a) providing the details of their respective ASBA Account in which the corresponding Bid Amount was blocked by the SCSBs; or (b) through the UPI Mechanism. Anchor Investors were not permitted to participate in the Offer through the ASBA process.

In terms of the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders were not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of the number of Equity Shares or the Bid Amount) at any stage. Anchor Investors are not allowed to withdraw their Bids after the Anchor Investor Bidding Date. RIBs could revise their Bids during the Bid/ Offer Period and withdraw their Bids until Bid/ Offer Closing Date Except for Allocation to RIBs, Non-Institutional Bidders and the Anchor Investors, allocation in the Offer was on a proportionate basis. Further, allocation to Anchor Investors was on a discretionary basis and allocation to the Non-Institutional Investors was in a manner as may be introduced under applicable laws.

Each Bidder was deemed to have acknowledged the above restrictions and the terms of the Offer, by submitting their Bid in the Offer.

The process of Book Building under the SEBI ICDR Regulations and the Bidding Process are subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to submitting a Bid in the Offer.

The Bidders should note that the Offer is also subject to obtaining (i) the final approval of the RoC after this Prospectus is filed with the RoC; and (ii) final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment as per the prescribed timelines.

For further details, see "*Terms of the Offer*", "*Offer Structure*" and "*Offer Procedure*" on pages 377, 383 and 386, respectively.

For details in relation to filing of the Red Herring Prospectus, see "*-Filing of the Red Herring Prospectus*" on page 79.

*Note: *The indicative number of Equity Shares to be underwritten is calculated excluding the QIB Portion of 39,362,048 Equity Shares*

The aforementioned underwriting commitments are indicative and will be finalised after the finalisation of the Basis of Allotment and actual allocation of Equity Shares in accordance with provisions of Regulation 40(2) of the SEBI ICDR Regulations.

In the opinion of our Board of Directors (based on representations made to our Company by the Underwriters), the resources of the aforementioned Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The aforementioned Underwriters are registered with SEBI under Section 12(1) of the SEBI Act or registered as brokers with the Stock Exchanges. Our Board of Directors, at its meeting held on November 2, 2023, approved the acceptance and entering into the Underwriting Agreement mentioned above on behalf of our Company.

Allocation among the Underwriters may not necessarily be in proportion to their underwriting commitment set forth in the table above.

Notwithstanding the above table, the Underwriters shall be severally responsible for ensuring payment with respect to the Equity Shares allocated to investors respectively procured by them in accordance with the Underwriting Agreement. In the event of any default in payment, the respective Underwriter, in addition to other obligations defined in the Underwriting Agreement, will also be required to procure purchasers for or purchase the Equity Shares to the extent of the defaulted amount in accordance with the Underwriting Agreement.

* Subject to finalisation of the Basis of Allotment.

[^] Calculated on the basis of total Equity Shares held and such number of Equity Shares which will result upon conversion of outstanding vested options under the ESOP Schemes

Our Promoters have given their consent to include such number of Equity Shares held by them as disclosed above, constituting 20% of the fully diluted post-Offer equity share capital of our Company as Promoters' Contribution. Our Promoters have agreed not to sell, transfer, charge, pledge or otherwise encumber in any manner the Promoters' Contribution from the date of filing this Prospectus, until the expiry of the lock-in period specified above, or for such other time as required under SEBI ICDR Regulations, except as may be permitted, in accordance with the SEBI ICDR Regulations.

- c) Our Company undertakes that the Equity Shares that are being locked-in are not ineligible for computation of Promoters' contribution in terms of Regulation 15 of the SEBI ICDR Regulations. For details of the build-up of the share capital held by our Promoters, see “- History of the equity share capital held by our Promoters” on page 97.

In this connection, we confirm that the Equity Shares considered as Promoters' Contribution:

- (i) have not been acquired during the immediately preceding three years from the date of this Prospectus for consideration other than cash and any revaluation of assets or capitalisation of intangible assets was not involved in such transactions;
- (ii) did not result from a bonus issue during the immediately preceding three years from the date of this Prospectus, by utilisation of revaluation reserves or unrealised profits of our Company, or from bonus issue against Equity Shares which are otherwise ineligible for Promoters' Contribution;
- (iii) are not acquired or subscribed to during the immediately preceding year from the date of this Prospectus at a price lower than the price at which the Equity Shares are being offered to the public in the Offer; and
- (iv) are not subject to any pledge or any other encumbrance.

Further, our Company has not been formed by conversion of a partnership firm or a limited liability partnership firm into a company and hence, no Equity Shares have been issued in the one year immediately preceding the date of this Prospectus pursuant to conversion from a partnership firm or limited liability partnership.

9. Details of Equity Shares locked-in for six months:

In addition to the 20% of the fully diluted post-Offer shareholding of our Company held by our Promoters locked in for 18 months, the entire pre-Offer equity share capital of our Company will be locked-in for a period of six months from the date of Allotment except for (i) any Equity Shares held by the employees (whether currently employees or not) of our Company which have been or will be allotted to them under the ESOP Schemes; and (ii) the Equity Shares held by Shareholders who are VCFs, Category I AIFs, Category II AIFs or FVCIs, provided that such Equity Shares will be locked-in for a period of at least six months from the date of purchase by such VCFs or Category I AIFs or Category II AIFs or FVCI Shareholders respectively, subject to the provisions of Regulation 8A(c) of the SEBI ICDR Regulations. In accordance with Regulation 8A(c) of the SEBI ICDR Regulations, for Shareholders holding (individually or with persons acting in concert) more than 20% of pre-Offer shareholding of our Company on a fully diluted basis, the provisions of lock-in as specified under Regulation 17 of the SEBI ICDR Regulations shall be applicable, and relaxation from lock-in as provided under Regulation 17(c) of the SEBI ICDR Regulations is not

applicable. Stellaris and Fireside Ventures Fund, being Category I AIFs each holding less than 20% of the pre – Offer share capital of the Company, are exempt from the lock – in period of six months from the date of purchase as envisaged under Regulation 17 of the SEBI ICDR Regulations.

10. Lock-in of the Equity Shares to be Allotted, if any, to the Anchor Investors

50% of the Equity Shares allotted to Anchor Investors under the Anchor Investor Portion shall be locked-in for a period of 90 days from the date of Allotment and the remaining Equity Shares allotted to Anchor Investors under the Anchor Investor Portion shall be locked-in for a period of 30 days from the date of Allotment.

11. Other requirements

As required under Regulation 20 of the SEBI ICDR Regulations, our Company shall ensure that the details of the Equity Shares locked-in are recorded by the relevant Depository.

Pursuant to Regulation 21(a) of the SEBI ICDR Regulations, the Equity Shares held by our Promoters, which are locked-in for a period of 18 months from the date of Allotment may be pledged as collateral security for loans granted by scheduled commercial banks, public financial institutions, NBFC-SI or housing finance companies, provided that such loans have been granted by such bank or institution for the purpose of financing one or more of the objects of the Offer and pledge of the Equity Shares is a term of sanction of such loans, which is not applicable in the context of this Offer.

Pursuant to Regulation 21(b) of the SEBI ICDR Regulations, the Equity Shares held by our Promoters which are locked-in for a period of six months from the date of Allotment may be pledged as collateral security for loans granted by scheduled commercial banks, public financial institutions, NBFC-SI or housing finance companies, provided that pledge of the Equity Shares is one of the terms of sanction of such loans.

In terms of Regulation 22 of the SEBI ICDR Regulations, Equity Shares held by our Promoters which are locked-in, may be transferred to the other Promoter or any member of our Promoter Group or a new promoter, subject to continuation of lock-in applicable with the transferee for the remaining period (and such transferees shall not be eligible to transfer until the expiry of the lock-in period) and compliance with provisions of the Takeover Regulations.

Further, in terms of Regulation 22 of the SEBI ICDR Regulations, Equity Shares held by persons (other than our Promoters) prior to the Offer and locked-in for a period of six months, may be transferred to any other person holding Equity Shares which are locked-in along with the Equity Shares proposed to be transferred, subject to the continuation of the lock-in with the transferee for the remaining period (and such transferees shall not be eligible to transfer until the expiry of the lock-in period) and compliance with the provisions of the Takeover Regulations.

- 12.** Except for the allotment of Equity Shares upon exercise of options vested pursuant to the ESOP Schemes, the Fresh Issue, our Company presently does not intend or propose to alter its capital structure for a period of six months from the Bid/ Offer Opening Date, by way of split or consolidation of the denomination of Equity Shares or further issue of Equity Shares (including issue of securities convertible into or exchangeable, directly or indirectly for Equity Shares) whether on a preferential basis or by way of issue of bonus shares or on a rights basis or by way of further public issue of Equity Shares or otherwise.
- 13.** Except for any issue of Equity Shares pursuant to Fresh Issue, exercise of options vested under the ESOP Schemes, there will be no further issue of Equity Shares whether by way of issue of bonus shares, preferential allotment, rights issue or in any other manner during the period commencing from the date of filing of the Red Herring Prospectus and this Prospectus with SEBI until the Equity Shares have been listed on the Stock Exchanges.
- 14.** As on the date of filing of this Prospectus, the total number of Shareholders of our Company is 78.
- 15.** As on the date of this Prospectus, all Equity Shares held by our Promoters are held in dematerialized form.
- 16.** Except as disclosed under “Notes to the Capital Structure – Share Capital History of our Company – Equity share capital” and “-History of the equity share capital held by our Promoters” on pages 88 and 97, none of our Promoters, member of our Promoter Group or any of the Directors or their relatives, as applicable, have purchased or sold any securities of our Company during the period of six months immediately preceding the date of this Prospectus.
- 17.** There have been no financing arrangements whereby our Promoters, members of our Promoter Group, our Directors and their relatives, have financed the purchase by any other person of securities of our Company, other than the normal course of business, during a period of six months immediately preceding the date of filing of the Draft Red Herring Prospectus, the Red Herring Prospectus and this Prospectus.
- 18.** Our Company, any of our Directors and the BRLMs have not entered into any buy back arrangements for purchase of Equity Shares from any person.
- 19.** The Equity Shares issued and transferred pursuant to the Offer shall be fully paid-up at the time of Allotment and there are no partly paid-up Equity Shares as on the date of the Red Herring Prospectus and this Prospectus.

20. The members of the Promoter Group (except the Promoters) shall not participate in the Offer nor receive any proceeds from the Offer.
21. No person connected with the Offer shall offer or make payment of any incentive, whether direct or indirect, in any manner, whether in cash or kind or otherwise, to any Bidder for making a Bid, except for fees or commission for services rendered in relation to the Offer.
22. As on the date of this Prospectus, the BRLMs and their respective associates (as defined in the SEBI Merchant Bankers Regulations) do not hold any Equity Shares of our Company. The BRLMs and their affiliates may engage in the transactions with and perform services for our Company in the ordinary course of business or may in the future engage in commercial banking and investment banking transactions with our Company for which they may in the future receive customary compensation.
23. Except as disclosed in this section, there are no outstanding warrants, options or rights to convert debentures, loans or other instruments into, or which would entitle any person any option to receive Equity Shares as on the date of the Red Herring Prospectus and this Prospectus.
24. **Employee Stock Options Scheme of our Company**

As on the date of this Prospectus, the ESOP Schemes have a common pool pursuant to which the maximum number of Equity Shares that can be issued under the ESOP Schemes is 12,115,099.

(1) Amount spent in excess of ₹1,820.00 million shall be utilised from the internal accruals of our Company

(2) The amount to be utilised for general corporate purposes and towards unidentified inorganic acquisition does not, in aggregate, exceed 35% of the Net Proceeds, out of which the amounts to be utilised towards either of (i) general corporate purposes, or (ii) unidentified inorganic acquisitions does not exceed 25% of the Net Proceeds

The deployment of funds indicated above is based on management estimates, current circumstances of our business and prevailing market conditions, all of which are subject to change. The deployment of funds described herein has not been appraised by any bank or financial institution or any other independent agency. We may have to revise our funding requirements and deployment from time to time on account of various factors, such as financial and market conditions, competition, business and strategy and interest/ exchange rate fluctuations and other external factors, which may not be within the control of our management. In the event that estimated utilization out of the Net Proceeds in a Fiscal Year is not completely met, the same shall be utilized in the next Fiscal Year. This may entail rescheduling the proposed utilisation of the Net Proceeds and changing the allocation of funds from its planned allocation at the discretion of our management, subject to compliance with applicable law. For details, see “Risk Factors - Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by any bank or financial institution or any other independent agency. Our management will have broad discretion over the use of the Net Proceed” on page 51.

Details of the Objects

1. Advertisement expenses towards enhancing the awareness and visibility of our brands

Since launching Mamaearth in 2016, we have added five new brands to our portfolio, namely The Derma Co., Aqualogica, Ayuga, BBlunt and Dr. Sheth’s, and have built a ‘House of Brands’ architecture. As of June 30, 2023, our portfolio of brands with differentiated value propositions includes products in the baby care, face care, body care, hair care, color cosmetics and fragrances segments. For further details, see “Our Business” on page 154.

Over the years, as our business has grown and our advertisement strategy to widen our customer base has evolved to focus on deploying a holistic marketing strategy across digital and traditional platforms and actively leverage our differentiated content, community, and commerce flywheels to improve our reach and drive effective engagement to acquire new consumers. With the aim of customer acquisition and retention, we have historically expended significantly towards marketing and promotions to enhance the visibility of all our brands. Our advertisement expenses were ₹1,779.38 million, ₹3,914.74 million, ₹5,302.78 million, ₹1,625.12 million and ₹1,290.49 million during Financial Years 2021, 2022 and 2023 and the three-month period ended June 30, 2023 and June 30, 2022, respectively, and constituted 38.68%, 41.49%, 35.52%, 34.99% and 41.33% of our revenue from operations for such periods/ years, respectively, on a consolidated basis.

The breakup of the advertisement expenses incurred by our Company for the year ended March 31, 2021, March 31, 2022, March 31, 2023 and three-months period ended June 30, 2023 and June 30, 2022 on a standalone basis are as follows:

With our products gaining steady traction and our distribution network now spanning across India, we intend to increase our marketing and advertising spends to further reinforce and create higher visibility for our existing brands and BPC product portfolio, as well as for brands that we may incubate or acquire in the future. For further details see, "Our Business" on page 154. Further, some of our newer brands are in early stages and advertisement expenses are essential to create and grow these brands. We intend to invest in, among other things, advertisements, optimisation of website searches, media campaigns, trade shows, loyalty programs and social media marketing, in-store beauty advisors, etc., requirements of which will be analysed by our management from time to time.

Historically, we have incurred expenses towards advertisements including towards (i) television campaigns; (ii) digital spends; (iii) influencer spends; and (iv) visibility spends. We typically engage independent, third party advertisement agencies such as TLG India Private Limited and Korra Worldwide Advertising Private Limited on a non-exclusive basis to provide media planning, buying, implementation and other allied services for promotion, advertisement and management of our products and brands and propose to continue to engage with such agencies in the future for our proposed advertisements spends.

Deployment of advertising campaigns as well as brand building initiatives in any particular media segment or through any particular channel or platform would be contingent on various factors, such as the nature of the advertising campaign, ratings or expected viewership of our advertisements for different geographies, time slots or user segments, and our business and marketing plans overall. Further, maintaining and improving upon our advertisement strategies involves expenditures which may not be proportionate to the revenue generated and customers acquired.

The number of online purchases from our DTC channel was 7.30 million, 5.13 million, 2.69 million, 2.00 million and 1.82 million during the financial years ended March 31, 2023, March 31, 2022 and March 31, 2021 and the three months period ended June 30, 2023 and June 30, 2022, respectively.

Our consumer engagement and marketing capabilities have translated into a strong retention funnel for our Mamaearth brand with 38.51%, 43.15%, 56.90%, 52.65% and 63.20% of our revenue from operations for our Mamaearth brand from the DTC channel being attributable to existing customers during Financial Year 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, respectively.

For the financial years ended March 31, 2023, March 31, 2022 and March 31, 2021 and the three months period ended June 30, 2023 and June 30, 2022, our advertisement expense as a percentage of revenue from operations was 35.52%, 41.49%, 38.68%, 34.99% and 41.33%, respectively on consolidated basis whereas it is 36.18%, 41.93%, 38.68%, 34.84% and 43.23% on standalone basis.

Proposed utilisation of Net Proceeds

Our Company undertakes advertising on television channels through campaigns prepared by its advertising team in liaison with advertising agencies from time to time, for segments on television programmes. For deploying such advertisements, time slots are purchased from media agencies on the relevant television channels. To arrive at estimated costs to be incurred by our Company towards television campaign spends, our Company takes into account the proposed number of campaigns, average run time of the commercials and the proposed number of weeks such campaigns would be aired, the television rating points on a gross level and the costs that would be incurred per 10

seconds of the advertisements. Similarly, for digital brand spends, our Company incurs expenditure towards digital brand building and presence in digital media across social media platforms, websites and search platforms and its own websites and digital platforms. To arrive at estimated digital brand spends, our Company takes into account the target reach for these digital campaigns, the views that it can garner through advertising content and the cost per view across social media platforms, over-the-top (OTT) platforms and other content and consideration platforms.

The Company has entered into an agreement dated December 8, 2022 read with addendum dated October 6, 2023, with TLG India Private Limited (“**TLG**”) in connection with planning, preparing, and placing of advertisements and procurement of media planning, buying and allied services from TLG for the Company’s brands and products (“**TLG Agreement**”). The agreement is valid till March 31, 2027, and the scope of service by TLG includes *inter alia* marketing on offline as well as online media on a non-exclusive basis for the products, initiatives and campaigns being advertised under Company’s brands and arranging and providing advertising space, time or other means to be used for advertisements and publication. The agreement provides for the marketing expenditure covering TV campaign spends and digital brand building spends by the Company.

The Net Proceeds are proposed to be deployed towards advertisement expenses for television campaign spends and digital brand building spends in Financial Years 2024, 2025, 2026 and 2027. In terms of the TLG Agreement, an estimated expenditure of approximately ₹3,000 million at the discretion of the Company during the term of the agreement has been provided for, inclusive of commission to be paid to TLG and any third party spends towards the services rendered including but not limited to indoor, outdoor, television, print, social media and digital media. In this respect, the Company estimates an expenditure of (i) ₹1,636 million towards television campaign spends, assuming an average of 36 weeks of television campaign air time in each of Financial Year 2024, 2025, 2026 and 2027 at an estimated average cost (factoring estimated inflation) between ₹4,069 to ₹4,710 per 10 seconds of advertisement; and (ii) ₹1,364 million towards digital brand building spends based on the target reach for these digital campaigns across various digital platforms, estimated number of views and at an estimated average rate of ₹0.3 to ₹0.5 per view.

The Company proposes to deploy ₹1,500 million and ₹320 million towards television campaign spends and digital brand building spends, respectively from the Net Proceeds and fund the balance amount from internal accruals. The break-up of these television campaign spends and digital brand building spends for which Net Proceeds are proposed to be utilised for Financial Years 2024, 2025, 2026 and 2027 is provided below:

(in ₹ million)

Particulars	Aggregate proposed deployment from Net Proceeds	Proposed deployment from Net Proceeds in Financial Year 2024	Proposed deployment from Net Proceeds in Financial Year 2025	Proposed deployment from Net Proceeds in Financial Year 2026	Proposed deployment from Net Proceeds in Financial Year 2027
TV campaign spends	1,500.00	156.67	509.00	550.00	284.33
Digital brand building spends	320.00	33.33	111.00	120.00	55.67
Total	1,820	190.00	620.00	670.00	340.00

Our Statutory Auditors have provided no assurance or services related to any prospective financial information in this Prospectus.

However, our deployment of advertising campaigns on television and digital media is contingent on various factors, such as the nature of the advertising campaigns, ratings of programmes or segments, expected viewership of our advertisements during certain time-slots and segments, and our Company’s business and marketing plans. For instance, advertisements on well publicised segments on television channels (such as major sporting events, awards ceremonies or first-time movie releases on television) are likely to be viewed by a larger number of viewers, but advertising time-slots on such segments are likely to cost more than on other segments. Further, our deployment of advertising campaigns is based on management estimates, current circumstances of our business and prevailing market conditions and contingent on various factors. Accordingly, we may choose to spend more for digital brand building and less for TV campaigns or, vice versa, in variance to that mentioned in the TLG Agreement and as set out above, including through other media services agreement(s), subject to the overall deployment of ₹ 1,820.00 million from the Net Proceeds for this purpose, being utilised for only TV campaign spends and digital brand building. Any additional expenses which may be incurred by our Company towards advertisement expenses would be funded through internal accruals of the Company or means other than the Net Proceeds.

2. **Capital expenditure to be incurred by our Company for setting up new EBOs**

The first EBO of our Company was launched on October 10, 2021. As on June 30, 2023, we had 85 EBOs across 46 districts in India exclusively retailing products for our Mamaearth brand.

Average revenue per EBO in Fiscal Year 2023 and three months period ended June 30, 2023 are provided below:

(in ₹)

Particulars	For the year ended March 31, 2023	Three-months period ended June 30, 2023
Average revenue per EBO*	3,116,084	959,319

* Calculated as Net sales through EBOs during a given period divided by average of opening and closing number of EBOs for that period.

We typically open our EBOs across high street and mall formats.

We believe there is an opportunity for further growth in the markets in which we operate as well as in new markets, and in order to build on our track record of expansion, we plan to strategically increase our presence and market share in the BPC sector by setting-up EBOs in India. We intend to open new Mamaearth EBOs across a mix of mall stores and high-street outlets in India. We intend to leverage this channel to curate a richer brand experience for our consumers and deepen engagement with them in the offline retail environment. We also intend to use our EBO channel to further develop strategic categories such as colour cosmetics that require a more personalized service and experience to facilitate purchase conversion. For further details, please see “Our Business” on page 154.

Our Company incurred capital expenditure of ₹55.72 million during Financial Year 2023 and ₹6.93 million during the three-month period ended June 30, 2023, comprising 0.37% and 0.15% of our revenue of operations for the respective periods, respectively, towards setting up of such EBOs. Our Company operates our EBOs on a leasehold basis.

Average capital expenditure on setting up EBOs commenced in the Fiscal 2023 and in three months period ended June 30, 2023 are provided below:

Particulars	For the year ended March 31, 2023	Three-months period ended June 30, 2023
Average capital expenditure		
EBOs (more than 100 sq. ft.)	1,036,835	1,176,502
EBOs (up to 100 sq. ft.)	362,618	411,600

(in ₹)
* As certified by B.B. & Associates, Chartered Accountants, pursuant to their certificate dated October 23, 2023.

For details of estimated capital expenditure to be incurred for an Average Store Size, please see “-Details of Objects - Capital expenditure to be incurred by our Company for setting up new EBOs” and “-Details of Objects - Investment in our Subsidiary, BBLunt for setting up new salons” on pages 113 and 115, respectively.

Proposed utilisation of Net Proceeds

Our Company proposes to utilise ₹206 million from the Net Proceeds during Financial Years 2025, 2026 and 2027 towards expansion of EBOs in India across a mix of mall stores and high-street outlets in India. Our Company proposes to set up 132 new EBOs across India, as set out below:

Period	Opening targets
Financial Year 2025	44
Financial Year 2026	44
Financial Year 2027	44
Total	132

As on the date of this Prospectus, we are yet to identify the exact locations or enter into agreements for lease of suitable properties for setting up the EBOs or salons pursuant to which we intend to utilize the amount from Net Proceeds. While we may open EBOs in, *inter alia*, the following Indian cities namely, Mumbai, Bangalore, Hyderabad, Ahmedabad, Chennai, Kolkata, Pune, Jaipur, Lucknow, Ludhiana, Amritsar, Coimbatore, Calicut, Cochin and Delhi/national capital region, these locations are not exhaustive and may undergo changes. These will be decided by our Company after conducting a detailed analysis of the demographics, foot falls, lease rentals and other business and market considerations. The above estimate of number of EBOs to be set up is an internal management estimate and based on current business needs. The total number of EBOs that are set up may vary from the above estimates, subject to compliance with applicable law, in light of *inter alia* changes in costs, business strategy or external circumstances which may not be in our control.

Estimated cost

Capital expenditure

The cost of setting up of new EBOs typically comprises of capitalised costs as are as follows: (a) heating ventilation and air conditioning; (b) distribution boards, fire alarm system; (c) fire panels; (d) fixtures and installation; (e) close circuit televisions, information technology assets; (f) other civil services; (g) signage and logos; (h) wall panelling/ wooden work.

The sizes and layout of our EBOs will vary across regions and depend on various factors such as type / format of the EBOs, availability of suitable locations, addressable market, lease rentals, competition within a given region or across regions, etc. To arrive at the estimated costs for setting up an EBO:

- (i) We have considered an average EBO size of 350 square feet (“**Average Store Size**”), being the average of the typical sizes of the various categories of mall stores and high-street outlets in India; and
- (ii) we have taken into account (a) sample quotations on turnkey basis received from some of our empanelled contractors or from vendors from whom we have purchased similar items, with a sample size of one EBO assuming set-up in Financial Year 2025; and (b) our management and internal estimates for specifications and item requirements, based on our prior experience of setting-up similar EBOs.

Accordingly, the estimated capital expenditure for setting-up of one Average Store Size EBO in Financial Year 2025 is as follows:

Particulars		Total estimated cost for setting up one Average Store Size EBO
Components ⁽¹⁾⁽³⁾	Components include	
Heating ventilation and air conditioning	Cassette air conditioners, air handling units	110,250
Distribution boards, fire alarm system	Flow and pressure gauge, battery housing	110,250
Fire panels	Online UPS, fans	54,915
Fixtures and installation	Sitting chairs, colour care units, metal racks	275,625
Close circuit televisions, IT assets	Televisions, cables, speakers	88,200
Other civil services	Tiling, paint etc.	551,250
Signage and logos	Rolling shutters, acrylics letters	220,500
Wall panelling/ wooden work	Ply and gypsum retardants	77,385
Total		1,488,375⁽²⁾
Total (in ₹ million)		1.49

(1) Our Company will procure one unit for each of the aforementioned components

(2) Exclusive of GST. The GST amount shall be paid and utilised from the internal accruals of the Company

(3) Based on the quotation from Decrr Interio Private Limited dated September 11, 2023. The expected date of supply of the aforementioned components to the Company is to be completed before March 15, 2025

Our Company has assumed an average inflation rate of 5% in Fiscal 2026 and Fiscal 2027. Due to this inflation, our per EBO capital expenditure may increase every Financial Year.

While the average capital expenditure for three months period June 30, 2023 for setting up EBOs (more than 100 sq. ft.) was ₹1,176,502, the estimated capital expenditure for setting-up of one Average Store Size in Financial Year 2025 is ₹1,488,375, which is higher on account of estimated inflationary trends and types of materials and equipments proposed to be installed in EBOs. Further, the estimated capital expenditure for Financial Year 2025 is based on the quotations from Decrr Interio Private Limited dated September 11, 2023.

The quotations for setting up of an EBO of Average Store Size has been procured from Decrr Interio Private Limited dated September 11, 2023, IM Retail dated September 5, 2023 and Tvastra dated September 1, 2023 and are valid till November 30, 2024. We have not entered into any definitive agreements with any or all of these contractors / vendors and there can be no assurance that the above-mentioned contractors / vendors would be eventually engaged to supply the above-mentioned materials. Our Promoters, Promoter Group, Directors or KMPs have no interest in the proposed procurements, as stated above.

3. Investment in our Subsidiary, BBlunt for setting up new salons

Our acquisition of BBlunt in March 2022 has enabled us to access the professional salon channel. By delivering a personalized experience at these salons with recommendations from trained stylists, we have been able to build trust amongst consumers which has strengthened brand equity for our products. This channel is expected to provide us with a ready base of consumers to generate trials and will provide the ability to acquire new consumers, not only for BBlunt but also for other brands in our portfolio. For further details, see “Our Business” and “History and Certain Corporate Matters – Our Subsidiaries– Direct subsidiaries” on pages 154 and 193, respectively.

Average capital expenditure on setting up salons commenced in the Fiscal 2023 and in three months period ended June 30, 2023 are provided below:

Particulars	(in ₹)	
	For the year ended March 31, 2023	Three-months period ended June 30, 2023
Average capital expenditure		
Salons	8,357,268	NA

* As certified by B.B. & Associates, Chartered Accountants, pursuant to their certificate dated October 23, 2023.

As of June 30, 2023, we had ten salons across three districts in India. We believe there is an opportunity for further growth in the markets in which BBlunt operates as well as in new markets, and in order to build on our track record of expansion, we plan to strategically increase our presence and market share by setting up new salons in India.

Proposed utilisation of Net Proceeds

We propose to utilize ₹ 260 million out of the Net Proceeds towards investment in BBlunt for the purpose of setting-up 20 new Salons of BBlunt, to be undertaken over the course of Financial Years 2025, 2026 and 2027, as set out below:

Period	Opening targets
Financial Year 2025	7
Financial Year 2026	7
Financial Year 2027	6
Total	20

Locations for the new salons to be set up have not been identified as on the date of this Prospectus. These will be decided by BBlunt after conducting a detailed analysis of the demographics, foot falls, lease rentals and other business and market considerations. The above estimate of number of salons to be set up is an internal management estimate and based on current business needs. The total number of salons that are set up may vary from the above estimates, subject to compliance with applicable law, in light of *inter alia* changes in costs, business strategy or external circumstances which may not be in our control.

We will invest in BBlunt in Fiscal 2024, 2025, 2026 and 2027, in either in the form of debt or equity, which will be determined by our Company at the time of making such investment and has not been finalized as on the date of this Prospectus. BBlunt does not have any stated dividend policy and our Company cannot be assured of any dividends from such investment. Our Company will remain interested in BBlunt to the extent of our shareholding, or as a lender if funds are deployed in the form of debt. We believe that investment in BBlunt in furtherance of the above-stated object will enable us to earn increasing revenues on a consolidated basis, progressively scale our business, compete effectively, increase our visibility and expand our existing consumer base.

Estimated cost

Capital expenditure

The details of estimated capital expenditure for setting up of new salons are as follows: (a) civil and interior; (b) heating, ventilation and air conditioning; (c) plumbing; (d) electricals; (e) furnishing and equipment; and (f) Pantry.

The sizes and layout of our salons vary across regions and are dependent on various factors such as type / format of the salon, availability of suitable locations, addressable market, lease rentals, competition within a given region or across regions, etc. To arrive at the estimated cost for setting up a salon:

- (i) We have considered an average salon size of 2,500 square feet (“**Average Salon Size**”) for arriving at the estimated costs for setting-up a new salon; and
- (ii) We have taken into account (a) sample quotations on a turnkey basis received from certain contractors or from vendors from whom we have purchased similar items, with a sample size of one salon assuming set up in Financial Year 2025; and (b) our management and internal estimates for specifications and item requirements, based on our prior experience of setting-up similar salons.

Accordingly, the estimated capital expenditure for setting-up of one Average Salon Size salon in Financial Year 2025 is as follows:

Components ⁽¹⁾⁽²⁾⁽³⁾	Particulars	Estimated cost for setting up one Average Salon Size
Civil and interior	Italian marble floorings, mirrors	5,402,250
Heating, ventilation and air conditioning	Cassette air conditioner, air handling unit	1,323,000
Plumbing	Internal water drainage, sanitary fixtures	716,625
Electricals	Lighting fixtures (led roll, dome), panel lights	1,874,250
Furnishing and equipment	Sofa, wooden storage	1,543,500
Pantry/ back office	Close circuit televisions, biometrics, glass work	1,543,500
Total		12,403,125⁽²⁾
Total (in ₹ million)		12.40

(1) BBlunt will procure one unit for each of the aforementioned components

(2) Exclusive of GST. The GST amount shall be paid and utilised from the internal accruals of BBlunt

(3) Based on the quotations from Decrr Interio Private Limited dated September 11, 2023. The expected date of supply of the aforementioned components to BBlunt is to be completed before March 15, 2025

BBlunt has assumed an average inflation rate of 5% in Fiscal 2026 and Fiscal 2027. Due to this inflation, the per salon capital expenditure may increase every Financial Year.

While the average capital expenditure for Fiscal 2023 for setting up salons was ₹8,357,268, the estimated capital expenditure for setting-up of one Average Size Salon in Financial Year 2025 is ₹12,403,125, which is higher on account of estimated inflationary trends and types of materials and equipments proposed to be installed in salons.

Further, the estimated capital expenditure for Financial Year 2025 is based on the quotations from Decrr Interio Private Limited dated September 11, 2023.

The quotations for setting up of a new salon of Average Salon Size has been procured from Decrr Interio Private Limited dated September 11, 2023, IM Retail dated September 5, 2023 and Tvastra dated September 1, 2023 and are valid till November 30, 2024. We may not have entered into any definitive agreements with any or all of these contractors / vendors and there can be no assurance that the above-mentioned contractors / vendors would be eventually engaged to supply the above-mentioned materials. Our Promoters, Promoter Group, Directors or KMPs have no interest in the proposed procurements, as stated above.

4. General corporate purposes and unidentified inorganic acquisitions

We propose to deploy the balance Net Proceeds, aggregating to ₹1,218.92 million, towards general corporate purposes and unidentified inorganic acquisitions subject to such utilisation not exceeding 35% of the Net Proceeds, in compliance with the SEBI ICDR Regulations. Further, the amount to be utilised for general corporate purposes alone shall not exceed 25% of the Net Proceeds.

The amount of Net Proceeds to be used for each individual acquisition and/ or investments will be based on our management's decision and may not be the total value or cost of any such investments, but is expected to provide us with sufficient financial leverage to pursue such investments. The actual deployment of funds will also depend on a number of factors, including the timing, nature, size and number of acquisitions undertaken in a particular period, as well as general factors affecting our results of operation, financial condition and access to capital. These factors will also determine the form of investment for these potential acquisitions, i.e., whether they will be directly done by our Company or through investments in our Subsidiaries in the form of equity, debt or any other instrument or combination thereof, or whether these will be in the nature of asset or technology acquisitions or joint ventures. Acquisitions and inorganic growth initiatives may be undertaken as share-based transactions, including share swaps, or a combination thereof, or as done previously, be undertaken as cash transactions. Please also see “-Rationale for acquisitions in future” on page 118, below.

At this stage, our Company cannot identify any acquisition targets, the acquisition or investment process and whether (i) the form of investment will be cash, equity, debt or any other instrument or combinations thereof; (ii) such acquisitions would be in same industry; or (iii) such acquisition will be in domestic market or outside India or both.

Strategic acquisitions and investments towards inorganic growth

The table below summarizes the key acquisitions that we have undertaken in the past from our internal accruals:

Name of entity	Nature of acquisition	Cost of acquisition (in ₹ million) ⁽¹⁾	Date of acquisition	Country of incorporation	Acquisition rationale
Just4Kids	Acquisition of “Momspresso”***	1,679.31*	December 24, 2021 and September 12, 2023	India	To expand our content and influencer management capabilities and to strengthen our content creation capabilities by enabling us access to a large and ready library of relevant content of Momspresso.
BBlunt	Acquisition of BBlunt salons along with the BBlunt product business	1,376.03	March 16, 2022	India	To expand our portfolio of brands and product offerings in the professional salon channels
Fusion	Acquisition of “Dr. Sheth’s” brand	541.23	April 6, 2022 and December 9, 2022	India	To further expand our portfolio of brands and product offerings pursuant to the acquisition of Dr. Sheth’s brand that offers specialized skincare solutions crafted with a combination of natural and active ingredients

* Cost of acquisition in Just4Kids includes ₹ 1,194.59 million in Financial Year 2022, ₹254.64 million in Financial Year 2023 and ₹230.08 million in Financial Year 2024.

** We have recorded an impairment loss on goodwill and other intangible assets of ₹1,546.97 million for Financial Year 2023. This was primarily due to the management decision to scale down the majority of the business verticals of Momspresso. For further details see “Risk Factors – We have recorded losses in the past. Any losses in the future may adversely impact our business and the value of the Equity Shares.” and “Management’s Discussion and Analysis of Financial Condition And Results Of Operations - Our Results of Operations - Financial Year 2023 compared to Financial Year 2022 – Exceptional items” on pages 41 and 347.

⁽¹⁾ As certified by B.B. & Associates, Chartered Accountants pursuant to the certificate dated October 23, 2023.

For further details on the acquisitions mentioned above, see “*History and Certain Corporate Matters – Details regarding material acquisitions or divestments of business/ undertakings, mergers, amalgamation, any revaluation of assets, etc. in the last 10 years*” on page 191. For details in relation to the past acquisitions undertaken by the Company, please see, “*Objects of the Offer – General corporate purposes and unidentified inorganic acquisitions - Strategic acquisitions and investments towards inorganic growth*” on page 117 and “*Our Business – Our Strategies*” on page 165 of the RHP.

Rationale for acquisitions in future

Some of the selection criteria that we may consider when evaluating strategic acquisitions include:

- expertise in the domain we operate in or wish to expand into;
- strategic fit to our existing business or serving connected extensions;
- new customers/users that we can serve with our existing capabilities;
- newer technology infrastructure, service/product offerings, and advanced personnel including ones which plug-in gaps in our existing ecosystem/value chain;
- enhance our geographical reach;
- strengthen market share in existing markets; and
- strong management team.

Our acquisition strategy is primarily driven by our Board and the typical framework and process followed by us for acquisitions involves identifying the strategic acquisitions based on the rationale set out above, entering into requisite non-disclosure agreements and conducting diligence of the target. On satisfactory conclusion of the diligence exercise, we enter into definitive agreements to acquire the target based on the approval of our Board and the shareholders, if required. As on the date of this Prospectus, we have not entered into any definitive agreements towards any future acquisitions or strategic initiatives for the object set out above.

For further details, see “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations – Continued innovation and development of new product categories, including through strategic acquisitions*” on pages 154 and 323, respectively.

We will from time to time undertake potential acquisitions and/ or investments in line with our business objectives and overall expansion strategies, with a view to augment our growth by acquiring companies with strong supply/ distribution capabilities, expand our product offerings and portfolios, enhance our geographical presence and strengthen our existing platforms through complementary technology and advancements for better consumer experience, such as content creation and influencer management and data processing. Accordingly, we believe that acquisitions and investments made by our Company in furtherance of the factors set out above, will fit in our strategic business objectives and growth strategies.

We intend to utilise the above-stated portion of the Net Proceeds towards our strategic acquisitions and/or investments which may be undertaken over the course of next three Financial Years. The proposed inorganic acquisitions shall be undertaken in accordance with the applicable laws, including the Companies Act, FEMA and the regulations notified thereunder, as the case may be.

Further, in accordance with the SEBI Listing Regulations, with respect to such acquisitions proposed to be made from the Net Proceeds, our Company will disclose to the Stock Exchanges, the required details of the acquisition, including name of the target entity, cost of acquisition and nature of acquisition, at the relevant stages as prescribed therein.

General corporate purposes

The general corporate purposes for which our Company proposes to utilise Net Proceeds include acquisition of fixed assets, repayment of debt, new brand launches, short term working capital requirements, information technology infrastructure, improvement in supply chain, distribution and fulfilment network, rental and administrative expenses, meeting exigencies and expenses incurred in the ordinary course of business, as may be applicable. The quantum of utilisation of funds towards each of the above purposes will be determined by our Board, based on the amount actually available under this head and the business requirements of our Company, from time to time.

In addition to the above, our Company may utilise the Net Proceeds towards other purposes considered expedient and as approved periodically by our Board, subject to compliance with necessary provisions of the Companies Act. Our Company’s management shall have flexibility in utilising surplus amounts, if any.

The amount to be utilised from the Net Proceeds towards general corporate purpose shall not be used for utilisation for any of the other identified objects of the Offer.

Means of Finance

The Objects are proposed to be funded from the Net Proceeds and by utilizing our internal accruals. Accordingly, we confirm that there is no requirement to make firm arrangements of finance under the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the Net Proceeds to be raised from the Fresh Issue and existing identifiable internal accruals, as prescribed under the SEBI ICDR Regulations.

Subject to applicable law, if the actual utilisation towards the Objects is lower than the proposed deployment, the balance amount will be used for general corporate purposes and unidentified inorganic acquisitions, to the extent that the total amount to be utilised towards general corporate purposes and unidentified inorganic acquisitions will not exceed 35% of the Net Proceeds in accordance with the SEBI ICDR Regulations. Further, the amount to be utilised for general corporate purposes alone shall not exceed 25% of the Net Proceeds. In case of any shortfall in the requisite funds raised from the Net Proceeds or utilized from the internal accruals of our Company or any increase in the total estimated cost of the Objects, business considerations may require us to explore a range of options including seeking additional debt from lenders. We believe that such alternate arrangements would be available to fund any such shortfalls. Further, in case of variations in the actual utilisation of funds earmarked for the purpose set forth above, increased funding requirements for a particular purpose may be financed by surplus funds, if any, available in respect of other purposes for which funds are being raised in the Fresh Issue. We may vary the Objects in the manner provided in “*Objects of the Offer – Variation in Objects*” on page 121.

Interim use of Net Proceeds

We, in accordance with the policies formulated by our Board from time to time, will have flexibility to deploy the Net Proceeds. Pending utilisation of the Net Proceeds for the purposes described above, our Company will temporarily invest the Net Proceeds in deposits only in one or more scheduled commercial banks included in the Second Schedule of the Reserve Bank of India Act, 1934, as amended, as may be approved by our Board or a duly constituted committee thereof.

In accordance with the Companies Act, 2013, we confirm that we shall not use the Net Proceeds for buying, trading or otherwise dealing in shares of any other listed company or for any investment in the equity markets.

Bridge Financing Facilities

We have not raised any bridge loans from any bank or financial institution as on the date of the Red Herring Prospectus and this Prospectus, which are proposed to be repaid from the Net Proceeds.

Offer Expenses

The total Offer related expenses are estimated to be approximately ₹657.85 million. The Offer related expenses consist of listing fees, underwriting fees, selling commission and brokerage, fees payable to the BRLMs, legal counsels, Registrar to the Offer, Escrow Collection Bank, Public Offer Account Bank, Refund Bank and Sponsor Bank including processing fee to the SCSBs for processing ASBA Forms submitted by ASBA Bidders procured by the Syndicate and submitted to SCSBs, brokerage and selling commission payable to Registered Brokers, RTAs and CDPs, printing and stationery expenses, advertising and marketing expenses and all other incidental expenses for listing the Equity Shares on the Stock Exchanges.

Monitoring Agency

In terms of the SEBI ICDR Regulations, our Company has appointed ICRA Limited as the Monitoring Agency for monitoring the utilisation of the Net Proceeds. Our Audit Committee and the Monitoring Agency will monitor the utilisation of the Net Proceeds and submit the report required under the SEBI ICDR Regulations.

Our Company will disclose, and continue to disclose, the utilisation of the Net Proceeds, including interim use, under a separate head in our balance sheet for such financial years as required under applicable law, specifying the purposes for which the Net Proceeds have been utilised, till the time any part of the Fresh Issue proceeds remains unutilised. Our Company will also, in its balance sheet for the applicable financial years, provide details, if any, in relation to all such Net Proceeds that have not been utilised, if any. Further, our Company, on a quarterly basis, shall include the deployment of Net Proceeds under various heads, as applicable, in the notes to our quarterly consolidated results.

Pursuant to the SEBI Listing Regulations, our Company shall, on a quarterly basis, disclose to the Audit Committee the uses and applications of the Net Proceeds. The Audit Committee will make recommendations to our Board for further action, if appropriate. On an annual basis, our Company shall prepare a statement of funds utilised for purposes other than those stated in the Red Herring Prospectus and this Prospectus and place it before the Audit Committee and make other disclosures as may be required until such time as the Net Proceeds remain unutilised. Such disclosure shall be made only until such time that all the Net Proceeds have been utilised in full. The statement shall be certified by the statutory auditor of our Company.

Furthermore, in accordance with the SEBI Listing Regulations, our Company shall furnish to the Stock Exchanges, on a quarterly basis, a statement indicating (a) deviations, if any, in the actual utilisation of the proceeds of the Fresh Issue from the Objects; and (b) details of category wise variations in the actual utilisation of the proceeds of the Fresh Issue from the Objects. This information will also be published in newspapers, one in English and one in Hindi, the regional language of the jurisdiction where our Registered Office is located, simultaneously with the interim or annual financial results and explanation for such variation (if any) will be included in our Director's report, after placing the same before the Audit Committee.

Variation in Objects

In accordance with the Companies Act, our Company shall not vary the Objects without being authorised to do so by our Shareholders by way of a special resolution through a postal ballot. In addition, the notice issued to our Shareholders in relation to the passing of such special resolution ("**Postal Ballot Notice**") shall specify the prescribed details as required under the Companies Act and applicable rules. The Postal Ballot Notice shall simultaneously be published in the newspapers, one in English and one in Hindi, the regional language of the jurisdiction where our Registered Office is located. In accordance with the Companies Act, our Promoters will be required to provide an exit opportunity to the Shareholders who do not agree to such proposal to vary the objects, subject to the provisions of the Companies Act and in accordance with such terms and conditions, including in respect of pricing of the Equity Shares, in accordance with our Articles of Association, the Companies Act and the SEBI ICDR Regulations.

Other Confirmations

No part of the Net Proceeds will be paid by our Company as consideration to our Promoters, the Promoter Group, our Directors, our Key Managerial Personnel, Senior Management Personnel or our Group Companies. There are no existing or anticipated transactions in relation to utilisation of Net Proceeds with our Promoters, the Promoter Group, our Directors, our Key Managerial Personnel and Senior Management Personnel.

BASIS FOR OFFER PRICE

The Price Band and the Offer Price have been determined by our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders, in consultation with the BRLMs, on the basis of assessment of market demand for the Equity Shares offered through the Book Building Process and on the basis of quantitative and qualitative factors as described below. The face value of the Equity Shares is ₹10 each and the Offer Price is 32.40 times the face value of the Equity Shares. Investors should also see “Risk Factors”, “Summary of Restated Ind AS Summary Statements”, “Our Business”, “Restated Ind AS Summary Statements”, and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 36, 74, 154, 220 and 319, respectively, to have an informed view before making an investment decision.

Qualitative Factors

Some of the qualitative factors and our strengths which form the basis for computing the Offer Price are as follows:

- Brand building capabilities and repeatable playbooks;
- Customer centric product innovation;
- Digital-first omnichannel distribution;
- Data driven contextualised marketing;
- Ability to drive growth and profitability in a capital efficient manner; and
- Founder led company with a strong professional management.

For details, see “Our Business – Our Competitive Strengths” on page 159.

Quantitative Factors

Some of the information presented below relating to our Company is derived from the Restated Ind AS Summary Statements. For details, see “Restated Ind AS Summary Statements” and “Other Financial Information” beginning on pages 220 and 310, respectively.

Some of the quantitative factors which may form the basis for computing the Offer Price are as follows:

A. Basic and Diluted Earnings Per Equity Share (“EPS”) (face value of each Equity Share is ₹10):

Fiscal/Period Ended	Basic EPS (in ₹)	Diluted EPS (in ₹)	Weight
March 31, 2023	(4.66)	(4.66)	3
March 31, 2022	0.53	0.52	2
March 31, 2021	(98.35)	(98.35)	1
Weighted Average	(18.54)	(18.55)	
Three months period ended June 30, 2023*	0.85	0.83	
Three months period ended June 30, 2022*	(0.30)	(0.30)	

* Not annualized

Notes:

1. Earnings per share calculations are in accordance with Ind AS - 33 (Earnings per Share) prescribed by the Companies (Indian Accounting Standards) Rules, 2015.
The ratios have been computed as below
 - Basic earnings per share (Rs.) = Restated Net Profit/(loss) available to equity shareholders/Weighted average number of Equity Shares outstanding during the year
 - Diluted earnings per share (Rs.) = Restated Net Profit/(loss) available to equity shareholders/Weighted average number of diluted Equity Shares outstanding during the year
2. Weighted Average Number of Equity Shares is the number of equity shares outstanding at the beginning of the year adjusted by the number of equity shares issued during the year multiplied by the time weighting factor.
3. The Weighted Average basic and diluted EPS is a product of basic and diluted EPS and respective assigned weight, dividing the resultant by total aggregate weight. Weights applied have been determined by the management of our Company.
4. Basic EPS and Diluted EPS for three months ended June 30, 2023 and June 30 2022 and fiscal period ended March 31, 2023 are further adjusted for the changes in equity share capital pursuant to conversion of outstanding NCCPS into equity shares and proposed issuance of equity shares against the outstanding options granted to the employees under the ESOP scheme 2018 and ESOP scheme 2021.
5. Our Company has issued bonus shares to the shareholders at conversion ratio of 12,899: 1 on May 11, 2022. The weighted average number of shares for the year ended March 31, 2022 and March 31, 2021 have been adjusted to reflect the impact of bonus issue as per Ind AS 33.
6. Our Company has split Rs.100 face value equity share to ₹10 each and ₹90 each on April 28, 2022. . The Equity shares of ₹90 each are non-voting shares and our Company has subsequently bought back the same on September 22, 2022.
7. The figures disclosed above are derived from the Restated Ind AS Summary Statements of our Company.

B. Price/Earning (“P/E”) ratio in relation to the Offer Price:

Particulars	P/E at the Offer Price (number of times)
Based on basic EPS for year ended March 31, 2023	N.A.
Based on diluted EPS for year ended March 31, 2023	N.A.

- * Since Basic and Diluted Earnings Per Share for year ended March 31, 2023 is negative P/E ratio of our Company is not ascertainable.

C. Industry Peer Group P/E ratio

There are no listed companies in India and globally that are of comparable size from the same industry as that of our Company. However, there are listed companies in India that are of larger size with longer operating histories and varied business models and offerings, that operate in the fast moving consumer goods space, including the BPC segment. We consider such listed companies as our competitors in respect of their BPC products segment. See “- Comparison with Listed Industry Peers” on page 126. The below industry averages are based on the information pertaining to such listed companies covered later in this section:

For details of our other operating metrics disclosed elsewhere in this Prospectus, see “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 154 and 319, respectively.

G. Description on the historic use of the KPIs by our Company to analyze, track or monitor the operational and/or financial performance of our Company

In evaluating our business, we consider and use certain KPIs, as presented above, as a supplemental measure to review and assess our financial and operating performance. The presentation of these KPIs are not intended to be considered in isolation or as a substitute for the Restated Consolidated Financial Information. We use these KPIs to evaluate our financial and operating performance. Some of these KPIs are not defined under Ind AS and are not presented in

accordance with Ind AS. These KPIs have limitations as analytical tools. Further, these KPIs may differ from the similar information used by other companies and hence their comparability may be limited. Therefore, these metrics should not be considered in isolation or construed as an alternative to Ind AS measures of performance or as an indicator of our operating performance, liquidity, profitability or results of operation. Although these KPIs are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it provides an additional tool for investors to use in evaluating our ongoing operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance, when taken collectively with financial measures prepared in accordance with Ind AS.

Investors are encouraged to review the Ind AS financial measures and to not rely on any single financial or operational metric to evaluate our business. See *"Risk Factors – Internal Risks – We track certain operational and key business metrics with internal systems and tools. Certain of our operational metrics are subject to inherent challenges in measurement which may adversely affect our business and reputation"* on page 62.

Number of brands

We have built a 'House of Brands' architecture and we believe that tracking our brands helps us track our capability of producing new brand propositions.

Revenue from Operations

We believe that tracking our revenue from operations enables us to analyze the overall financial and business performance of our Company.

Revenue from Online Channels

We believe that tracking our revenue from online channels enables us to track the level of business and corresponding revenue generated from online channels.

Revenue from Offline Channels

We believe that tracking our revenue from offline channels enables us to track the level of business and corresponding revenue generated from offline channels.

Revenue from Services

We believe that tracking our revenue from services assists in tracking revenue generated from our haircare services, content & influencer marketing and other services.

Revenue Growth

We believe that tracking revenue growth enables us to track our relative business growth year-on-year, and helps in business planning and financial management.

Gross Profit

We believe that tracking gross profit enables us to track our margin profile and price management across channels.

Gross Profit Margin

We believe that tracking gross profit margin enables us to track the gross margin profile year-on-year and provides input for our margin profile and price management across channels.

EBITDA

We believe that tracking EBITDA helps us identify underlying trends in our business and facilitates evaluation of year-on-year operating performance of our operations by eliminating items that are variable in nature and not considered by us in the evaluation of ongoing operating performance, and allowing comparison of our recurring core business operating results over multiple periods. We also believe that EBITDA provides useful information about our operating results, enhances the overall understanding of our past performance and future prospects, and allows for greater transparency with respect to key metrics we use for financial and operational decision-making.

EBITDA Margin

We believe that tracking EBITDA margin assists in tracking the margin profile of our business and in understanding areas of our business operations which have scope for improvement.

Adjusted EBITDA

We believe that tracking Adjusted EBITDA helps us identify underlying trends in our business and facilitates evaluation of year-on-year operating performance by adjusting EBITDA for change in fair valuation of preference shares, shared based payments and employee benefits related expenses.

Adjusted EBITDA margin

We believe that tracking our Adjusted EBITDA margin helps us evaluate our Company's operational and financial performance.

Working capital days of sale

We believe that tracking the working capital days of sale assists in tracking our investment in working capital across inventories, trade receivables, trade payables and other current assets and liabilities.

Invested Capital in Business

We believe that tracking invested capital helps us track capital consumed by our business operations since inception.

Contribution of sales from new SKUs to increase in revenue

We believe that contribution of sales from new SKUs to increase in revenue helps in tracking performance of our New Product launches.

Volume growth

We believe that tracking the volume growth helps us to track the year-on-year performance in terms of the number of units sold during the period/year relative to the corresponding previous period/year.

Restated Profit/(loss) before tax

We believe that tracking Restated Profit/(loss) before tax helps us track the overall profitability of our business before tax.

Restated Profit/(loss) after tax

We believe that tracking Restated Profit/(loss) after tax helps us track the overall profitability of our business after tax.

ANNEXURE 1

THE STATEMENT OF SPECIAL DIRECT TAX BENEFITS AVAILABLE TO THE COMPANY AND SHAREHOLDERS OF THE COMPANY

DIRECT TAXATION

Outlined below are the special tax benefits available to the Company and its Shareholders under the Income-tax Act, 1961 ('the Act') as amended by the Finance Act 2023, i.e., applicable for the Financial Year 2023-24 relevant to the Assessment Year 2024-25, as amended and presently in force in India (together, the "Direct Tax Laws").

A. SPECIAL DIRECT TAX BENEFITS AVAILABLE TO THE COMPANY

1. Lower corporate tax rate under section 115BAA of the Act

A new section 115BAA has been inserted in the Act by the Taxation Laws (Amendment) Act, 2019 ("the Amendment Act, 2019") w.e.f. April 1, 2020 (A.Y. 2020-21). Section 115BAA grants an option to a domestic company to be governed by the section from a particular assessment year. If a company opts for section 115BAA of the Act, it can pay corporate tax at a reduced rate of 25.168% (22% plus surcharge of 10% and education cess of 4%). Section 115BAA of the Act further provides that domestic companies availing the option will not be required to pay Minimum Alternate Tax (MAT) on their 'book profits' under section 115JB of the Act.

However, such a company will no longer be eligible to avail specified exemptions/ incentives under the Act and will also need to comply with the other conditions specified in section 115BAA. Also, if a company opts for section 115BAA, the tax credit (under section 115JAA), if any, which it is entitled to on account of MAT paid in earlier years, will no longer be available. Further, it shall not be allowed to claim set-off of any brought forward loss arising to it on account of additional depreciation and other specified incentives.

The Company has decided to opt for the lower corporate tax rate of 25.168% (prescribed under section 115BAA of the Act) with effect from FY 2020-21.

2. Deduction in respect of inter-corporate dividends – Section 80M of the Income-tax Act, 1961

Up to 31st March, 2020, any dividend paid to a shareholder by a company was liable to Dividend Distribution Tax ("DDT"), and the recipient shareholder was exempt from tax. Pursuant to the amendment made by the Finance Act, 2020, DDT stands abolished and dividend received by a shareholder on or after 1st April, 2020 is liable to tax in the hands of the shareholder. The Company is required to deduct Tax Deducted at Source ("TDS") at applicable rate specified under the Act read with applicable Double Taxation Avoidance Agreement (if any).

With respect to a resident corporate shareholder, a new section 80M has been inserted in the Act to remove the cascading effect of taxes on inter-corporate dividends during FY 2020-21 and thereafter. The section provides that where the gross total income of a domestic company in any previous year includes any income by way of dividends from any other domestic company or a foreign company or a business trust, there shall, in accordance with and subject to the provisions of this section, be allowed in computing the total income of such domestic company, a deduction of an amount equal to so much of the amount of income by way of dividends received from such other domestic company or foreign company or business trust as does not exceed the amount of dividend distributed by it on or before the due date. The "due date" means the date one month prior to the date for furnishing the return of income under sub-section (1) of section 139 of the Act.

B. SPECIAL DIRECT TAX BENEFITS AVAILABLE TO THE SHAREHOLDERS

1. Dividend income earned by the shareholders would be taxable in their hands at the applicable rates. However, in case of domestic corporate shareholders, deduction under Section 80M of the Act would be available on fulfilling the conditions (as discussed above). Further, in case of shareholders who are individuals, Hindu Undivided Family, Association of Persons, Body of Individuals, whether incorporated or not, surcharge would be restricted to 15%, irrespective of the amount of dividend.
2. As per Section 112A of the Act, long-term capital gains arising from transfer of an equity share, or a unit of an equity-oriented fund or a unit of a business trust shall be taxed at 10% (without indexation) of such capital gains subject to fulfilment of prescribed conditions under the Act as well as per Notification No. 60/2018/F. o.370142/9/2017-TPL dated 1 October 2018. It is worthwhile to note that tax shall be levied where such capital gains exceed ₹ 1,00,000.
3. Section 112 of the Act provides for taxation of long-term capital gains. In case of a domestic company/ resident, amount of income-tax on long-term capital gains arising from the transfer of a capital asset shall be computed at the rate of 20%.

In case of non-resident (not being a company) or a foreign company, the amount of income-tax on long-term capital gains arising from the transfer of a capital asset (being unlisted securities or shares of a company not being a company in which the public are substantially interested) shall be calculated at the rate of 10% without giving effect to the first and second proviso to section 48.

Further, where the tax payable is payable in respect of any income arising from the transfer of a long-term capital asset, being listed securities (other than a unit) or zero coupon bond, then such income will be subject to tax at the rate of 10% of the amount of capital gains before giving effect to the provisions of the second proviso to section 48.

As per Section 111A of the Act, short term capital gains arising from transfer of an equity share, or a unit of an equity-oriented fund or a unit of a business trust shall be taxed at 15% subject to fulfilment of prescribed conditions under the Act.

Except for the above, the Shareholders of the Company are not entitled to any other special tax benefits under the Direct Tax Laws.

Indian Economic Context

India is expected to be an approximately US\$5 trillion economy by 2027, driven by robust private consumption, rapid digitisation and several other tailwinds enabling businesses.

As per the International Monetary Fund (“**IMF**”) estimates, India’s nominal Gross Domestic Product (“**GDP**”) was US\$3.4 trillion in 2022. It is expected to grow at approximately 9% annually to be more than US\$5.2 trillion by 2027. This uniquely positions India as one of the larger yet fast growing economies. As of August 2022, India is the 5th largest economy in the world, in terms of nominal GDP. And according to forecasts made by the Centre for Economics and Business Research (“**CEBR**”) in their 2022 World Economic League Table, India is projected to become the 3rd largest economy in the world by 2031.

Fig 1. LHS – Real GDP growth – global benchmarks (% growth, 2016-2028P)

Private consumption is a significant driver of economic growth in India.

India’s share of domestic private consumption measured as Private Final Consumption Expenditure (“PFCE”) in its GDP was approximately 61% in FY23. India’s PFCE (FY 2018-23 CAGR of 10.4%) has grown faster than its GDP (9.7% CAGR in the same period). Looking ahead, there is significant growth headroom for PFCE, as its share in the GDP catches up with that of large economies such as the United States of America (“USA”) and the United Kingdom (“UK”). With GDP growing rapidly and PFCE’s contribution steadily increasing therein, India is expected to be the 3rd largest consumer market in the world by 2030, as per the World Economic Forum (“WEF”).

The outlook for consumption is bolstered by strong consumer confidence. As per an RBI Consumer Confidence Survey organised in March 2023, ‘households’ opinion about current and future spending remained in positive territory and was bolstered by a rise in both essential and discretionary spending’. This bodes well for consumer-facing businesses, as they are likely to witness sustained demand, with consumers purchasing more as well as shifting to higher quality and branded products.

Amongst the several tailwinds driving consumption, the most important ones are:.

1. Rising incomes resulting in higher consumption

Income growth is a significant driver of private consumption, and that is clearly visible in India. Here, we use Gross National Income (“GNI”) – defined as total amount of money earned by a nation’s people and businesses - as a proxy to benchmark prosperity. As per World Bank estimates, India’s GNI per capita has been growing faster than that of most other larger and comparable economies. Increasing income levels are translating into higher consumption from households.

Fig 2. CAGR of GNI per capita – Global Benchmark, 2017-2022
Source(s): World Bank

2. Rising incomes leading to a large middle-class population, which is a key driver of private consumption.

With incomes rising, there is significant upward mobility, with lower-income households increasingly shifting towards middle-class. The per capita consumption expenditure of middle-class households is more than 3 times that of low-income households. The consumption pattern is relatively (in comparison with the lower income households) more skewed towards branded products and organised channels.

While middle-class is the largest chunk of the population, the number of high-income households is projected to grow the fastest, at 8% annually between 2022 and 2027. The middle-class and high-income households are projected to drive more than 90% of the private consumption by 2027, which will result in expanded addressable markets for branded players.

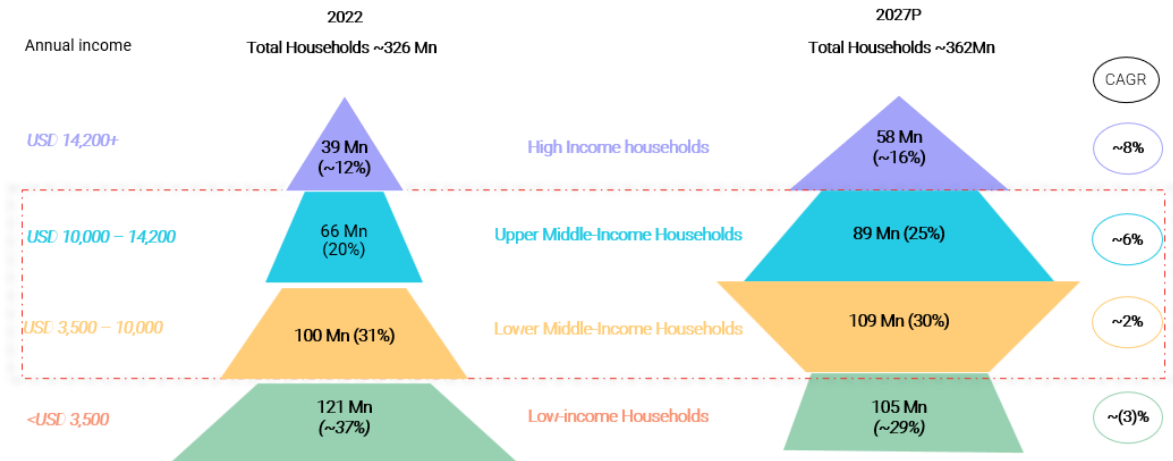

Fig 3. Number of households – segmented by income levels (Million, %, 2022, 2027P)
Source(s): RedSeer research and analysis

3. Urbanization is among the most significant growth engines for India, and is directly correlated with higher incomes.

India has the second largest urban population (refers to people living in urban areas as defined by national census or statistical offices) in the world in absolute terms, at approximately 510 million in 2022, second only to China according to World Bank. Urbanisation is central to India’s growth story as urban areas are the core drivers of consumption. This is because urban areas have higher concentration of relatively higher income individuals, particularly among millennials and generation Z. Given the higher concentration of demand in these cities, the supply is also more abundant and diverse in these cities. While India’s urban population has been growing rapidly, there is a significant growth headroom. As per World Bank estimates, 36% of India’s population resided in urban towns and settlements, compared to the US, which is at 83% and the world average of 57%, as of 2022. As per Niti Aayog estimates, India’s urban share of population is likely to be 50% by 2050. This underscores the longevity of the trend of urbanisation in India, directly impacting economic growth and private consumption.

4. With migration to urban areas, there has been a shift towards nuclearisation, resulting in more households for businesses to reach.

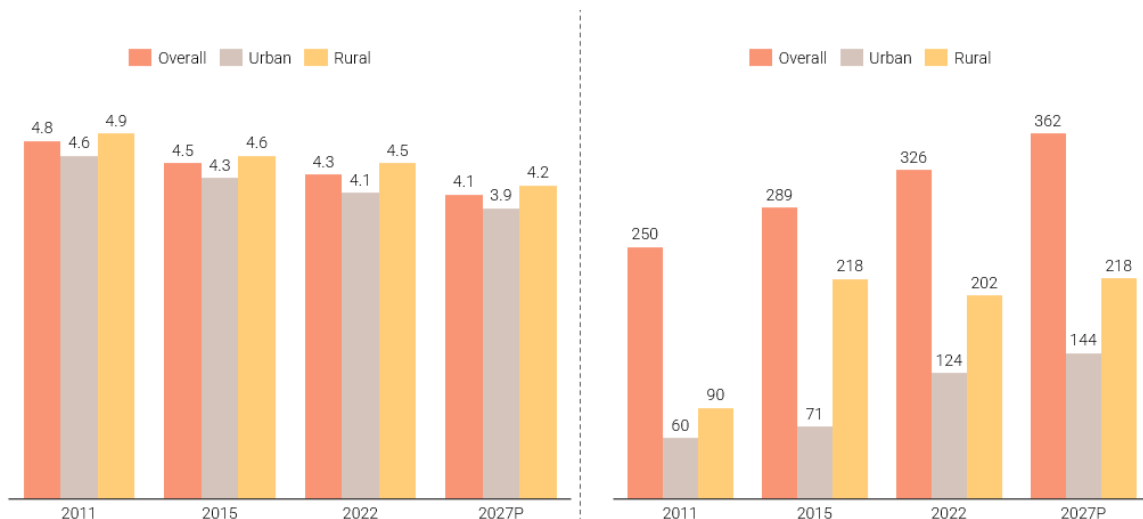

Fig 4. LHS: Average household size – India – Overall, Urban, Rural (#, 2011, 2015, 2022, 2027P)
RHS: Number of households (Million, 2011, 2015, 2022, 2027P)

India’s average household size has decreased from 4.5 in 2015 to 4.3 in 2022. A key driver of this trend is migration, as people move from joint families to form nuclear families in the cities.

This benefits consumer-driven businesses as they have higher numbers of households to reach and serve, directly impacting volumes. The number of households increased by 76 million between 2011 and 2022, and it is expected to increase by another approximately 36 million till 2027. Also, the young, aspirational populations, living away from their families, exercise freedom in experimenting with newer brands and products. This benefits new-age businesses which have differentiated value propositions and appeal to the needs and sensibilities of these younger consumers. Further, these populations influence the decision-making of their families in the smaller towns, leading to trickle down effects and easier propagation of the new-age value propositions.

5. Due to trickle-down effects and secular migration into urban areas across city tiers, non-metros are witnessing high growth in retail.

With urbanisation, nuclearization and trickle-down effects – prosperity and consumption trends of the metro cities are gradually trickling down to non-metro cities. The most apparent manifestation of this is in the higher growth of retail in tier 1 and tier 2+ cities as compared to the metros.

Fig 5. Retail market in India split by city-tiers Market size in US\$ billion, Segments in %, 2016, 2019, 2022, 2027P)
 Note(s): Metros are Delhi, Mumbai, Bangalore, Hyderabad, Chennai, Kolkata and Pune. Tier 1 cities are other Indian cities with populations of at least 1 million. Tier 2+ cities are rest of urban areas as classified by the Census, 2011. Rural are the areas not classified as urban by Census, 2011.

This trend is likely to persist because it is a cycle. With demand growing fast in the non-metro cities, businesses are increasingly focussing there for growth. The government is also supporting with necessary infrastructure development projects. With enhanced focus on economic activities, the enabling ecosystem of distribution, labour, real estate, capital and entrepreneurs is also evolving, giving rise to more opportunities and higher incomes. This in turn, is propelling consumption, fuelling demand growth in these cities. Owing to the under-penetration of the Indian retail market, especially in the smaller towns, this cycle is likely to propel growth in the long term before saturation kick in.

6. The growth headroom for the economy and sustainability of the tailwinds is bolstered by India’s young population.

India is one of the youngest nations in the world, with a median age of 28 compared to 39 in China and 38 in USA, based on United Nations Population Division estimates (2022). In 2022, India had the largest millennial and generation Z (aged 9-40 years) population in the world, at approximately 770 million. Even as a proportion of the population, they are 54% of India’s population, significantly higher than that of other larger economies.

Fig 6. LHS – Median age of population – Global Benchmark (2022)
RHS – Population split by age group – Global Benchmark (Billion, %, 2022)

Note(s): 1. Anyone between the age group 26-40 years refers to Millennial; 2. Anyone between the age group 9-25 refers to generation Z

Source(s): United Nations Population Division

India's millennials and generation Z are likely to become a major consumption pool and spend more than their predecessors. This underscores India's consumption tailwinds. Further, the millennials and generation Z will be more brand-aware and informed than India's previous generation of consumers. The younger populations are naturally pre-disposed to adopting new trends given their exposure to media and technology, which presents an opportunity for branded products and organized retail. This reinforces the growth potential of brands in India.

7. Further growth potential to be unlocked with increased participation of women in the labour force, particularly services.

Women tend to be the key decision-makers in households as far as most FMCG categories are concerned. This behaviour is prominent in households where women are educated and/or have their own income streams, leading to more social influence in their families. With increasing access to education and participation in the labour force, women are positively impacting consumption, especially in sectors like BPC. The trends around access to education and participation in labour force are playing out strongly in India.

Between 2005 and 2015, enrolment of girls in secondary education increased from 45% to 81% and surpassed the enrolment of boys in 2018-19. Higher education also witnessed an increase in women enrolment, with almost 20% of women pursuing higher education studies compared to 22% of men. Driven by access to education, women participation in the labour force, particularly in the service sector, has increased significantly. Work from home policies are providing higher flexibility to women and at the same time the number of women influencers is on the rise. The rate of women participation in the service sector has jumped to 28% in 2019, compared to 25% in 2016. However, there is significant growth headroom and value to be unlocked as India catches up to global economies like the UK, the USA, Indonesia and China.

As more women are educated and/or participate in the labour force, they are likely to have a disproportionately positive impact on the retail space generally and BPC particularly.

India Retail

Sized at US\$891 billion as of 2022 and expected to grow at 10% annually till 2027, India is a large yet fast growing retail market.

Retail is one of the major drivers of the Indian economy. It accounted for 28% of the GDP in 2022, and almost half of the private consumption. While the GDP is expected to grow at approximately 9% annually till 2027, retail is expected to grow faster, at 10% annually, to become a more than US\$1.5 trillion market by 2027.

India’s retail market is still underpenetrated. India’s per capita retail spend was US\$628 in 2022 compared to US\$4,630 for China (roughly 7 times that of India) and US\$21,030 for the USA (roughly 33 times that of India). Hence, India’s retail market has been growing much faster than that of the large economies and is expected to do the same going forward. Disregarding the market distortions due to COVID-19 pandemic, India’s historical growth of 11% annually between 2016-19 has been much higher than that of the USA and the UK, as both grew at around 3% annually, and that of China, which grew 7-9% annually.

Among the most significant themes underpinning the growth of retail in India is the shift towards organised channels.

India’s retail market has been largely unorganised. The unorganised market characterised by the prevalence of the *kiranas* - shops run by individual, local businessmen which house multiple categories of products including grocery, BPC, home care, packaged foods and many others. These entities have been operating since a long time but have shortcomings like low product variety, inability to assess shift in consumer needs, to name a few. While these mediums make for approximately 80% of the retail market, there have been rapid shifts to organised channels like modern trade outlets (shopping malls/ marts, multi-brand outlets, exclusive brand outlets) and online (marketplaces and Direct-to-consumer (“DTC”). This is led by shifts in consumer behaviour where consumers are increasingly looking for more choices, more branded experiences, and more convenience. Organised channels are better able to serve these needs, hence, they have been growing faster than the unorganised channels with sustained momentum. Going forward, the organised channels are likely to grow 3 times as fast as the unorganised channels.

Fig 9. India’s retail market split by channels (US\$billion, 2016, 2019, 2022, 2027P)

Note(s): Unorganised offline is largely general trade channels; Organised B&M stands for organised brick and mortar stores, otherwise known as modern trade channels like shopping malls/ marts, multi-brand outlets, exclusive brand outlets; Online refers to marketplaces as well as own online platforms of brands.

Source(s): RedSeer research and analysis

The shift to organised channels is a fairly secular trend across most key retail categories, however it is more pronounced in categories like BPC, Apparels and Electronics which lend well to brand creation. The products in these categories are differentiated through brands and their design language is pervasive across various facets of the products. These categories already have much higher organised penetration already – more than 7-10x the organised penetration of grocery as of 2022. Going forward, these categories are likely to become overwhelmingly organised – more than half of the BPC market and more than 90% of the electronics market.

Category	2016	2022	2027P
Grocery	3%	5-6%	9%
Pharma & Wellness	10%	14-16%	25-30%
BPC	23%	42%	65%
Apparel	29%	56%	68%
Electronics	38%	60-62%	90%+

The shift of retail to organised channels has been turbocharged by rapid online penetration

Online retail (alternatively known as eTailing) in India is already a US\$55 billion market as of 2022 and is growing fast. However, the story of online penetration of Indian retail is fairly nascent. With around 6% online penetration of retail as of 2022, India lags major economies like China (31%), the USA (15%), Indonesia (16%) and the UK (27%). As the market grows, by 2027, eTailing is likely to be US\$169 billion, translating to approximately 12% of the retail market. Specific categories like BPC are better suited for rapid online penetration - from 16% penetration as of 2022 to 34% by 2027.

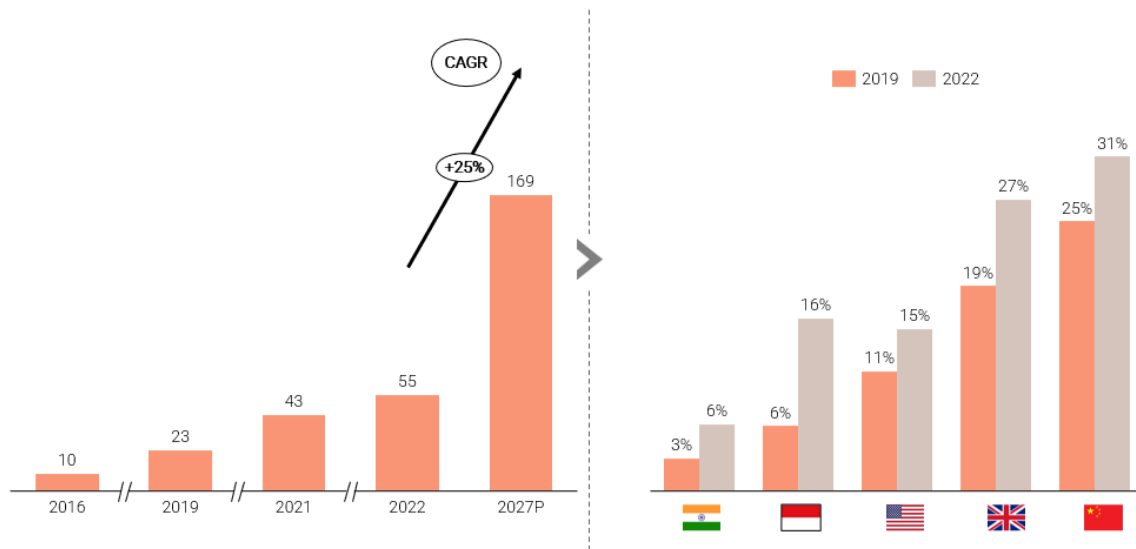

Fig 11. LHS - eTailing market size in India (USD billion, 2016, 2019, 2021, 2022, 2027P)

Source(s): RedSeer research and analysis

Over the past few years, ‘Digital-first brands’ have emerged, and they are likely to be a core driver of growth in e-tailing in India. We define Digital-first brands as brands which make at least 60% of their gross merchandise value (“GMV”) from online channels. Online channels include marketplaces and/or the brands’ own online platforms. Digital-first players have emerged fairly recently, yet have scaled very fast. For context, Digital-first drove about 14% of the eTailing market 4 years ago. As of 2022, they drove 23% of the market and they are likely to drive 40-45% of the market by 2027. This is impressive, given vintage and brand recall of some of the traditional brands.

With the ability to launch and sell products at significantly lower costs through online channels, digital-first brands can scale at a much faster pace than can legacy brands, which incur significant costs. Moreover, owing to the wide reach offered by eTailing marketplaces, digital-first brands get immediate access to national markets. New-age third-party logistics companies also enable these brands to develop hassle-free sourcing/delivery routes. Owing to this hyper-growth and scalability allowed by the nature of their operations, digital-first brands attract significant investor attention. Going forward, within the context of eTailing, Digital-first brands are likely to grow twice as fast as the offline-first brands.

Even as retail witnesses rapid digital adoption by consumers and businesses, the incumbents may not be best positioned to be protected from disruption. As consumers mature, they increasingly look for evolved use-cases for purchasing products. Therefore, whitespaces and opportunities keep emerging in the market. Positioning to best solve the consumer needs in an agile manner is where the Digital-first players are likely to have the most success. The current environment is very conducive to the growth of Digital-first brands specifically. These players are leveraging the unlimited shelf space that the online channel provides to cater to wide ranges of consumer needs. They are innovating on the back of real-time access to consumer and value-chain data. With the availability of strong supply chain and software-as-a-service (“SaaS”) enablers, payment infrastructure players, and capital to build businesses, the number of such brands in India has ballooned. That is, from 450-550 brands in 2019 to between 1,800-2,300 brands as of 2022, which is a growth of 4 to 5 times.

Beauty and Personal Care in India

Beauty and Personal Care in India is an approximately US\$20 billion market, and expected to grow at 11% annually to be approximately US\$33 billion by 2027

Sized US\$20 billion, BPC in India is a large market (6th largest in the world). BPC is significantly underpenetrated in India. Traditionally, Indian households have spent lesser on BPC in comparison to other countries. For instance, in 2022, BPC spends per capita in China were around 3 times of that in India. Even compared to relatively smaller economy like Indonesia, India’s per capita BPC spends are lower, indicating massive growth headroom.

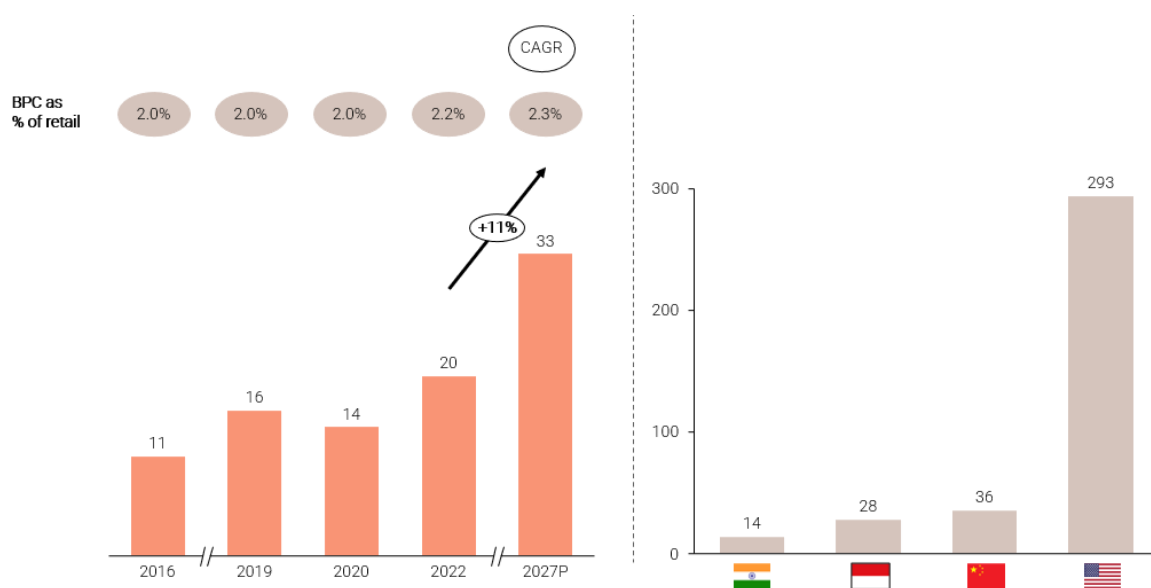

Fig 13. LHS – India BPC market size (US\$ billion, 2016, 2019, 2020, 2022, 2027P)
 RHS – BPC spends per capita – Global benchmarks (US\$, 2022)

Source(s): RedSeer research and analysis

The BPC products market in India is undergoing a fundamental re-industrialization owing to the convergence of technology, demographic dividend, and growing consumer aspirations. BPC is expected to grow faster than categories like food, grocery and consumer electronics. This makes BPC one of the most attractive retail categories in terms of growth. India’s per capita spend on BPC products is currently one of the lowest in comparison to some of the other developing countries and is at the cusp of growth as GDP per capita has crossed \$2,000, which is a critical inflection point as observed in other developing economies.

Reached GDP per capita of US\$2000 in (year) inflection	2006	2009
BPC per capita CAGR for 10 years post inflection	16%	10%
GDP per capita CAGR for 10 years post inflection	7%	3%

BPC channel segmentation

The offline channel, which consists of unorganised channels such as general trade, and organised channels such as modern trade and salons, contributed to 84% of the BPC products market in India in 2022 in terms of revenues. Therefore, offline is the largest BPC channel. Also, due to lower customer acquisition costs, sale of BPC products through offline channels tends to be more profitable as compared to online channels.

Within offline, the organised channels are growing much faster than unorganised (general trade). However, online is the fastest growing BPC channel. Online has two types of channels – online marketplaces like the horizontal eTailing portals, beauty-focussed vertical marketplaces and DTC– own digital platforms of branded players. The online marketplaces channel is expected to grow at around 25% annually between 2022 and 2027. And DTC is expected to grow at more than 45% annually between 2022-27.

Fig 15. BPC market (value) segmented by channels (% of BPC market by value which is in US\$ billion, 2016, 2019, 2022, 2027P)

Note(s): Unorganised offline is largely general trade channels; Organised offline stands for modern trade channels like shopping malls/ marts, multi-brand outlets, exclusive brand outlets; Online includes online marketplaces which are eTailing platforms that sell multiple brands and/or multiple product categories and online DTC which are own online platforms of brands; Segment shares are rounded off

Source(s): RedSeer research and analysis

BPC sales in the online channel is nascent and is growing much faster than the broader BPC market. COVID further accelerated its adoption by encouraging trials, while superior consumer experience provided by online players has boosted consumer confidence, driving retention. On the supply side, online is attractive for players as it entails lower cost, infinite shelf space and instantaneous access to actionable data, to note a few of the efficiencies. As a result, even as offline channels witnessed de-growth post COVID (between 2019 and 2021), online channel grew approximately 60% annually in the same period. Online channel accounted for 2% of the India’s BPC market in 2016 and grew rapidly to account for 16% of the BPC market in 2022. Going ahead, the compounded annual growth rate of the online channel is likely to be up to 27 times as much as that of the unorganised offline (general trade) channel and it is projected to account for 34% of the BPC market by 2027.

In India, traditional channels are generally not designed to offer a wide range of products to the tier 2+ cities. E-commerce can help penetrate this market – this is a large structural tailwind. Rising internet penetration and India’s digital payment infrastructure should accelerate growth.

The online BPC market is under-penetrated. Compared to the USA and China, where online penetration of BPC is 20-25% and 35-40% respectively, the same for India is around 16%. Further, within Indian eTailing, categories like electronics have close to 50% online penetration. This further underscores the growth headroom for online BPC. With online retail mimicking China’s trend of high online penetration and e-commerce players covering most of the pin-codes, brands have increased access to acquire new customers in tier-2+ cities. Therefore, online BPC is growing fast. It is currently sized as US\$3.1 billion and is expected to grow at 29% annually to be around US\$11.1 billion by 2027, translating to online penetration of 34%.

Among the most significant trends driving the online BPC market forward is the disruption led by the Digital-first brands

Within this online BPC market, Digital-first brands, through technology-led approaches, are changing the Indian BPC landscape. Contributing 26% of the online BPC market and sized at approx. US\$800 million as of 2022, Digital-first brands’ revenues have grown at 91% annually between 2020 and 2022, which is almost twice as fast as the other BPC brands who sell products online. In the same period, the number of Digital-first BPC brands in India has doubled.

Digital-first BPC brands are democratising distribution by leveraging ecosystem partners like third-party logistics players. Through the support of these partners, Digital-first BPC brands can potentially reach 20,000 pin-codes as of 2022, as opposed to just about 3,000 in 2010. Beyond logistics, Digital-first also leverage enablers like SaaS and payments enablers to drive efficient value chains and seamless customer experience. Traditionally, BPC supply chains were either localised for unorganised players, or piggybacking on the larger retail supply chains of conglomerates. Enabled by ecosystem partners, Digital-first BPC players are much better equipped to serve the evolving consumer needs around personalisation and the required breadth of offerings.

BPC growth drivers

There are significant trends which are shaping consumer demand in BPC in India. Some of the prominent ones are as below:

- Premiumisation** – BPC products are generally classified into three price brands - mass, masstige and premium. Mass represents the class of products that are priced lower (the price levels varying across product categories) and are generally accessible to broader population from an affordability standpoint. The masstige segment, is priced at least 10-15% higher than the mass products while the premium category is priced at least 20% higher than masstige. Despite its structural growth, the BPC market is still at an early stage of development and provides significant room for growth. More than 50% of the market is dominated by mass market products. However, masstige is the fastest growing price segment in BPC and is likely to continue being so, going forward. By 2027, this segment is expected to be the largest price segment within BPC. Growth in this segment is being driven by increased disposable incomes, rise in aspirational BPC buying towards more individualised products that solve for specific need-spaces, and demand for better quality products leading to willingness to pay more. While incumbent brands (both domestic and global) continue to dominate the mass category, new-age companies are increasingly focusing on the masstige price point and are introducing high quality products that address consumer’s emerging needs and preferences.

- Evolving category-mix, with a focus on face care and makeup** – While hair care is the largest BPC category, growth is being led by categories like face care and makeup. This closely mirrors BPC segmentation in the USA and China, where face care and makeup contributes 39% and 70% to the respective BPC markets, compared to 26% in India. The trend is being driven by increasing awareness and demand for newer regimes. For instance, consumers are increasingly aware of extensive regimes that revolve around cleansing, exfoliating, treating, moisturising and

protecting the face. With players investing on educating consumers about these regimes and related products to use, the demand for these categories has grown significantly.

Further, demand momentum for face care and makeup in the online channel is fairly strong. While makeup leads the online penetration across categories, face care has the second highest online penetration. The trend is likely to persist going ahead as well, with makeup and face care having 48-53% (2.6x of 2019) and up to 43-48% (5x of 2019) online penetrations respectively by 2027.

- iii. **Growth In BPC spends by millennials and generation-Z** – The tastes, preferences, and habits of each millennial and/or generation-Z are different. So, there is no single definition of a millennial or a generation-Z consumer. These next-generation consumers aspire to express their individuality through in-trend beauty and personal care products, inspired by their friends, family, celebrities, and influencers on social media. They are well-versed digitally, spend more time online and are conscious of new lifestyle trends. They are capable of buying lifestyle products on a regular basis as their income grows and are central to the business strategy and growth plans of BPC players. The buying behaviour of these consumers is different from that of a traditional Indian shopper. They have a relatively sophisticated make-up and skin care regime. Consumers in the 25-35 years age group are the most active BPC buyers. And consumers in the

18-24 years age group are likely to try and explore new BPC categories.

India has the largest population base of generation Z and millennials in the world. Their prominence in the population is on an increasing trend. As of 2022, they constituted around half of India's workforce. By 2027, they are likely to constitute 60% or higher proportion of the workforce. As such, their contribution to consumption is likely to be significantly larger. This bodes well for the BPC space from the perspective of robustness of demand.

- iv. Increasing brand consciousness – Millennials in India are becoming increasingly conscious of their beauty and personal care needs and the brands they consume. With them increasingly driving the market, the demand for branded products has increased. These consumers like to use brands to communicate and project their self at a social level. Hence, they want brands which they can relate to, which have clear value propositions, and which communicate high standards. This is resulting in rapid growth of the organised channel.

However, traditional brands are facing significant challenges in incubating new brands propositions. Their innovation tends to focus more on brand extensions and global portfolio extensions. Due to top-down strategy, their strength in distribution measured by their reach or numeric distributors is holding back their ability to quickly launch new products. Traditional incumbents are not best equipped for rapid innovation and are slower in meeting the rapidly evolving needs of the consumers. These players have had relatively lesser number of brand launches in the last 5 years compared to some of the better performing digital-first brands.

- v. Emergence of new need spaces/ propositions in BPC – Millennials in India are becoming increasingly conscious of their beauty and personal care needs and the brands they consume. They are also more acutely oriented towards new-age innovations that cater to their specific needs and preferences, as compared to mass market propositions that cater to more mainstream or functional need spaces. With this change in consumer behaviour, brands, especially the new-age ones are coming up with more need-based and targeted offerings. In line with the changing customer dynamic, it is likely that the future of BPC products lies not only with large platform brands but also with new-age propositions and categories which cater to specific consumer need-spaces. For instance, searches for hair care products which have safer ingredients and do not negatively affect the hair, such as Paraben-free, Sulphate-free shampoos have increased dramatically. Similarly, when it comes to facecare, searches for oil control and anti-acne products have also increased rapidly. The demand for products with active, natural, and/or hydration based ingredients, which are consumer-driven differentiated ingredient positioning has increased significantly in comparison to that for functional products. The active ingredients proposition was relatively nascent in India about three years back in 2020. However, over the last three years, the market has grown exponentially with consumers becoming increasingly aware about the benefits of skincare products with scientific ingredients.

Source(s): Google search trends, RedSeer analysis

The speed of innovation required to meet the rapidly evolving consumer needs and staying at the top of their minds is mission-critical for businesses. Hence, the ability to innovate rapidly and churn out products quickly has become a differentiator for players.

- vi. Higher prominence of digital/social media marketing – While serving the emerging needs is a significant opportunity, choosing the right marketing strategy to drive awareness and adoption is important. This is where digital marketing comes in. Millennials are most influenced by other millennials, with word of mouth and voices of key opinion leaders and influencers emerging as key sources of driving brand awareness and consideration. Also, the millennials respond better to content that is meaningful and contextualized to their specific needs and preferences as compared to traditional content formats that are based on brand or product pitches. As a result, mass marketing to this generation will be less effective, as they seek more genuine feedback from family and influencers.

Digital media also serves as an excellent platform for educating consumers on new products and their propositions. It has also disrupted the pattern in discovery and purchase decisions, with consumers spending more time online and depending more on feedback from people they can relate to and/or trust as opposed to celebrities. As a result, there has been a surge in digital marketing spends by businesses.

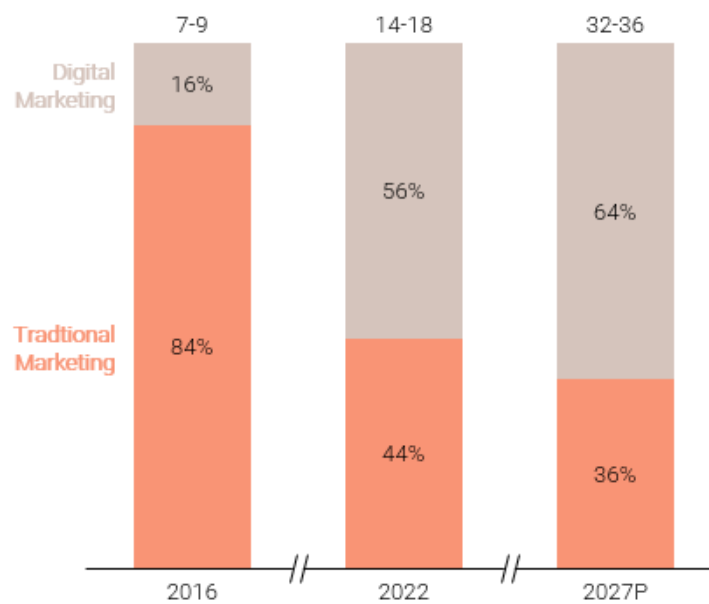

Fig 22. Marketing spends in India split by channels (USD billion, 2016, 2022, 2027P)
Source(s): RedSeer research and analysis

And in parallel, there has been a growing pool of influencers. The key, going forward, is the right use of the new-age platforms and tapping the highest-quality influencers therein, to tell the consumers compelling stories that they can relate to.

- vii. Purpose-driven brands – Consumers are moving from ‘what’-based brands to ‘why’-based brands. In particular, millennials are increasingly being driven to brands that are built on a strong mission or purpose, as compared to brands that primarily cater to functional need spaces. They prefer brands that have clear value systems and ethos, and which stand for ethics, environmental consciousness and social welfare. This also extends to safe and sustainable practices around product trials. And they are willing to pay a premium for this New-age brands are increasingly cognisant of this. Therefore, this has become a key differentiator for such brands.
- viii. Increasing contribution from beyond the metros – With increased awareness, consumers in non-metro cities are mirroring aspirations and lifestyle of metro cities. In those cities, there has been an increase in aspirational spending on BPC products, enabled by rising disposable incomes, increasing female workforce participation, increasing popularity and growing influence of social media, and lifestyle changes. This has brought about a shift from homemade solutions to branded products along with consumption of new category products. The market growth has been enhanced by investment from BPC players, especially the new-age ones, in customer education.

Moreover, growth of both modern retail channel and e-commerce has enabled access to masstige and premium products in tier 2+ cities and towns. Tailwinds such as rapid internet and smartphone adoption have democratized access to products and related information. BPC spending from Tier 2+ cities are projected to grow faster than Metro and Tier 1 cities.

Addressable market for BPC products and salon services

BPC products and salon services have an addressable market of US\$49-54 billion by 2027.

As elaborated earlier, the BPC products market in India is sized approximately US\$20 billion as of 2022, and projected to become a US \$33 billion large market by 2027.

The salon services space was sized at approximately US\$9 billion in 2022. The subcategories within salon services are services for men (US\$3 billion), services for women (US\$4.7 billion), and Beauty-spa and Beauty-treatments (US\$1.3 billion) in 2022.

The salon services space is an under-penetrated market and has been growing fast. Between 2016 and 2022, the market has doubled from US\$4 billion to US\$9 billion. This was driven by proliferation of branded salons across city tiers, increased consumer exposure to new styles and treatments and their willingness to pay a premium for these treatments. The growth momentum is strong and by 2027, the market is projected to be US\$16-21 billion

Further, according to RedSeer, for the calendar year 2022, the Company's gross merchandise value amounted to ₹23,200 million and the gross merchandise value of the total BPC market amounted to approximately ₹1,600,000 million. Thus, the Company's market share was 1.5% of the total BPC market for calendar year 2022 (Source: RedSeer).

OVERVIEW

We are the largest digital-first beauty and personal care (“BPC”) company³ in India in terms of revenue from operations for the Financial Year 2023 (Source: RedSeer Report). Since our inception, we have worked with the primary objective of developing products that address beauty and personal care problems faced by consumers. For instance, our flagship brand, Mamaearth, is built to service a core customer need for safe-to-use, natural products, and focuses on developing toxin-free beauty products (as defined below) made with natural ingredients. According to the RedSeer Report, as of the Financial Year 2023, Mamaearth has emerged as the fastest growing BPC brand in India to reach an annual revenue of ₹ 10 billion (in the preceding 12 months) within six years of launch.

Since launching Mamaearth in 2016, we have added five new brands to our portfolio, namely The Derma Co., Aqualogica, Ayuga, BBlunt and Dr. Sheth’s, and have built a ‘House of Brands’ architecture. As of June 30, 2023, our portfolio of brands with differentiated value propositions includes products in the baby care, face care, body care, hair care, color cosmetics and fragrances segments.

Our success with Mamaearth and our ability to identify and cater to emerging trends has enabled us to develop repeatable brand building playbooks that have helped in scaling our newer brands at a fast pace. These playbooks are powered by our consumer-

³ According to the RedSeer Report, “digital-first beauty and personal care company” is defined as beauty and personal care products companies with a revenue of more than ₹100 crores in Financial Year 2023, with at least 60% of the revenue coming from online channels.

centric approach across various aspects of our business model, including our innovation engine, our digital-first omni-channel distribution, and our technology and data-driven marketing and consumer engagement model.

The graphic below provides a brief overview of our brands:

Additionally, we continuously seek to connect better with our consumers and strengthen our brand equity by building ‘purpose-driven’ brands that are associated with environmental and social impact causes. For instance, through the Mamaearth ‘Plant Goodness’ initiative, we work with a non-government organisation to plant trees for orders placed on our direct-to-consumer (“DTC”) platform and share geo-tagged images of these trees with our consumers. Similarly, The Derma Co. is associated with a ‘Young Scientists’ program wherein children in certain rural parts of India are provided with access to education in science, and Aqualogica is associated with a ‘Fresh Water for All’ initiative wherein we help enable access to clean drinking water for marginalized communities.

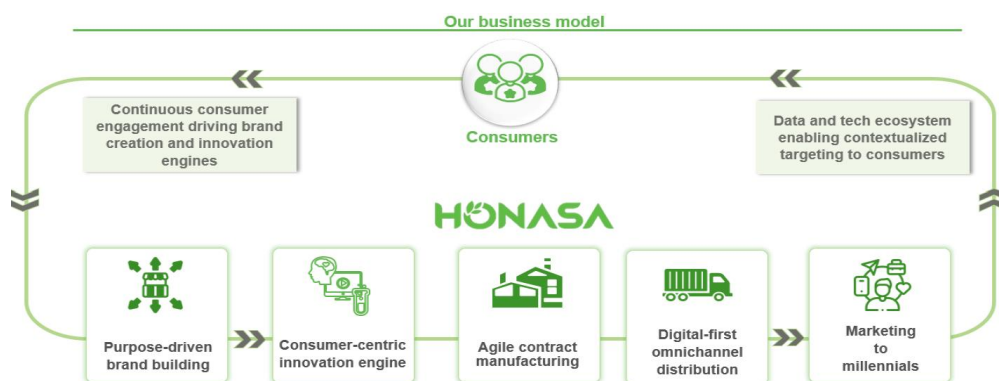

Our focus on building thoughtfully designed and purpose driven brands has helped cultivate trust, brand resonance and affinity amongst our consumers and has enabled us to grow our business, as demonstrated by the following:

- We have grown our revenue from operations at a CAGR of 80.14% between Financial Years 2021 and 2023 (from ₹4,599.90 million in Financial Year 2021 to ₹14,927.48 million in Financial Year 2023), while the median revenue CAGR of all other BPC companies for which data was available for the relevant period was 28.00% (Source: *RedSeer Report*).
- We are the largest company in the DTC BPC market in India in terms of revenue generated from the DTC channel in Financial Year 2023 (Source: *RedSeer Report*). During Financial Year 2021, 2022, 2023 and the three months period ended June 30, 2022 and June 30, 2023, 38.51%, 43.15%, 56.90%, 52.65% and 63.20% of our revenue from operations from this channel (for our Mamaearth brand) was attributable to existing customers, respectively.
- We had a market share (in terms of gross merchandise value) aggregating to approximately 5.4% (₹13,300 million) of the online BPC market (i.e. DTC and e-commerce) (₹248,000 million) in India in calendar year 2022, a market share (in terms of gross merchandise value) of 1.5% of the total BPC market (₹23,200 million) for calendar year 2022 and a market share (in terms of gross merchandise value) aggregating to approximately 28.9% (₹5,500 million) in the DTC BPC market (₹19,000 million) in calendar year 2022 (Source: *RedSeer Report*).
- Mamaearth was India’s most-searched BPC brand on Google Trends between January 2020 and June 2023 (Source: *RedSeer Report*).
- Mamaearth was ranked amongst the top three in terms of awareness in the grooming category on Flipkart between May 2021 and July 2023 (Source: *RedSeer Report*).

We have built our business by focusing on driving profitable unit economics, as demonstrated by the following (Source: *RedSeer Report*):

- We were ranked third amongst digital-first BPC companies in India in terms of gross profit margins in Financial Year 2022.
- We were one of the two digital-first BPC companies in India with a positive EBITDA margin (EBITDA margin is calculated as restated profit /(loss) for the period/year plus tax expense, finance cost, depreciation and amortization expenses, exceptional items (impairment loss on goodwill and other intangible assets) less other income, divided by revenue from operations) in Financial Year 2022.

Our success is driven by our differentiated business model that is built upon principles of consumer centricity, agility, and technology, as depicted in the graphic below:

Brand Building and Product Innovation

We have developed a range of tools and capabilities that enable us to engage with our consumers and generate insights into new and emerging trends in the BPC market in India. Our consumer insights-led product innovation engine is an integral part of our business model and helps us conceptualize and develop new brand concepts, new products and new product ranges. Details relating to our new SKUs introduced (across all our brands) and new products launched (across all our brands) during the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, is set forth in the table below:

	For the three months period ended June 30, 2023	For the three months period ended June 30, 2022	For the year ended March 31, 2023	For the year ended March 31, 2022	For the year ended March 31, 2021
New SKUs (across all our brands) introduced in the BPC market in India	109	137	301	159	126
Contribution of new SKUs (across all our brands) introduced in the BPC market in India to our revenue from operations (₹ in millions)	399.46	337.53	2,793.68	1,989.61	1,391.94
Contribution of new SKUs (across all our brands) to absolute increase in revenue from operations during the period, as compared to the preceding corresponding period (%)	25.46%	N/A	56.58%	42.17%	N/A
New products (across all our brands) launched in the BPC market in India	89	121	252	122	91

We have a dedicated in-house innovation team, consisting of 47 members, as on June 30, 2023, that drives end-to-end ideation and execution of new products launches. This team collaborates with large ingredient suppliers to co-create formulations. For manufacturing, we have set up an asset-light contract manufacturing model that gives us the benefit of economies of scale at small batch sizes while also providing the flexibility to scale up production as needed.

Distribution

We make our products available to our customers through omni-channel distribution networks across both online and offline touchpoints. We strategically leverage our presence on online channels (both DTC platforms and e-commerce marketplaces) during the early stages of a brand or products lifecycle to generate trials amongst early adopters, engage with consumers directly and test for product market fit. Once a product or brand reaches a mature stage, we selectively introduce such products and brands in offline stores to drive penetration amongst a larger consumer base. This digital-first approach in our distribution strategy enables us to incorporate valuable customer feedback across new product launches and thereby efficiently scale new products. Moreover, we actively leverage insights on consumer preference from our DTC channel at a pin-code level to define our offline store expansion strategy and our merchandising and portfolio rationalization strategy. We have established scale across both online and offline channels and recorded the highest revenue from offline channels among digital-first BPC companies in India in Financial Year 2023 (Source: RedSeer Report).

Marketing

We have adopted a data-led contextualised marketing strategy to drive consideration and purchase for our brands and products. We leverage data-driven insights to develop meaningful and authentic content for our consumers not only through our own in-house studio but also through a community of influencers on digital platforms. Further, we leverage our data ecosystem to attempt to understand consumers across demographic, behavioural, and transactional variables. We utilize this data to segment

our user base into micro-cohorts and deliver a more personalized user experience based on consumer's specific needs and preferences.

Our sharp focus on the BPC category coupled with our strengths in brand building, innovation, distribution, and marketing have positioned us well and enabled us to establish a strong presence in the Indian BPC market.

Our Market Opportunity (Source: RedSeer Report)

The BPC products market in India is undergoing a fundamental re-industrialization owing to the convergence of technology, demographic dividend, and growing consumer aspirations. Moreover, the market for BPC products in India is expected to grow from approximately \$20 billion in 2022 to approximately \$33 billion in 2027 at a CAGR of approximately 11%, which is among the highest within the broader retail categories and faster than other retail categories such as food and grocery, jewellery and watches, fashion, consumer electronics, home and living, and pharmacy and wellness in India during this period. India's per capita spend on BPC products is currently one of the lowest in comparison to some of the other developing countries and is at the cusp of growth as GDP per capita has surpassed \$2,000, which is a critical inflection point as observed in other developing economies.

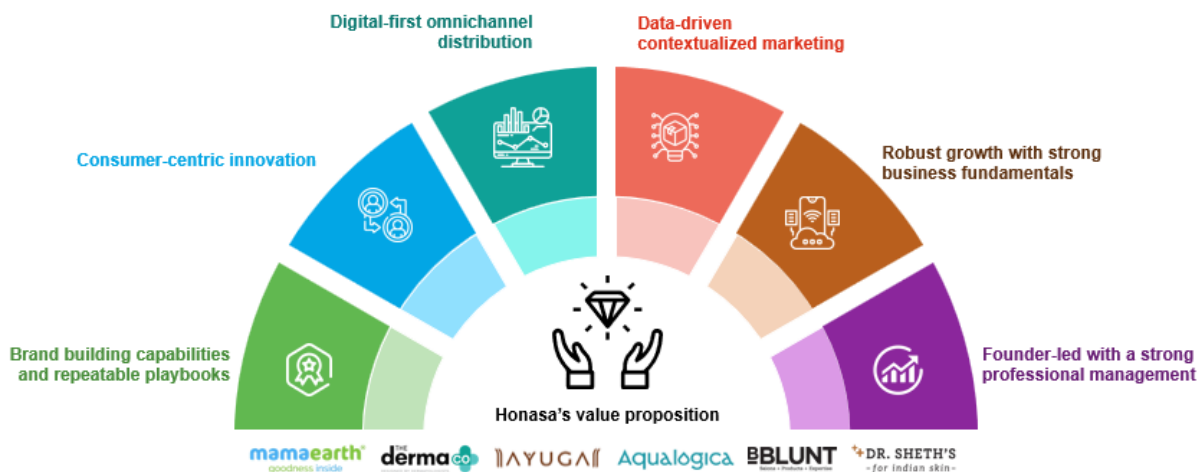

There are several consumer behaviour changes that are shaping the Indian BPC market. With increasing incomes and awareness, consumers are increasingly looking for masstige brands. These are the brands that provide higher quality at relatively affordable prices. Consumers are also becoming more brand conscious and are better targeted through social and/or digital marketing. They are more attracted to purpose-driven brands. This phenomenon is not limited to the metro cities, consumers in the tier 2+

cities are also rapidly showing similar preferences. Also, mirroring the BPC markets in the USA and China, evolved regimes in face care and makeup are becoming more prominent in India. Across product categories, consumers are looking for products which solve specific problems as opposed to generic ones.

BPC is one of those categories that lends itself well to digital penetration. The online BPC market, which is currently sized as US\$3 billion, is expected to grow at 29% annually to be around US\$11 billion by 2027, translating to an online penetration of 34%. Among the most significant trends driving the online BPC market forward is the disruption led by the digital-first brands, as they are better at catering to the rapidly changing consumer demands. The future of BPC products lies not only with large platform brands but also unique propositions and categories which solve for specific consumer need spaces.

Honasa understands evolving consumer preferences and industry whitespaces and are well positioned to benefit from the expected growth in the market.

OUR COMPETITIVE STRENGTHS

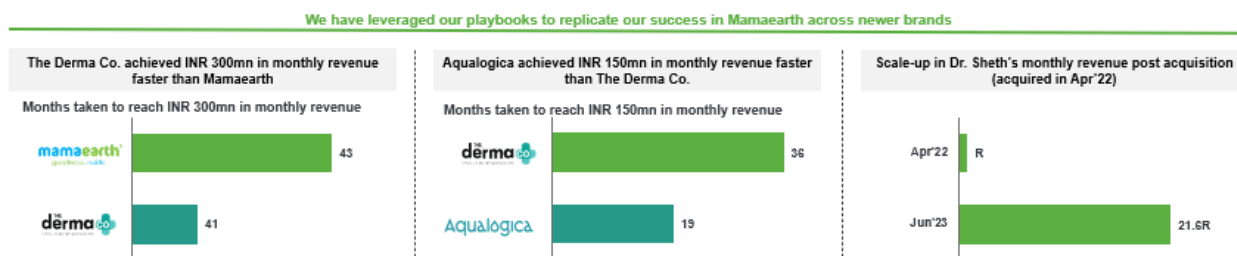

Brand building capabilities and repeatable playbooks

Millennials in India are becoming increasingly conscious of their beauty and personal care needs and the brands they consume (Source: *RedSeer Report*). Moreover, they are also more acutely oriented towards new-age innovations that cater to their specific needs and preferences, as compared to mass market propositions that cater to more mainstream or functional need spaces (Source: *RedSeer Report*). Keeping with our customer centric approach, we have responded to this changing consumer dynamic and have introduced new BPC brands and products in our portfolio over the last seven years. During Financial Years 2021, 2022 and 2023, the three months period ended June 30, 2022 and June 30, 2023, 38.51%, 43.15%, 56.90%, 52.65% and 63.20% of our revenue from operations generated from the DTC channel (for our Mamaearth brand) was attributable to existing customers, respectively. According to the RedSeer Report, we launched at least 5.7 times the number of new products / SKUs than the BPC industry median in Financial Year 2023. This ability to successfully introduce new innovations and conceptualise and build new brands has been and will continue to be critical to our success.

According to the RedSeer Report, as of Financial Year 2023, our flagship brand, Mamaearth has emerged as the fastest growing BPC brand in India to reach an annual revenue of ₹10 billion (in the preceding 12 months) within six years of launch and was India's largest digital-first BPC brand in terms of revenue in Financial Year 2023. In a short period of time since its launch in 2016, Mamaearth became India's most searched BPC brand on Google Trends between January 2020 and June 2023 (Source: *RedSeer Report*). Additionally, according to the Crownit Survey, an online consumer market research study commissioned by us, Mamaearth was one of the top brands recalled spontaneously by consumers in the skincare and haircare categories for the period between April 2021 and June 2023.

Our experience and success with Mamaearth helped us develop a brand building playbook that enables us to replicate our success with Mamaearth across newer brands. These playbooks extend from our innovation engine to our distribution strategy to our marketing and customer engagement capabilities. Leveraging these playbooks, we have demonstrated a track record of introducing new brands to the market.

The brands that we launched or acquired after Mamaearth have benefited from these playbooks and have scaled faster than our existing brands, as depicted in the graphic below:

We have set up a dedicated in-house start-up team called “Brand Factory” that closely works with our founders and is responsible for end-to-end ideation, incubation and execution of new brands. This team primarily comprises senior employees who leverage our brand building playbooks to scale new brands in the early stages of their lifecycle. The team actively identifies opportunities to optimize operations for the new brands by capitalizing on synergies from our House of Brands architecture. We believe that this model gives us a competitive advantage over both incumbents and digital-first companies in the BPC market across two key aspects:

Our ability to acquire new customers and increase share of wallet from existing customers

- Each brand in our portfolio has a differentiated value proposition that enables us to acquire new users with distinct needs and preferences and address any additional requirements of our existing user base.

Our ability to launch new brands at low costs

- All our support functions (such as procurement, supply chain, finance, human resources) are integrated across our brands, which results in cost efficiencies for new brands introduced by us. For instance, an integrated logistics network across our brands generates the advantage of economies of scale for our new brands.
- Our integrated in-house research tool User Conversational Research (“UCR”), helps generate consumer insights for new brands by leveraging the large communities of our mature brand, Mamaearth.
- A common and unified technology stack across all our brands helps us to deploy efficient websites and applications for our new brands with minimal expenditure.
- Our integrated influencer marketing engine enabled by our proprietary technology platform reduces dependence on third party agencies, thereby optimizing costs for new brands introduced by us.

Consumer-centric product innovation

Product innovation powered by our continuous consumer listening and engagement model is a key strength of our business. Over the last seven years, we have built multiple tools and capabilities that aim to capture insights into consumer needs and identify whitespaces and consumer trends faster. A summary of our key innovation tools is mentioned below:

- **Social Listening:** Our in-house social listening and tracking platform enables us to proactively capture consumer sentiments and identify emerging trends and propositions both in India and globally. This has helped us in identifying emerging propositions such as rice water for frizzy hair, green tea for open pores and *multani mitti* for oil control, with product launches in November 2020, August 2022 and April 2023, respectively.
- **Online Competitive Intelligence:** Our in-house market research and competitive intelligence platform for e-commerce, enables us to track market share movements across a number of BPC sub-categories and a long range of ingredient spaces and price points. Leveraging this tool, we are able to identify growing BPC sub-categories, ingredients, value propositions and price points that are gaining traction with consumers.
- **User Conversational Research (UCR):** Our two-way consumer engagement digital platform, UCR, enables us to directly converse with users through quick surveys and polls launched on our own brand websites and apps. It gives us the flexibility to conduct iterative research across all phases of a new product development lifecycle including identification of new product concepts, defining the right formulation and packaging, and developing the right positioning and messaging for each launch. During the three months period ended June 30, 2023, we leveraged UCR to activate 24 consumer studies with 29,200 consumer conversations across all our brands.

This consumer-insights informed product development has helped us focus on new and emerging trends before they become mainstream opportunities and in turn has translated into share gain in key categories and need spaces. For instance, Mamaearth, with the insight of providing traditional “DIY” beauty ingredients in modern and convenient formats has become the market leader in onion and *ubtan*-based beauty products in terms of revenue from operations from these ranges for the Financial Year 2023 (Source: *RedSeer Report*). In a short span of six years, Mamaearth has captured an approximately 8.3% market share in the face-wash category in India in terms of revenue from operations for the calendar year 2022 (Source: *RedSeer Report*). Similarly, we incubated The Derma Co. in 2020 when the active ingredients proposition was relatively nascent in India (Source: *RedSeer Report*). According to the RedSeer Report, over the last three years, this market has grown exponentially with consumers becoming increasingly aware about the benefits of skincare products with scientific ingredients.

All new products are designed and developed by our in-house innovation team of 47 members, as on June 30, 2023, led by our co-founder and Chief Innovation Officer, Ghazal Alagh. We have dedicated innovation centres in Gurugram and Thane to develop new formulations and propositions in line with consumer insights. We also engage with large third-party ingredient suppliers to identify emerging innovations and co-create new products. For manufacturing, we have set up an asset-light model enabled with contract manufacturing. During the three months period ended June 30, 2023, we worked with 37 contract manufacturers to produce products. Contract manufacturing gives us the benefit of economies of scale at small batch sizes while providing the flexibility to scale up production as needed. We require our contract manufacturers to adhere to stringent quality control standards and conduct regular checks at our own warehouses to ensure compliance.

Our innovation and manufacturing ecosystem has helped us reduce time to launch new products and has resulted in new SKUs (across all our brands) and new products (across all our brands) in the BPC market in India, as set forth in the table below:

	For the three months period ended June 30, 2023	For the three months period ended June 30, 2022	For the year ended March 31, 2023	For the year ended March 31, 2022	For the year ended March 31, 2021

Digital-first omnichannel distribution

Our omnichannel network allows us to be present across various touchpoints and serve our consumers wherever they shop. Our distribution model is led by our digital presence (DTC and e-commerce marketplaces), from which we derived revenue, as set forth in the table below:

	For the three months period ended June 30, 2023	For the three months period ended June 30, 2022	For the year ended March 31, 2023	For the year ended March 31, 2022	For the year ended March 31, 2021

According to the RedSeer Report, we have established scale across both online and offline channels and recorded the highest revenue from offline channels among digital-first BPC companies in India in Financial Year 2023.

Note: CY – Calendar year ended December 31; FY – Financial Year ended March 31; DTC – Direct-to-consumer; e-com – ecommerce; Q1 – first quarter of financial year; All metrics are for Q1FY24 unless specified; ¹ in terms of revenue from operations for FY 23; ² Revenue split – Q1FY24 – excludes revenue from services – 2.52% of total revenues; ³Source: RedSeer; ⁴From April 2020 to June 2023; ⁵For the three months period ended June 30, 2023; includes MAU for Mamaearth websites and mobile application; ⁶Source: NielsenIQ; ⁷As of June 30, 2023; ⁸MT chains – Modern Trade retail chains

We have adopted a digital-first approach to our distribution strategy wherein we first incubate new brands on our online channel, and then selectively introduce them in the offline channel. The strategic role of each of our online channel and offline channel during a brand's life cycle is elaborated below:

Online channel

Our new to early-stage brands are incubated in our online channel with the key objective of acquiring new users and generating trials amongst early adopters of these brands. We leverage the online channel to (i) test product market fit by capturing early feedback from consumers on brand proposition, positioning, packaging and performance; (ii) capture valuable consumer insights across purchase behaviour, product preferences, and need-spaces; and (iii) generate customer affinity by providing a personalized and engaging brand experience for consumers.

Offline channel

Once a brand achieves a certain scale and customer acceptance online, we selectively introduce products from the brand into our offline channel with the key objective of driving household penetration. Our offline channel is leveraged to (i) increase consumer reach by making products accessible to a larger consumer base; (ii) improve profitability for the brand given that the sale of BPC products through offline channels tends to be more profitable as compared to online channels (Source: RedSeer Report); and (iii) improve brand image through specialized offline formats such as exclusive brand outlets (EBOs) and professional salons where we seek to deliver a more personalized experience to our consumers. Moreover, recommendations from beauty advisors or trained stylists at such outlets and salons contribute towards building trust amongst consumers.

Our digital-first distribution strategy helps us launch new products in an efficient manner by enabling us to capture consumer feedback to check for product-market fit at an early stage before scaling them up in a much larger offline environment. We actively leverage insights on consumer preference from our DTC platform at a pin-code level to define our offline store expansion and regional prioritization strategies. This data is further leveraged to optimize our merchandising and portfolio rationalization strategies at a micro-market level.

Data-driven contextualized marketing

We have adopted a marketing model through which we activate consumer engagement initiatives across multiple media platforms and channels. With a combination of digital and traditional marketing, we deliver a consistent narrative about our brands and their proposition across all touch points relevant for our consumers. Through these initiatives, we aim to target consumers across the entire marketing funnel from creating awareness to driving consideration and conversion for our brands.

Our marketing capabilities are reflected in our content-community-commerce framework that enables us to deploy contextualized data-led marketing to our consumers. We have leveraged our extensive data libraries to segment consumers into

micro-cohorts to drive contextualized nano targeting and engagement. This has led to better consumer engagement, larger conversion funnels and transactions that further strengthens our data capabilities, creating a flywheel effect as shown below:

- Content:** According to the RedSeer Report, millennials are most influenced by other millennials and respond better to content that is meaningful and contextualized to their specific needs and preferences as compared to traditional content formats that are based on brand or product pitches. In line with this insight, we have created an in-house Content and Creative Excellence (CCE) team that leverages our wealth of consumer data to develop educational and engaging content that is relevant for our consumers. Having this in-house team helps us develop innovative content in a timely manner and permits scope for greater experimentation.
- Our content strategy focuses on educating users about latest beauty regimes, ingredients’ benefits, product usage, amongst others. Additionally, we proactively communicate our brand purpose to our consumers in the form of our environmental or social impact initiatives. According to the RedSeer Report, millennials are increasingly being driven to brands that are built on a strong mission or purpose, as compared to brands that primarily cater to functional need spaces. Our ethos of incubating purpose-driven brands that are committed towards environmental or societal goals has helped us connect with our target consumers better. Moreover, our ability to integrate technology with our purpose driven initiatives such as geo-tracking of the trees planted under our Plant Goodness initiative enables visibility and transparency for our consumers and strengthens trust.
- Community:** According to the RedSeer Report, millennials are most influenced by other millennials, with word of mouth and voices of influencers emerging as key sources of driving brand awareness and consideration. With this outlook, we have proactively developed a highly engaged community of influencers across social media platforms. During the Financial Year 2021, 2022 and 2023, and three months period ended June 30, 2022 and June 30, 2023, we worked with 604, 2,915, 4,025, 1,252 and 1,900 influencers, and 2, 4, 4, 4 and 3 celebrities, respectively. Over time, we have been able to scale and drive efficiencies in our influencer marketing capabilities through our proprietary machine learning based influencer management tool that helps us discover, target, and manage relevant social media influencers.
- Commerce:** According to the RedSeer Report, the tastes, preferences and habits of each millennial and/or generation-Z consumer are different. As a result, there is no single definition of a millennial or a generation-Z consumer. In order to reach target consumers, through our data warehouse, we capture customer data across demographic, behavioural, and transactional variables and leverage this data to segment our user base into micro-cohorts and power our personalization engine on our direct-to-consumer platform. Through this engine, we seek to deliver a differentiated and more meaningful user experience to our consumers, as depicted in the graphic below:

Note: AI - Artificial Intelligence, ML - Machine Learning; AR - Augmented Reality

Our consumer engagement and marketing capabilities have translated into a strong retention funnel for our Mamaearth brand with 38.51%, 43.15%, 56.90%, 52.65% and 63.20% of our revenue from operations for our Mamaearth brand from the DTC channel being attributable to existing customers during Financial Year 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, respectively.

Ability to drive growth and profitability in a capital efficient manner

We are the largest digital-first BPC company in India in terms of revenue from operations for the Financial Year 2023 (Source: *RedSeer Report*). We have grown our revenue from operations at a CAGR of 80.14% between Financial Years 2021 and 2023 (from ₹4,599.90 million in Financial Year 2021 to ₹14,927.48 million in Financial Year 2023), while the median revenue CAGR of all other BPC companies for which data was available for the relevant period was 28.00% (Source: *RedSeer Report*). Moreover, our growth has been driven by increase in volumes. For the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, details relating to our number of units delivered (across all our brands) are set forth below:

	For the three months period ended June 30, 2023	For the three months period ended June 30, 2022	For the year ended March 31, 2023	For the year ended March 31, 2022	For the year ended March 31, 2021

Growth of our number of units delivered (across all our brands), as compared to the preceding corresponding period (%)	44.14%	N/A	68.23%	143.30%	N/A

While we continue to focus on growing our business, we are focused on driving profitable unit economics. This has translated into an efficient business model and we were ranked third amongst digital-first BPC companies in India in terms of gross profit margins in Financial Year 2022 (Source: *RedSeer Report*). We were one of the two digital-first BPC companies in India with a positive EBITDA margin (EBITDA margin is calculated as restated profit /(loss) for the period/year plus tax expense, finance cost, depreciation and amortization expenses, exceptional items (impairment loss on goodwill and other intangible assets) less other income, divided by revenue from operations) in Financial Year 2022 (Source: *RedSeer Report*).

We have strategically built an asset-light scalable business model by developing in-house capabilities for strategic functions such as technology, product innovation and marketing while outsourcing other operations such as manufacturing, as indicated by our restated profit before tax and invested capital in business, as set forth in the table below:

	For the three months period ended June 30, 2023	For the three months period ended June 30, 2022	For the year ended March 31, 2023	For the year ended March 31, 2022	For the year ended March 31, 2021

Founder-led company with a strong professional management

Our organization is led by our visionary founders, Varun Alagh (CEO) and Ghazal Alagh (CIO). Prior to founding our Company, Varun worked across marquee companies in India such as Hindustan Unilever Limited, Diageo India Private Limited and Coca-Cola India Private Limited. Ghazal worked with NIIT and operated [dietexpert.in](#), an independent commercial operation. Ghazal has been associated with our Company as a promoter and director since September 16, 2016. Together, their

knowledge and understanding of the consumer packaged goods and BPC products space in India has been instrumental in developing and growing our business.

Our founders are complemented by a professional leadership team with a combined experience of over 100 years across consumer packaged goods, e-commerce and DTC companies in India. This team is governed and advised by a board of directors comprising of reputed individuals with extensive experience in consumer businesses. Additionally, we have been funded by marquee investors such as Peak XV VI, Stellaris, Sofina, Evolve India Fund III Ltd, Evolve India Coinvest PCC, invested through its Cell E and Fireside Ventures Fund, who continue to guide us on strategic initiatives. The shared vision and value system of this team makes us well placed to execute our future plans and ambitions.

OUR STRATEGIES

Expand distribution and brand awareness

Continue to improve brand awareness

Over the last seven years, we have built a large base of consumers across our brands and aim to continuously acquire new users to drive growth. We intend to continue to invest in innovative brand building and performance marketing initiatives to drive awareness and generate trials for our brands. We intend to focus on deploying a holistic marketing strategy across digital, social, and traditional platforms and actively leverage our differentiated content, community, and commerce flywheels to improve our reach and drive effective engagement to acquire new consumers. Moreover, to support our offline expansion plans, we intend to differentially focus on other modes of advertising, including television advertising, to reach and target a larger consumer base. For further details on the use of Offer Proceeds, see “*Objects of the Offer*” on page 110.

Continue to expand offline footprint in general and modern trade retail channels to reach a larger customer base

The offline channel contributed to 84% of the BPC products market in India in 2022 in terms of revenues (*Source: RedSeer Report*). Given the size of this channel, it is critical for us to continue to strengthen our offline channel to reach our target consumers. We intend to strategically leverage the offline channel to drive household penetration for mainstream BPC categories such as shampoo, hair oil and face washes.

Between Financial Years 2021 and 2023, we have grown our offline channel over six times, and according to NielsenIQ’s Retail Measurement System, for the period of July 2023, we are estimated to have retailed products through 154,447 FMCG retail outlets in India.

We intend to focus on increasing sales from these outlets in the medium term by developing relevant consumer and retailer loyalty and engagement programs. Additionally, we intend to continue expanding our store footprint with a focus on adding new high-value retail outlets across both existing and new cities and towns in India.

Incubate or acquire new engines of growth

Launch new brands and continue to drive product innovations across existing brands

- **Launch or acquire new brands:** We intend to incubate or acquire new brands across new value propositions and price points. We intend to continuously leverage our House of Brands architecture and brand launch playbooks to derive both revenue and cost synergies for the new brands.
- **Innovative product launches in existing categories:** We intend to continuously strive to gain market share in our existing categories by driving innovations across new ingredients, new propositions, and new product formats.
- **Enter new categories:** We intend to continue to expand our portfolio across the full spectrum of BPC categories by further penetrating into adjacent categories such as color cosmetics and fragrances.

- New age innovation: The future of BPC products lies not only with large platform brands but also unique propositions and categories which cater to specific consumer need spaces (Source: *RedSeer Report*). Hence, we intend to continue investing in identifying whitespaces and building new age brands and propositions today which may become larger opportunities tomorrow.

Develop new channels and strengthen our omni-channel strategy

- Expand EBO footprint: We intend to open new Mamaearth EBOs across a mix of mall stores and high-street outlets in India. We intend to leverage this channel to curate a richer brand experience for our consumers and deepen engagement with them in the offline retail environment. We also intend to use our EBO channel to further develop strategic categories such as color cosmetics that require a more personalized service and experience to facilitate purchase conversion.
- Expand our professional salon channel: Our acquisition of BBlunt in March 2022 has enabled us to access the professional salon channel. By delivering a personalized experience at these salons with recommendations from trained stylists, we have been able to build trust amongst consumers which has strengthened brand equity for our products. This channel is expected to provide us with a ready base of consumers to generate trials and will provide the ability to acquire new consumers, not only for BBlunt but also for other brands in our portfolio. Going forward, we intend to expand our salon footprint and build on these positive synergies for our products business.
For further details on the use of Offer Proceeds towards our proposed investment in BBlunt to set up new salons of BBlunt, see “*Objects of the Offer — Details of the Objects — Investment in our Subsidiary, BBlunt, for setting up new salons*” on page 115.

Selectively expand into new markets

- While India is and will continue to be our focus market in the medium term, we intend to opportunistically expand our presence in identified priority markets such as the United Arab Emirates, Nepal, and Bangladesh, both organically and through strategic acquisitions. We have identified these markets based on a host of considerations including our understanding of the size and competitive intensity of the market, existing brand awareness and potential resonance for our brand propositions, and our ability to replicate our brand building playbooks in these markets.
For further details on the use of the Offer Proceeds towards unidentified inorganic acquisitions, see “*Objects of the Offer — Details of the Objects — General corporate purposes and unidentified inorganic acquisitions*” on page 117.

Strengthen business efficiency drivers

Optimize channel mix for our flagship brand, Mamaearth

- In line with our distribution strategy, we intend to continue driving growth for our flagship brand, Mamaearth, in the offline channel. Our share of revenue from operations from the offline channel across all our brands has increased from 18.63% (₹856.97 million) during the Financial Year 2021 to 33.47% (₹1,554.76 million) in the three months period ended June 30, 2023. Going forward, we intend to continue to grow our share of business from the offline channel. Given that the sale of BPC products through offline channels tends to be more profitable as compared to online channels (Source: *RedSeer Report*), expansion into offline channels will help improve the overall margin profile of our business. See “*Our Competitive Strengths – Digital-first omnichannel distribution*” on page 161 for details on our distribution strategy.

Drive scale benefits from core business

- As our business scales, we intend to proactively work towards deriving further benefits of economies of scale across all aspects of our business model, including procurement and manufacturing, supply chain and distribution, advertising and promotional expenses, and operating expenses. Between Financial Years 2022 and Financial Years 2023, our gross profit margins increased by 0.11% from 69.96% to 70.07%, respectively. For details, “— *Overview — Operating and Financial Metrics*” on page 157. This is driven by economies of scale which has contributed to lower procurement costs, specifically for our key ingredient ranges such as onion and *ubtan* for our flagship brand, Mamaearth.

Strengthen our technology and data capabilities to drive business efficiencies

We intend to continue to invest in our technology and data capabilities to drive business efficiencies, stay connected with our consumers and strengthen cross-brand, cross-functional synergies. We intend to further refine our personalization engine to deliver a more tailored, contextualized experience to our users, deepen brand connect and drive consumer retention and repeat. Further, we intend to actively leverage our House of Brands architecture to identify opportunities to improve cross-brand targeting and thereby reduce cost of acquisition for newer brands and increase customer lifetime value at a company level. For instance, in June 2022, we launched an integrated sampling platform, YOTO Box, to enable us to generate trials across brands

in our portfolio and drive cross-selling, with the aim of capturing a higher share of wallet and customer lifetime value at a company level in the future.

DESCRIPTION OF OUR BUSINESS

We are the largest digital-first BPC company in India in terms of revenue from operations for the Financial Year 2023 (Source: *RedSeer Report*). We have built a ‘House of Brands’ architecture with a portfolio of six brands in the BPC space. Over the last seven years of our journey, our success with Mamaearth has enabled us to develop repeatable brand building playbooks that have helped us in scaling our newer brands at a fast pace. These playbooks are powered by our consumer-centric approach across various aspects of our business model, including our innovation engine, our digital-first omni-channel distribution, and our technology and data-driven marketing and consumer engagement model.

Our Brands

Each of our brands offer a differentiated value proposition as sought by our consumers. Our products portfolio includes products in the baby care, face care, body care, hair care, color cosmetics and fragrances segments. This product portfolio is supplemented by our professional salons chain, BBLunt Salons.

While our product portfolio was in the past also supplemented by our services businesses across our content and community management platform, Momspresso, our management has now decided to scale down the majority of the business verticals of Momspresso. For details on the scale down of Momspresso, see “*Risk Factors – We may not be able to successfully identify and conclude acquisitions, or manage the integration of or harness synergies from acquired businesses, or the performance of such acquired businesses may be below our expectations, any of which may adversely affect our business, results of operations, cash flows and financial condition.*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations – Our Results of Operations – Financial Year 2023 compared to Financial Year 2022*” on pages 47 and 345, respectively.

Mamaearth

Value proposition: Toxin-free beauty products made with natural ingredients.

Established in 2016, Mamaearth is our flagship brand that focuses on developing toxin-free beauty products made with natural ingredients. Mamaearth was India’s largest digital-first BPC brand in India in terms of revenue from operations in Financial Year 2023 (Source: *RedSeer Report*). Initially introduced as a natural ingredients-led baby care brand with products inspired from traditional DIY beauty recipes, Mamaearth was aimed at parents who were increasingly concerned about the ingredients used in baby products. Mamaearth’s product offering has since extended beyond baby care products and is now an established BPC platform brand with products across baby care, hair care, face care, body care, color cosmetics, and fragrances.

Mamaearth’s brand proposition is built on the following pillars:

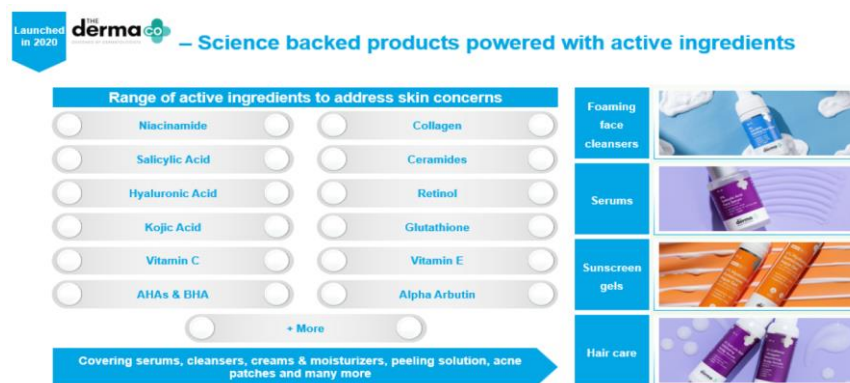

- **Power of Nature.** The key ingredients used in our product ranges are inspired from nature and traditional Indian DIY recipes for BPC products. We have curated our portfolio by delivering these ingredients for BPC products in convenient and easy-to-use formats. Some of our best-selling ingredient ranges include onion, *ubtan*, vitamin C and tea tree.
- **Toxin-free beauty products.** Mamaearth aims to provide consumers with quality products that are toxin-free and safe-to-use. We place an increased emphasis on our product formulations and ingredient assessments and have carefully curated a list of harmful chemicals and materials that we choose not to use in our formulations, which are (i) parabens, (ii) phthalates, (iii) sulphates (SLS/SLES), (iv) mineral oil, (v) formaldehydes, (vi) triclosan and (vii) benzene.
- **Safe:** Our products are tested by expert dermatologists to ensure that we deliver safe and quality products to our consumers.

- **Goodness Inside.** Mamaearth believes in the ideology of ‘Goodness Inside’ – aimed at goodness not only through natural and toxin-free products but also through our commitment towards social and environmental causes. This purpose is exhibited through the following initiatives:
 - **Plant Goodness:** We plant trees on behalf of orders placed on our direct-to-consumer channel. As of June 30, 2023, we had planted more than 470,000 trees since inception with the aim to reduce carbon footprint and improve air quality, soil quality and groundwater levels. Each tree is geo-tagged, enabling transparency and visibility to our consumers.
 - **Plastic Positive:** We have helped recycle 5,821 metric tonnes of plastic in Financial Years 2021, 2022 and 2023, which is more than the plastic used in products procured by us from contract manufacturers during the same period.
 - **Redefining Beauty:** We define beauty as ‘doing good’ rather than ‘looking good’. As a representation of this belief, we created a marketing platform, ‘Beautiful Indians’, that celebrated goodness by recognizing individuals who demonstrated acts of goodness across social or environmental causes.

The Derma Co.

Value proposition: Science-backed products powered with active ingredients.

We launched The Derma Co. in 2020 to provide solutions for skin and hair conditions through a range of active ingredient-based products. The brand is focused on making these solutions easily accessible to consumers across digital and retail touchpoints. The brand offers a range of products that help resolve diverse concerns like active acne, acne marks, pigmentation, dull skin, ageing, hair loss, dandruff, etc. The brand offers an AI enabled experience to consumers in the form of real-time skin assessment analysis to help them detect skin conditions and identify specific products or regime for treatment.

The Derma Co.’s brand proposition is built on the following pillars:

- **Safe.** Our products are tested by expert dermatologists to ensure the safety of our formulations.
- **Transparent.** The Derma Co. ensures transparency and authenticity by mentioning the exact percentage of core active ingredients in the products.
- **Purpose-driven.** Science is a core tenet of the brand value proposition, and we want the consumer to be empowered and educated in this proposition. As part of our Young Scientists initiative, we have partnered with a non-governmental organization to make practical science education accessible to students in need.

Aqualogica

Launched in November 2021, Aqualogica is our specialized skin care brand that leverages the science of hydration to introduce products suited to Indian skin-types. Aqualogica’s formulations blend the purity of fruits with the science of actives to develop hydrating products for face and body care. We have curated six ranges under this brand:

- **Hydrate+.** Formulated with coconut and hyaluronic acid, the Hydrate+ range is designed to provide deep hydration to the skin while making it soft and smooth.
- **Glow+.** Formulated with papaya, vitamin C and hyaluronic acid, the Glow+ range is designed to provide a natural glow to the skin by helping fight common issues like hyperpigmentation and uneven skin tone.

- **Radiance+**. Formulated with watermelon, niacinamide and hyaluronic acid, the Radiance+ range is designed to improve skin texture by helping fight common issues like acne marks and hyperpigmentation.
- **Clear+**. Formulated with Green Tea, Salicylic Acid and Hyaluronic Acid, the Clear+ range is designed to treat active acne, control excess oil production and reveal healthy, clear skin.
- **Detan+** : Formulated with cherry tomato, glycolic acid and hyaluronic acid, the Detan+ range is designed to reduce tan and reveal smoother skin.
- **Illuminate+** : Formulated with wild berries, alpha arbutin and hyaluronic acid, the Illuminate+ range is designed to reduce hyperpigmentation and generate skin lightening effect.

Value proposition: Hydrating skincare designed for Indian skin-types.

Aqualogica’s brand proposition is built on the following pillars:

- **Made for India.** Aqualogica exists to build products that are specifically designed for Indian skin types. These formulations are designed to be quick-absorbing, non-oily, non-sticky and are enriched with rich hydrating ingredients.
- **Unique Water Lock Technology™.** Our products are crafted with our Unique Water Lock Technology™ that locks in moisture and provides deep and intense hydration. The unique formulation stimulates the aquaporin channels of the skin that help push moisture from the inner layer of the skin to the outer layer and is clinically proven to increase skin hydration.
- **Fresh Water For All.** Aqualogica is associated with the ‘Fresh Water for All’ initiative through which we help enable access to clean and safe drinking water in remote regions in India.

Ayuga

Launched in December 2021, Ayuga aims to make the traditional wisdom of Ayurveda relevant for Indian millennials by curating products in easy-to-use, modern formats that can easily fit in a consumer’s daily skin and hair care regime. Ayuga products span the face, body and hair care product categories, and include products such as night gel, face serum, sunscreen, shampoo and conditioner.

Value proposition: Ayurvedic beauty products in easy-to-use, modern formats for Indian millennials.

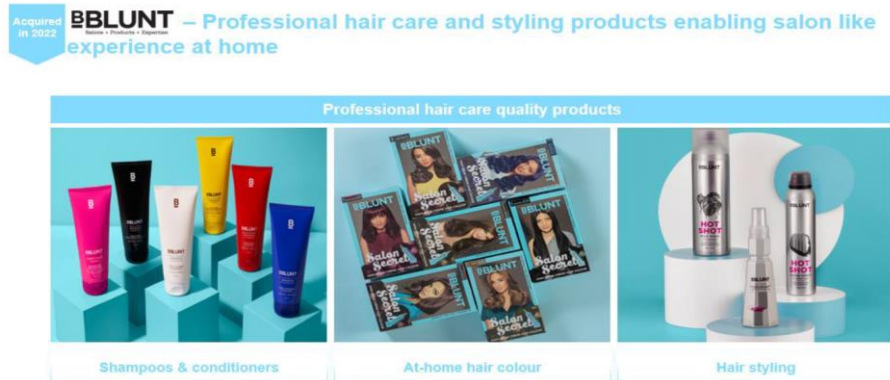

Ayuga's brand proposition is built on the following pillars:

- *Traditional Wisdom.* Ayuga aspires to curate products that leverage the age-old wisdom of Ayurveda. Our product formulations are inspired from traditional ayurvedic texts, formulas, and rituals.
- *Honesty.* Ayuga seeks to ensure transparency and authenticity by setting out the exact percentage of the core ayurvedic oil used in the products.

BBlunt

We acquired BBlunt in March 2022 with the objective of extending our portfolio to specialized professional hair care and styling segments. BBlunt seeks to replicate a salon-like experience for consumers at home by offering a wide range of products including shampoos, conditioners, hair serums, hair color, heat protection mist, and hair sprays.

Value proposition: Professional hair care and styling products enabling salon like experience at home.

BBlunt's brand proposition is built on the following pillars:

- *Salon Expertise:* BBlunt derives its heritage from the BBlunt Salons business which was launched in 2004. Nearly two decades of experience of servicing consumers through the salons business has enabled the brand to develop a portfolio of products that are relevant for consumers and cater to their specific hair care and styling needs.
- *Shine:* We aim to create products that enhance hair texture and leave a luminous shine on the hair.

Dr. Sheth's

Acquired in April 2022 and operating through our Subsidiary, Fusion Cosmeceutics Private Limited, which became wholly-owned by us in December 2022, Dr. Sheth's offers specialized skincare solutions crafted with a combination of natural and active ingredients. Dr Sheth's was developed by three generations of skin specialists with a focus on naturally inspired and scientifically validated products.

Value proposition: Bio-actives based skincare developed by three generations of skin specialists.

Dr. Sheth's brand proposition is built on the following pillars:

- *Natural and scientific ingredients:* We combine potent active ingredients backed by science with the goodness of natural botanical ingredients such as herbs, fruits, and leaves.
- *Made for India:* As a brand designed by skin specialists who have extensively worked on treating Indian skin, we are focused on curating products that are specifically designed for the Indian skin types and seek to treat a range of common skin issues faced by Indian consumers such as pigmentation, dark spots, and acne.
- *Decades of Indian skin expertise:* Dr Sheth's was developed by three generations of skin specialists and continues to derive equity from this rich heritage.

Pursuant to the share purchase agreement dated October 20, 2022, our Company purchased the remaining 33.23% of the equity share capital of Fusion from Aneesh Sheth. In addition, pursuant to a resolution dated December 9, 2022 passed by the board of directors of Fusion, the notional ESOP pool forming part of Fusion's diluted share capital was cancelled. As such, as on the date of this Prospectus, our Company holds 100.00% of the share capital of Fusion. For further details see, "History and Certain Corporate Matters — Our Subsidiaries" and "History and Certain Corporate Matters — Details regarding material acquisitions or divestments of business / undertakings, mergers, amalgamation, any revaluation of assets, etc. in the last 10 years" on pages 193 and 191, respectively.

BBlunt Salons

We acquired BBlunt Salons along with the BBlunt product business in March 2022. Operating under our subsidiary, Bhabani Blunt Hairdressing Private Limited, through BBlunt Salons, we offer hair care, grooming and styling services for women and men across 10 leased outlets in Mumbai, Bangalore and Kolkata, as on June 30, 2023. This business was launched in 2004 by a founding team comprising celebrity hair stylists who continue to be associated with the brand as consultants and creative directors.

Beauticians, hairdressers, and stylists at our BBlunt Salons are trained at our in-house training academies. As a part of development initiatives at these training academies, we offer a number of courses including barbering, hair colouring and hairdressing. Through these academies, we provide training courses not only to our own stylists but also to other students not associated with the salon business.

Personalized recommendations from trained stylists at these salons have helped build trust amongst consumers and has strengthened brand equity for our products business. We aim to leverage these salons and academies to generate visibility and customer trials for relevant BPC categories, such as hair care and colour cosmetics, from other brands in our portfolio.

Additionally, we also provide shooting and filming services under the BBlunt umbrella wherein we offer make-up and hair styling services to television and media outlets.

Our Capabilities

Innovation and Product Development

We focus on product innovation as a key differentiator of our business. We have developed multiple tools and capabilities that enable us to identify new and emerging trends quickly and develop products that aim at solving consumer problems. For more details on our innovation tools, see “- *Technology*” on page 174. Details relating to our new SKUs introduced (across all our brands) and new products launched (across all our brands) during the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, is set forth in the table below:

	For the three months period ended June 30, 2023	For the three months period ended June 30, 2022	For the year ended March 31, 2023	For the year ended March 31, 2022	For the year ended March 31, 2021

New products (across all our brands) launched in the BPC market in India	89	121	252	122	91

Our in-house innovation team of 47 members, as on June 30, 2023, led by our co-founder and Chief Innovation Officer, Ghazal Alagh, continuously works on identifying innovative ideas across new categories, new product formats, new ingredients, or new need spaces. This team works on the end-to-end ideation and execution of new product launches starting from developing product briefs and concepts, to finalizing formulation and packaging of the product, to determining the pricing and positioning of the products. All decisions across this new product launch lifecycle are informed by inputs and feedback from consumers with deep insights into consumer preferences. We have dedicated innovation centres in Gurugram and Thane to develop new formulations and propositions in line with consumer insights. We also engage with large third-party ingredient suppliers to identify emerging innovations and co-create new products.

Contract Manufacturing and Quality Assurance

As part of our manufacturing process, we have set up an asset-light model enabled with contract manufacturing. During the three months period ended June 30, 2023, we worked with 37 contract manufacturers to produce products. Through this model, we are able to benefit from economies of scale at small batch sizes with the flexibility to scale production, as required.

We conduct extensive due diligence on manufacturing partners, and this process includes audits of manufacturing facilities and production capacities, sample testing and transport and stability testing. Once a contract manufacturing partner is selected by us, our innovation and commercial operations team continuously engage with them to guide the manufacturing process based on the specific formulations and packaging guidelines established for the product. We have implemented stringent quality control standards for all our contract manufacturers. We perform quality inspections and testing procedures of the finished goods produced by these manufacturers. Samples from each batch are tested first at the manufacturing facility followed by regular checks at our own warehouses to ensure compliance. Additionally, we leverage independent third-party quality laboratories to carry out routine inspections and testing on products manufactured for us to ensure consistent quality of our products.

Supply Chain and Logistics

As of June 30, 2023, our brand agnostic, integrated supply chain comprises of 13 warehouses spread across seven districts in India. Of these 13 warehouses, three warehouses are directly managed by us while management of the remaining warehouses is outsourced to third-party partners. Our main warehouse, which is based in Pataudi, Haryana, acts as a central hub and distributes products to our regional warehouses in other parts of the country.

We distribute our products to our consumers, distributors, super distributors and sub-stockists both through our main and regional warehouses. We have contracted third party logistics providers, to deliver products to our consumers across India for orders placed through the direct-to-consumer channel.

We have developed a data and tech-enabled supply chain to enable efficiencies across the network. Pin-code level data from our direct-to-consumer channel helps us identify the right location to establish new warehouses or generates triggers to expand capacity at existing warehouses. Our enterprise resource planning (ERP) solution and order management system (OMS) help us streamline operations across procurement, inventory management, production planning, sales and distribution, financial

controlling, and accounting. Our in-house data analytics team processes cross-channel supply chain data from ERP and OMS to provide end-to-end visibility of our inventory across our network. This information is in turn used by the team to develop algorithms that enable efficient allocation of in-bound and out-bound orders across our network of warehouses.

Additionally, we leverage sophisticated artificial intelligence and machine learning tools to optimize demand forecasting, replenishment, and inventory management across our networks. These tools also provide us with the ability to respond to demand changes in an agile manner. This demand planning system is configured at a channel level with a separate product catalogue activated for our online and offline channels. This enables us to offer our full range of products in the online channel while introducing only selective products to the offline channel, in line with our digital-first distribution strategy.

Omni-Channel Distribution Network

We have established an omnichannel distribution network across online and offline channels. Through this network, we have been able to make our products available pan-India across 715 districts in India, during the three months period ended June 30, 2023.

Online Channel

Our online channel comprises of our direct-to-consumer channel which includes our brand-specific websites, mobile websites and mobile applications and e-commerce marketplaces. We leverage our online channels to incubate new to early-stage brands with the objective of acquiring new users and generating trials amongst early adopters. Through our online channel, we serviced 18,640 pincodes (covering 96.58% of the total pincodes) during the three months period ended June 30, 2023.

Our direct-to-consumer channel enables consumers to browse the entire range of products available under our portfolio of brands and make purchases directly from us. This channel provides us with valuable data and insights into customer behavior and preferences that enables us to drive efficient decision making across functions. The channel also helps us to bring our sustainability and consumer-related initiatives to life and communicate our core brand purpose to our consumers. Within the e-commerce channel, we have developed an established presence and longstanding relationships with all leading e-commerce marketplaces, such as Nykaa.

Offline Channel

Our offline channel comprises of our retail footprint across general trade outlets and modern trade outlets, Mamaearth Exclusive Brand Outlets (“**EBOs**”) and BBlunt salons. We leverage our presence in general trade outlets and modern trade outlets to drive household penetration while our EBOs and salons help strengthen equity for our brands in a retail environment by enabling a more personalized customer experience.

General Trade

Our general trade channel includes a network of retail and wholesale stores, which include beauty and cosmetics-focused outlets, grocery stores, pharmacies and self-service department outlets. These outlets are accessed by us through our network of distributors, super distributors and sub-stockists. According to NielsenIQ’s Retail Measurement System, for the period of July 2023, we are estimated to have retailed products through 154,447 FMCG retail outlets in India. During the three months period ended June 30, 2023, we worked with an aggregate of 541 distributors, super distributors and sub-stockists across India. Further, we have collaborated with a reputed pharmacy chain for sale of Mamaearth products at their stores, with Mamaearth products reaching more than 5,000 such stores in the past. We have also deployed a distributor management system (DMS) across large distributors in the offline channel to help us enhance visibility of secondary sales and inventory. The data captured from this tool is also leveraged to optimize demand planning and trade marketing activities in the channel. Additionally, we actively leverage insights on consumer preference from our DTC platform at a pin-code level to define our offline store expansion and regional prioritization strategies. This data is further leveraged to optimize our merchandising and portfolio rationalization strategies at a micro-market level.

Modern Trade

Our modern trade channel includes a network of 31 retail chains, during the three months ended June 30, 2023, with whom we have contractual arrangements for the sale of our products. These retail chains include national chains, regional retail chains, pharmacies, and cash-and-carry stores across India.

EBOs and Salons

As of June 30, 2023, we had 85 EBOs exclusively retailing products for our Mamaearth brand. Our EBOs help us curate a richer brand experience for our consumers and deepen engagement with them in the offline retail environment. Through these EBOs, we aim to capitalize on strategic categories such as color cosmetics which require a more personalized service and experience to facilitate purchase.

Additionally, our acquisition of BBlunt in March 2022 has enabled us to access the professional salon channel in the offline retail environment. Recommendations from trained stylists at these salons have helped build trust amongst consumers and has strengthened brand equity for our BBlunt products. We aim to leverage these salons and academies to generate visibility and customer trials for relevant BPC categories, such as hair care and colour cosmetics, from other brands in our portfolio.

During the month of June 30, 2023, we had 1,269 beauty advisors who work across general trade outlets, modern trade outlets and our EBOs to deliver a more personalized experience to consumers and help them in their decision-making process.

Marketing and Advertising

Our marketing model aims to activate consumer engagement initiatives across multiple media platforms and channels. With a combination of digital and traditional marketing, we deliver a consistent narrative about our brands and their proposition across all touch points relevant for our consumers. Through these activations, we aim to target users across the full marketing funnel, right from creating awareness to driving consideration and conversion for our brands.

As a digital-first BPC company, we have developed a comprehensive digital marketing strategy across social media platforms. We have adopted an ‘always-on’ marketing philosophy, which translates into continuous engagement with our consumers throughout the year through our digital channels, aided by organized and rigorous calendar planning, across various channels and content formats. Our non-digital, traditional marketing initiatives include television campaigns and physical events. We started engaging with our consumers through television campaigns for Mamaearth in November 2020 to help drive awareness and penetration for the brand into new households and expand our reach in the offline channel. Our marketing and brand building initiatives are supported by the following in-house verticals:

Category and Marketing Insights (CMI)

Our in-house CMI team continuously engages with consumers to generate valuable insights to support decision making across functions. This includes testing new hypothesis on emerging need spaces or category trends, testing consumer response to our content and creative strategies, and understanding consumer media choices and purchase funnels. The team leverages our in-house UCR tech platform to launch surveys and polls on our own brand websites, and activates extensive qualitative and quantitative consumer research from third-party market research agencies to provide additional insights on critical strategic areas.

Content and Creative Excellence (CCE)

We believe that millennials respond better to content that is meaningful and contextualized to their specific needs and preferences as compared to traditional content formats that are based on brand or product pitches. In line with this insight, we have created an in-house CCE team that develops relevant educational content to engage with our consumers, supported by data-led consumer insights. We have set-up our own in-house creative studio to accelerate content development timelines and drive efficiencies. Our content strategy aims to focus on latest beauty regimes, ingredients’ benefits, product usage, amongst others.

Influencer Marketing and Public Relations

We work with a community of influencers on social media platforms to create relevant content across video and textual formats. During the Financial Years 2021, 2022 and 2023, and three months period ended June 30, 2022 and June 30, 2023, we worked with 604, 2,915, 4,025, 1,252 and 1,900 influencers, and 2, 4, 4, 4 and 3 celebrities, respectively, which included beauty, fashion and lifestyle bloggers, makeup artists and celebrities to generate content for our brands. This influencer marketing model has helped build awareness for our brands, propositions and products. Additionally, across our digital and traditional marketing campaigns, we routinely collaborate with celebrity brand ambassadors to promote our brands.

We are a member of the Advertising Standards Council of India (“**ASCI**”), a voluntary self-regulatory organization of the advertising industry in India. Pursuant to our membership of ASCI, we are subject to certain guidelines prescribed under the ASCI Code of Self-Regulation relating to marketing and advertising campaigns. For further details, see “*Risk Factors — Internal Risk Factors — Our online marketing listings or reviews may constitute internet advertisement, which subjects us to laws, rules and regulations applicable to advertising.*” on page 61.

Technology

We consider our technology platform to be a key enabler and pillar to our business strategy. Our integrated technology platform connects our brands, our channels, and our supply chain operations to improve efficiencies across functions and teams. Our technology stack comprises of five key components – shopping stack, data warehouse and customer-360 view, organizational product suite, business efficiency drivers, and our information security and data privacy framework.

Shopping Stack

Our shopping stack supports our direct-to-consumer channel across three key categories: consumer facing applications, backend functionalities and third-party integration.

- **Consumer facing applications:** These are the platforms that receive and process orders placed by our customers on our websites, mobile websites and mobile applications.
- **Backend applications:** These applications help us streamline and improve customer experience on our brand websites, mobile websites and mobile applications. These capabilities include product cataloging, search optimization, promotions, discounting optimization, loyalty program management, seamless checkout management and customer support services.
- **Third-party integration:** The shopping stack is integrated with multiple third-party tools and software to support demand forecasting, inventory management, warehouse management, order management, payments management, and supply chain and logistics management.

As of June 30, 2023, we have a dedicated in-house team of 78 members in our tech team that focuses on continuously enhancing these applications and platform capabilities to help automate and improve processes. We have built a single, integrated shopping stack that can quickly be replicated for newer brands. This enables us to quickly launch new brand websites, mobile websites and mobile applications, fully enabled with relevant features.

Data Warehouse and Consumer 360 View

We have developed our data science capabilities to generate real time business insights and drive business efficiencies across channels and functions. Our strength in the online channel gives us an advantage in our data processing capabilities by providing us with the ability to generate consumer data across demographic and behavioural variables in addition to standard transactional details. This consumer 360-degree view has enabled us to develop a deep understanding of consumer preferences and provides us with the ability to improve consumer experience on our platforms, improve consumer lifetime value and optimize channel strategies.

- **Improve Customer Experience:** We leverage this data to segment our user base into meaningful micro-cohorts and create personalized consumer journeys.
- **Improve Customer Share of Wallet:** This data warehouse enables us to identify relevant audiences to cross-sell new categories or new brands to our existing user base and thereby improve customer lifetime share of wallet at a company level.
- **Optimize Channel Strategies:** Pin-code level insights on consumer preferences from our direct-to-consumer channel are leveraged to define our offline store expansion and regional prioritization strategy. This data is further used to optimize merchandising and portfolio rationalization strategies at a micro-market level in the offline channel.

Organizational Product Suite

We have developed specialized in-house tools that help us identify consumer trends and innovate products faster than competition. These tools also enable business efficiencies across multiple support functions from marketing and media planning to supply chain operations. Our proprietary technology tools include:

- *User Conversational Research (UCR)*: our unique, two-way consumer engagement digital platform that enables us to drive live conversations with users in multiple conversational formats such as polls, surveys, and open-ended questions. The tool helps generate quick and robust insights that enable faster and more efficient decision making across functions. During the three months period ended June 30, 2023, we leveraged UCR to activate 24 consumer studies with 29,200 consumer conversations across all our brands.
- *Online Competitive Intelligence*: our in-house market research and competitive intelligence platform providing insights at a brand, ingredient, and price point level across a number of BPC sub-categories in the e-commerce channel. This data provides us with a valuable pool of data to enable identification of white spaces and helps optimize marketing budgets/campaigns on e-commerce marketplaces.
- *Social Listening*: our in-house social platform that enables us to capture consumer sentiments and identify emerging trends and propositions.
- *Keyword Search*: our in-house analytics platform which provides deep insights into consumer search terms on e-commerce marketplaces. This helps us optimize marketing spends by redirecting budgets towards search keywords that are most relevant for our brands and our customers.
- *Influencer Marketing*: our in-house machine-learning based tool which helps us identify new social media trends and influencers and predict performance, thereby automating a traditionally manual process driven through third-party agencies.

Business Efficiency Drivers

We use advanced information technology systems to streamline systems and processes in our operations. These systems facilitate the flow of real-time information across departments and allow us to make data-driven decisions and manage performance. Some of these systems are set out below:

- **Enterprise Resource Planning (ERP)**: Our ERP system enabled by SAP S4/HANA[®] helps us manage and optimize business processes across procurement, inventory management, production planning, sales and distribution, financial controlling, and accounting.
- **Order Management System (OMS)**: Our OMS solution enables us to efficiently manage order workflows on our own brand websites and applications. It also helps us integrate our portfolios and manage inventory across e-commerce marketplaces.
- **Demand Planning**: We leverage artificial intelligence and machine learning tools to optimize demand forecasting, replenishment, and inventory management across our networks. These tools also provide us with the ability to respond to demand changes in an agile manner.
- **Distributor Management System (“DMS”)**: Having implemented a DMS across large distributors in the offline channel helps us enhance visibility of secondary sales and inventory. Data captured from this tool is leveraged to optimize demand planning and trade marketing activities in the channel.
- **Sales Force Automation (SFA)**: Our SFA solution helps us streamline sales force operations in the offline channel. The platform provides us with complete visibility of sales staff activities and new retailers acquisition, and enables order capturing at source.

Information Security and Data Privacy

We have an information security and data privacy framework which contains guidelines for protection against security threats to our technology and information systems, specifies procedures to protect our customer data and contains guidelines regarding the usage of customer data. Under the policy guidelines, we do not transmit any customer data to external third parties, including third party databases. We continuously endeavor to prevent any data breaches and have introduced measures such as a firewall protection, virtual private network access (VPN) and 2-factor authentication systems to restrict unauthorised access to our systems and servers. We also conduct regular malware scanning to detect and prevent data breaches. For further details, see “*Our Management*” and “*Risk Factors — We rely on our information technology systems in managing our supply chain, logistics and other integral parts of our business. Any failure in our information technology systems could adversely affect our financial condition and results of operations*” on pages 199 and 57, respectively.

Our Purpose

Environmental, Social and Governance

We believe that enabling and uplifting society, taking care of the environment, and being ethical in our conduct will have a lasting positive impact on our communities and our organization. We have aimed to consciously build a purpose-driven organization that upholds the three pillars of environmental sustainability, societal welfare, and ethical governance (ESG). Our focus on these three pillars permeates through our brands, products, processes and operations. While we have organized initiatives and activities to further our ESG goals, we consider achieving these goals to be an ongoing process of continual improvement.

- **Environment:** Our commitment to sustainability.
 - Through our ‘Plant Goodness’ initiative, we plant trees for all orders placed on our direct-to-consumer channel and as on June 30, 2023, we had planted over 470,000 trees since inception. This initiative aims to reduce carbon footprint and improve air quality, soil quality and groundwater levels. Each tree planted through this initiative is geo-tagged, thereby enabling transparency and visibility to our consumers.
 - We are a plastic-positive organization, and have helped recycle 5,821 metric tonnes of plastic in Financial Years 2021, 2022 and 2023, which is more than the plastic used in products procured by us from contract manufacturers during the same period.
- **Social:** Giving back to society.
 - Redefining Beauty: We define beauty in ‘doing good’. As a representation of this thought, through our Mamaearth brand, we created platforms such as ‘Mamaearth x Femina Beautiful Indians’ and ‘Dolphin Tank’, through which we seek to recognise and reward small acts of goodness in society. We encouraged the submission of entries from public as well as celebrities to acknowledge these acts of goodness.
 - Young Scientists: Associated with The Derma Co., through this initiative, we help provide children in rural India with access to education in science.
 - Fresh Water for All: Associated with Aqualogica, through this initiative, we help enable access to clean drinking water for people in remote regions of India.
- **Governance:** Imbibing the spirit of trust and transparency
 - Board: We are governed and advised by a reputed board comprising six individuals with extensive experience in consumer businesses in India and globally. Our board is supported by three independent directors, Vivek Gambhir, Subramaniam Somasundaram and Namita Gupta, who regularly review our business operations to ensure we uphold high corporate governance standards.
 - Committees: We have constituted multiple committees to enhance governance and oversight for key functions within our organization, and which include a nomination and remuneration committee, audit committee, corporate social responsibility committee, risk management committee and stakeholder relationship management committee. For further details on Board and committees of the Board, see “*Our Management*” on page 199.

Our Industry Positioning (Source: RedSeer Report)

1. As of Financial Year 2023, Mamaearth has emerged as the fastest growing BPC brand in India to reach an annual revenue of ₹10 billion (in the preceding 12 months) within six years of launch.
2. Honasa is the largest digital-first beauty and personal care (“BPC”) company in India in terms of revenue from operations for the Financial Year 2023.
3. Honasa is the largest company in the DTC BPC market in India in terms of revenue generated from the DTC channel in Financial Year 2023.
4. Honasa has grown its revenue from operations at a CAGR of 80.14% between Financial Years 2021 and 2023, while the median revenue CAGR of all other BPC companies in the peer set for which data was available for the relevant period was 28.00%.
5. Honasa ranked third amongst the digital-first BPC companies in India in terms of gross profit margins in the Financial Year 2022.

6. Honasa was one of the two digital first BPC companies in India with a positive EBITDA margin (EBITDA margin is calculated as restated profit /(loss) for the period/year plus tax expense, finance cost, depreciation and amortization expenses, exceptional items (impairment loss on goodwill and other intangible assets) less other income, divided by revenue from operations) in the Financial Year 2022.
7. Honasa has established scale across both online and offline channels and recorded the highest revenue from offline channels amongst digital-first BPC companies in India in Financial Year 2023.
8. Honasa launched at least 5.7 times higher number of new Products/SKUs than the BPC industry median during financial year 2023.
9. Mamaearth, with the insight of providing traditional do-it-yourself (“DIY”) beauty ingredients in modern and convenient formats has become the market leader in onion and ubtan based beauty products in terms of revenue from operations from these ranges for the Financial Year 2023.
10. Further, in a short span of six years, Mamaearth has captured an approx. 8.3% market share in the face-wash category in India in terms of revenue from operations for the CY 2022.
11. MamaEarth is among the top 5 best selling brands across 4 beauty and personal care sub-categories on Amazon.in as on 31st August, 2023.
12. Mamaearth was India’s most-searched BPC brand on Google Trends between January 2020 and June 2023
13. Honasa has a market share (in terms of Gross Merchandise Value) of approx. 5.4% (₹13,300 million) in online BPC (₹248,000 million) (DTC+ e-com) for CY 2022.
14. Honasa has a market share (in terms of Gross Merchandise Value) of approx. 3.4% (₹7,800 million) in e-com BPC (₹229,000 million) for CY 2022.
15. Honasa has a market share (in terms of Gross Merchandise Value) of approx. 28.9% (₹5,500 million) in DTC BPC (₹19,000 million) for CY 2022.
16. Mamaearth has been ranked amongst the top 3 in terms of awareness in the grooming category on Flipkart between May 2021 and July 2023.
17. Millennials in India are becoming increasingly conscious of their BPC needs and the brands they consume. Moreover, they are also more acutely oriented towards new-age innovations that cater to their specific needs and preferences, as compared to mass market propositions that cater to more mainstream or functional need spaces.
18. Honasa incubated The Derma Company in 2020 when the active ingredients proposition was relatively nascent in India. Over the last two years, this market has grown exponentially with consumers becoming increasingly aware about the benefits of skincare products with scientific ingredients.
19. Sale of BPC products through offline channels tends to be more profitable as compared to online channels.
20. Millennials are increasingly being driven to brands that are built on a strong mission or purpose, as compared to brands that primarily cater to functional need spaces.
21. Millennials are most influenced by other millennials, with word of mouth and voices of key opinion leaders and influencers emerging as key sources of driving brand awareness and consideration.
22. The tastes, preferences, and habits of each millennial and/or generation-Z are different. So there is no single definition of a millennial or a generation-Z consumer.
23. The offline channel contributed to 84% of the BPC products market in India in 2022 in terms of revenues.
24. The future of BPC products lies not only with large platform brands but also with new age propositions and categories which cater to specific consumer need spaces.
25. Out of the more than 3500 BPC companies present in India, there are 41+ national beauty and personal care companies with revenues of at least INR 200 Cr. as of the Financial Year 2023. As we further filter these companies with additional parameters, the number of companies thins out rapidly. For instance, out of the aforementioned 41+ companies, there are 4+ companies whose revenue from operations grew more than 50% annually (CAGR) between the Financial Years 2020-22. Out of those 4+ companies, Honasa is the only company with a gross profit margin of at least 65% in the Financial Year 2022 which is not only Digital-first but has a true omnichannel distribution network (at least 15% of the revenue coming from each of online and offline channels).

Employees

As of June 30, 2023, we had 993 permanent full-time in-house employees working for us in a range of business activities. These employees were supported by 1,767 contractors and consultants during the month of June 2023. Our Company has entered into service and manpower agreements with various contractors to provide us with services inter alia manpower supply, outsourcing, payroll management services at locations mutually decided by our Company and the contractors. Our Business Relationships

We operate our businesses through arrangements with contract manufacturers, distributors, super distributors, logistics partners, e-commerce marketplaces, and retailers. Additionally, we have arrangements with other intermediaries such as digital services providers for services such as advertising and marketing.

Our typical arrangements with distributors, super distributors, contract manufacturers and delivery companies are as described below.

Agreements with Contract Manufacturers

We have entered into standardized agreements with majority of our contract manufacturers from whom we directly obtain finished goods on specifications agreed upon by us. During the three months period ended June 30, 2023, we sourced our products from 37 contract manufacturers. Generally, the term of agreements with our contract manufacturers is for five years, on a non-exclusive basis and can be terminated by our Company, with or without cause, by giving a prior notice of 30 days.

Agreements with Distributors and Super Distributors

We have entered into agreements with all distributors and super distributors responsible for distribution of our products through general trade channels and modern trade retail channels. Ownership of our products is transferred to our distributors and super distributors upon delivery. Generally, the term of agreements with our distributors and super distributors is for 1-2 years, on a non-exclusive basis and can be terminated by either party, with or without cause, by giving a prior notice of 1-3 months.

Agreements with Logistics Partners

We engage delivery companies to deliver the orders placed on our direct-to-consumer platform to customers. We instruct delivery companies to collect products from specified locations and deliver to our customers in accordance with their orders. We have entered into standard agreements with the delivery companies we engage, which are on a non-exclusive basis. The agreements with delivery companies can be terminated by either party by giving prior notice of 30 days.

Agreements with E-commerce Marketplaces

We list our products on marketplaces pursuant to agreements we have entered into with them. There are two broad categories of agreements with marketplaces: (i) B2C model wherein we sell our products directly to consumers and retain ownership of our inventory, and (ii) B2B model wherein marketplace purchase inventory from us and subsequently sell to consumers. The agreements with the marketplaces can usually be terminated by either party by giving 30-60 days' notice.

Sales through Modern Trade Retail Chains

Our modern trade channel includes a network of 31 modern trade chains, during the three months period ended June 30, 2023, to whom we or our distributors sold our products for further sales to consumers. These arrangements include national chains, regional retail chains, chemist-focused chains as well as cash and carry stores situated across the country.

Intellectual Property

As on the date of this Prospectus, our Company and Subsidiaries have registered several trademarks and domain names including Honasa and the names of five brands, namely Mamaearth, Aqualogica, Ayuga, BBlunt and Dr. Sheth's, for which we have obtained registration certificates from relevant registries under the applicable laws.

As of the date of this Prospectus, we have 139 trademark registrations in India for our brands. Further, we have 88 trademark applications in India pending, out of which 56 applications have been objected to by the trademark registry, two applications have been rejected by the trademark registry, two applications have been withdrawn and four applications have been opposed by third parties for trademark registration of 'B BLUNT TOTAL CONTROL', 'The Derma Co.' and 'Colour Seal technology'.

Outside India, we have nine trademark registrations in eight countries, all in respect of our "Mamaearth" trademark and two trademark registrations in two countries for our brand, BBlunt. Further, we have made 25 trademark applications in 18 countries, of which three applications have been provisionally refused in three countries, and one has been refused in one country. Additionally, we have filed certain oppositions against various third parties before the Registrar of Trademarks in India.

For further details of the risks related to our intellectual property, see "*Risk Factors — Internal Risk Factors — We may not be able to adequately protect our intellectual property, which may result in the inability to prevent our competitors from developing, using or commercializing products that are functionally equivalent or similar to our products.*" on page 52.

Insurance

We maintain insurance coverage under various insurance policies such as burglary policy, standard fire and special perils policy, corporate cover policy, combined general liability insurance, group active health policy, cyber security policy, marine open export declaration policy, marine open import declaration policy and directors, and officers' policy. While we believe that the level of insurance we maintain would be reasonably adequate to cover the normal risks associated with the operation of our business, we do not have insurance policies to cover all possible events. For further details, see "*Risk Factors — Internal Risk Factors — We may not be sufficiently protected or insured for certain losses that we may incur or claims that we may face against us.*" on page 60.

KEY REGULATIONS AND POLICIES IN INDIA

Given below is an indicative summary of certain sector specific and relevant laws and regulations in India, which are applicable to our Company and our Subsidiaries. The information in this section has been obtained from publications available in the public domain. The description of the applicable regulations as given below has been provided in a manner so as to provide general information to the investors and may not be exhaustive and is neither designed nor intended to be a substitute for professional legal advice. The indicative summaries are based on the current provisions of applicable law, which are subject to change, modification, or amendment by subsequent legislative, regulatory, administrative, or judicial decisions.

Given below is a brief description of certain relevant legislations that are currently applicable to the business carried on by us.

Key Regulations applicable to our Company and Subsidiaries

The key laws applicable to our Company and Subsidiaries include:

Consumer Protection Act, 2019 (the “Consumer Protection Act”) and the rules made thereunder

The Consumer Protection Act, which repeals the Consumer Protection Act, 1986, was designed and enacted to provide simpler and quicker access to redress consumer grievances. It seeks, inter alia to promote and protects the interests of consumers against deficiencies and defects in goods or services and secure the rights of a consumer against unfair trade practices, which may be practiced by manufacturers, service providers and traders. The definition of “consumer” has been expanded under the Consumer Protection Act to include persons engaged in offline or online transactions through electronic means or by tele-shopping or direct-selling or multi-level marketing. One of the substantial changes introduced by Consumer Protection Act is inclusion of the e-commerce industry under Consumer Protection Act with “e-commerce” defined to refer to the buying and selling of goods or services over digital or electronic network. Therefore, the Consumer Protection Act aims to cover entities that are involved in the process of selling goods or services online. It provides for the establishment of consumer disputes redressal forums and commissions for the purposes of redressal of consumer grievances. In addition to awarding compensation and/or passing corrective orders, the forums and commissions under the Consumer Protection Act, in cases of misleading and false advertisements, are empowered to impose imprisonment for a term which may extend to two years and fine which may extend to ten lakh. In cases of manufacturing for sale or storing, selling or distributing or importing products containing an adulterant, the imprisonment may vary between six months to seven years and fine between one lakh to ten lakh depending upon the nature of injury to the consumer.

Consumer Protection (E-Commerce) Rules, 2020 (“E-Commerce Rules”) and the proposed amendments to the E-Commerce Rules

The Ministry of Consumer Affairs issued the E-Commerce Rules under the Consumer Protection Act, 2019 on July 23, 2020. The E-Commerce Rules provide a framework to regulate the marketing, sale and purchase of goods and services online. These rules apply to (a) good/services purchases or sold vide digital or electronic network, including digital products; (b) marketplace and inventory e-commerce entities; (c) all e-commerce retailing; and (d) forms of unfair trade practices across all e-commerce models. It specifies the Duties of E-commerce Entities, specific duties and liabilities of marketplace e-commerce entities and those of inventory e-commerce entities, and duties of sellers on marketplace.

The E-Commerce Rules further requires the e-commerce entity to appoint grievance officer and provide for a grievance redressal mechanism. Any violation of these rules attracts penal action under the Consumer Protection Act, 2019. Further, the Ministry of Consumer Affairs has amended the E-Commerce Rule via Consumer Protection (E-Commerce) (Amendment) Rules, 2021, pursuant to which the e-commerce entities are required to appoint a nodal officer or an alternate seniors designated functionary who is a resident in India to ensure compliance with the provisions of the Consumer Protection Act, 2019 and the rules made thereunder.

The Ministry of Consumer Affairs, Food and Public Distribution has on June 21, 2021 released proposed amendments to the E-Commerce Rules, 2020, for comments, which, amongst others, imposes new registration requirements for online retailers, mandatory partnering with the National Consumer helpline, a ban on “specific” flash sales and mandating sharing of information with Government agencies. Specific flash sales or back-to-back sales, which limit customer choices, increase prices and prevent a level playing field, will not be allowed. Further, the proposed changes would require that e-commerce businesses should mention the name and details of any importer from whom it has purchased such goods or services alongside providing alternative suggestions to customers before they make a purchase to ensure fair opportunity for domestic goods.

Additionally, the e-commerce entity shall not allow display or promotion of any misleading advertisement or engage in mis-selling of goods on the platform. The rules have also introduced the concept of “fall-back liability”, which says that e-commerce businesses will be held liable in case a seller on their platform fails to deliver goods or services due to negligent conduct, which causes loss to the customer. Additionally, they would be required to share information within 72 hours with government agency which is lawfully authorised for investigative or protective or cyber security activities, for the purposes of verification of identity, or for the prevention, detection, investigation, or prosecution, of offences under any law for the time being in force, or for cyber security incidents.

Draft E-Commerce Policy, 2019 (“2019 Draft Policy”)

In March 2019, the DPIIT had invited comments from stakeholders and the public on the 2019 Draft Policy. Among other items, the 2019 Draft Policy proposed that measures should be taken to regulate cross-border data flow, establish a level playing field for domestic and foreign e-commerce players, boost sale of domestic products through e-commerce, and generally regulate e-commerce in India DPIIT is currently working on a revised draft policy.

Drugs and Cosmetics Act, 1940 (“DCA”), the Drugs and Cosmetics Rules, 1945 (“DCA Rules”) and the Cosmetics Rules, 2020

The DCA regulates the import, manufacture, distribution and sale of drugs and cosmetics and prohibits the import, manufacture and sale of certain drugs and cosmetics which are, *inter alia*, misbranded, adulterated, spurious or harmful. The DCA Rules specify the requirement of a license for the manufacture or sale of any drug or cosmetic including for the purpose of examination, testing or analysis. It further mandates that every person holding a license must keep and maintain such records, registers and other documents as may be prescribed which may be subject to inspection by the relevant authorities.

Cosmetic Rules, 2020 introduced the concept of a ‘new cosmetic’ which was not provided for under the Drugs and Cosmetic Rules, 1945. A ‘new cosmetic’ contains a novel ingredient which has not been used anywhere in the world or is not recognized for use in cosmetics in any national and international literature. The new rules mandate importers/ manufacturers of a ‘new cosmetic’ to make an application and seek approval from the Central Licensing Authority (“CLA”) before such a ‘new cosmetic’ can be imported or manufactured in India. Such an application should be accompanied with requisite data on safety and effectiveness. Testing of each batch of the raw materials used for manufacturing the cosmetics, and also each batch of the final product along with maintaining records or registers showing the particulars in respect of such tests, is a requirement under the rules. Also, it needs to be ensured that if cosmetics are manufactured at more than one premises, a separate application for each of such premises is made and a separate license is obtained for each such premises. The Cosmetic Rules further prescribes the labelling and packaging requirements to be followed for sale or distribution of cosmetics of Indian origin. Additionally, before any cosmetics are imported, a declaration signed by or on behalf of the manufacturer or importer that the cosmetics comply with the provisions of Chapter III of the Drugs and Cosmetics Act, 1940, and the rules made thereunder, shall be supplied to the Commissioner of Customs. The new rules prohibit the import and/or manufacture of cosmetics which do not comply with the prescribed specifications and other standards of safety and quality.

Legal Metrology Act, 2009 (“LM Act”) and the Legal Metrology (Packaged Commodities) Rules, 2011 (“Packaged Commodity Rules”)

The LM Act seeks to establish and enforce standards of weights and measures, regulate trade and commerce in weights, measures and other goods which are sold or distributed by weight, measure or number. The LM Act and rules framed thereunder regulate, *inter alia*, the labelling and packaging of commodities, appointment of government-approved test centres for verification of weights and measures used, and lists penalties for offences and compounding of offences under it. Any non-compliance or violation under the LM Act may result in, *inter alia*, a monetary penalty on the manufacturer or seizure of goods or imprisonment in certain cases.

The Packaged Commodity Rules define “pre-packaged commodity” as a commodity which without the purchaser being present is placed in a package of a pre-determined quantity. The Packaged Commodity Rules prescribes the regulations for imports, pre-packing and the sale of commodities in a packaged form intended for retail sale, wholesale and for export and import, certain rules to be adhered to by importers, wholesale and retail dealers, the declarations to be made on every package, the size of label and/or importers and the manner in which the declarations shall be made, etc. These declarations that are required to be made include, *inter alia*, the name and address of the manufacturer, the dimensions of the commodity, the maximum retail price, generic name of the product, the country of origin and the weight and measure of the commodity in the manner as set forth in the Packaged Commodity Rules. The Packaged Commodity Rules were amended in the year 2017 to increase protection granted to consumers especially relating to e-commerce entities. Pursuant to the amendments, the inventory e-commerce entity itself will be made liable and punishable for failure to make relevant declarations on its platform as required under the Act and the Rules.

The Food Safety and Standards Act, 2006 (the “FSSA”) and Food Safety And Standards (Health Supplements, Nutraceuticals, Food For Special Dietary Use, Food For Special Medical Purpose, Functional Food And Novel Food) Regulations, 2016

The FSSA is an integrated food law that lays down standards and guidelines for consumer safety, protection of consumer health and regulation of the food sector. It consolidates the laws relating to food and provides for establishment of the Food Safety and Standards Authority of India (“FSSAI”). The FSSAI is responsible for laying down science-based standards for articles of food and to regulate their manufacture, packaging, storage, distribution, sale, and import, to ensure availability of safe and wholesome food for human consumption and for matters connected therewith or incidental thereto.

The Sale of Goods Act, 1930 (the “Sale of Goods Act”)

Sale of Goods Act governs contracts relating to sale of goods. The contracts for sale of goods are subject to the general principles of the law relating to contracts i.e., the Indian Contract Act, 1872. A contract for sale of goods has, however, certain peculiar features such as, transfer of ownership of the goods, delivery of goods, rights and duties of the buyer and seller, remedies for

breach of contract, conditions and warranties implied under a contract for sale of goods, etc. which are the subject matter of the provision of the Sale of Goods Act.

The Information Technology Act, 2000 (the “IT Act”) and the rules made thereunder

The IT Act seeks to (i) provide legal recognition to transactions carried out by various means of electronic data interchange involving alternatives to paper-based methods of communication and storage of information, (ii) facilitate electronic filing of documents and (iii) create a mechanism for the authentication of electronic documentation through digital signatures. The IT Act prescribes punishment for publishing and transmitting obscene material in electronic form. The IT Act provides for extraterritorial jurisdiction over any offence or contravention under the IT Act committed outside India by any person, irrespective of their nationality, if the act or conduct constituting the offence or contravention involves a computer, computer system or computer network located in India. Additionally, the IT Act empowers the Government of India to direct any of its agencies to intercept, monitor or decrypt any information in the interest of sovereignty, integrity, defence and security of India, among other things. The Information Technology (Procedure and Safeguards for Blocking for Access of Information by Public) Rules, 2009 specifically permit the Government of India to block access of any information generated, transmitted, received, stored or hosted in any computer resource by the public, the reasons for which are required to be recorded by it in writing.

The IT Act facilitates electronic commerce by recognizing contracts concluded through electronic means, protects intermediaries in respect of third-party information liability and creates liability for failure to protect sensitive personal data. The IT Act also prescribes civil and criminal liability including fines and imprisonment for computer related offences including those relating to unauthorized access to computer systems, tampering with or unauthorised manipulation of any computer, computer system or computer network and, damaging computer systems and creates liability for negligence in dealing with or handling any sensitive personal data or information in a computer resource and in maintaining reasonable security practices and procedures in relation thereto.

The IT Act empowers the Government of India to formulate rules with respect to reasonable security practices and procedures and sensitive personal data. In exercise of this power, the Department of Information Technology, Ministry of Electronics and Information Technology, Government of India (“DoIT”), in April 2011, notified the Information Technology (Reasonable Security Practices and Procedures and Sensitive Personal Data or Information) Rules, 2011 (“IT Security Rules”) which prescribe directions for the collection, disclosure, transfer and protection of sensitive personal data by a body corporate or any person acting on behalf of a body corporate.

The IT Security Rules require every such body corporate to provide a privacy policy for handling and dealing with personal information, including sensitive personal data, ensuring security of all personal data collected by it and publishing such policy on its website. The IT Security Rules further require that all such personal data be used solely for the purposes for which it was collected, and any third-party disclosure of such data is made with the prior consent of the information provider, unless contractually agreed upon between them or where such disclosure is mandated by law. The DoIT also notified the Information Technology (Intermediaries Guidelines and Digital Media Ethics Code) Rules, 2021 (“IT Intermediaries Rules”) requiring intermediaries receiving, storing, transmitting, or providing any service with respect to electronic messages to not knowingly host, publish, transmit, select or modify any information prohibited under the IT Intermediaries Rules, to disable hosting, publishing, transmission, selection or modification of such information once they become aware of it, as well as specifying the due diligence to be observed by intermediaries. The IT Intermediary Rules further requires the intermediaries to provide for a grievance redressal mechanism and also appoint a nodal officer and a resident grievance officer.

The Digital Personal Data Protection Act, 2023 (the “DPDP Act” or the “Act”)

The Parliament passed the DPDP Act on August 9, 2023. The DPDP Act received the assent of the President and was notified on August 11, 2023. The Parliament passed the DPDP Act on August 9, 2023. The DPDP Act seeks to balance the rights of individuals to protect their personal data with the need to process personal data for lawful and other incidental purposes. All data fiduciaries, determining the purpose and means of processing personal data, are mandated to provide an itemised notice to data principals in plain and clear language containing a description of the personal data sought to be collected along with the purpose of processing such data. The DPDP Act further provides that personal data may be processed only for a lawful purpose after obtaining the consent of the individual. A notice must be given before seeking consent. The notice should contain details about the personal data to be collected and the purpose of processing. Consent may be withdrawn at any point in time.

An individual whose data is being processed (data principal), will have the right to: (i) obtain information about processing, (ii) seek correction and erasure of personal data, (iii) nominate another person to exercise rights in the event of death or incapacity, and (iv) grievance redressal. Data principals will have certain duties. They must not: (i) register a false or frivolous complaint, and (ii) furnish any false particulars or impersonate another person in specified cases. Violation of duties will be punishable with a penalty of up to ₹10,000.

It further imposes certain obligations on data fiduciaries including (i) make reasonable efforts to ensure the accuracy and completeness of data, (ii) build reasonable security safeguards to prevent a data breach, (iii) inform the Data Protection Board of India (the “DPB”) and affected persons in the event of a breach, and (iv) erase personal data as soon as the purpose has been met and retention is not necessary for legal purposes (storage limitation). In case of government entities, storage limitation and the right of the data principal to erasure will not apply. The Central Government will establish the DPB. Key functions of the DPB include: (i) monitoring compliance and imposing penalties, (ii) directing data fiduciaries to take necessary measures in the event of a data breach, and (iii) hearing grievances made by affected persons. The DPB members will be appointed for two

years and will be eligible for re-appointment. The Central Government will prescribe details such as the number of members of the DPB and the selection process.

The Act introduces the concept of ‘deemed consent’ in instances where the data principal provides personal data (i) to the data fiduciary voluntarily and for a legitimate purpose, (ii) for performance of function under any law, or service or benefit to the data principal, (iii) in compliance with a judgment or order, (iv) responding to medical emergency involving threat to life or immediate threat to health of the data principal, (v) for provision of medical treatment or health services during an epidemic, outbreak of diseases or any other public threat to public health, (vi) for taking measures to ensure safety during any disaster or any breakdown of public order, (vii) for purposes related to employment including prevention of corporate espionage, maintenance of confidentiality of trade secrets, intellectual property, classified information, recruitment, termination of employee.

The data can only be processed for the specific purpose for which it is deemed to be given and must be necessary for fulfilling the purpose for which it has been provided. It further imposes certain obligations on data fiduciaries including (i) in implementation of technical and organisational measures to ensure compliance, (ii) adopting reasonable security safeguards to prevent personal data breach, (iii) ensuring that personal data processed is accurate and complete, (iv) informing the Data Protection Board of India (the “Data Protection Board”) regarding any personal data breach, (v) deleting or removing personal data no longer in use or necessary for legal or business purposes with exemption given to only start-ups registered with Ministry of Commerce and Industry, (vi) publishing the business contact information of the data protection officer, (vii) implementing a grievance redressal mechanism to redress grievances of data principals, and (viii) processing of data to another data fiduciary under a valid contract.

Shops and establishments legislations

Under the provisions of local shops and establishments legislations applicable in the states in India where our establishments are set up and business operations exist, such establishments are required to be registered. Such legislations regulate the working and employment conditions of the workers employed in shops and establishments, including commercial establishments, and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of records, maintenance of shops and establishments and other rights and obligations of the employers and employees. These shops and establishments acts, and the relevant rules framed thereunder, also prescribe penalties in the form of monetary fine or imprisonment for violation of provisions, as well as procedures for appeal in relation to such contravention of the provisions. Further, we are also required to obtain trade licenses under the provisions of applicable state regulations.

LAWS RELATING TO ENVIRONMENT

The major statutes in India which seek to regulate and protect the environment against pollution related activities in India include the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981 and the Environment Protection Act, 1986. We are subject to various environment regulations as the operation of our establishments might have an impact on the environment in which they are situated. The basic purpose of the statutes given below is to control, abate and prevent pollution. In order to achieve these objectives, Pollution Control Boards (“PCBs”), which are vested with diverse powers to deal with water and air pollution, have been set up in each state and in the Centre. The PCBs are responsible for setting the standards for maintenance of clean air and water, directing the installation of pollution control devices in industries and undertaking inspection to ensure that industries are functioning in compliance with the standards prescribed. These authorities also have the power of search, seizure and investigation. All industries are required to obtain consent orders from the PCBs, which are required to be periodically renewed.

Plastic Waste Management Rules, 2016

Under the Plastic Waste Management Rules, 2016, all institutional generators of plastic waste, are required to inter alia, segregate and store the waste generated by them in accordance with the Solid Waste Management Rules, 2016, and handover segregated wastes to authorized waste processing or disposal facilities or deposition centers, either on its own or through the authorized waste collection agency. The waste generator shall also take steps to minimize generation of plastic waste. The Plastic Waste Management Rules, 2016 also requires the producers, importers and brand owners to collect back the plastic waste generated due to their products.

Laws related to intellectual property

Copyright Act, 1957

The Copyright Act, 1957, along with the Copyright Rules, 1958, (collectively, “Copyright Laws”) serve to create property rights for certain kinds of intellectual property, generally called works of authorship. The Copyright Laws protect the legal rights of the creator of an ‘original work’ by preventing others from reproducing the work in any other way. The intellectual property protected under the Copyright Laws includes literary works, dramatic works, musical works, artistic works, cinematography, and sound recordings. The Copyright Laws prescribe fine, imprisonment or both for violations, with enhanced penalty on second or subsequent convictions. While copyright registration is not a prerequisite for acquiring or enforcing a copyright in an otherwise copyrightable work, registration constitutes prima facie evidence of the particulars entered therein and may expedite infringement proceedings and reduce delay caused due to evidentiary considerations. Upon registration, the copyright protection for a work exists for a period of 60 years following the demise of the author. Reproduction of a copyrighted

work for sale or hire, issuing of copies to the public, performance or exhibition in public, making a translation of the work, making an adaptation of the work and making a cinematograph film of the work without consent of the owner of the copyright are all acts which expressly amount to an infringement of copyright.

Trade Marks Act, 1999 (“Trade Marks Act”)

The Trade Marks Act provides for the application and registration of trademarks in India. The purpose of the Trade Marks Act is to register trademarks applied for in India and to provide for better protection of trademark for goods and services and also to prevent fraudulent use of the mark. Application for the registration of trademarks has to be made to Trade Marks registry by any person or persons claiming to be the proprietor of a trade mark, whether individually or as joint applicants, and can be made on the basis of either actual use of intention to use a trademark in the future. The Trade Marks Act prohibits any registration of deceptively similar trademarks or chemical compound among others. It also provides for penalties for infringement, falsifying and falsely applying trademarks and using them to cause confusion among the public.

Design Act, 2000 (“Design Act”)

Design Act consolidates and amends the law relating to the protection of designs which came into force on May 11, 2001. Design Act is a complete code in itself and is statutory in nature and protects new or original designs from getting copied which cause loss to the proprietor. The proprietor upon registration gets ‘copyrights in design’ for the period of 10 years from the date of registration which can be renewed for a second period of five years, before the expiration of original period of 10 years. The controller registers a design under this Act after verifying that the design of any person, claiming to be the proprietor, is the new or original design not previously published anywhere in any country and is not against any public policy or morality. Any obvious or fraudulent imitation of a design, which is already registered, without the consent of its proprietor, is unlawful. It also prohibits the import of any material which closely resembles a registered design.

LAWS RELATING TO FOREIGN INVESTMENT

Foreign investment in India is governed by the provisions of the FEMA, the FEMA NDI Rules along with the Consolidated FDI Policy issued by the DPIIT, from time to time. Further, the RBI has enacted the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 which regulate the mode of payment and reporting requirements for investments in India by a person resident outside India.

In terms of the SEBI FPI Regulations, the investment in Equity Shares by a single FPI or an investor group (which means multiple entities registered as FPIs and directly or indirectly having common ownership of more than 50% or common control) must be below 10% of our post-Offer equity share capital. Further, in terms of the FEMA Non-Debt Instruments Rules, the total holding by each FPI or an investor group shall be below 10% of the total paid-up equity share capital of our Company and the total holdings of all FPIs put together with effect from April 1, 2020, can be up to the sectoral cap applicable to the sector in which our Company operates (i.e., up to 100%).

The consolidated Foreign Direct Investment Policy of 2020 (the “Consolidated FDI Policy”)

The Department for Promotion of Industry and Internal Trade (“DPIIT”), Ministry of Commerce and Industry on October 28, 2020 issued Consolidated FDI Policy. In terms of the FEMA NDI Rules and the Consolidated FDI Policy, up to 100% foreign investment is currently permitted in a company engaged in manufacturing activities in India (including contract manufacturing in India).

LAWS RELATING TO TAXATION

In addition to the aforementioned material legislations which are applicable to our Company, some of the tax legislations that may be applicable to the operations of our Company include:

- Central Goods and Service Tax Act, 2017 and various state-wise legislations made thereunder;
- Integrated Goods and Services Tax Act, 2017;
- Income Tax Act, 1961, Income Tax Rules, 1962, as amended by the Finance Act in respective years;
- Customs Act, 1962;
- Indian Stamp Act, 1899 and various state-wise legislations made thereunder; and
- State-wise legislations in relation to professional tax.

LAWS RELATING TO EMPLOYMENT

In addition to the aforementioned material legislations which are applicable to our Company, some of the labour legislations that may be applicable to the operations of our Company include:

- Employees’ Provident Funds and Miscellaneous Provisions Act, 1952;

- Employees' State Insurance Act, 1948;
- Maternity Benefit Act, 1961;
- Minimum Wages Act, 1948;
- Payment of Bonus Act, 1965;
- Payment of Gratuity Act, 1972;
- Payment of Wages Act, 1936;
- Right of Persons with Disabilities Act, 2016;
- Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013;
- Contract Labour (Regulation and Abolition) Act, 1970; and
- Labour Welfare Fund legislations.

In order to rationalize and reform labour laws in India, the Government of India has framed four labour codes, namely:

- a) The Industrial Relations Code, 2020 received the assent of the President of India on September 28, 2020 and it proposes to subsume three existing legislations, namely, the Industrial Disputes Act, 1947, the Trade Unions Act, 1926 and the Industrial Employment (Standing Orders) Act, 1946. The provisions of this code will be brought into force on a date to be notified by the Central Government.
- b) The Code on Wages, 2019 received the assent of the President of India on August 8, 2019 and proposes to subsume four existing laws namely, the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Equal Remuneration Act, 1976. The Central Government *vide* notification dated December 18, 2020, notified certain provisions of the Code on Wages, mainly in relation to the constitution of the advisory board. The remaining provisions of this code will be brought into force on a date to be notified by the Central Government.
- c) The Occupational Safety, Health and Working Conditions Code, 2020 received the assent of the President of India on September 28, 2020 and proposes to subsume certain existing legislations, including the Factories Act, 1948, the Contract Labour (Regulation and Abolition) Act, 1970, the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979 and the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996. The code proposes to provide for *inter alia* standards for health, safety and working conditions for employees of the establishments. The provisions of this code will be brought into force on a date to be notified by the Central Government.
- d) The Code on Social Security, 2020 received the assent of the President of India on September 28, 2020 and it proposes to subsume certain existing legislations including the Employee's Compensation Act, 1923, the Employees' State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961, the Payment of Gratuity Act, 1972, the Building and Other Construction Workers' Welfare Cess Act, 1996 and the Unorganised Workers' Social Security Act, 2008. The code aims to provide uniformity in providing social security benefits to the employees which was earlier segregated under different acts and had different applicability and coverage. The provisions of this code will be brought into force on a date to be notified by the Central Government.

In terms of the December 2021 SHA, the NCCCPs were to convert into Equity Shares at any time at the option of the holder of the NCCCPs. The NCCCPs were subject to automatic conversion on occurrence of inter alia, (i) an exit event, as defined in the December 2021 SHA, (ii) one day prior to the expiry of 20 years from the closing date, as defined in the December 2021 SHA, or (iii) in connection with an initial public offering, prior to the filing of the updated draft red herring prospectus by our Company with the competent authority or at such later date as prescribed or permitted under applicable law. As on the date of the RHP, all the outstanding NCCCPs have been converted to Equity Shares. For further details see "*Capital Structure - Notes to the Capital Structure - Share Capital History of our Company - (b) Preference Share capital*" on page 90.

Under the terms of the SHA, as amended by the SHA Amendment Agreement and the 2023 SHA Amendment Agreement the Company and the Promoters have agreed to indemnify the Investors (as defined in the SHA) and their respective nominee directors (past or present) and/or observers in such respective capacities against, including but not limited to, (i) contravention of any applicable law by the Company, (ii) any acts, omissions or conduct by the Company, the Promoters or their employees or agents as a result of which the nominee directors or observers are made a party to or otherwise incur any loss pursuant to any action, suit, claim or proceeding, or any action or failure to act by the nominee director or observer at the request of or with the consent of the Company or any of the Promoters, (iii) any damages arising out of or relating to any misstatements and omissions of the Company in any registration statement, offering document or preliminary offering document, and like violations of applicable securities laws by the Company or any other error or omission of the Company in connection with a public offering, other than with respect to information provided by such Investor in writing expressly for inclusion therein, and (iv) in accordance with the terms of the respective share subscription agreements. Any such indemnification obligations shall be subject to and limited to the extent permissible under Applicable Laws, and subject to there being no direction, order or communication to the contrary from the SEBI, the Stock Exchanges or any other regulatory authority, and the Promoters shall not have any indemnity obligations towards such persons upon the consummation of the IPO.

In accordance with the terms of the SHA Amendment Agreement and the 2023 SHA Amendment Agreement, the SHA shall stand terminated automatically without any action undertaken by the parties, upon the consummation of the Offer i.e. the date of receipt of final listing and trading approvals from the Stock Exchanges for commencement of listing and trading of the Equity Shares, except for certain clauses relating to the indemnification (in accordance with the terms of the respective share subscription agreements), confidentiality, costs and governing law and dispute resolution that will continue to survive such termination.

The SHA Amendment Agreement and the 2023 SHA Amendment Agreement will stand automatically terminated on the earlier of: (a) December 31, 2024, or such extended cut-off date for the IPO as may be mutually agreed in writing among the Parties, if the consummation of the IPO has not happened by such date; (ii) such date till which the observations of the SEBI on the Draft Red Herring Prospectus are valid; and (iii) the date on which the Board decides not to undertake the Offer or to withdraw any offer document filed in respect of the Offer, including this Prospectus (“**Long Stop Date**”). In view of the Shareholders Agreement, as amended, in case the Offer is not consummated prior to the Long Stop Date, our Company shall take all necessary steps and perform all necessary actions, as may be required, including an amendment to the Articles of Association to reinstate them to form, content and manner reflecting the terms of the SHA, as amended.

Following the consummation of the Offer, and subject to Applicable Law and approval of the Shareholders by way of a special resolution in the first general meeting convened after the consummation of the IPO and the periodic approval of the Shareholders, at such intervals as may be prescribed under applicable laws, including regulation 31(b) of the SEBI Listing Regulations, (i) Peak XV and Sequoia Capital (acting independently but taken together) shall be entitled to nominate one non-executive nominee director on the Board till such time as its shareholding, along with its affiliates holding securities of our

Company, is at least 10% of the share capital of our Company on a fully diluted basis, and (ii) our Promoters shall, till such time that they continue to be promoters of our Company, as defined under the SEBI ICDR Regulations, have the right to (a) nominate two directors to the Board; and (c) appoint a person or nominate themselves as the chairman of the Board (however, such chairman shall not have a casting vote).

In terms of the SHA Amendment Agreement, certain waivers have been granted by the relevant shareholders until the Long Stop Date in respect of rights of first refusal, tag-along and other rights associated with listing of the securities of our Company, information rights, as well as obligations of our Company to obtain prior consent from relevant shareholders and procedural requirements for proceedings of the Board and shareholder meetings, to the extent of actions and matters required for the facilitation of the IPO.

Pursuant to the 2023 SHA Amendment Agreement, the Parties have amended the December 2021 SHA and the SHA Amendment Agreement in order to effectuate changes pertaining to the applicable legal and regulatory requirements in relation to *inter alia* nomination rights to facilitate the IPO. The relevant Shareholders have also granted certain waivers in terms of the 2023 SHA Amendment Agreement, *inter alia* confidentiality with respect to the 2023 SHA Amendment Agreement until the Long Stop Date.

OUR GROUP COMPANIES

In terms of the SEBI ICDR Regulations ‘group companies’ of our Company shall include (i) the companies with which there were related party transactions as disclosed as per Ind AS 24 during any of the last three Financial Years in respect of which the Restated Ind AS Summary Statements are included in this Prospectus; and (ii) such other companies as considered material by the Board. For the purposes of (ii) above, pursuant to the resolution passed by our Board at its meeting held on October 13, 2023, the Board has approved that no companies shall be considered material.

In accordance with the Materiality Policy, for the purposes of disclosure in the Offer Documents, such companies shall be considered material by the Board and disclosed as Group Companies in the Offer Documents, i.e., companies which hold more than 10% of the Company’s share capital and monetary value of the Company’s transactions with such companies in Financial Year 2023 or relevant stub period (i.e., the three months ended June 30, 2023), respectively, for which Restated Ind AS Summary Statements are included in the DRHP (“**Relevant Period**”), exceeds individually or in the aggregate 10% of the total restated revenue or expenses of the Company, whichever is lower, for such financial year and the relevant stub period, respectively.

Accordingly, based on the parameters outlined above, as on the date of this Prospectus, our Board has not identified any group companies.

DIVIDEND POLICY

The declaration and payment of dividends on our Equity Shares, if any, will be recommended by the Board of Directors and approved by our Shareholders, at their discretion, subject to the provisions of the Articles of Association and other applicable law, including the Companies Act.

The dividend policy of our Company was adopted and approved by our Board in their meeting held on December 23, 2022 (“**Dividend Distribution Policy**”). In terms of the Dividend Distribution Policy, the quantum of dividend to be distributed, if any, will depend on a number of factors, including, but not limited to, internal factors such as, profitability, free cash flow, growth plans, earning stability, investment opportunities, and external factors, such as changes in government policies, changes in regulatory provisions, economic environment, and cost of external financing. In addition, the ability of our Company to pay dividends may be impacted by a number of factors, including restrictive covenants under the loan or financing arrangements our Company may enter into to finance our fund requirements for our business activities. For further details, please see “*Financial Indebtedness*” and “*Risk Factors – We cannot assure payment of dividends on the Equity Shares in the future and our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants of our financing arrangements.*” beginning on pages 317 and 67, respectively.

Our Company has not declared dividends on the Equity Shares during the current Financial year and the preceding three Financial Years.

Dear Sirs:

1. We have examined the attached Restated Ind AS Summary Statements of Honasa Consumer Limited (formerly Honasa Consumer Private Limited) (the "Company") and its subsidiaries, (the Company together with its subsidiaries hereinafter referred to as "the Group") annexed to this report and prepared by the Company for the purpose of inclusion in the Red Herring Prospectus ("RHP") and Prospectus (collectively the "offer documents") to be filed by the Company in connection with its proposed initial public offering of equity shares of face value of Rs. 10 each (the "Offer"). The Restated Ind AS Summary Statements, which have been approved by the Board of Directors of the Company at their meeting held on October 13, 2023 have been prepared in accordance with the requirements of:
 - a) Section 26 of Part I of Chapter III of the Companies Act 2013 (the "Act");
 - b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("ICDR Regulations");
 - c) The Guidance Note on Reports in Company Prospectuses (Revised 2019) (as amended) issued by the Institute of Chartered Accountants of India ("ICAI"), (the "Guidance Note"); and
 - d) E-mail dated June 24, 2022 received from BRLMs, which confirms that the Company should prepare financial statements in accordance with Indian Accounting Standards (Ind AS) and that these financial statements are required for all the three years including stub period, based on email dated October 28, 2021 from Securities and Exchange Board of India ("SEBI") to Association of Investment Bankers of India ("SEBI Letter").

Management's Responsibility for the Restated Ind AS Summary Statements

2. The preparation of the Restated Ind AS Summary Statements, which are to be included in the offer documents is the responsibility of the Management of the Company. The Restated Ind AS Summary Statements have been prepared by the Management of the Company on the basis of preparation, as stated in note 1.1 to the Restated Ind AS Summary Statements. The Management's responsibility includes designing, implementing and maintaining adequate internal control relevant to the preparation and presentation of the Restated Ind AS Summary Statements. The Management is also responsible for identifying and ensuring that the Group complies with the Act, ICDR Regulations and the Guidance Note.

Auditors' Responsibilities

3. We have examined such Restated Ind AS Summary Statements taking into consideration:
- a) the terms of reference and terms of our engagement agreed with you vide our engagement letter dated October 11, 2022 and addendum to our engagement letter dated October 09, 2023, requesting us to carry out the assignment, in connection with the proposed Offer of the Company;
 - b) E-mail dated June 24, 2022 received from BRLMs, which confirms that the Company should prepare financial statements in accordance with Indian Accounting Standards (Ind AS) and that these financial statements are required for all the three years including stub period, based on email dated October 28, 2021 from Securities and Exchange Board of India ("SEBI") to Association of Investment Bankers of India ("SEBI Letter").
 - c) the Guidance Note. The Guidance Note also requires that we comply with ethical requirements of the Code of Ethics Issued by ICAI;
 - d) concepts of test checks and materiality to obtain reasonable assurance based on the verification of evidence supporting the Restated Ind AS Summary Statements; and
 - e) the requirements of Section 26 of the Act and the ICDR Regulations.

Our work was performed solely to assist you in meeting your responsibilities in relation to your compliance with the Act and the ICDR Regulations and the Guidance Note in connection with the Offer.

4. The Company proposes to make an initial public offering of its equity shares of face value of Rs 10 each, which comprises a fresh issue of its equity shares and an offer for sale by certain existing shareholders, at such price arrived at by the book building process (referred to as the "Issue"), as may be decided by the Company's Board of Directors.

Restated Ind AS Summary Statements

5. These Restated Ind AS Summary Statements have been compiled by the management of the Company from:
- a) Audited Ind AS consolidated financial statements of the Group as at and for the years ended March 31, 2023 and March 31, 2022 prepared in accordance with Indian Accounting Standards (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other accounting principles generally accepted in India, along with the presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind-AS compliant Schedule III), as applicable which were approved by the Board of Directors at their meeting held on July 25, 2023 and August 31, 2022 respectively;
 - b) Audited Ind AS interim consolidated financial statements of the Group as at and for the three-month period ended June 30, 2023 and June 30, 2022 prepared in accordance with Ind AS 34 as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, (as amended from time to time) and other accounting principles generally accepted in India, along with the presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind-AS compliant Schedule III), as applicable, which have been approved by the Board of Directors at their meeting held on October 13, 2023.
 - c) Audited special purpose Ind AS standalone financial statements of the Company as at and for the year ended March 31, 2021 which were prepared by the Company after taking into the consideration the requirements of the SEBI Letter and were approved by the Board of Directors at their meeting held on December 15, 2022.

Pursuant to the Companies (Indian Accounting Standard) Second Amendment Rules, 2015, the Group voluntarily adopted March 31, 2022 as reporting date for first time adoption of Indian Accounting Standard (Ind-AS) – notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and consequently April 01, 2020 as the transition date for preparation of its statutory financial statements as at and for the year ended March 31, 2022. The financial statements as at and for the year ended March 31, 2022, were the first financial statements, prepared in accordance with Ind-AS. Upto the Financial year ended March 31, 2021, the Company prepared its financial statements in accordance with accounting standards notified under Section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (“Indian GAAP” or “Previous GAAP”) due to which the Special purpose Ind AS standalone financial statements were prepared as per SEBI Letter.

The Special purpose Ind AS standalone financial statements as at and for the year ended March 31, 2021 have been prepared after making suitable adjustments to the accounting heads from their Indian GAAP values following accounting policies and accounting policy choices (both mandatory exceptions and optional exemptions availed as per Ind AS 101) consistent with that used at the date of transition to Ind AS (April 01, 2020) and as per the presentation, accounting policies and grouping/classifications including revised Schedule III disclosures pursuant to the SEBI Letter.

d) The Audited Ind AS consolidated financial statements referred to in paragraph (a) and (b) above includes Financial statements and other financial information in relation to the Company’s subsidiaries, as listed below, which are audited by Other Auditors;

6. For the purpose of our examination, we have relied on:

- a) Auditors' reports issued by us, dated July 25, 2023 and August 31, 2022 on Audited Ind AS Consolidated Financial Statements of the Group as at and for the years ended March 31, 2023 and March 31, 2022 respectively as referred in Paragraph 5(a) above.
- b) Auditors' report issued by us, dated October 13, 2023 and October 13, 2023 on the Audited Ind AS Interim Consolidated Financial Statements of the Group as at and for the three-month period ended June 30, 2023 and June 30, 2022 respectively as referred in Paragraph 5 (b) above.
- c) Auditors' report issued by us, dated December 15, 2022 on the Audited Special Purpose Ind AS Standalone Financial Statements of the Company as at and for the year ended March 31, 2021 as referred in Paragraph 5(c) above.
- d) As indicated in Paragraph 5 (d) above, we did not audit the financial statements of subsidiaries as at and for the year/period ended March 31, 2023, as at and for the period ended March 31, 2022, as at and for the period ended June 30, 2023 and as at and for the period ended June 30, 2022, whose financial statements reflect total assets, total revenues and net cash inflows / (outflows) (without giving effect to elimination of the intercompany transactions), as tabulated below and included in the Restated Ind AS Summary Statements:

(Rs. in millions)			
As at and for the year/period ended	Total assets of subsidiaries	Total revenue of subsidiaries	Net cash inflow/ (outflow) of subsidiaries
March 31, 2023	941.25	1,016.08	(25.35)
March 31, 2022	675.15	119.09	(11.65)
June 30, 2023	891.43	383.49	33.56
June 30, 2022	994.21	203.27	(44.96)

These financial statements have been audited by other firms of Chartered Accountants as listed in Para 5 above, whose reports have been furnished to us and our opinion in so far as it relates to the amounts included in the financial statements referred to in Para 5(a) and 5(b) above are based solely on the report of other auditors. Further, of these subsidiaries, one of the subsidiary is located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in that country and which have been audited by other auditor under generally accepted auditing standards in that country. The Holding Company's management has converted the financial statements of such subsidiary located outside India from accounting principles generally accepted in that country to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management.

7. (a) The audit report on Special purpose Ind AS standalone financial statements of the Company as at and for the year ended March 31, 2021 referred to in paragraph 6(c) above included the following emphasis of matter which did not require any corrections (included in Annexure VII in the attached Restated Ind AS Summary Statements):

“Emphasis of matter – Basis of preparation and restriction of use

We draw attention to Note 1.1 to the Special Purpose Ind AS standalone financial statements, which describes the basis of preparation of these Special Purpose Ind AS standalone financial statements which states that these Special Purpose Ind AS standalone financial statements have been prepared to comply with E-mail dated June 24, 2022 received from BRLMs, which confirms that the Company should prepare these financial statements in accordance with Indian Accounting Standards (Ind AS) and that these are required based on email dated October 28, 2021 from Securities and Exchange Board of India (“SEBI”) to Association of Investment Bankers of India (“SEBI Letter”). Accordingly, the Special Purpose Ind AS standalone financial statements may not be suitable for any other purpose and this report should not be used, referred to or distributed for any other purpose. We have no responsibility to update this report for events and circumstances occurring after the date of this report. Our opinion is not modified in respect of this matter.

(b) The auditors’ report on the Indian GAAP financial statements referred to in paragraph 5(c) above included qualifications on matters included in our report on the Companies (Auditor’s Report) Order, 2016 issued by the Central Government of India in terms of sub section (11) of section 143 of the Act as at and for the year ended March 31, 2021 which did not require any corrections (included in Annexure VII in the attached Restated Ind AS Summary Statements).

8. In respect of examination performed by Other Auditors:

a) Examination report received from Other Auditors relates to the audits of the Company’s subsidiaries, as mentioned in Annexure A as at and for the year/period ended March 31, 2023, as at and for the period ended March 31, 2022, as at and for the three-month period ended June 30, 2023 and as at and for the period ended June 30, 2022 and accordingly reliance has been placed on the examination report on the restated Ind AS summary statement of assets and liabilities and the restated Ind AS summary statements of profit and loss (including other comprehensive income/(loss)), restated Ind AS summary statements of changes in equity and restated Ind AS summary statement of cash flow, the summary statement of material accounting policy information, and other explanatory information (the “Restated Financial Information”) examined by them for the said year/periods. Our opinion on the Restated Ind AS Summary Statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, is based solely on the examination reports of the Other Auditors. The Other Auditors have confirmed that the Restated Financial Information:

- (i) have been prepared after incorporating adjustments for the changes in accounting policies, material errors and regrouping/reclassifications retrospectively for the year/period ended March 31, 2023, period ended March 31, 2022 and three-month period ended June 30, 2022 to reflect the same accounting treatment as per the accounting policies and grouping/classifications followed as at and for the three -month period ended June 30, 2023.
- (ii) do not contain any qualifications requiring adjustments; and
- (iii) have been prepared in accordance with the Act, ICDR Regulations and the Guidance Note.

9. Based on our examination and according to the information and explanations given to us as at and for the years ended March 31, 2023, March 31, 2022 and March 31, 2021 and as at and for the three-month period ended June 30, 2023 and three-month period ended June 30, 2022 and also as per the reliance placed on the examination reports submitted by Other Auditors as at and for the year/period ended March 31, 2023, as at and for the period ended March 31, 2022, as at and for the three-month period ended June 30, 2023 and as at and for the three-month period ended June 30, 2022 in respect of the Company's subsidiaries, we report that Restated Ind AS Summary Statements:

- i. have been prepared after incorporating adjustments for the changes in accounting policies, material errors and regrouping/reclassifications retrospectively in the financial years ended March 31, 2023, March 31, 2022 and March 31, 2021 and three-month period ended June 30, 2022 to reflect the same accounting treatment as per the accounting policies and grouping/classifications followed as at and for the three-month period ended June 30, 2023;
- ii. There are no qualifications in the auditors' reports on the Audited Ind AS consolidated financial statements of the Group as at and for the year ended March 31, 2023, March 31, 2022 and on the Audited special purpose Ind AS standalone financial statements of the Company as at and for the year ended March 31, 2021 and Audited Ind AS interim consolidated financial statements of the Group as at and for the three-month period ended June 30, 2023 and as at and for the three-month period ended June 30, 2022, which require any adjustments to the Restated Ind AS Summary Statements.

However, items relating to emphasis of matter, as referred to in paragraph 7(a) above and those qualifications on matters included in our report on the Companies (Auditor's Report) Order, 2016 issued by the Central Government of India in terms of sub section (11) of section 143 of the Act as at and for the year ended March 31, 2021, as referred to in paragraph 7(a) above, which do not require any corrective adjustments in the Restated Ind AS Summary Statements, have been disclosed in Annexure VII to the Restated Ind AS Summary Statements; and

- iii. Have been prepared in accordance with the Act, ICDR Regulations, the Guidance Note and the SEBI Letter.
10. We have not audited any financial statements of the Group as of any date or for any period subsequent to June 30, 2023. Accordingly, we express no opinion on the financial position, results of operations, cash flows and statement of changes in equity of the Group as of any date or for any period subsequent to June 30, 2023.
11. This report should not in any way be construed as a reissuance or re-dating of any of the previous audit reports issued by us, nor should this report be construed as a new opinion on any of the financial statements referred to herein.
12. The Restated Ind AS Summary Statements do not reflect the effects of events that occurred subsequent to the audited Ind AS interim consolidated financial statements mentioned in paragraph 5(b) above.
13. We have no responsibility to update our report for events and circumstances occurring after the date of the report.

14. Our report is intended solely for use of the Board of Directors for inclusion in the offer documents to be filed with the Registrar of Companies, National Capital Territory of Delhi and Haryana, India, Securities and Exchange Board of India, National Stock Exchange of India Limited and BSE Limited, in connection with the Offer. Our report should not be used, referred to, or distributed for any other purpose. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come.

Note (i): In respect of Non-Cumulative Compulsorily convertible preference shares ('NCCCPS'), the NCCCPS holders of the Holding Company, in terms of the shareholders agreement, had exit rights including requiring the Holding Company to buy back shares held by them. Accordingly, on transition to Ind AS, since the redemption feature is conditional upon an event not under the control of the issuer, and may require entity to deliver cash, which issuer cannot avoid, NCCCPS are classified as liability at fair value of Rs. 19,539.99 million as at March 31, 2021 and the change in fair value of liability of Rs. 13,612.43 million has been recognized as an expense in the Restated Ind AS Summary Statement of Profit and Loss for the year ended March 31, 2021. Further, subsequently on April 01, 2021, the Holding Company and the NCCCPS holders have agreed to waive the buy-back rights granted to the NCCCPS holders under the shareholders agreement. Hence, the fair value of NCCCPS liability amounting to Rs. 19,539.99 million has been classified from borrowings to instruments entirely in the nature of equity to the extent of Rs. 17,929.34 million and Rs. 1,610.65 million representing securities premium on the NCCCPS has been reclassified to other equity. Also, Refer note 17, 19 and 47.

Note (ii): The Company has issued 902 Class E NCCCPS of Rs 10 each during the year ended March 31, 2022, at a premium of Rs 2.24 million per share and 839 Class F NCCCPS of Rs 10 each during the year ended March 31, 2022 at a premium of Rs 3.39 million per share.

1.2 Basis of Consolidation

The restated Ind AS summary statements comprises of the financial information of the Company and its subsidiaries as at June 30, 2023, June 30, 2022, March 31, 2023 and March 31, 2022. There is no consolidation for the year ended March 31, 2021 as the Company did not have any subsidiaries, joint venture or associates. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- the ability to use its power over the investee to affect its returns

1.2 Basis of Consolidation (continued)

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the restated Ind AS summary statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

The restated Ind AS summary statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the restated Ind AS summary statements for like transactions and events in similar circumstances, appropriate adjustments are made to restated Ind AS summary statements in preparing the restated Ind AS summary statements to ensure conformity with the group's accounting policies.

Consolidation procedure:

(a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the Holding Company with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the restated Ind AS summary statements at the acquisition date.

(b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.

(c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and property, plant and equipment are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the restated Ind AS summary statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of Profit and Loss resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the summary statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost
- Derecognises the carrying amount of any non-controlling interests
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities
- Recognise that distribution of shares of subsidiary to Group in Group's capacity as owners

2 Material accounting policies

2.1 Current versus non-current classification

The Group presents assets and liabilities in the Restated Ind AS Summary Statements of Assets and Liabilities based on current/non-current classification. An asset is treated as current when it is:

- expected to be realized or intended to be sold or consumed in normal operating cycle;
- held primarily for the purpose of trading;
- expected to be realized within twelve months after the reporting period; or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- expected to be settled in normal operating cycle;
- held primarily for the purpose of trading;
- due to be settled within twelve months after the reporting period; or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

The Group classifies all other liabilities as non-current.

Deferred tax liabilities are classified as non-current liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

2.2 Foreign currency translation

(i) Functional and presentation currency:

Items included in the restated Ind AS summary statements of the Group are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The restated Ind AS summary statements are presented in Indian Rupee (Rs.). For each entity the Group determines the functional currency and items included in the restated Ind AS summary statements of each entity are measured using that functional currency.

ii) Transactions and balances:

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Exchange differences arising on monetary items that forms part of a reporting entity's net investment in a foreign operation are recognised in profit or loss in the separate financial statements of the reporting entity or the individual financial statements of the foreign operation, as appropriate. In the financial statements that include the foreign operation and the reporting entity, such exchange differences are recognised initially in OCI. These exchange differences are reclassified from equity to profit or loss on disposal of the net investment.

iii) Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

2.3 Fair value measurement

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal market or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

All assets and liabilities for which fair value is measured or disclosed in the restated summary statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the restated Ind AS summary statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

2.4 Business combination and Goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.

- Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.

- Liabilities or equity instruments related to share based payment arrangements of the acquiree or share – based payments arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date.

- Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that standard.

- Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in Restated Ind AS summary statement of profit or loss or OCI, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised in Restated Ind AS summary statement of profit or loss.

If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS and shall be recognised in profit or loss.

Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent its settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed.

If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in restated Ind AS summary statement of profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods. If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete.

Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

Liability for Non-Controlling Interests

Liability for put option issued to non-controlling interests which do not grant present access to ownership interest to the Group is recognised at present value of the redemption amount and is reclassified from equity. At the end of each reporting period, the non-controlling interests subject to put option is derecognised and the difference between the derecognised and present value of the redemption based on the valuation, which is recorded as a financial liability, is accounted for as an equity transaction.

2.5 Property, plant and equipment

Under the previous GAAP (Indian GAAP), property, plant and equipment were carried in the balance sheet on the basis of historical cost. For the transition to Ind AS, the Group has elected to continue with the carrying value for all of its property, plant and equipment recognised as of April 01, 2020 (date of transition to Ind AS as per statutory financial statements) measured as per the previous GAAP and use that carrying value as its deemed cost as at the date of transition.

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Capital work-in-progress is stated at cost, net accumulated impairment losses, if any. Such cost comprises of the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. Such cost includes the cost of replacing part of the property, plant and equipment.

When significant parts of property, plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in the Restated Ind AS Summary Statement of Profit and Loss as incurred.

The Group identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset. Items of stores and spares that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Otherwise, such items are classified as inventories.

2.5 Property, plant and equipment

Depreciation on property, plant and equipment is calculated on a written down value over the useful lives of assets estimated by the management, as below:

Asset category	Useful lives estimated by the management (years)	Useful lives as per schedule II of the Act (years)
Office equipments	5	5
Plant and machinery	3 to 8	15
Furniture and fixtures	10	10
Computer & peripherals	3 to 6	3 to 6

Leasehold improvements are amortized on a straight line basis over the period of the lease or estimated useful life of the assets, whichever is lower.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Restated Ind AS Summary Statement of Profit and Loss when the asset is derecognized.

The useful lives have been determined based on managements' internal technical evaluation which in certain instances are different from those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The assets residual values, method of depreciation and useful life are reviewed and adjusted if appropriate, prospectively at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

2.6 Intangible assets

Under the previous GAAP (Indian GAAP), intangible assets were carried in the balance sheet on the basis of historical cost. For the transition to Ind AS, the Group has elected to continue with the carrying value for all of its intangible assets recognised as of April 01, 2020 (date of transition to Ind AS as per statutory financial statements) measured as per the previous GAAP and use that carrying value as its deemed cost as at the date of transition.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles are not capitalised and the related expenditure is reflected in restated Ind AS summary statement of profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the restated Ind AS summary statement of profit and loss unless such expenditure forms part of carrying value of another asset.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Restated Ind AS Summary Statement of Profit and Loss when the asset is derecognised.

The depreciation methodology applied to the Group's intangible assets is, as follows:

Intangible assets	Useful lives	Amortisation method used	Internally generated or acquired
Franchise agreements	5 years	Straight Line	Acquired
Non-compete agreement	3 years	Straight Line	Acquired
Trademark	5-7 years	Straight Line	Acquired
Brand	Indefinite *	No Amortisation	Acquired
Design and Formulation	0.5-1 year	Straight Line	Acquired
Software	1-10 years	Straight Line	Acquired
Goodwill	Indefinite *	No Amortisation	Acquired

* Tested for impairment annually or when circumstances indicate that the carrying value may be impaired.

2.7 Impairment of non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the Group operates, or for the market in which the asset is used.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the Restated Summary Statement of Profit and Loss, except for properties previously revalued with the revaluation surplus taken to OCI. For such properties, the impairment is recognised in OCI up to the amount of any previous revaluation surplus.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Restated Summary Statement of Profit and Loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Goodwill and brand are tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill and brand by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill and brand relate to. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

Intangible assets with indefinite useful lives are tested for impairment annually at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired.

2.8 Inventories

Traded goods are valued at lower of cost and net realizable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

2.9 Revenue recognition

Revenues are recognised when, or as, control of a promised goods or services transfers to customers, in an amount that reflects the consideration to which the Group expects to be entitled in exchange for transferring those goods or services. To recognise revenues the following five step approach is applied: (i) identify the contract with a customer, (ii) identify the performance obligation in the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract, and (v) recognise revenues when a performance obligations is satisfied.

The following specific recognition criteria must also be met before revenue is recognized:

Revenue from sale of products

Revenue from the sale of products is recognised at a point in time when control of the products is transferred to the customer and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Revenue from the sale of products is measured at the amount of "Transaction Price" as per Ind AS 115, net of returns and allowances, discounts and incentives.

Revenue from sale of services

Revenue from Hair Styling services is recognised on rendering services. Revenue from franchises is recognised as per the terms of the agreements. The amount recognised is at the predetermined price, the collection of which is reasonably certain. Revenue from educating students in hair styling is recognised on a time proportion basis. Revenue from listing services is received in the form of fees which is recognized prorate over the subscription / advertising agreement, usually ranging between one to twelve months.

Variable consideration

If the consideration in a contract includes a variable amount (discounts and incentives), the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods/services to the customer and such discounts and incentives are estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. The rights of return and volume rebates give rise to variable consideration.

Rights of return

The Group uses the expected value method to estimate the variable consideration given the large number of contracts that have similar characteristics. The Group then applies the requirements on constraining estimates of variable consideration in order to determine the amount of variable consideration that can be included in the transaction price. A refund liability is recognized for the goods that are expected to be returned (i.e., the amount not included in the transaction price). A right of return asset (and corresponding adjustment to cost of sales) is also recognised for the right to recover the goods from a customer.

Volume rebates

The Group applies the most likely amount method or the expected value method to estimate the variable consideration in the contract. The selected method that best predicts the amount of variable consideration is primarily driven by the number of volume thresholds contained in the contract. The most likely amount is used for those contracts with a single volume threshold, while the expected value method is used for those with more than one volume threshold. The Group then applies the requirements on constraining estimates in order to determine the amount of variable consideration that can be included in the transaction price and recognised as revenue.

Customer wallet points

The Group has a wallet points programme, which allows customers to accumulate points that can be redeemed for subsequent purchase. The wallet points give rise to a separate performance obligation as they provide a material right to the customer.

A portion of the transaction price is allocated to the loyalty points awarded to customers based on relative stand-alone selling price and recognised as a contract liability until the points are redeemed. Revenue is recognised upon redemption of points by the customer.

When estimating the stand-alone selling price of the loyalty points, the Group considers the likelihood that the customer will redeem the points. The Group updates its estimates of the points that will be redeemed on each reporting date and any adjustments to the contract liability balance are charged against revenue.

Interest income

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the Restated Ind AS Summary Statement of Profit and Loss.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Contract assets are subject to impairment assessment. Refer to accounting policies on impairment of financial assets in section 2.13 Financial instruments – initial recognition and subsequent measurement.

Trade receivables

A trade receivable is recognised if an amount of consideration is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to section 2.13 for accounting policies of financial assets.

Contract liabilities

A contract liability is recognised if a payment is received or a payment is due (whichever is earlier) from the customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

2.10 Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets as follows:

	Useful lives (years)
Buildings	2 - 9 years
Computer & Peripherals	3 years

If ownership of the leased asset is transferred to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policy on impairment of non-financial assets.

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects exercising of the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses internal rate of return for the assets which were earlier classified under finance lease and incremental borrowing rate for Right of use assets at the lease commencement date. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

The Group has adopted Ind AS 116 based on modified retrospective approach, wherein the Present Value of remaining lease payments as on the date of transition is recognised as the lease liability and right-of-use asset is considered equal to the amount of lease liability.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

2.11 Employee Benefits

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employee's services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current financial liabilities in the Restated Ind AS Summary Statement of Assets and Liabilities.

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. The Group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the Restated Ind AS Summary statement of profit and loss and are not deferred. The Group presents the accumulated leave liability as a current liability in the Restated Ind AS Summary Statement of Assets and Liabilities, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

Post-employment obligations

The Group operates the following post-employment schemes:

- (a) defined benefit plans - gratuity, and
- (b) defined contribution plans such as provident fund.

Defined benefit plans - Gratuity obligations

The liability or asset recognised in the Restated Ind AS Summary Statement of Assets and Liabilities in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by an independent actuary using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have term approximating the term of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Restated Ind AS Summary statement of changes in equity and in the Restated Ind AS Summary Statement of Assets and Liabilities. Such accumulated re-measurement balances are never reclassified into the Restated Ind AS Summary statement of profit and loss subsequently.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in Restated Ind AS Summary Profit or Loss as past service costs.

Defined contribution plan

Retirement benefit in the form of provident fund scheme is the defined contribution plans. The Group has no obligation, other than the contribution payable. The Group recognizes contribution payable to these schemes as an expenditure, when an employee renders the related service.

2.12 Employee share based payments

The Stock option plan of the Group is classified as equity settled transaction based on the constructive obligation for settlement of option in equity.

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using Black Scholes model.

That cost is recognised, together with a corresponding increase in employee stock option outstanding reserve in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the Restated Ind AS Summary statement of profit and loss for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

When the terms of an equity-settled award are modified, the minimum expense recognised is the grant date fair value of the unmodified award, provided the original vesting terms of the award are met. An additional expense, measured as at the date of modification, is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through restated profit or loss.

The Company's employees are granted share appreciation rights (SAR) settled in cash upto May 30, 2022 and w.e.f. May 31, 2022 the scheme is modified as equity settled scheme. The liability for the share appreciation rights is measured, initially and at the end of each reporting period until settled, at the fair value of the SAR by applying an option pricing model, taking into account the terms and conditions on which the SAR were granted, and the extent to which the employees have rendered services to date.

When the terms of a cash-settled award are modified, the equity-settled share-based payment transaction is measured by reference to the fair value of the equity instruments granted at the modification date, the liability for the cash-settled share-based payment transaction as at the modification date is derecognised on that date and the difference between the carrying amount of the liability derecognised and the amount of equity recognised on the modification date is recognised immediately in restated Ind AS summary statement of profit and loss.

Subsequently w.e.f December 15, 2022, SAR Scheme was further amended and rechristened by the Holding Company to Employee stock options plan 2021 (ESOP scheme 2021) ("December 2022 Amendment") to redesignate the erstwhile SAR as ESOP with a fixed conversion ratio. When the terms the equity-settled share-based payment transaction are modified, pre-modification valuation and post modification valuation is compared and if the value of post modification is lower than pre-modification, then the cost would be recognised based on original plan, however if the value of post modification is higher than pre-modification, then the original cost would continue to be accounted and for the additional fair value to the extent of vested options recognised in the statement of profit and loss and to the extent of unvested options, additional fair value is accounted over the remaining vesting period.

The dilutive effect of outstanding employee stock options is reflected as additional share dilution in the computation of diluted earnings per share.

2.13 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e. the date that the Group commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at Fair Value Through Other Comprehensive income (FVTOCI)
- Debt instruments and equity instruments at Fair Value Through Profit and Loss (FVTPL)
- Equity instruments measured at Fair Value Through Other Comprehensive Income (FVTOCI)

A 'debt instrument' is measured at the amortised cost, if both of the following conditions are met:

- (i) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and
- (ii) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Restated Ind AS Summary statement of profit and loss. The losses arising from impairment are recognised in the Restated Ind AS Summary statement of profit and loss. This category generally applies to trade and other receivables.

A 'debt instrument' is classified as FVTOCI, if both of the following criteria are met:

- (i) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets; and
- (ii) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in OCI. However, the Group recognizes interest income, impairment losses and foreign exchange gain or loss in the Restated Ind AS Summary statement of profit and loss. On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to the Restated Ind AS Summary statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Restated Ind AS Summary statement of profit and loss.

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to the Restated Ind AS Summary statement of profit and loss, even on sale of the investments. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Restated Ind AS Summary statement of profit and loss.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Restated Ind AS Summary Statement of Assets and Liabilities) when:

- The rights to receive cash flows from the asset have expired; or
- The Group has transferred its rights to receive cash flows from the asset and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the financial assets and credit risk exposure. The Group follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on twelve-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The twelve-month ECL is a portion of the lifetime ECL which results from default events that are possible within twelve months after the reporting date. ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive (i.e., all cash shortfalls), discounted at the original EIR. ECL impairment loss allowance (or reversal) recognized during the year is recognized as income/expense in the Restated Ind AS Summary Statement of Profit and Loss. This amount is reflected under the head 'other expenses' in the Restated Ind AS Summary Statement of Profit and Loss.

For assessing increase in credit risk and impairment loss, the Group combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognised initially at fair value. The Group's financial liabilities include trade and other payables, and lease liabilities.

Subsequent measurement

The measurement of financial liabilities depends on their classification. Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Separated embedded derivatives are also classified as held for trading, unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the Restated Ind AS Summary Statement of Profit and Loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/losses are not subsequently transferred to the Restated Ind AS Summary Statement of Profit and Loss. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the Restated Ind AS Summary Statement of Profit and Loss.

After initial recognition, gains and losses are recognised in the Restated Ind AS Summary Statement of Profit and Loss when the liabilities are derecognised as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Restated Ind AS Summary Statement of Profit and Loss.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Restated Ind AS Summary Statement of Profit and Loss.

Reclassification of financial assets and liabilities

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no re-classification is made for financial assets which are equity instruments and financial liabilities.

For financial assets which are debt instruments, a re-classification is made only if there is a change in the business model for managing those assets. A change in the business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. If the Group reclassifies financial assets, it applies the re-classification prospectively from the re-classification date, which is the first day of the immediately next reporting period following the change in business model. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the Restated Ind AS Summary Statement of Assets and Liabilities, if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

2.14 Income taxes

Income tax

Income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Group operates and generates taxable income.

Current income tax relating to items recognised outside the restated Ind AS summary statement of profit and loss is recognised outside the restated Ind AS summary statement of profit and loss (either in OCI or in equity in correlation to the underlying transaction). Management periodically evaluates whether it is probable that the relevant taxation authority would accept an uncertain tax treatment that the Group has used or plan to use in its income tax filings, including with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions, where appropriate. The Group shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

Deferred tax

Deferred tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities and assets are recognized for all taxable temporary differences and deductible temporary differences, except:

- when the deferred tax liability or asset arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences and deductible temporary differences associated with investments in subsidiary and associate, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside the restated Ind AS summary statement of profit and loss is recognised outside the restated Ind AS summary statement of profit and loss (either in OCI or in equity in correlation to the underlying transaction).

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.15 Segment reporting

Identification of segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group), whose operating results are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. Operating segments of the Group are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The Group's operating businesses are organized and managed on a single segment considering the entire beauty and personal care products and related services as one single operating segment. The analysis of geographical segments is based on the location in which the customers are situated.

Segment accounting policies

The Group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the restated Ind AS summary statements of the Group as a whole.

The Board of directors is the Chief Operating Decision Maker (CODM) and monitors the operating results of Group as a whole for the purpose of making decisions about resource allocation and performance assessment.

2.16 Earnings/(Loss) per share

Basic earnings per share are calculated by dividing the restated net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the restated net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

2.17 Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Restated Ind AS Summary statement of profit and loss, net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

These estimates are reviewed at each reporting date and adjusted prospectively to reflect the current best estimates.

2.18 Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the restated Ind AS summary statements.

2.19 Cash and cash equivalents

Cash and cash equivalents in the Restated Ind AS Summary Statement of Assets and Liabilities and Restated Ind AS Summary Statement of Cash Flows comprise cash at banks and in hand and short-term deposits with an original maturity of three months or less that are readily convertible to a known amount of cash, which are subject to an insignificant risk of changes in value.

For the purpose of the Restated Ind AS Summary Statement of Cash Flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

2.20 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

2.21 Significant accounting judgements, estimates and assumptions

The preparation of the restated Ind AS summary statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Other disclosures relating to the Group's exposure to risks and uncertainties includes:

- Capital management (Note 43)
- Financial risk management objectives and policies (Note 42)
- Sensitivity analysis disclosures (Notes 35 and 42)

The Group bases its assumptions and estimates on parameters available when the restated Ind AS summary statements are prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur. The judgements, estimates and assumptions management has made which have the most significant effect on the amounts recognized in the Restated Ind AS summary statements are as below.

Revenue from contracts with customers

Sale of goods includes expected discounts and incentives that give rise to variable consideration. In estimating the variable consideration, the Group is required to use either the expected value method or the most likely amount method based on which method better predicts the amount of consideration to which it will be entitled. The Group uses the most likely amount methodology to determine the variable consideration.

The Group determines and updates its assessment of expected discounts and incentives periodically and the accruals are adjusted accordingly. Estimates of expected discount and incentives are sensitive to changes in circumstances and the Group's past experience regarding these amounts may not be representative of actual amounts in the future.

Leases

The Group determines the lease term as non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. The Group applies judgement and considers all relevant factors that create an economic incentive in evaluating whether it is reasonably certain to exercise the option to renew or terminate the lease. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or terminate. In calculating the present value of lease payments, the Group uses internal rate of return for the assets which were earlier classified under finance lease and incremental borrowing rate (IBR) for Right of use assets at the lease commencement date.

The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

The IBR requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs (such as market interest rates), when available and makes entity-specific estimates, wherever required.

Impairment of financial assets

Provision for expected credit loss on trade receivables

The measurement of expected credit loss reflects a probability-weighted outcome, the time value of money and the best available forward-looking information. The correlation between historical observed default rates, forecast economic conditions and expected credit loss is a significant estimate. The amount of expected credit loss is sensitive to changes in circumstances and forecasted economic conditions. The Group's historical credit loss experience and forecast of economic conditions may not be representative of the actual default in the future.

Impairment of non financial assets

Impairment exists when the carrying value of an asset or cash generating unit ("CGU") exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow ("DCF") model. The cash flows are derived from the budget for future years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill recognised by the Group.

Defined benefit plans

The cost of the defined benefit plan and the present value of the obligation are determined using actuarial valuation. An actuarial valuation involves various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, expected return, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds where remaining maturity of such bond correspond to expected term of defined benefit obligation. The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases are based on expected future inflation rates.

Share-based payments

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. For cash-settled share-based payment transactions, the liability needs to be remeasured at the end of each reporting period up to the date of settlement, with any changes in fair value recognised in the restated profit or loss. This requires a reassessment of the estimates used at the end of each reporting period. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 39.

Business combination

In accounting for business combinations, judgment is required in identifying whether an identifiable intangible asset is to be recorded separately from goodwill. Additionally, estimating the acquisition date fair value of the identifiable assets acquired (including useful life estimates), liabilities assumed, and contingent consideration assumed involves management judgment. These measurements are based on information available at the acquisition date and are based on expectations and assumptions that have been deemed reasonable by management. Changes in these judgments, estimates, and assumptions can materially affect the results of operations.

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the group and that are believed to be reasonable under the circumstances.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the Restated Ind AS Summary Statements cannot be measured based on quoted prices in active markets, their fair value is measured using internal valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

2.22 New and amended standards adopted by the group

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 dated March 31, 2023 to amend the following Ind AS which are effective from April 01, 2023:

(i) Definition of Accounting Estimates - Amendments to Ind AS 8

The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. It has also been clarified how entities use measurement techniques and inputs to develop accounting estimates.

(ii) Disclosure of Accounting Policies - Amendments to Ind AS 1

The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

(iii) Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to Ind AS 12

The amendments narrow the scope of the initial recognition exception under Ind AS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences. The amendments should be applied to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, at the beginning of the earliest comparative period presented, a deferred tax asset (provided that sufficient taxable profit is available) and a deferred tax liability should also be recognised for all deductible and taxable temporary differences associated with leases and decommissioning obligations.

The amendments listed above did not have any impact on the amounts recognised in prior periods presented or current period.

Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. During three month period ended June 30, 2023, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

6 Right-of-use assets and lease liabilities

(a) Group as a lessee

The Group has lease contracts for office premises, warehouses, retail stores, computer and peripherals used in its operations. The lease term of the lease contracts are ranging from 1.25 years to 9 years. The Group's obligations under its leases are secured by the lessor's title to the leased assets. Generally, the Group is restricted from assigning and subleasing the leased assets.

The Group has applied exemptions as per paragraph 6 of Ind AS 116 with respect to short term leases.

*During the period ended June 30, 2023, the Holding company issued a termination notice on April 5, 2023, indicating the intention to vacate certain office premises and accounted for lease modification reflecting such arrangement leading to reversal of lease liability and ROU asset in the relevant period. Further, the Holding company has entered into a new lease deed dated May 11, 2023 for new corporate office premises. However, the possession of the premises would be made available post the period ended June 30, 2023. Hence, the Holding Company would account for lease in line with Ind AS 116, when the asset is available for use (lease commencement date). The lease term for the new corporate office premises is 9 years and the company has committed undiscounted rentals of Rs. 682.38 million over the lease term.

The Group tests whether goodwill and indefinite life brand has suffered any impairment on an annual basis or more frequently when there is an indication that the unit may be impaired. The recoverable amount of a CGU is determined based on value-in-use calculations which require the use of assumptions. The calculations uses cash flow projections based on financial budgets approved by the management.

The Group assessed the carrying value of its goodwill and indefinite life brand at CGU level to which they are attributable, based on future operational plan, projected cash flows and carried out valuation. Considering the aforesaid valuation, the management is of the view that, the carrying value of its goodwill and indefinite life brand is appropriate.

7 Impairment testing of goodwill and brand (continued)

Sensitivity change in assumptions

Except for Just4Kids Services Private Limited above, no impairment was identified as the recoverable value of the CGUs exceeded the carrying value. A sensitivity analysis to a change in the key parameters (revenue growth and discount rate) based on reasonably probable assumptions, did not identify any probable scenarios where the CGUs recoverable amount would fall below their carrying amount.

Impairment (CGU-Just4Kids Services Private Limited):

*In the meeting of Board of Directors held on March 06, 2023, the Management informed and briefed the Board that the business of Just4kids Services Private Limited ("Momspresso") was acquired to expand content and influencer management capabilities and to strengthen content creation capabilities by enabling the access to a large and ready library of the relevant content of Momspresso. However, the performance and profitability of the Company was deteriorating with the business significantly underperforming (vis-à-vis business plan FY 22-23) during Q4 of FY 22-23. Further the business synergies envisaged from the investment could not be realized despite best efforts of the management. The management also presented multiple scenarios with medium term to long term estimates for the acquired business but none of the scenarios demonstrated considerable improvement in profitability profile and any sight of realizing synergies for the core product business. Consequently, the Board of Directors have decided to perform impairment analysis by an independent expert.

Basis, such valuation report, impairment loss attributable to Goodwill is Rs.1,360.63 million, attributable to software Rs.19.14 million and attributable to trademarks Rs.167.20 million respectively has been provided and disclosed as an exceptional item for the year ended March 31, 2023.[Refer note 4(a) and 4(b)]

Notes:

- (i) During the year ended March 31, 2023, March 31, 2022 and March 31, 2021, the Holding Company has issued 33,476, 31 and 18 equity shares respectively, to the employees on exercise of employee stock options. Other than shares issued under the employee stock options schemes, the company issued 259,460 shares during the year ended March 31, 2023.
- (ii) The Company has issued bonus shares in accordance with Section 63 of the Companies Act, 2013 in the ratio of 12,899:1 to all equity shareholders with equity shares of face value of Rs 10 each on May 11, 2022.
- (iii) Pursuant to the approval of the shareholders accorded in the Extraordinary General Meeting (EGM) of the Holding Company held on April 28, 2022, each equity share of face value of Rs. 100 per share was split into one equity share of face value of Rs.10 per share and one equity share of face value of Rs.90 per share, with effect from April 28, 2022.
- (iv) Pursuant to the approval of the Board of directors on September 13, 2022, equity share of face value of Rs.90 per share was bought back on September 22, 2022 for Rs.90 per share.

(c) Terms/rights attached to equity shares

- (i) The Holding Company has equity shares having par value of Rs 10 and Rs 100 per share. Each shareholder of equity shares is entitled to have one vote per share. The Holding Company declares and pays dividend in Indian Rupees. The dividend proposed by Board of Directors is subject to approval in the ensuing Annual General Meeting, except in case of interim dividend. The repayment of equity share capital in the event of liquidation and buyback of shares is possible subject to prevalent regulations. In the event of liquidation, normally the equity shareholders are eligible to receive the remaining assets of the Holding Company after distribution of all preferential amounts, as proportion to their holdings.

Pursuant to the approval of the shareholders accorded in the Extraordinary General Meeting (EGM) of the Holding Company held on April 28, 2022, each equity share of face value of Rs. 100 per share was split into one equity share of face value of Rs.10 per share and one equity share of face value of Rs.90 per share, with effect from April 28, 2022. Further, pursuant to the approval of the Board of directors on September 13, 2022, equity share of face value of Rs.90 per share was bought back on September 22, 2022 for Rs.90 per share.

- (ii) Nil (June 30, 2022: Nil, March 31, 2023: Nil; March 31, 2022: Nil and March 31, 2021: 916) equity shares of Rs. 10 each were redeemable at the option of the holder and therefore they are considered as a puttable instrument. These equity shares meet the condition of equity classification as per Ind AS 32 and are therefore, classified and accounted for as equity.

The above statement should be read with Annexure V, Annexure VI and Annexure VII to the Restated Ind AS Summary Statements.

Note (i): In respect of Non-Cumulative Compulsorily Convertible Preference Shares ('NCCCPs'), the NCCCPs holders of the Holding Company, in terms of the shareholders agreement, had exit rights including requiring the Holding Company to buy back shares held by them. Accordingly, on transition to Ind AS, since the redemption feature is conditional upon an event not under the control of the issuer, and may require entity to deliver cash, which issuer cannot avoid, NCCCPs are classified as liability at fair value of Rs. 19,539.99 million as at March 31, 2021 and the change in fair value of liability of Rs. 13,612.43 million has been recognized as an expense in the Restated Ind AS Summary Statement of Profit and Loss for the year ended March 31, 2021. Further, subsequently on April 01, 2021, the Holding Company and the NCCCPs holders have agreed to waive the buy-back rights granted to the NCCCPs holders under the shareholders agreement. Hence, the fair value of NCCCPs liability amounting to Rs. 19,539.99 million has been reclassified from borrowings to instruments entirely in the nature of equity to the extent of Rs. 17,929.34 million and Rs. 1,610.65 million representing securities premium on the NCCCPs has been reclassified to other equity.

Note (ii): The Company has issued 902 Class E NCCCPs of Rs.10 at a premium of Rs.2.24 million per share and 839 Class F NCCCPs of Rs.10 at a premium of Rs.3.39 million per share during the year ended March 31, 2022.

(c) Terms/rights attached to NCCCPs

The Holding Company has issued NCCCPs - Class A, B, C, D, E & F shares of Rs. 10 each fully paid-up. NCCCPs Class A, B, C, D, E & F shares carry a minimum preferential dividend @ 0.001% p.a. proportionately for the period for which the shares are being held and it shall be paid in preference to any dividend or distribution payable upon shares of any other class. Each holder of NCCCPs Class A, B, C, D, E & F shares is entitled to vote at each meeting of the holders of the Equity shares to the extent of such proportion of the total voting rights, as they would have been entitled assuming full conversion of the NCCCPs Class A, B, C, D, E & F shares. The holders of the NCCCPs shall be entitled to exercise voting rights on an as if converted basis i.e., assuming conversion of the NCCCPs in the manner set out in the shareholders agreement.

Each holder of NCCCPs Class A, B, C, D, E & F shares may convert the shares at the option of the holder into 1 equity share of the Holding Company at the earlier of the following events:

- 1) Anytime at the option of the holder
- 2) Immediately upon the expiry of 20 years from the date of allotment; or
- 3) Qualified Initial Public Offering (IPO) as acceptable to the holder.

In the event of liquidation of the Company before conversion, the holder of NCCCPs Class A, B, C, D, E & F shares would be paid prior and in preference to any payment or distribution to equity share holders.

The Company has issued bonus shares in accordance with Section 63 of the Companies Act, 2013 in the ratio of 12,899:1 to all equity shares of Rs 10 each on May 11, 2022. Consequently, each holder of NCCCPs Class A, B, C, D, E & F shares conversion ratio is changed to 12,900:1.

Nature and purpose of reserves

a) Securities premium:

Securities premium account has been created consequent to issue of shares at premium. The reserve can be utilised in accordance with the provisions of the Companies Act, 2013.

b) Retained earnings :

Retained earnings are the profits/(loss) that the Group has earned/incurred till date, dividends or other distributions paid to shareholders. Retained earnings include re-measurement loss / (gain) on defined benefit plans, net of taxes that will not be reclassified to Restated Ind AS Summary Statement of Profit and Loss.

c) Employee stock option outstanding reserve

Employee stock option outstanding reserve is used to recognize the grant date fair value of equity-settled share based payment transactions with employees.

Stock appreciation rights ('SAR') were considered as cash settled till May 30, 2022. With effect from May 31, 2022, the Group has removed the cash settlement option and these SARs would be settled through issuance of equity shares, pursuant to this modification the plan is treated as equity settled and hence on the date of modification the differential between fair value as on previous reporting date and as on the date of modification in scheme has been charged to Restated Ind AS Summary Statement of Profit and Loss. The fair value as on the date of modification has been transferred to Employee stock option outstanding reserve. The scheme was further converted to ESOP Scheme 2021 (Refer Note 39)

d) Capital redemption reserve

The capital redemption reserve represents the reserve created by the Holding Company on buy back of equity shares.

e) Foreign currency translation reserve:

Exchange differences arising on translation of the foreign operations are recognised in other comprehensive income as described in accounting policy and accumulated in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed-off.

Non-Cumulative Compulsorily Convertible Preference Shares (NCCCPS) (Refer Note below)	-	-	-	-	19,539.99
	-	-	-	-	19,539.99

Note:

In respect of Non-Cumulative Compulsorily Convertible Preference Shares ('NCCCPS'), the NCCCPS holders of the Holding Company, in terms of the shareholders agreement, had exit rights including requiring the Holding Company to buy back shares held by them. Accordingly, on transition to Ind AS, since the redemption feature is conditional upon an event not under the control of the issuer, and may require entity to deliver cash, which issuer cannot avoid, NCCCPS are classified as liability at fair value of Rs. 19,539.99 million as at March 31, 2021 respectively and the change in fair value of liability of Rs. 13,612.43 million has been recognized as an expense in the Restated Ind AS Summary Statement of Profit and Loss for the year ended March 31, 2021 respectively. Further, subsequently on April 01, 2021, the Holding Company and the NCCCPS holders have agreed to waive the buy-back rights granted to the NCCCPS holders under the shareholders agreement. Hence, the fair value of NCCCPS liability amounting to Rs. 19,539.99 million has been classified from borrowings to instruments entirely in the nature of equity to the extent of Rs. 17,929.34 million and Rs. 1,610.65 million representing securities premium on the NCCCPS has been reclassified to other equity.

*During the year ended March 31, 2022, the Company has acquired 74.32% shareholding in Just4Kids Services Private Limited for a consideration of Rs 944.58 million. Pursuant to the Shareholders Agreement between the Holding Company and existing shareholders of Just4kids Services Private Limited, both the parties have the obligation to purchase and sell the remaining shares of the existing shareholders at a pre-agreed valuation. At the end of each reporting period, the non-controlling interests subject to put option is derecognised and the difference between the derecognised and present value of the redemption based on the valuation, which is recorded as a financial liability, is accounted for as an equity transaction. Accordingly, the Group has recognised the present value of future obligation amounting to Rs 579.00 million as a financial liability as on date of acquisition. The group has fair valued the obligation and has recorded a fair valuation loss of Rs. 17.92 million for the period ended June 30, 2022 and Rs.10.79 million during the year ended March 31, 2022 in equity in respect of the Non-controlling interests liability. Further, the Group has settled NCI liability of Rs 4.63 million during the year ended March 31, 2023.

During the year ended March 31, 2023, the Holding Company has entered into a non binding term sheet with NCI holders to acquire the remaining stake at net cash balance of Just4kids Services Private Limited as at the closing date. Hence, the Group has accounted for the NCI liability as at June 30, 2023 and March 31, 2023 as equivalent to the estimated settlement and has reversed the NCI liability of Rs. 23.20 million for the period ended June 30, 2023 and Rs. 331.87 million for the year ended March 31, 2023 through retained earnings in respect of the Non-controlling interests liability.

** Stock appreciation rights were considered as cash settled till May 30, 2022. However w.e.f. May 31, 2022, the Holding Company has made modifications to the scheme and the scheme is now accounted for as an equity settled share based payments scheme. The differential between fair value as on previous reporting date and as on the date of modification in scheme aggregating to Rs. 7.59 million has been included in the Restated Ind AS Summary Statement of profit and loss. The fair value as on the date of modification has been transferred to Employee stock options outstanding reserve. (Refer note 18)

33 Earnings/(loss) per share

Basic Earnings/(loss) per share ('EPS') amounts are calculated by dividing the Restated Profit/(loss) for the period / year attributable to equity holders of the Holding Company by the weighted average number of equity shares outstanding during the period / year.

Diluted EPS amounts are calculated by dividing the Restated Profit/(loss) attributable to equity holders of the Holding Company by the weighted average number of equity shares outstanding during the period / year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

35 Employee benefits plan

(i) Defined contribution plans - Provident Fund, ESI and labour welfare fund

The Group makes Provident Fund and Employee State Insurance Scheme contributions which are defined contribution plans, for qualifying employees. Under the Schemes, the Group is required to contribute a specified percentage of the payroll costs to fund the benefits. During the three months period ended June 30, 2023 the Group recognised Rs. 5.83 million (three months period ended June 30, 2022 Rs. 4.19 millions, year ended March 31, 2023 Rs.19.56 million, year ended March 31, 2022 Rs. 10.41 million, year ended March 31, 2021 Rs. 4.88 million) towards such contribution in the Restated Ind AS Summary Statement of Profit and Loss. The contributions payable to these plans by the Group are at rates specified in the rules of the schemes.

(ii) Defined benefit plans (unfunded):

The Group has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days basic salary (last drawn salary) for each completed year of service. The plan is unfunded benefit plan for qualifying employee.

Gratuity is a defined benefit plan and company is exposed to the following risks:

Interest risk	The plan exposes the Group to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability.
Liquidity risk	This is the risk that the Group is not able to meet the short-term gratuity payouts. This may arise due to non availability of enough cash / cash equivalent to meet the liabilities.
Salary escalation risk	The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.
Demographic risk	The Group has used certain mortality and attrition assumptions in valuation of the liability. The Group is exposed to the risk of actual experience turning out to be worse compared to the assumptions made.
Regulatory risk	Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts.

A quantitative sensitivity analysis for significant assumptions are as shown below:

Sensitivity Level	Consolidated								Standalone		
	For the three months period ended June 30, 2023		For the three months period ended June 30, 2022		For the year ended March 31, 2023		For the year ended March 31, 2022		For the year ended March 31, 2021

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Restated Ind AS Summary Statement of Assets and Liabilities.

The following payments are expected cash flows to the defined benefit plan in future years:

The weighted average duration of the defined benefit plan obligation as at three months period ended June 30, 2023 is 4 to 20 years (June 30, 2022: 4 years to 16.92 years; March 31, 2023: 4 years to 20 years; March 31, 2022: 4 years to 16.92 years; March 31, 2021: 17.03 years). The expected maturity analysis of undiscounted gratuity is as follows:

[A] Employee Share Option Plan (ESOP) of the Holding Company

Employees Stock Option Plan 2018

On August 02, 2018, the Board of Directors approved the equity settled "Honasa Consumer Private Limited Employees Stock Option Plan 2018" for issue of stock options to various employees of the holding company. According to the scheme, the employees will be entitled to options, subject to their continued employment with the Group. There would be graded vesting on annual basis for the next 4 years. The contractual life (comprising the vesting period and the exercise period) of options granted is from the date of such grant till the resignation of the employee. The other relevant terms of the grant are as below:

Class of Share	Equity Shares Rs. 10 each (as amended vide board meeting held on August 02, 2018).
Ownership	Legal and Beneficial Ownership
Vesting Pattern	Four-year vesting term and vest at the rate of 25% in the first year and 6.25% each quarter from the first quarter of the second year and become fully exercisable, subject to employee being in the employment of the Holding Company.
Exercise Price *	Exercisable at an exercise price of Rs 25,788, Rs 54,512 and Rs 263,566 per option. During the period ended June 30, 2022, the Company has issued bonus shares (Refer note 16), pursuant to bonus issue, exercise price has been reduced to Rs. 2.00, Rs. 4.23 and Rs. 20.43 respectively. Exercise price for the grant made during the period ended June 30, 2023 is Rs. 262.41.

* Pursuant to the aforesaid bonus issue, the exercise price of the stock options has reduced below the face value of equity shares i.e. Rs 10 in respect of certain stock options. Accordingly, the Company, vide meeting of the Board of Directors dated October 10, 2023, has adjusted the number of stock options in lieu of bonus issue and exercise price thereon to the eligible employees.

Economic Benefits / Voting Rights
The holders of the equity shares will be entitled to the economic benefits of holding these shares only after the completion of the various vesting terms mentioned above and shall acquire voting rights as a shareholder of the Holding Company (as approved by the shareholders at the meeting held on August 13, 2018).

Share appreciation rights ('SAR') [equity settled effective May 31, 2022 and cash settled upto May 30, 2022]

On September 30, 2021 the board of directors approved the Honasa Consumer Private Limited Share Appreciation Rights Plan 2021 for issue of appreciation rights to the permanent employees of the Company. The Company's employees are granted share appreciation rights (SARs), to be settled in cash. The liability for the share appreciation rights is measured, initially and at the end of each reporting period until settled, at the fair value of the SARs by applying an option pricing model, taking into account the terms and conditions on which the SARs were granted, and the extent to which the employees have rendered services to date.

Stock appreciation rights were considered as cash settled till May 30, 2022. With effect from May 31, 2022, the Group has removed the cash settlement option and these SARs would be settled through issuance of equity shares, pursuant to this modification the plan is treated as equity settled and hence on the date of modification the differential between fair value as on previous reporting date and as on the date of modification in scheme has been charged to Restated Ind AS Summary statement of profit and loss. The fair value of Rs 27.74 million as on the date of modification has been transferred to employee stock option outstanding reserve.

Pursuant to the resolutions passed by the board of directors and the shareholders of the Company on December 15, 2022 and December 17, 2022, respectively, the share appreciation rights (SARs) Scheme was amended and rechristened by the Company to Employee stock options plan 2021 (ESOP scheme 2021) ("December 2022 Amendment"). Except for the adjustments made to the number of stock options and the ratio for conversion of the ESOPs into Equity Shares on account of the December 2022 Amendment and the bonus shares issuance dated May 11, 2022, all other terms of the SARs granted under the SAR Scheme (now rechristened as ESOP scheme 2021), including date of grant, vesting schedule, and the exercise price remained the same.

The carrying amount of the liability relating to the SARs as at June 30, 2023 is Nil (June 30, 2022: Nil ; March 31, 2023: Rs Nil; March 31, 2022: Rs 20.15 million; March 31, 2021: Nil). The number of SARs vested as at June 30, 2023 was Nil (June 30, 2022: Nil ; March 31, 2023: Rs Nil; March 31, 2022: Nil; March 31, 2021: Nil).

*Further, SAR has been modified to ESOP 2021 as described above

The expected life of the stock options and SARs is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may not necessarily be the actual outcome.

41 Financial instruments- accounting classification and fair value measurement (continued)

Notes:

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Group categorises fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

a. Level 1 - Quoted prices (unadjusted) in an active market for identical assets or liabilities that the Group can assess at the measurement date

b. Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly

c. Level 3 - Unobservable inputs for the assets or liabilities.

Fair value measurements that use inputs of different hierarchy levels are categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire management.

The management assessed that cash and cash equivalent, trade receivables, Investment in bonds and commercial paper, trade payables, other financial assets(current), other financial liability (current), lease liabilities (current) and advance to employees approximates their fair value largely due to short-term maturities of these instruments.

The fair value of remaining financial instruments are determined on transaction date based on discounted cash flows calculated using lending/ borrowing rate. Subsequently, these are carried at amortized cost. There is no significant change in fair value of such liabilities and assets. There have been no transfers between levels during the period / year.

42 Financial risk management

Objective and policies

The Group's principal financial liabilities comprise of borrowings, lease obligation, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include security deposits, investments, trade and other receivables and cash and cash equivalents that is derived directly from its operations.

The Group's activities exposes it to market risk, credit risk and liquidity risk. The Group's senior management oversees the management of these risks. The senior management ensures that the Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with Group's policies and risk objectives. The Group reviews and agrees on policies for managing each of these risks which are summarised below:

a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and price risk. Financial instruments affected by market risk include investments, loans and borrowings, trade receivables, trade payables and lease liabilities.

i. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As the Group does not have any floating interest rate borrowings or deposits, it is not exposed to interest rate risk.

ii. Foreign Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exchange risk arises from its foreign currency assets and liabilities. The Group's exposure to the risk of changes in foreign exchange rates arises on account of purchases from foreign countries and export sales. The Group has not taken any derivative instrument during the period / year and there is no derivative instrument outstanding as at the period / year end.

iii. Price risk

The Group invests surplus funds in liquid mutual funds. The Group is exposed to market price risk arising from uncertainties about future values of the investment. The Group manages the equity price risk through investing surplus funds in liquid mutual funds on a short term basis.

b) Credit risk

Credit risk is the risk that counter party will not meet its obligations under a financial instruments or customer contract leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its investing activities (primarily deposits with banks). Further, other significant assets for the Group include security deposits for leased assets.

The Group monitors the exposure to credit risk on an ongoing basis through ageing analysis and historical collection experience. Outstanding customer receivables are regularly monitored by the senior management.

42 Financial risk management (continued)

The maximum credit risks is represented by the total carrying amount of these financial assets in the Restated Ind AS Summary Statement of Assets and Liabilities.

i) Trade receivables

Customer credit risk is managed by the Group subject to the Group's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored. To manage this, the company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of trade receivable. The Group creates allowance for all trade receivables based on lifetime expected credit loss model (ECL). The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Group does not hold collateral as security.

The following table summarises the change in the loss allowance:

ii) Other financial assets

Other financial assets includes security deposits and deposits with banks. Cash and cash equivalents and interest receivable are placed with a reputable financial institution with high credit ratings and no history of default.

3. Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's financing activities are managed centrally by maintaining an adequate level of cash and cash equivalents to finance the Group's operations. Typically the Group ensures that it has sufficient cash on demand to meet expected short term operational expenses. The Group manages its surplus funds centrally by placing them with reputable financial institution with high credit rating and no history of default.

The table below summarises the maturity profile of the Group's financial liabilities at the reporting date. The amounts are based on contractual undiscounted payments.

47 First time adoption of Ind AS ('FTA')

A. First time adoption

For periods up to and including the year ended March 31, 2021, the Group prepared its financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Previous GAAP- Indian GAAP).

The consolidated financial statements, for the year ended March 31, 2022, were the first statutory financial statements of the Group prepared in accordance with Ind AS. In preparing the first Ind AS financial statements, the Group's Ind AS opening balance sheet was prepared as at April 01, 2020, the Group's Statutory date of transition to Ind AS.

The Special purpose Ind AS standalone financial statements as at and for the year ended March 31, 2021 have been prepared after making suitable adjustments to the accounting heads from their Indian GAAP values following accounting policies and accounting policy choices (both mandatory exceptions and optional exemptions availed as per Ind AS 101) consistent with that used at the date of transition to Ind AS (April 01, 2020) and as per the presentation, accounting policies and grouping/classifications including revised Schedule III disclosures followed as at and for the six months period ended June 30, 2023 pursuant to the SEBI letter.

Note below explains exemptions availed by the Holding Company in restating its Previous GAAP financial statements and the GAAP adjustments which includes:

a) Reconciliation of Equity and Total Comprehensive Income for the year end March 31, 2021 with the Audited Indian GAAP financial statements for year end March 31, 2021 as presented in Statutory Ind AS financial statements for year end March 31, 2022.

B. Exemptions applied

Ind AS - 101 allows first-time adopters certain exemptions and certain optional exemptions from the retrospective application of certain requirements under Ind AS. The Group has applied the following exemptions and optional exemptions :

Deemed cost for Property, plant and equipment and intangible assets

Ind AS - 101 permits a first-time adopter to elect to continue with the carrying value for all its property, plant and equipment as recognised in the Consolidated financial statements as at the date of the transition to Ind AS, measured as per the Previous GAAP and use that as its deemed cost as at the date of transition. This exemption can also be used for intangible assets covered by Ind AS - 38 'Intangible assets'.

Accordingly the Group has elected to measure all its property, plant and equipment and intangible assets at their previous GAAP carrying value.

The Group has adopted Ind AS 116 based on modified retrospective approach, wherein the Present Value of remaining lease payment as on the date of transition is recognised as the lease liability and right-to-use asset is considered equal to the amount of lease liability.

C. Mandatory Exceptions

Classification and measurement of financial assets

Ind AS - 101 requires Group to assess classification and measurement of financial assets on the basis of facts and circumstances that exist at the date of transition to Ind AS. Further, the standard permits measurement of financial assets accounted at amortised cost based on facts and circumstances existing at the date of transition if retrospective application is impracticable. Accordingly, the Group has determined the classification of financial assets based on the facts and circumstances that exist on the date of transition.

Estimates

The Group estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with the estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is an objective evidence that those estimates were in error.

Ind AS estimates as at April 01, 2020, are consistent with the estimates as at the same date made in conformity with previous GAAP. The Group made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP :

- Impairment of financial assets based on expected credit loss method (simplified approach).

E Notes to reconciliations between previous GAAP and Ind AS

a) Security deposits

Under previous GAAP, interest free security deposits are recognised at their transaction value. Under Ind AS - 109, these deposits are initially recognised at fair value and subsequently measured at amortised cost at the end of each reporting period. Accordingly, the difference between transaction value and fair value of these deposits is recognised as Right-of-use assets and is amortised over the period of the lease term or agreement of deposit respectively. Further, interest is accrued on the present value of these security deposits. During the year ended March 31, 2021, the Group has adjusted Rs 0.23 million to profit and loss towards increase in fair value of security deposit.

b) Investments

Under previous GAAP, the Group were carrying their current investments at the lower of carrying amount and face value. Under Ind AS, these investments are required to be measured at fair value. The resulting change in fair value is recognised in retained earnings at the date of transition i.e. April 01, 2020 and subsequently in the statement of profit and loss. The Group has recorded a fair market value adjustment during the year ended March 31, 2021 under other income of Rs 77.75 million on account of fair valuation of investments.

c) NCCCPs

Under the previous GAAP, Non-cumulative compulsorily convertible preference shares (NCCCPs) issued to the investors were classified as equity and carried at transaction value. The terms of the instrument provided the holder an option to convert the instrument at any time and also a right to put back the instrument to the Group on non completion of an 'Initial Public Offering'. On such occurrence, the Group will be obliged to buyback NCCCPs at a price equal the fair value of equity shares at redemption. The instrument is assessed to be a financial liability with an embedded derivative liability in the form of settlement option. In the year March 31, 2021 the Group has accounted fair value loss of Rs. 13,612.43 million on account of fair valuation loss of NCCCPs.

d) Share based payment

Under Indian GAAP accounting for Employee Share-based Payments, the cost of equity-settled transactions is measured using the intrinsic value method. Under Ind AS 102, the cost of equity-settled transactions is determined by the fair value at the date when the grant is made based on Black Scholes valuation determined by independent valuer.

e) Lease

Under previous GAAP, lessee classified a lease as an operating or a finance lease based on whether or not the lease transferred substantially all risk and rewards incidental to the ownership of an asset. Operating lease were expensed in the statement of profit and loss. Pursuant to application of Ind AS - 116, for operating leases other than those for which the Group has opted for short-term or low value exemption, the Group has recorded a right-of-use assets and lease liabilities. Right-of-use asset is amortised over the lease term or useful life of the leased assets whichever is lower and lease liabilities is subsequently measured at amortised cost and interest expense is recognised. As the Group has opted the modified retrospective approach (i.e., lease liabilities = ROU) and the lease liability is measured at present value of the remaining lease payments as at the date of transition. Accordingly on adoption of Ind AS - 116, on transition date there is no impact against retained earning and during the year ended March 31, 2021 the Group has recognised Rs 8.88 million in the Restated Statement of Profit and loss.

On adoption of Ind AS, the laptops taken on finance lease which were previously classified under Computers and peripherals asset class of Property, plant and equipment are derecognised and recorded under Right of use assets, as Ind AS 116 required the underlying assets on account of any lease including finance lease to be recognised as ROU.

f) Remeasurement of defined benefit obligation

Under previous GAAP, actuarial gains and losses were recognised in the statement of profit and loss. Under Ind AS, the actuarial gains and losses form part of remeasurement of net defined benefit liability which is recognised in other comprehensive income in the respective periods.

g) Deferred Tax Liabilities

Indian GAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind-AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind-AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under Indian GAAP. In addition, the various transitional adjustments lead to temporary differences.

F) Material regrouping

Appropriate adjustments have been made in these Restated Ind AS Summary Statement, wherever required, by reclassification of the corresponding items of income, expenses, assets and liabilities, in order to bring them in line with the requirements of the Ind AS.

The above statement should be read with Annexure V, Annexure VI and Annexure VII to the Restated Ind AS Summary Statements.

[^] Not annualised for June 30, 2023 and June 30, 2022

The ratios have been computed as under:

- Basic and diluted earnings per equity share: Basic and diluted earnings per equity share are computed in accordance with Indian Accounting Standard 33 notified under the Companies (Indian Accounting Standards) Rules of 2015 (as amended).
- Return on Net worth (%) = Restated profit/(loss) attributable to equity holders of the parent divided by total equity attributable to equity holders of the parent. Since net worth is negative for fiscal year ended March 31, 2021, RoNW is not derived here.
- Weighted average number of shares outstanding during the period/year post conversion of NCCCPs and proposed issuance of equity shares against the outstanding options under ESOP schemes.
- Net Asset Value per share represents net worth at the end of the year/period divided by the weighted average number of shares outstanding during the period/year post-conversion of NCCCPs and the proposed issuance of equity shares against the outstanding options under ESOP schemes.
- Adjusted EBITDA is calculated as restated profit/ loss for the period/year plus tax expense, finance cost, depreciation and amortization expenses, change in fair valuation of preference shares, share based payment expenses (equity settled), share based payment expense (cash settled) and exceptional items (impairment loss on goodwill and other intangible assets) less other income.
- Adjusted EBITDA Margin is the percentage of Adjusted EBITDA divided by revenue from operations.
- EBITDA is calculated as restated profit /(loss) for the period/year plus tax expense, finance cost, depreciation, amortization expenses and exceptional items (impairment loss on goodwill and other intangible assets) less other income.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion in conjunction with the Restated Ind AS Summary Statements. The Restated Ind AS Summary Statements has been prepared by the management as required under the SEBI ICDR Regulations read with the ICAI Guidance Note. For more information, see “Risk Factors — External Risk Factors — Risks Related to India — Significant differences exist between the Indian Accounting Standards (Ind AS) used to prepare our financial information and other accounting principles, such as the United States Generally Accepted Accounting Principles (U.S. GAAP) and the International Financial Reporting Standards (IFRS), which may affect investors’ assessments of our Company’s financial condition.” on page 66.

Our Financial Year ends on March 31 of each year. Accordingly, all references to a particular Financial Year are to the 12-month period ended March 31 of that year. Financial information for the three months period ended June 30, 2022 and June 30, 2023 are not indicative of full-year results, and are not comparable with the annual financial statements presented in this Prospectus. See “Risk Factors — Internal Risk Factors — In this Prospectus, we have compared consolidated financial information as of and for the year ended March 31, 2022 and March 31, 2023 with our standalone financial information as of and for the year ended March 31, 2021. These periods are not comparable to each other.” on page 57.

This Prospectus also contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including but not limited to the considerations described below. For details, see “Forward-Looking Statements” beginning on page 24.

Unless otherwise indicated or the context otherwise requires, the financial information for the three months period ended June 30, 2022 and June 30, 2023, and the financial years ended March 31, 2021, 2022 and 2023 included herein is derived from the Restated Ind AS Summary Statements included in this Prospectus. Unless otherwise indicated or the context otherwise requires, in this section, references to “we”, “us” and “our” are to Honasa Consumer Limited together with its subsidiaries on a consolidated basis as at and for the year ended March 31, 2022, March 31, 2023, three months period ended June 30, 2022 and June 30, 2023, and to Honasa Consumer Limited on standalone basis for the years ended March 31, 2021.

Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance have been included in this section and elsewhere in this Prospectus. Such non-GAAP financial measures should be read together with the nearest GAAP measure. See “Certain Conventions, Presentation of Financial, Industry and Market Data and Currency of Presentation — Financial Data — Non-GAAP financial measures and certain other statistical information” and “Risk Factors — Internal Risk Factors — We track certain operational and key business metrics with internal systems and tools. Certain of our operational metrics are subject to inherent challenges in measurement which may adversely affect our business and reputation” on pages 22 and 62, respectively.

The industry-related information contained in this section is derived from the industry report titled “Report on Beauty and Personal Care Market in India” dated October 7, 2023 prepared by RedSeer Management Consulting Private Limited (“RedSeer” and such report, the “RedSeer Report”). We have commissioned and paid for the RedSeer Report for the purposes of confirming our understanding of the industry exclusively in connection with the Offer. We officially engaged RedSeer in connection with the preparation of the RedSeer Report pursuant to engagement letters dated July 7, 2022, August 11, 2023 and August 29, 2023. A copy of the RedSeer Report shall be available on the website of our Company from the date of this Prospectus until the Bid/Offer Closing Date. Unless otherwise indicated, the industry-related information contained in this section is derived from the RedSeer Report (extracts of which have been appropriately incorporated as part of “Industry Overview” beginning on page 135).

OVERVIEW

We are the largest digital-first beauty and personal care (“BPC”) company⁴ in India in terms of revenue from operations for the Financial Year 2023 (Source: RedSeer Report). Since our inception, we have worked with the primary objective of developing products that address beauty and personal care problems faced by consumers. For instance, our flagship brand, Mamaearth, is built to service a core customer need for safe-to-use, natural products, and focuses on developing toxin-free beauty products (as defined below) made with natural ingredients. According to the RedSeer Report, as of the Financial Year 2023, Mamaearth has emerged as the fastest growing BPC brand in India to reach an annual revenue of ₹10 billion (in the preceding 12 months) within six years of launch.

Since launching Mamaearth in 2016, we have added five new brands to our portfolio, namely The Derma Co., Aqualogica, Ayuga, BBlunt and Dr. Sheth’s, and have built a ‘House of Brands’ architecture. As of June 30, 2023, our portfolio of brands with differentiated value propositions includes products in the baby care, face care, body care, hair care, color cosmetics and fragrances segments.

⁴ According to the RedSeer Report, “digital-first beauty and personal care company” is defined as beauty and personal care products companies with a revenue of more than ₹100 crores in Financial Year 2023, with at least 60% of the revenue coming from online channels.

Our success with Mamaearth and our ability to identify and cater to emerging trends has enabled us to develop repeatable brand building playbooks that have helped in scaling our newer brands at a fast pace. These playbooks are powered by our consumer-centric approach across various aspects of our business model, including our innovation engine, our digital-first omni-channel distribution, and our technology and data-driven marketing and consumer engagement model.

The graphic below provides a brief overview of our brands:

Additionally, we continuously seek to connect better with our consumers and strengthen our brand equity by building ‘purpose-driven’ brands that are associated with environmental and social impact causes. For instance, through the Mamaearth ‘Plant Goodness’ initiative, we work with a non-government organisation to plant trees for orders placed on our direct-to-consumer (“DTC”) platform and share geo-tagged images of these trees with our consumers. Similarly, The Derma Co. is associated with a ‘Young Scientists’ program wherein children in certain rural parts of India are provided with access to education in science, and Aqualogica is associated with a ‘Fresh Water for All’ initiative wherein we help enable access to clean drinking water for marginalized communities.

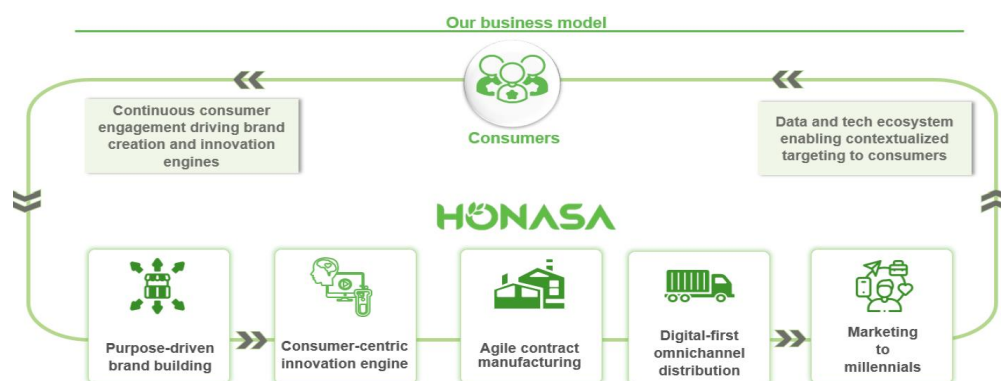

Our focus on building thoughtfully designed and purpose driven brands has helped cultivate trust, brand resonance and affinity amongst our consumers and has enabled us to grow our business, as demonstrated by the following:

- We have grown our revenue from operations at a CAGR of 80.14% between Financial Years 2021 and 2023 (from ₹4,599.90 million in Financial Year 2021 to ₹14,927.48 million in Financial Year 2023), while the median revenue CAGR of all other BPC companies for which data was available for the relevant period was 28.00% (Source: *RedSeer Report*).
- We are the largest company in the DTC BPC market in India in terms of revenue generated from the DTC channel in Financial Year 2023 (Source: *RedSeer Report*). During Financial Year 2021, 2022, 2023 and the three months period ended June 30, 2022 and June 30, 2023, 38.51%, 43.15%, 56.90%, 52.65% and 63.20% of our revenue from operations from this channel (for our Mamaearth brand) was attributable to existing customers, respectively.
- We had a market share (in terms of gross merchandise value) aggregating to approximately 5.4% (₹13,300 million) of the online BPC market (i.e. DTC and e-commerce) (₹248,000 million) in India in calendar year 2022, a market share (in terms of gross merchandise value) of 1.5% of the total BPC market (₹23,200 million) for calendar year 2022 and a market share (in terms of gross merchandise value) aggregating to approximately 28.9% (₹5,500 million) in the DTC BPC market (₹19,000 million) in calendar year 2022 (Source: *RedSeer Report*).
- Mamaearth was India’s most-searched BPC brand on Google Trends between January 2020 and June 2023 (Source: *RedSeer Report*).
- Mamaearth was ranked amongst the top three in terms of awareness in the grooming category on Flipkart between May 2021 and July 2023 (Source: *RedSeer Report*).

We have built our business by focusing on driving profitable unit economics, as demonstrated by the following (Source: *RedSeer Report*):

- We were ranked third amongst digital-first BPC companies in India in terms of gross profit margins in Financial Year 2022.
- We were one of the two digital-first BPC companies in India with a positive EBITDA margin (EBITDA margin is calculated as restated profit /(loss) for the period/year plus tax expense, finance cost, depreciation and amortization expenses, exceptional items (impairment loss on goodwill and other intangible assets) less other income, divided by revenue from operations) in Financial Year 2022.

Our success is driven by our differentiated business model that is built upon principles of consumer centricity, agility, and technology, as depicted in the graphic below:

Brand Building and Product Innovation

We have developed a range of tools and capabilities that enable us to engage with our consumers and generate insights into new and emerging trends in the BPC market in India. Our consumer insights-led product innovation engine is an integral part of our business model and helps us conceptualize and develop new brand concepts, new products and new product ranges. Details relating to our new SKUs introduced (across all our brands) and new products launched (across all our brands) during the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, is set forth in the table below:

	For the three months period ended June 30, 2023	For the three months period ended June 30, 2022	For the year ended March 31, 2023	For the year ended March 31, 2022	For the year ended March 31, 2021
New SKUs (across all our brands) introduced in the BPC market in India	109	137	301	159	126
Contribution of new SKUs (across all our brands) introduced in the BPC market in India to our revenue from operations (₹ in millions)	399.46	337.53	2,793.68	1,989.61	1,391.94
Contribution of new SKUs (across all our brands) to absolute increase in revenue from operations during the period, as compared to the preceding corresponding period (%)	25.46%	N/A	56.58%	42.17%	N/A
New products (across all our brands) launched in the BPC market in India	89	121	252	122	91

We have a dedicated in-house innovation team, consisting of 47 members, as on June 30, 2023, that drives end-to-end ideation and execution of new products launches. This team collaborates with large ingredient suppliers to co-create formulations. For manufacturing, we have set up an asset-light contract manufacturing model that gives us the benefit of economies of scale at small batch sizes while also providing the flexibility to scale up production as needed.

Distribution

We make our products available to our customers through omni-channel distribution networks across both online and offline touchpoints. We strategically leverage our presence on online channels (both DTC platforms and e-commerce marketplaces) during the early stages of a brand or products lifecycle to generate trials amongst early adopters, engage with consumers directly and test for product market fit. Once a product or brand reaches a mature stage, we selectively introduce such products and brands in offline stores to drive penetration amongst a larger consumer base. This digital-first approach in our distribution strategy enables us to incorporate valuable customer feedback across new product launches and thereby efficiently scale new products. Moreover, we actively leverage insights on consumer preference from our DTC channel at a pin-code level to define our offline store expansion strategy and our merchandising and portfolio rationalization strategy. We have established scale across both online and offline channels and recorded the highest revenue from offline channels among digital-first BPC companies in India in Financial Year 2023 (Source: RedSeer Report).

Marketing

We have adopted a data-led contextualised marketing strategy to drive consideration and purchase for our brands and products. We leverage data-driven insights to develop meaningful and authentic content for our consumers not only through our own in-house studio but also through a community of influencers on digital platforms. Further, we leverage our data ecosystem to attempt to understand consumers across demographic, behavioural, and transactional variables. We utilize this data to segment

our user base into micro-cohorts and deliver a more personalized user experience based on consumer's specific needs and preferences.

Our sharp focus on the BPC category coupled with our strengths in brand building, innovation, distribution, and marketing have positioned us well and enabled us to establish a strong presence in the Indian BPC market.

Significant Factors Affecting Our Results of Operations

Our ability to capitalize on trends in the beauty and personal care market in India

Millennials in India are becoming increasingly conscious of their BPC needs and the brands they consume (*Source: RedSeer Report*). Millennials respond better to content that is meaningful and contextualized to their specific needs and preferences as compared to traditional content formats that are based on brand or product pitches (*Source: RedSeer Report*). The market for BPC products in India is expected to grow from approximately \$20 billion in 2022 to approximately \$33 billion in 2027 at a CAGR of approximately 11%, which is among the highest within the broader retail categories (and faster than other retail categories such as food and grocery, jewellery and watches, fashion, consumer electronics, home and living, and pharmacy and wellness in India) during this period (*Source: RedSeer Report*). We believe that we understand evolving consumer preferences and industry whitespaces and are well positioned to benefit from the expected growth in the market (*Source: RedSeer Report*). We believe this has contributed significantly to the demand for our products.

Established in 2016, Mamaearth is our flagship brand that focuses on developing toxin-free beauty products made with natural ingredients. Initially introduced as a natural ingredients-led brand with baby care products inspired from traditional DIY beauty recipes, Mamaearth has since developed into an established BPC platform brand with products across baby care, hair care, face care, body care, hair color and fragrances. We have been successful in achieving growth in the sales of products under the Mamaearth brand, which has contributed significantly to the growth in our revenue from operations over prior periods, from ₹4,599.90 million for Financial Year 2021 to ₹9,434.65 million for Financial Year 2022 and ₹14,927.48 million for Financial Year 2023. Our revenue from operations was ₹3,122.45 million and ₹4,644.87 million for the three months period ended June 30, 2022 and June 30, 2023, respectively.

While we have successfully identified and captured whitespaces through Mamaearth, we aim to continuously identify and capture whitespaces through our newer brands and products as well. For example, in Financial Year 2023, while sales of our products under our flagship Mamaearth brand continued to contribute a substantial majority of our revenue from operations, we were also able to scale up our The Derma Co. and Aqualogica brands, which were launched in 2020, and 2021 respectively, and our Dr. Sheth's and BBlunt brands which were acquired in 2022. See “ – *Continued innovation and development of new product categories, including through strategic acquisitions*” below. However, a failure to anticipate, identify or react swiftly to new and changing trends or desired consumer preferences may lead to lower sales of our products and loss of market share. For details, see “*Risk Factors – Internal Risk Factors – Failure to identify and effectively respond to changing consumer preferences and spending patterns or changing beauty and personal care trends in a timely manner, the demand for our products could decrease, causing our business, results of operations, financial condition and cash flows to be adversely affected*” on page 36.

Our ability to increase wallet share and repeat orders from existing customers and attract new customers in a cost-efficient manner

We have grown our revenue from operations at a CAGR of 80.14% between Financial Years 2021 and 2023 (from ₹4,599.90 million in Financial Year 2021 to ₹14,927.48 million in Financial Year 2023), while the median revenue CAGR of all other BPC companies for which data was available for the relevant period was 28.00% (*Source: RedSeer Report*). This reflects the market acceptance and popularity of our products. Our key focus is to increase wallet share (i.e., the amount that an existing customer spends on our brands) and repeat orders from our existing customers (by providing them with newer brands and innovative products) and attracting new consumers to our brands and products in a cost-efficient manner.

During prior periods, we have been able to increase sales volumes of products of our flagship brand, Mamaearth, as well as products of newer brands such as The Derma Co., Aqualogica, Ayuga, BBlunt and Dr Sheth's, across various categories. Increases in our sales volumes have contributed significantly to the increase in our revenue from operations. For Financial Years 2021, 2022 and 2023, the three months period ended June 30, 2023, our number of units delivered (across all our brands) was 18.51 million, 45.02 million, 75.74 million and 23.84 million, respectively, representing a volume growth of 143.30%, 68.23% and 44.14% for Financial Years 2022 and 2023 and the three months period ended June 30, 2023, respectively. We aim to further grow our sales volumes by acquiring new consumers and cross-selling new products to existing customers.

In order to continue to increase the wallet share and repeat orders from existing customers and attract new consumers in a cost-efficient manner, it is important for us to maintain the quality, trustworthiness and authenticity of our brands and products, continue to innovate and develop new product categories. Our ability to continue to attract new customers depends on, among other things, our ability to successfully communicate our brand propositions to consumers. Further, our ability to develop new brand concepts and new products depends on, among other things, our ability to successfully develop a range of tools and capabilities that enable us to continuously engage with consumers and generate insights into new and emerging trends in the

BPC market in India. Moreover, our overall performance also depends on our ability to augment our reach across markets in India and overseas, and increase awareness of our brands and products. We believe that the strength of our brands, including our flagship brand, Mamaearth, will enable us to continue to expand across categories and channels, thereby allowing us to deepen relationships with consumers and expand our access to new consumers and markets. In a short period of time since its launch in 2016, Mamaearth became India's most-searched BPC brand on Google Trends between January 2020 and June 2023 (*Source: RedSeer Report*).

Further, as we expand our consumer base, it is important for us to do so in a cost-efficient manner by gradually lowering our consumer acquisition costs. For further details, see “— *Continuing to invest in marketing, while also driving marketing efficiency*” on page 324 below.

Continued innovation and development of new product categories, including through strategic acquisitions

Innovation and new product development are important for our growth. In order to continue to offer consumers new and varied products, we focus on further improving our existing products and conceptualizing new products across existing product categories we service, as well as new product categories, that can be included in our overall portfolio. Over the last five years, we have developed capabilities that enable us to replicate our success with Mamaearth across newer brands. Based on these capabilities, we have built a “House of Brands” architecture with a portfolio of six brands in the BPC space, each having its own value proposition. New product and brand launches have contributed to an increase in our revenue from operations. During Financial Years 2022 and 2023, and the three months period ended June 30, 2023, new product launches contributed to a 42.17%, 56.58% and 25.46% absolute increase in revenue from operations during the period, respectively, as compared to the preceding corresponding period. We calculate the contribution of new product launches to increase in revenue by dividing revenue from operations arising from sales of new product launches in a particular Financial Year by the increase in overall revenue from operations from the previous Financial Year to that Financial Year. We continue to focus on enhancing our product portfolio by continuing to explore additional products that can be integrated into our existing portfolio of brands.

We have developed specialized in-house tools that help us identify consumer trends which in turn facilitates our development of new product categories. For example, we leverage an in-house social platform to enable us to capture consumer sentiments and identify emerging trends and propositions. This in-house social platform has helped us in identifying emerging propositions such as rice water for frizzy hair. Further, our in-house market research and competitive intelligence platform tracks our market share movements across a number of BPC sub-categories and a long range of ingredient spaces and price points. This in-house market research and competitive intelligence platform has helped us identify growing BPC sub-categories, ingredients, value propositions and price points that are gaining traction with consumers. For details, please see “*Our Business – Competitive Strengths – Consumer-centric product innovation*” on page 165.

Moreover, in order to enhance our functional capabilities or add complementary propositions to our platform of brands, we have historically pursued strategic acquisitions in the BPC industry in India. For instance, in the last two years, we completed the acquisitions of Dr. Sheth's and BBlunt, to expand our portfolio of brands and product offerings and capabilities. We continue to evaluate select acquisition opportunities, particularly to supplement our market position, product offerings across price points, functional capabilities and channels. For details, see “*Risk Factors – Internal Risk Factors – We may not be able to successfully identify and conclude acquisitions, or manage the integration of or harness synergies from acquired businesses, or the performance of such acquired businesses may be below our expectations, any of which may adversely affect our business, results of operations and financial condition.*” on page 47.

Our omnichannel distribution channel mix and the continued growth of our offline channel

We are present across both online and offline consumer touch points through our omnichannel network, being present wherever our consumers intend to shop, thus enhancing convenience and accessibility for them. Our online distribution channel covers our direct-to-consumer websites and applications and sales through e-commerce marketplaces, whereas our offline distribution channel consists of general trade channels and modern trade retail channels, and is supplemented by our 85 EBOs across India as of June 30, 2023. Commencing from Financial Year 2021, we have expanded our offline distribution channel, by increasing the number of stores covered by our distribution network and the number of sales staff employed by us. As a result, the proportion of revenue derived from our offline channel has increased over Financial Year 2021, Financial Year 2022, Financial Year 2023 and the three months period ended June 30, 2023. For the three months period ended June 30, 2023, our general trade channel included 130 distributors and 411 sub-stockists, whereas our modern trade channel included 31 retail chains, and we had 85 EBOs. The expansion of the offline distribution network allows us to expand our consumer base. It is critical for us to strategically leverage the offline channel to drive household penetration for mainstream BPC categories such as shampoos, hair oils, face wash, moisturisers and sunscreens. We also plan to serve our consumers through our EBO network to enhance our overall brand imagery. Given that the sale of BPC products through offline channels tends to be more profitable as compared to online channels (*Source: RedSeer Report*), expansion into offline channels will help improve the overall margin profile of our business.

For Financial Years 2021, 2022, and 2023 and the three months period ended June 30, 2023, our revenue from offline channels across all our brands amounted to ₹856.97 million, ₹2,723.38 million, ₹5,394.08 million and ₹1,554.76 million, respectively, representing 18.63%, 28.87%, 36.14% and 33.47% of our revenue from operations, respectively, and our revenue from online

channels across all our brands amounted to ₹3,742.93 million, ₹6,595.34 million, ₹8,861.04 million and ₹2,973.18 million, respectively, representing 81.37%, 69.91%, 59.36% and 64.01% of our revenue from operations (including sale of services), respectively. We follow a ‘digital-first’ omnichannel approach, which entails launching and testing new brands or products on our direct-to-consumer and e-commerce channels first, through which we are able to test product-market fit for our new brands and products and then selectively introduce them in offline stores, where appropriate. We leverage insights from our online channels to optimize decision making in offline retail in aspects such as store expansion strategy, regional prioritization, merchandise planning, planogramming and trade marketing.

Continuing to invest in marketing, while also driving marketing efficiency

To grow our business, we intend to continue to invest in marketing, which will lead to higher brand recall and acquisition of new customers for existing brands as well as any new brands that we may launch in the future. We follow a consumer centric and data-led contextualized approach to marketing, and continuous two-way engagement with our consumers is an integral part of our business model. For further details, please see “*Our Business – Competitive Strengths – Data-driven Contextualized Marketing*” on page 162. It is important for us to maintain reasonable costs for our marketing efforts and that are relative to the value we expect to derive from our consumers. Our advertisement expenses were ₹1,779.38 million, ₹3,914.74 million, ₹5,302.78 million and ₹1,625.12 million, constituting 38.68%, 41.49%, 35.52% and 34.99% of our revenue from operations for Financial Years 2021, 2022 and 2023 and the three months period ended June 30, 2023, respectively. We expect to continue investing in advertising and sales promotion activities such as television advertising, celebrity endorsements, influencer and digital marketing, to increase brand awareness in order to achieve higher brand recall and improved customer conversion.

Ability to achieve benefits from economies of scale

Our ability to derive benefits of economies of scale are key to improving our margins and profitability. We procure our products from various contract manufacturers, and during the three months period ended June 30, 2023, we sourced our products from 37 contract manufacturers. We choose between different contract manufacturers within our procurement network to manufacture a particular product based on, among other things, formulation capabilities for the specific product, facilities, production capacities, and product quality. With our increasing scale, our network of contract manufacturers is also able to enjoy the benefits of economies of scale across our procurement value-chain, contributing to cost-efficiencies for us. Further, as our procurement function is integrated across all our brands, this in turn results in cost efficiencies for new brands introduced by us. For instance, an integrated procurement network across Mamaearth and our new brands leads to economies of scale advantage for the new brands despite operating at a much smaller revenue base. As our business continues to scale, we intend to continue deriving economies of scale through our integrated procurement network. During Financial Years 2021, 2022 and 2023, and the three months period June 30, 2023, our gross profit margins were 71.15%, 69.96%, 70.07% and 71.03%, respectively. For details, see “*Our Business – Overview – Certain of Our Operating and Financial Metrics*.” The decrease in our gross margins from Financial Year 2021 was primarily on account of inflation, and was offset by advantages generated by economies of scale.

Our freight and forwarding charges and advertisement expense as a percentage of revenues have also decreased over prior periods. For Financial Years 2021, 2022 and 2023 and the three months period June 30, 2023, our freight and forwarding charges aggregated to ₹543.53 million, ₹919.07 million, ₹1,442.41 million and ₹443.53 million, respectively, and our freight and forwarding charges as a percentage of our revenue from operations was 11.82%, 9.74%, 9.66%, and 9.55%, respectively. Similarly, for Financial Years 2021, 2022 and 2023 and the three months period June 30, 2023, our advertisement expenses aggregated to ₹1,779.38 million, ₹3,914.74 million, ₹5,302.78 million and ₹1,625.12 million, respectively, and our advertisement expense as a percentage of revenue from operations was 38.68%, 41.49%, 35.52% and 34.99%, respectively. For the Financial Years 2021, 2022 and 2023 and the three months period June 30, 2023, our restated profit/(loss) before tax was ₹(13,246.09) million, ₹224.39 million, ₹(1,410.40) million and ₹339.53 million, respectively, and our restated profit/(loss) for the period/years was ₹(13,322.15) million, ₹144.43 million, ₹(1,509.66) million and ₹247.15 million, respectively. Our Adjusted EBITDA has also improved over prior periods. Our Adjusted EBITDA amounted to ₹313.64 million, ₹302.49 million, ₹509.14 million and ₹349.89 million for Financial Years 2021, 2022 and 2023 and the three months period ended June 30, 2023. For a reconciliation of our Adjusted EBITDA to profit/(loss) for the period/year, please see “*– Non-GAAP Measures – EBITDA and Adjusted EBITDA*” on page 354.

Continuing to invest in our human resources

Our employees are critical to us maintaining a competitive position in our industry. As of June 30, 2023, we had 993 employees. For further details, see “*Our Business – Description of Our Business – Employees*” on page 179. We have invested heavily in our human resources in the past three financial years, in particular towards increasing our senior executive personnel, middle executive personnel, offline channel sales employees and employees in technology related functions. During the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2023, respectively, our employee benefits expenses amounted to ₹277.59 million, ₹788.46 million, ₹1,648.80 million, and ₹445.06 million, respectively, and our employee benefits expenses as a percentage of our revenue from operations was 6.03%, 8.36%, 11.05% and 9.58%, respectively. Moving forward, we expect to continue incurring employee benefit expenses in the short to medium term, as we continue to build and strengthen our organisational capabilities.

Basis of Consolidation

The Restated Ind AS Summary Statements comprise of our financial information as at June 30, 2023, June 30, 2022, March 31, 2023 and March 31, 2022. There is no consolidation for the year ended March 31, 2021 as we did not have any subsidiaries, joint venture or associates. Control is achieved when we are exposed, or have rights, to variable returns from our involvement with the investee and have the ability to affect those returns through our power over the investee. Specifically, we control an investee if and only if we have:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from our involvement with the investee; and
- the ability to use our power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when we have less than a majority of the voting or similar rights of an investee, we consider all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual arrangements;
- Our voting rights and potential voting rights; and
- The size of our holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

We re-assess whether or not we control an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when we obtain control over the subsidiary and ceases when we lose control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the Restated Ind AS Summary Statements from the date we gain control until the date we cease to control the subsidiary.

The Restated Ind AS Summary Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If any of our subsidiaries use accounting policies other than those adopted in the Restated Ind AS Summary Statements for like transactions and events in similar circumstances, appropriate adjustments are made to that subsidiary's restated summary statements in preparing the restated summary statement to ensure conformity with our accounting policies.

Consolidation procedure

We combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the Restated Ind AS Summary Statements at the acquisition date.

We offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Our business combinations policy explains how to account for any related goodwill.

We eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between our entities (profits or losses resulting from intragroup transactions that are recognized in assets, such as inventory and property, plant and equipment are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in Restated Ind AS Consolidated Summary Statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income ("OCI") are attributed to the equity holders of the parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the summary statements of subsidiaries to bring their accounting policies into line with our accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between our companies are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If we lose control over a subsidiary, we:

- Derecognize the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost;
- Derecognize the carrying amount of any non-controlling interests;
- Derecognize the cumulative translation differences recorded in equity;
- Recognize the fair value of the consideration received;
- Recognize the fair value of any investment retained;
- Recognize any surplus or deficit in profit or loss;
- Reclassify the parent's share of components previously recognized in OCI to profit or loss or retained earnings, as appropriate, as would be required if we had directly disposed of the related assets or liabilities; and
- Recognize that distribution of shares of the subsidiary to us in our capacity as owners.

Current versus non-current classification

We present assets and liabilities in the Restated Ind AS Summary Statement of Assets and Liabilities based on current/non-current classification. An asset is treated as current when it is:

- expected to be realized or intended to be sold or consumed in normal operating cycle;
- held primarily for the purpose of trading;
- expected to be realized within twelve months after the reporting period; or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- expected to be settled in normal operating cycle;
- held primarily for the purpose of trading;
- due to be settled within twelve months after the reporting period; or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

We classify deferred tax liabilities as non-current liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. We have identified twelve months as our operating cycle.

Foreign currency translation

Functional and presentation currency

Items included in our restated summary statements are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The restated summary statements are presented in Indian rupee. For each entity, we determine the functional currency and items included in the restated Ind AS summary statements of each entity are measured using that functional currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Exchange differences arising on monetary items that forms part of a reporting entity's net investment in a foreign operation are recognised in profit or loss in the separate financial statements of the reporting entity or the individual financial statements of the foreign operation, as appropriate. In the financial statements that include the foreign operation and the reporting entity, such exchange differences are recognised initially in OCI. These exchange differences are reclassified from equity to profit or loss on disposal of the net investment.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

Fair value measurement

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal market or, in its absence, the most advantageous market to which we have access at that date. The fair value of a liability reflects our non-performance risk.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

All assets and liabilities for which fair value is measured or disclosed in the Restated Ind AS Summary Statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the Restated Ind AS Summary Statements on a recurring basis, we determine whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Business Combination and Goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, we elect whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred. At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognized at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognized and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.
- Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.
- Liabilities or equity instruments related to share-based payment arrangements of the acquiree or our share-based payment arrangements entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date.
- Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that standard.
- Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

When we acquire a business, we assess the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognized in Restated Ind AS Summary Statement of Profit or Loss or OCI, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognized at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognized in Restated Ind AS Summary Statement of Profit or Loss.

If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS and shall be recognised in profit or loss. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent its settlement is accounted for within equity. Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed.

If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, we re-assess whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in OCI and accumulated in equity as capital

reserve. However, if there is no clear evidence of bargain purchase, the entity recognizes the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of our cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognized in the Restated Ind AS Summary Statement of Profit or Loss. An impairment loss recognized for goodwill is not reversed in subsequent periods. If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, we report provisional amounts for the items for which the accounting is incomplete.

Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognized, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

Liability for Non-Controlling Interests

Liability for put options issued to non-controlling interests which do not grant us present access to ownership interests is recognized at present value of the redemption amount and is reclassified from equity. At the end of each reporting period, the non-controlling interests subject to put option is derecognized and the difference between the derecognized and present value of the redemption based on the valuation, which is recorded as a financial liability, is accounted for as an equity transaction.

Property, plant and equipment

Under the previous GAAP (Indian GAAP), property, plant and equipment were carried in the balance sheet on the basis of historical cost. For the transition to Ind AS, we have elected to continue with the carrying value for all of our property, plant and equipment recognised as of April 1, 2020 (date of transition to Ind AS as per statutory financial statements) measured as per the previous GAAP and use that carrying value as its deemed cost as at the date of transition.

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Capital work-in-progress is stated at cost, net accumulated impairment losses, if any. Such cost comprises of the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. Such cost includes the cost of replacing part of the property, plant and equipment.

When significant parts of property, plant and equipment are required to be replaced at intervals, we depreciate them separately based on their specific useful lives. All other repair and maintenance costs are recognized in the Restated Ind AS Summary Statement of Profits and Losses as incurred.

We identify and determine cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset. Items of stores and spares that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Otherwise, such items are classified as inventories.

Depreciation on property, plant and equipment is calculated on a written down value over the useful lives of assets estimated by the management, as below:

Asset category	Useful lives estimated by the management (years)	Useful lives as per schedule II of the Act (years)
Office equipment	5	5
Plant and Machinery	3 to 8	15
Furniture and fixtures	10	10
Computer & peripherals	3 to 6	3 to 6

Leasehold improvements are amortized on a straight line basis over the period of the lease or estimated useful life of the assets, whichever is lower.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Restated Summary Statement of Profits and Losses when the asset is derecognized.

The useful lives have been determined based on managements' internal technical evaluation which in certain instances are different from those specified by Schedule II to the Act, in order to reflect the actual usage of the assets. The asset's residual values and useful life are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Intangible assets

Under the previous GAAP (Indian GAAP), intangible assets were carried in the balance sheet on the basis of historical cost. For the transition to Ind AS, we have elected to continue with the carrying value for all of our intangible assets recognised as of April 1, 2020 (date of transition to Ind AS as per statutory financial statements) measured as per the previous GAAP and use that carrying value as its deemed cost as at the date of transition.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangibles are not capitalized and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the Restated Summary Statement of Profits and Losses unless such expenditure forms part of carrying value of another asset.

An intangible asset is derecognized upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Restated Summary Statement of Profits and Losses.

A summary of the policies applied to our intangible assets is, as follows:

Intangible assets	Useful lives	Amortization method used	Internally generated or acquired
Franchise agreements	5 years	Straight Line	Acquired
Non-compete agreement	3 years	Straight Line	Acquired
Trademark	7 years	Straight Line	Acquired
Brand	Indefinite*	No Amortization	Acquired
Design and Formulation	0.5-1 years	Straight Line	Acquired
Software	1-6 years	Straight Line	Acquired
Goodwill	Indefinite*	No Amortization	Acquired

* Tested for impairment annually or when circumstances indicate that the carrying value may be impaired.

Impairment of non-financial assets

We assess at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, we estimate the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ("CGU") fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

We base our impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of our CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, we extrapolate cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified.

In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which we operate, or for the market in which the asset is used.

Impairment losses of continuing operations, including impairment on inventories, are recognized in the Restated Summary Statement of Profits and Losses, except for properties previously revalued with the revaluation surplus taken to OCI. For such properties, the impairment is recognized in OCI up to the amount of any previous revaluation surplus.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, we estimate the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the Restated Summary Statement of Profits and Losses unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Goodwill and brand are tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill and brand by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill and brand relate to. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognized. Impairment losses relating to goodwill cannot be reversed in future periods.

Intangible assets with indefinite useful lives are tested for impairment annually at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired.

Inventories

Traded goods are valued at lower of cost and net realizable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs.

Revenue recognition

Revenues are recognized when, or as, control of a promised goods or services transfers to client, in an amount that reflects the consideration to which we expect to be entitled in exchange for transferring those goods or services. To recognize revenues the following five step approach is applied: (i) identify the contract with a customer, (ii) identify the performance obligation in the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract, and (v) recognize revenues when a performance obligations is satisfied.

The following specific recognition criteria must also be met before revenue is recognized:

Revenue from sale of products

Revenue from the sale of products is recognized at a point in time when control of the products is transferred to the customer and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Revenue from the sale of products is measured at the amount of "transaction price" as per Ind AS 115, net of returns and allowances, discounts and incentives.

Revenue from sale of services

Revenue from Hair Styling services is recognized on rendering services. Revenue from franchises is recognized as per the terms of the agreements. The amount recognized is at the predetermined price, the collection of which is reasonably certain. Revenue from educating students in hair styling is recognized on a time proportion basis. Revenue from listing services is received in the form of fees which is recognized prorate over the subscription / advertising agreement, usually ranging between one to twelve months.

Variable consideration

If the consideration in a contract includes a variable amount (discounts and incentives), we estimate the amount of consideration to which it will be entitled in exchange for transferring the goods/services to the customer and such discounts and incentives are estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognized will not occur when the associated uncertainty with the variable consideration is subsequently resolved. The rights of return and volume rebates give rise to variable consideration.

Rights of return

We use the expected value method to estimate the variable consideration given the large number of contracts that have similar characteristics. We then apply the requirements on constraining estimates of variable consideration in order to determine the amount of variable consideration that can be included in the transaction price. A refund liability is recognized for the goods that are expected to be returned (i.e., the amount not included in the transaction price). A right of return asset (and corresponding adjustment to cost of sales) is also recognized for the right to recover the goods from a customer.

Volume rebates

We apply the most likely amount method or the expected value method to estimate the variable consideration in the contract. The selected method that best predicts the amount of variable consideration is primarily driven by the number of volume thresholds contained in the contract. The most likely amount is used for those contracts with a single volume threshold, while the expected value method is used for those with more than one volume threshold. We then apply the requirements on constraining estimates in order to determine the amount of variable consideration that can be included in the transaction price and recognized as revenue.

Customer wallet points

We have a wallet points programme, which allows customers to accumulate points that can be redeemed for subsequent purchase. The wallet points give rise to a separate performance obligation as they provide a material right to the customer.

A portion of the transaction price is allocated to the loyalty points awarded to customers based on relative stand-alone selling price and recognized as a contract liability until the points are redeemed. Revenue is recognized upon redemption of points by the customer.

When estimating the stand-alone selling price of the loyalty points, we consider the likelihood that the customer will redeem the points. We update our estimates of the points that will be redeemed on each reporting date and any adjustments to the contract liability balance are charged against revenue.

Interest income

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the Restated Ind AS Summary Statement of Profits and Losses.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If we perform by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional. Contract assets are subject to impairment assessment. Refer to accounting policies on impairment of financial assets in section 2.14 Financial instruments – initial recognition and subsequent measurement.

Trade receivables

A trade receivable is recognized if an amount of consideration is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets.

Contract liabilities

A contract liability is recognized if a payment is received or a payment is due (whichever is earlier) from the customer before we transfer the related goods or services. Contract liabilities are recognized as revenue when we perform under the contract (i.e., transfers control of the related goods or services to the customer).

Leases

We assess at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

We as a lessee

We apply a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. We recognize lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

We recognize right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets as follows:

Asset	Useful lives (years)
Buildings	2-9 years
Computers and peripherals	3 years

If ownership of the leased asset is transferred to us at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policy on impairment of non-financial assets.

Lease liabilities

At the commencement date of the lease, we recognize lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by us and payments of penalties for terminating the lease if the lease term reflects exercising of the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, we use internal rate of return for the assets which were earlier classified under finance lease and incremental borrowing rate for right of use assets at the lease commencement date. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

We have adopted Ind AS 116 based on the modified retrospective approach wherein the present value of remaining lease payments as on the date of transition is recognized as the lease liability and the right-of-use asset is considered equal to the value of discounted lease liability.

Short-term leases and leases of low-value assets

We apply the short-term lease recognition exemption to our short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

Employee Benefits

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employee's services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current financial liabilities in the Restated Ind AS Summary Statement of Assets and Liabilities.

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. We measure the expected cost of such absences as the additional amount that we expect to pay as a result of the unused entitlement that has accumulated at the reporting date. We treat accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the Restated Ind AS Summary Statement of Profit and Loss and are not deferred. We present the accumulated leave liability as a current liability in the Restated Ind AS Summary Statement of Assets and Liabilities since we do not have an unconditional right to defer our settlement for twelve months after the reporting date.

Post-employment obligations

We operate the following post-employment schemes:

- (i) defined benefit plans - gratuity, and
- (ii) defined contribution plans such as provident fund.

Defined benefit plans – Gratuity obligations

The liability or asset recognized in the Restated Ind AS Summary Statement of Assets and Liabilities in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by an independent actuary using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have term approximating the term of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in OCI. They are included in retained earnings in the Restated Ind AS statement of changes in equity and in the Restated Ind AS Summary Statement of Assets and Liabilities. Such accumulated re-measurement balances are never reclassified into the Statement of Profit and Loss subsequently.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in Restated Ind AS Summary Profit or Loss as past service costs.

Defined contribution plan

Retirement benefit in the form of provident fund scheme is the defined contribution plan. We have no obligation, other than the contribution payable. We recognize contribution payable to these schemes as an expenditure when an employee renders the related service.

Employee share based payments

Our stock option plan is classified as equity settled transaction based on the constructive obligation for settlement of option in equity.

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using the Black-Scholes model.

That cost is recognized, together with a corresponding increase in employee stock option outstanding reserve in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and our best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the Restated Ind AS Summary Statement of Profit and Loss for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefits expense.

When the terms of an equity-settled award are modified, the minimum expense recognized is the grant date fair value of the unmodified award, provided the original vesting terms of the award are met. An additional expense, measured as at the date of modification, is recognized for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through restated profit or loss.

Our employees are granted share appreciation rights (“SAR”), settled in cash up to May 30, 2022 and with effect from May 31, 2022, the scheme is modified as equity settled scheme. The liability for the share appreciation rights is measured, initially and at the end of each reporting period until settled, at the fair value of the SAR by applying an option pricing model, taking into account the terms and conditions on which the SAR were granted, and the extent to which the employees have rendered services to date.

When the terms of a cash-settled award are modified, the equity-settled share-based payment transaction is measured by reference to the fair value of the equity instruments granted at the modification date, the liability for the cash-settled share-based payment transaction as at the modification date is derecognized on that date and the difference between the carrying amount of the liability derecognized and the amount of equity recognized on the modification date is recognized immediately in Restated Ind AS Summary Statement of Profit and Loss.

Subsequently with effect from December 15, 2022, the SAR Scheme was further amended and rechristened by us to Employee Stock Options Plan 2021 (ESOP Scheme 2021) (“December 2022 Amendment”) to redesignate the erstwhile SAR as ESOP with a fixed conversion ratio. When the terms the equity-settled share-based payment transaction are modified, pre-modification valuation and post modification valuation is compared and if the value of post modification is lower than pre-modification, then the cost would be recognised based on original plan, however if the value of post modification is higher than pre-modification, then the original cost would continue to be accounted and for the additional fair value to the extent of vested options recognised in the statement of profit and loss and to the extent of unvested options, additional fair value is accounted over the remaining vesting period.

The dilutive effect of outstanding employee stock options is reflected as additional share dilution in the computation of diluted earnings per share.

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e. the date that we commit to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortized cost;
- Debt instruments at Fair Value Through Other Comprehensive income (“FVTOCI”);
- Debt instruments and equity instruments at Fair Value Through Profit and Loss (“FVTPL”); and
- Equity instruments measured at Fair Value Through Other Comprehensive Income (“FVTOCI”).

A ‘debt instrument’ is measured at the amortized cost, if both of the following conditions are met:

- (i) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and
- (ii) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (“**SPPI**”) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (“**EIR**”) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the Restated Ind AS Summary Statement of Profit and Loss. The losses arising from impairment are recognized in the Restated Ind AS Summary Statement of Profit and Loss. This category generally applies to trade and other receivables.

A ‘debt instrument’ is classified as FVTOCI, if both of the following criteria are met:

- (i) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets; and
- (ii) The asset’s contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in OCI. However, we recognize interest income, impairment losses and foreign exchange gain or loss in the Restated Ind AS Statement of Profit and Loss. On de-recognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to the statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Restated Ind AS Statement of Profit and Loss.

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. If we decide to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to the Restated Ind AS Summary Statement of Profit and Loss, even on sale of the investments. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Restated Ind AS Summary Statement of Profit and Loss.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e. removed from the Restated Ind AS Summary Statement of Assets and Liabilities) when:

- The rights to receive cash flows from the asset have expired; or
- We have transferred our rights to receive cash flows from the asset and either (a) we have transferred substantially all the risks and rewards of the asset, or (b) we have neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind AS 109, we apply expected credit loss (“**ECL**”) model for measurement and recognition of impairment loss on the financial assets and credit risk exposure. We follow ‘simplified approach’ for recognition of impairment loss allowance on Trade receivables. The application of simplified approach does not require us to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on twelve-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The twelve-month ECL is a portion of the lifetime ECL which results from default events that are possible within twelve months after the reporting date. ECL is the difference between all contractual cash flows that are due to us in accordance with the contract and all the cash flows that we expect to receive (i.e., all cash shortfalls), discounted at the original EIR. ECL impairment loss allowance (or reversal) recognized during the year is recognized as income/ expense in the Restated Ind AS Summary Statement of Profit and Loss. This amount is reflected under the head ‘other expenses’ in the Restated Ind AS Summary Statement of Profit and Loss.

For assessing increase in credit risk and impairment loss, we combine financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognized initially at fair value. Our financial liabilities include trade and other payables, and lease liabilities.

Subsequent measurement

The measurement of financial liabilities depends on their classification. Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the Restated Ind AS Summary Statement of Profit and Loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/losses are not subsequently transferred to the Restated Ind AS Summary Statement of Profit and Loss. However, we may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the Restated Ind AS Summary Statement of Profit and Loss.

After initial recognition, gains and losses are recognized in the Restated Ind AS Summary Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Restated Ind AS Summary Statement of Profit and Loss.

Reclassification of financial assets and liabilities

We determine classification of financial assets and liabilities on initial recognition. After initial recognition, no re-classification is made for financial assets which are equity instruments and financial liabilities.

For financial assets which are debt instruments, a re-classification is made only if there is a change in the business model for managing those assets. A change in the business model occurs when we either begin or cease to perform an activity that is significant to our operations. If we reclassify financial assets, it applies the re-classification prospectively from the re-classification date, which is the first day of the immediately next reporting period following the change in business model. We do not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the Restated Ind AS Summary Statement of Assets and Liabilities, if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Income taxes

Income tax

Income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where we operate and generate taxable income.

Current income tax relating to items recognized outside the Restated Ind AS Summary Statement of Profit and Loss is recognized outside the Restated Ind AS Summary Statement of Profit and Loss (either in OCI or in equity in correlation to the underlying transaction). Management periodically evaluates whether it is probable that the relevant taxation authority would accept an uncertain tax treatment that we have used or plan to use in our income tax filings, including with respect to situations

in which applicable tax regulations are subject to interpretation and establishes provisions, where appropriate. We shall reflect the effect of uncertainty for each uncertain tax treatment by using either the most likely method or expected value method, depending on which method predicts a better resolution of the treatment.

Deferred tax

Deferred tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities and assets are recognized for all taxable temporary differences and deductible temporary differences, except:

- when the deferred tax liability or asset arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences and deductible temporary differences associated with investments in subsidiary and associate when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognized outside the Restated Ind AS Summary Statement of Profit and Loss is recognized outside the Restated Ind AS Summary Statement of Profit and Loss (either in OCI or in equity in correlation to the underlying transaction).

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Segment reporting

Identification of segments

An operating segment is our component that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with our other components), whose operating results are regularly reviewed by our chief operating decision maker to make decisions about resources to be allocated to the segment and assess our performance, and for which discrete financial information is available. Our operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

Our operating businesses are organized and managed on a single segment considering the entire beauty and personal care products and related services as one single operating segment. The analysis of geographical segments is based on the location in which the customers are situated.

Segment accounting policies

We prepare our segment information in conformity with the accounting policies adopted for preparing and presenting our restated summary statements as a whole.

The Board of directors is the Chief Operating Decision Maker and monitors the operating results of our business units as a whole for the purpose of making decisions about resource allocation and performance assessment.

Earnings / (Loss) per share

Basic earnings per share are calculated by dividing the restated net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the restated net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

Provisions

Provisions are recognized when we have a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When we expect some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Restated Ind AS Summary Statement of Profit and Loss, net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond our control or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. We do not recognize a contingent liability but disclose its existence in the Restated Ind AS Summary Statements.

Cash and cash equivalents

Cash and cash equivalents in the Consolidated Summary Statement of Assets and Liabilities and Restated Ind AS Summary Statement of Cash Flows comprise cash at banks and in hand and short-term deposits with an original maturity of three months or less that are readily convertible to a known amount of cash, which are subject to an insignificant risk of changes in value.

For the purpose of the Restated Ind AS Summary Statement of Cash Flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of our cash management.

Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Significant accounting judgements, estimates and assumptions

The preparation of the Restated Ind AS Summary Statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Other disclosures relating to our exposure to risks and uncertainties includes:

- Capital management Note 43;
- Financial risk management objectives and policies Note 42; and
- Sensitivity analyses disclosures Notes 35 and 42.

We base our assumptions and estimates on parameters available when the Restated Ind AS Summary Statements are prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond our control. Such changes are reflected in the assumptions when they occur. The judgements, estimates and assumptions management has made which have the most significant effect on the amounts recognized in the Restated Ind AS Summary Statements are as below.

Revenue from contracts with customers

Sale of goods includes expected discounts and incentives that give rise to variable consideration. In estimating the variable consideration, we are required to use either the expected value method or the most likely amount method based on which

method better predicts the amount of consideration to which it will be entitled. We use the most likely amount methodology to determine the variable consideration.

We determine and update our assessment of expected discounts and incentives periodically and the accruals are adjusted accordingly. Estimates of expected discount and incentives are sensitive to changes in circumstances and our past experience regarding these amounts may not be representative of actual amounts in the future.

Leases

We determine the lease term as non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. We apply judgement and consider all relevant factors that create an economic incentive in evaluating whether it is reasonably certain to exercise the option to renew or terminate the lease. After the commencement date, we reassess the lease term if there is a significant event or change in circumstances that is within our control and affects our ability to exercise or not to exercise the option to renew or terminate. In calculating the present value of lease payments, we use internal rate of return for the assets which were earlier classified under finance lease and incremental borrowing rate (“**IBR**”) for right of use assets at the lease commencement date.

The IBR is the rate of interest that we would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

The IBR requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. We estimate the IBR using observable inputs (such as market interest rates), when available and makes entity-specific estimates, wherever required.

Impairment of financial assets

Provision for expected credit loss on trade receivables. The measurement of expected credit loss reflects a probability-weighted outcome, the time value of money and the best available forward-looking information. The correlation between historical observed default rates, forecast economic conditions and expected credit loss is a significant estimate. The amount of expected credit loss is sensitive to changes in circumstances and forecasted economic conditions. Our historical credit loss experience and forecast of economic conditions may not be representative of the actual default in the future.

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit (“**CGU**”) exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm’s length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow (“**DCF**”) model. The cash flows are derived from the budget for future years and do not include restructuring activities that we are not yet committed to or significant future investments that will enhance the asset’s performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill recognized by us.

Defined benefit plans

The cost of the defined benefit plan and the present value of the obligation are determined using actuarial valuation. An actuarial valuation involves various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, expected return, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds where remaining maturity of such bond correspond to expected term of defined benefit obligation. The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases are based on expected future inflation rates.

Share-based payments

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. For cash-settled share-based payment transactions, the liability needs to be remeasured at the end of each reporting period up to the date of settlement, with any changes in fair value recognized in the profit or loss. This requires

a reassessment of the estimates used at the end of each reporting period. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 39.

Business Combination

In accounting for business combinations, judgment is required in identifying whether an identifiable intangible asset is to be recorded separately from goodwill. Additionally, estimating the acquisition date fair value of the identifiable assets acquired (including useful life estimates), liabilities assumed, and contingent consideration assumed involves management judgment. These measurements are based on information available at the acquisition date and are based on expectations and assumptions that have been deemed reasonable by management. Changes in these judgments, estimates, and assumptions can materially affect the results of operations. Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the group and that are believed to be reasonable under the circumstances.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the Consolidated financial statement cannot be measured based on quoted prices in active markets, their fair value is measured using internal valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Key Components of Our Statement of Profit and Loss

The following descriptions set forth information with respect to the key components of our profit and loss statements.

Total Income

Total income consists of revenue from operations and other income.

Revenue from operations. Revenue from operations consists of (i) revenue from sale of products, representing the revenue we generated from the sale of products, net of discounts, incentives, duties and taxes under our brands; and (ii) revenue from sale of services, representing the revenue we generated from our salon services.

Other income. Other income primarily consists of interest income on investments and deposits with bank, unwinding of discount on security deposits, foreign exchange fluctuation gain (net), fair value gain on investments measured at FVTPL, gain on sale of investments measured at FVTPL, and other miscellaneous income.

Expenses

Expenses include purchases of traded goods, increase in inventories of traded goods, employee benefits expenses, depreciation and amortisation expenses, finance costs, other expenses and change in fair valuation of preference shares.

Purchases of traded goods. Purchases of traded goods consist of the cost of goods purchased by us from contract manufacturers engaged by us to manufacture products for our brands.

Changes in inventories of traded goods. Changes in inventories of traded goods consists of net increases or decreases in inventories of traded goods.

Employee benefits expenses. Employee benefits expenses consists of salaries, wages and bonus, contribution to provident fund, gratuity, share-based payment expenses and staff welfare expenses.

Depreciation and amortisation expense. Depreciation and amortisation expense consists of depreciation of property, plant and equipment, depreciation of right-of-use-assets and amortisation of intangible assets.

Finance costs. Finance costs consist of interest on lease liabilities, interest on borrowings from bank, other interest charges and bank charges.

Other expenses. Other expenses primarily consist of advertisement expense, sales commission, freight and forwarding charges, software support expenses, customer acquisition cost, legal and professional charges and other miscellaneous expenses.

Tax expense

Tax expense consists of current tax and deferred tax charges.

Our Results of Operations

The following table sets forth the selected financial data from our Restated Ind AS Summary Statement of Profit and Loss for the Financial Years 2021, 2022 and 2023, and the three months periods ended June 30, 2022 and June 30, 2023, the components of which are also expressed as a percentage of total income for such period/years:

Note:

- (1) Change in fair valuation of preference shares refers to the change in the fair value of liability which has been recognized as an expense in our Restated Summary Statement of Profit and Loss for Financial Years 2021 in accordance with Ind AS 32. The liability relates to non-cumulative compulsorily convertible preference shares ("NCCCPS") issued by us to certain investors i.e., PXV VI, Sequoia Capital, Stellaris, Fireside Ventures Fund, and Sofina. The NCCCPS holders, pursuant to their shareholders' agreement with us, have exit rights which require us to buy back shares that are held by them. Since this redemption feature of the NCCCPS is conditional upon an event not under our control, which may require us to pay cash upon redemption, the NCCCPS were classified as liability at fair value as at March 31, 2020 and the year ended March 31, 2021, as per Ind AS. The change in the fair value of the liability was recognized as an expense in the Restated Summary Statement of Profits and Loss for Financial Years 2021 in accordance with Ind AS 32. Subsequently, on April 1, 2021, the NCCCPS holders have agreed to waive the buy-back rights granted to them pursuant to the shareholders' agreement. Hence, the NCCCPS was no longer classified as a debt instrument with effect from April 1, 2021 and instead was classified as instruments entirely in the nature of equity. As a result, as of April 1, 2021, the fair value of NCCCPS amounting to ₹19,539.99 million has been classified from borrowings to instruments in the nature of equity to the extent of ₹17,929.34 million and ₹1,610.65 million, representing securities premium on the NCCCPS that has been reclassified to other equity. Further, change in fair valuation of preference shares is no longer recognized as an expense in our Restated Summary Statement of Profit and Loss for the Financial Year 2022, Financial Year 2023 and the three months period ended June 30, 2022 and June 30, 2023. For further details, see "Capital Structure" on page 87.

Three months period ended June 30, 2023 compared to three months period ended June 30, 2022

Income

Total income. Total income increased by 50.71% to ₹4,770.97 million for the three months period ended June 30, 2023 from ₹3,165.58 million for the three months period ended June 30, 2022, primarily due to an increase in revenue from operations.

Revenue from operations. Revenue from operations increased by 48.76% to ₹4,644.87 million for the three months period ended June 30, 2023 from ₹3,122.45 million for the three months period ended June 30, 2022 primarily due to an increase in sale of products to ₹4,527.94 million for the three months period ended June 30, 2023 from ₹2,958.85 million for the three months period ended June 30, 2022.

This increase was primarily on account of an increase in demand and sales of products under our flagship Mamaearth brand, which contributed a substantial majority of our revenue from operations, the scaling up of newer brands during the three months period ended June 30, 2023 and an increase in sales from our offline channel. Under the Mamaearth brand, we had higher sales of products across the face care, hair care, body care, baby care and color care categories. During the three months period ended June 30, 2023, we introduced 109 new SKUs (across all our brands) in the BPC market in India, which contributed to a 25.46% absolute increase in revenue from operations during the three months period ended June 30, 2023, as compared to the three months period ended June 30, 2022. In volume terms, our total units delivered (across all our brands) increased from ₹16.54 million during the three months period ended June 30, 2022 to ₹23.84 million the three months period ended June 30, 2023, representing a 44.14% increase in total units delivered (across all our brands) for the same period.

During the three months period ended June 30, 2023, we also expanded our offline distribution channel, which allowed us to access a wider consumer base, thereby contributing to the increased sale of our products. Revenues from our offline and online channels across all our brands amounted to ₹1,554.76 million and ₹2,973.18 million, respectively during the three months period ended June 30, 2023, representing 33.47% and 64.01% of our revenue from operations, respectively for the same period; as compared to ₹996.20 million and ₹1,962.65 million, respectively during the three months period ended June 30, 2022, representing 31.90% and 62.86% of our revenue from operations, respectively for the same period.

Other income. Other income increased by 192.37% to ₹126.10 million for the three months period ended June 30, 2023 from ₹43.13 million for the three months period ended June 30, 2022 primarily due to an increase in fair value gain on investments measured at FVTPL and gain on lease modification.

Expenses

Cost of goods sold. Our cost of goods sold increased by 57.10% to ₹1,345.68 million for the three months period ended June 30, 2023 from ₹856.56 million for the three months period ended June 30, 2022, primarily due to increases in purchases of traded goods and inventories of traded goods, as set forth below:

- (i) **Purchases of traded goods.** Purchases of traded goods increased by 32.13% to ₹1,618.94 million for the three months period ended June 30, 2023 from ₹1,225.22 million for the three months period ended June 30, 2022, primarily due to an increase in the volume of traded goods purchased by us during the three month period ended June 30, 2023 in line with the increase in sale of products during the three month period ended June 30, 2023; and
- (ii) **Increase in inventories of traded goods.** The increase in inventories of traded goods was ₹273.26 million for the three months period ended June 30, 2023. We had inventories aggregating to ₹1,238.46 million at the beginning of the three months period ended June 30, 2023 and inventories aggregating to ₹1,511.72 million at the end of the three months period ended June 30, 2023. This increase in inventory was due to higher purchases of products sold by us on account of the introduction of newer brands during the Financial Year 2023 and to support the growth in our business during the three month period ended June 30, 2023.

Employee benefits expense. Employee benefits expense increased by 14.86% to ₹445.06 million for the three months period ended June 30, 2023 from ₹387.48 million for the three months period ended June 30, 2022 primarily due to an increase in salaries, wages and bonus to ₹362.66 million from ₹298.97 million for the three months period ended June 30, 2022. This increase was mainly attributable to an increase in the number of our total employees. Salary increments and higher annual bonus payments during the three months period ended June 30, 2023 (as a result of a number of our employees achieving performance targets) also contributed to an increase in our salaries, wages and bonus. In the three month period ended June 30, 2023, we also had an increase in our contribution to provident and other funds to ₹5.83 million from ₹4.19 million in the three months period ended June 30, 2022 and an increase in staff welfare expenses to ₹18.08 million from ₹7.62 million in the three months period ended June 30, 2022. This was partially offset by a decrease in gratuity to ₹1.70 million in the three months period ended June 30, 2023 from ₹8.46 million in the three months period ended June 30, 2022, a decrease in share based payments expenses (equity settled) from ₹60.65 million in the three months period ended June 30, 2022 to ₹56.79 million in the three months period ended June 30, 2023 and a decrease in share based payments expenses (cash settled) to nil from ₹7.59 million in the three months period ended June 30, 2022.

Depreciation and amortization expense. Depreciation and amortization expense increased by 34.83% to ₹64.92 million for the three months period ended June 30, 2023 from ₹48.15 million for the three months period ended June 30, 2022 primarily due to an increase in depreciation of property, plant and equipment to ₹11.09 million for the three months period ended June 30, 2023 from ₹3.37 million for the three months period ended June 30, 2022 and an increase in depreciation of right-of-use-assets to ₹48.98 million for the three months period ended June 30, 2023 from ₹25.47 million for the three months period ended June 30, 2022. This was offset by a decrease in amortization of intangible assets to ₹4.85 million for the three months period ended June 30, 2023 from ₹19.31 million for the three months period ended June 30, 2022. The increase in the depreciation of right-of-use-assets was mainly on account of new leases for EBOs. The decrease in the amortization of intangible assets was primarily on account of impairment of carrying value of trademark and software pertaining to Just4kids during the three months period ended June 30, 2023.

Finance costs. Finance costs increased by 34.83% to ₹14.75 million for the three months period ended June 30, 2023 from ₹10.94 million for the three months period ended June 30, 2022 primarily due to increases in interest on lease liabilities to ₹12.23 million for the three month period ended June 30, 2023 from ₹9.27 million for the three month period ended June 30, 2022, and an increase in bank charges to ₹0.93 million for the three month period ended June 30, 2023 from ₹0.34 million for the three month period ended June 30, 2022. The increase in interest on lease liabilities was mainly on account of new leases for EBOs during the three months period ended June 30, 2023.

Other expenses. Other expenses increased by 27.88% to ₹2,561.03 million for the three months period ended June 30, 2023 from ₹2,002.76 million for the three months period ended June 30, 2022 primarily due to:

- (i) an increase in advertisement expense by 25.93% to ₹1,625.12 million during the three months period ended June 30, 2023, as compared to ₹1,290.49 million during the three months period ended June 30, 2022, mainly on account of increased expenditure towards traditional advertising and sales promotion activities such as television and print media advertising, and other digital and channel advertising and sales promotion activities such as collaborations with celebrity brand ambassadors, to promote and improve the visibility of our newer brands;
- (ii) an increase in freight and forwarding charges by 54.67% to ₹443.53 million during the three months period ended June 30, 2023 from ₹286.75 million during the three months period ended June 30, 2022, mainly on account of an increase in sales through our online channel; and
- (iii) an increase in sales commission by 15.42% to ₹110.39 million during the three months period ended June 30, 2023 from ₹95.64 million during the three months period ended June 30, 2022, mainly on account of an overall increase in sales through the D2C channel.

Tax expenses. Our total tax expenses increased by 468.78% to ₹92.38 million for the three months period ended June 30, 2023 from ₹(25.05) million for the three months period ended June 30, 2022, primarily due to higher current tax and deferred tax charge during the three months period ended June 30, 2023. Our tax expenses during the three months period ended June 30, 2023 comprised a current tax of ₹83.67 million and a deferred tax charge of ₹8.71 million; while our tax expenses during the three months period ended June 30, 2022 comprised a current tax of ₹4.06 million and a deferred tax credit of ₹29.11 million. Our deferred tax charge during the three months period ended June 30, 2023 was primarily on account of the higher current tax incurred on account of the profit recorded for the three month period ended June 30, 2023.

Restated profit for the period. As a result of the foregoing, we reported a restated profit of ₹247.15 million for the three months period ended June 30, 2023 as compared to a restated loss of ₹115.26 million for the three months period ended June 30, 2022.

Financial Year 2023 compared to Financial Year 2022

Income

Total income. Total income increased by 57.13% to ₹15,152.68 million in Financial Year 2023 from ₹9,643.45 million in Financial Year 2022, primarily due to an increase in revenue from operations.

Revenue from operations. Revenue from operations increased by 58.22% to ₹14,927.48 million in Financial Year 2023 from ₹9,434.65 million in Financial Year 2022, primarily due to an increase in sale of products to ₹14,255.12 million in Financial Year 2023 from ₹9,318.74 million in Financial Year 2022.

This increase was primarily on account of an increase in demand and sales of products under our flagship Mamaearth brand, which contributed a substantial majority of our revenue from operations, the addition of newer brands during the financial year and an increase in sales from our offline channel. Under the Mamaearth brand, we had higher sales of products across the face care, hair care, body care, baby care and color care categories (including from new products launched under the existing brands during Financial Year 2023). Further, in Financial Year 2023, we also acquired the Dr. Sheth's brand and sales under this brand along with products under our Aqualogica, Ayuga, The Derma Co. and BBlunt brands) contributed to an increase in total sale of products for Financial Year 2023. In Financial Year 2023, we introduced 301 new SKUs (across all our brands) in the BPC market in India, which contributed to a 56.58% absolute increase in revenue from operations during Financial Year 2023, as

compared to Financial Year 2022. In volume terms, our total units delivered (across all our brands) increased from 45.02 million in Financial Year 2022 to ₹75.74 million in Financial Year 2023, representing a 68.23% increase in total units delivered (across all our brands) for the same period.

In Financial Year 2023, we also expanded our offline distribution channel, which allowed us to access a wider consumer base, thereby contributing to the increased sale of our products during the year. Revenues from our offline and online channels across all our brands amounted to ₹5,394.08 million and ₹8,861.04 million, respectively in Financial Year 2023, representing 36.14% and 59.36% of our revenue from operations (including sale of services), respectively for the same period; as compared to ₹2,723.38 million and ₹6,595.34 million, respectively in Financial Year 2022, representing 28.87% and 69.91% of our revenue from operations (including sale of services), respectively for the same period.

Other income. Other income increased by 7.85% to ₹225.20 million in Financial Year 2023 from ₹208.80 million in Financial Year 2022, primarily due to an increase in interest income on account of increased investments in fixed deposits.

Expenses

Cost of goods sold. Our cost of goods sold increased by 57.61% to ₹4,467.33 million in Financial Year 2023 from ₹2,834.39 million in Financial Year 2022, primarily due to increases in purchases of traded goods and inventories of traded goods, as set forth below:

- (i) *Purchases of traded goods.* Purchases of traded goods increased by 64.85% to ₹5,024.23 million in Financial Year 2023 from ₹3,047.68 million in Financial Year 2022, primarily due to an increase in the volume of traded goods purchased by us during Financial Year 2023 in line with the increase in sale of products during Financial Year 2023; and
- (ii) *Increase in inventories of traded goods.* The increase in inventories of traded goods was ₹556.90 million in Financial Year 2023. We had inventories aggregating to ₹671.38 million at the beginning of Financial Year 2023 and inventories aggregating to ₹1,238.46 million at the end of Financial Year 2023. This increase in inventories of traded goods during Financial Year 2023 was primarily due to higher inventories maintained by us to support, promote and improve the visibility of our newer brands, namely (a) BBlunt and Dr. Sheth's, which were acquired in Financial Year 2022 and Financial Year 2023, respectively, and (b) Aqualogica and Ayuga, which were both launched in Financial Year 2022.

Employee benefits expense. Employee benefits expense increased by 109.12% to ₹1,648.80 million in Financial Year 2023 from ₹788.46 million in Financial Year 2022, primarily due to an increase in salaries, wages and bonus to ₹1,278.31 million in Financial Year 2023 from ₹560.61 million in Financial Year 2022. This increase was mainly attributable to the acquisitions of BBlunt and Momspresso which led to the full year recognition of employee benefits expenses in Financial Year 2023 and the consequent increase in the number of our total employees to 1,063 as of March 31, 2023 from 507 as of March 31, 2022 on account of these acquisitions. Salary increments and higher annual bonus payments in Financial Year 2023 (as a result of a number of our employees achieving performance targets) also contributed to an increase in our salaries, wages and bonus. In Financial Year 2023, we also had increases in our contribution to provident fund and other funds to ₹19.56 million from ₹10.41 million in Financial Year 2022, gratuity to ₹31.03 million from ₹14.40 million in Financial Year 2022 and share based payments expenses (equity settled) to ₹273.91 million from ₹167.75 million in Financial Year 2022. This was partially offset by a decrease in share based payments expenses (cash settled) to ₹7.59 million in Financial Year 2023 from ₹20.15 million in Financial Year 2022. Furthermore, the increase in employee benefits expense was attributable to an increase in fair value per share, the full year impact of ESOP granted during the Financial Year 2023 and an additional grant of 1,060,424 ESOPs during the Financial Year 2023.

Depreciation and amortization expense. Depreciation and amortization expense increased by 262.08% to ₹249.64 million in Financial Year 2023 from ₹68.95 million in Financial Year 2022, primarily due to an increase in depreciation of property, plant and equipment to ₹25.72 million in Financial Year 2023 from ₹7.56 million in Financial Year 2022, an increase in depreciation of right-of-use-assets to ₹152.38 million in Financial Year 2023 from ₹50.87 million in Financial Year 2022 and an increase in amortization of intangible assets to ₹71.54 million in Financial Year 2023 from ₹10.52 million in Financial Year 2022. The increase in the depreciation of right-of-use-assets was mainly on account of new leases for EBOs. The increase in the amortization of intangible assets was primarily on account of amortisation of design and formulation acquired through business acquisitions.

Finance Costs. Finance costs increased by 121.73% to ₹66.63 million in Financial Year 2023 from ₹30.05 million in Financial Year 2022, primarily due to increases in interest on lease liabilities to ₹55.65 million in Financial Year 2023 from ₹25.75 million in Financial Year 2022, and an increase in bank charges to ₹5.61 million in Financial Year 2023 from ₹3.25 million in Financial Year 2022. The increase in interest on lease liabilities was mainly on account of new leases for EBOs.

Other expenses. Other expenses increased by 50.67% to ₹8,583.71 million in Financial Year 2023 from ₹5,697.21 million in Financial Year 2022, primarily due to:

- (i) an increase in advertisement expense by 35.46% to ₹5,302.78 million in Financial Year 2023, as compared to ₹3,914.74 million for the Financial Year 2022, mainly on account of increased expenditure towards traditional advertising and sales

promotion activities such as television and print media advertising, and other digital and channel advertising and sales promotion activities such as collaborations with celebrity brand ambassadors, to promote and improve the visibility of our newer brands;

- (ii) an increase in freight and forwarding charges by 56.94% to ₹1,442.41 million in Financial Year 2023 from ₹919.07 million in Financial Year 2022, mainly on account of an increase in sales through our online channel; and
- (iii) an increase in sales commission by 54.17% to ₹442.28 million in Financial Year 2023 from ₹286.88 million in Financial Year 2022, mainly on account of an overall increase in sales through e-commerce marketplaces.

Exceptional Items

Impairment loss on goodwill and other intangible assets. Our impairment loss on goodwill and other intangible assets increased to ₹1,546.97 million in Financial Year 2023 from nil in Financial Year 2022, primarily due to the management decision to scale down the majority of the business verticals of Momspresso, a content platform operating under our Subsidiary, Just4Kids Services Private Limited, which we acquired in December 2021. We acquired Momspresso to expand content and influencer management capabilities and to strengthen content creation capabilities by enabling the access to a large and ready library of the relevant content of Momspresso. However, our performance and profitability was deteriorating with the business significantly underperforming and business synergies envisaged from the investment could not be realized despite best efforts of the management. Our impairment loss on goodwill and other intangible assets in Financial Year 2023 was on account of:

- an impairment loss on goodwill of ₹1,360.63 million;
- impairment loss on software of ₹19.14 million; and
- impairment loss on trademarks of ₹167.20 million.

Tax Expenses

Total Tax expenses. Our total tax expenses increased by 24.14% to ₹99.26 million for the Financial Year 2023 from ₹79.96 million for the Financial Year 2022, primarily due to an increase in current tax for the Financial Year 2023 which was offset by a deferred tax credit in the Financial Year. Our tax expenses for the Financial Year 2023 comprised a current tax of ₹171.78 million and a deferred tax credit of ₹72.52 million; while our tax expenses for the Financial Year 2022 comprised a current tax of ₹64.11 million and a deferred tax charge of ₹15.85 million. Our deferred tax income for the Financial Year 2023 was higher than the Financial Year 2022 primarily on account of deferred tax income recognised on termination of deferred tax liabilities related to software and brands impaired in the Financial Year 2023.

Restated loss for the year. As a result of the foregoing, we reported a restated loss of ₹1,509.66 million in Financial Year 2023 as compared to a restated profit of ₹144.43 million in Financial Year 2022.

Financial Year 2022 compared to Financial Year 2021

Income

Total income. Total income increased by 104.27% to ₹9,643.45 million in Financial Year 2022 from ₹4,721.01 million in Financial Year 2021, primarily due to an increase in revenue from operations.

Revenue from operations. Revenue from operations increased by 105.11% to ₹9,434.65 million in Financial Year 2022 from ₹4,599.90 million in Financial Year 2021, primarily due to an increase in sale of products to ₹9,318.74 million in Financial Year 2022 from ₹4,599.90 million in Financial Year 2021.

This increase was primarily on account of an increase in demand and sales of products under our flagship Mamaearth brand, which contributed a substantial majority of our revenue from operations. Under the Mamaearth brand, we had higher sales of products across the face care, hair care, body care and baby categories (including from new products launched under the same brand during Financial Year 2022). Further, in Financial Year 2022, we also launched our Aqualogica and Ayuga brands, and sales of products under these brands (along with products under our The Derma Co. brand) also contributed a small proportion of our total sale of products for Financial Year 2022. In volume terms, our total units delivered (across all our brands) increased from 18.51 million in Financial Year 2021 to 45.02 million in Financial Year 2022, representing a 143.30% increase in total units delivered (across all our brands) for the same period.

In Financial Year 2022, we also expanded our offline distribution channel, which allowed us to access a wider consumer base, thereby contributing to the increased sale of our products during the year. Revenues from our offline and online channels across all our brands amounted to ₹2,723.38 million and ₹6,595.34 million, respectively in Financial Year 2022, representing 28.87% and 69.91% of our revenue from operations, respectively for the same period; as compared to ₹856.97 million and ₹3,742.93

million, respectively in Financial Year 2021, representing 18.63% and 81.37% of our revenue from operations, respectively for the same period.

Other income. Other income increased by 72.41% to ₹208.80 million in Financial Year 2022 from ₹121.11 million in Financial Year 2021, primarily due to an increase in interest income on investments to ₹54.41 million in Financial Year 2022 from ₹15.10 million in Financial Year 2021, which was primarily from bonds and debentures, an increase in interest income on deposits with bank to ₹11.45 million in Financial Year 2022 from ₹4.03 million in Financial Year 2021, an increase in gain on sale of investments measured at FVTPL to ₹43.46 million in Financial Year 2022 from ₹22.21 million in Financial Year 2021, which was primarily from mutual funds, and an increase in fair value gain on investments measured at FVTPL to ₹88.84 million for the Financial Year 2022 from ₹76.64 million in Financial Year 2021.

Expenses

Cost of goods sold. Our cost of goods sold increased by 113.58% to ₹2,834.39 million in Financial Year 2022 from ₹1,327.06 million in Financial Year 2021, primarily due to increases in purchases of traded goods and inventories of traded goods, as set forth below:

- (i) Purchases of traded goods. Purchases of traded goods increased by 89.56% to ₹3,047.68 million in Financial Year 2022 from ₹1,607.77 million in Financial Year 2021, primarily due to an increase in the volume of traded goods purchased by us during Financial Year 2022 in line with the increase in sale of products during Financial Year 2022; and
- (ii) *Increase in inventories of traded goods.* The increase in inventories of traded goods was ₹213.29 million in Financial Year 2022. We had inventories aggregating to ₹417.42 million at the beginning of Financial Year 2022 and inventories aggregating to ₹671.38 million at the end of Financial Year 2022. This increase in inventory was due to higher purchases of products sold by us to support the greater scale of our business during Financial Year 2022.

Employee benefits expense. Employee benefits expense increased by 184.04% to ₹788.46 million in Financial Year 2022 from ₹277.59 million in Financial Year 2021, primarily due to an increase in salaries, wages and bonus to ₹560.61 million in Financial Year 2022 from ₹215.69 million in Financial Year 2021. This increase was mainly attributable to an increase in the number of senior management personnel during the year and also an increase in our sales force, as we expanded our offline distribution channel. Our total employees increased to 507 as of March 31, 2022 from 285 as of March 31, 2021. Further, salary increments with effect from June 2021 and higher annual bonus payments in Financial Year 2022 (as a result of a number of our employees achieving performance targets), and an increase in share-based payment expenses (equity settled) to ₹167.75 million in Financial Year 2022 from ₹41.54 million in Financial Year 2021 and an increase in share-based payment expenses (cash settled) to ₹20.15 million in Financial Year 2022 from nil in Financial Year 2021, also contributed to the increase in our employee benefits expense. The number of employees enrolled in our ESOP 2018 scheme increased to 58 employees as of March 31, 2022 from 26 employees as of March 31, 2021. Further, the number of employees enrolled in our SARs scheme increased to 369 employees as of March 31, 2022 from none as of March 31, 2021.

Depreciation and amortization expense. Depreciation and amortization expense increased by 302.75% to ₹68.95 million in Financial Year 2022 from ₹17.12 million in Financial Year 2021, primarily due to an increase in depreciation of property, plant and equipment to ₹7.56 million in Financial Year 2022 from ₹2.97 million in Financial Year 2021, an increase in depreciation of right-of-use-assets to ₹50.87 million in Financial Year 2022 from ₹14.14 million in Financial Year 2021 and an increase in amortization of intangible assets to ₹10.52 million in Financial Year 2022 from ₹0.01 million in Financial Year 2021. The increase in the depreciation of right-of-use-assets was mainly on account of new long-term leases for office space, new EBOs, and warehouses in Bangalore and Pataudi. The increase in the amortization of intangible assets was primarily on account of the acquisition of Just4Kids and BBlunt during the Financial Year 2022.

Finance Costs. Finance costs increased by 208.21% to ₹30.05 million in Financial Year 2022 from ₹9.75 million in Financial Year 2021, primarily due to increases in interest on lease liabilities to ₹25.75 million in Financial Year 2022 from ₹8.05 million in Financial Year 2021 and an increase in bank charges from ₹0.54 million in Financial Year 2021 to ₹3.25 million in Financial Year 2022. The increase in interest on lease liabilities was mainly on account of increased rent payable towards new office space, premises for our new EBOs and the additional warehouses leased during Financial Year 2022.

Other expenses. Other expenses increased by 109.21% to ₹5,697.21 million in Financial Year 2022 from ₹2,723.15 million in Financial Year 2021, primarily due to:

- (i) an increase in advertisement expense by 120.01% to ₹3,914.74 million in Financial Year 2022, as compared to ₹1,779.38 million for the Financial Year 2021, mainly on account of increased expenditure towards traditional advertising and sales promotion activities such as television and print media advertising, and other digital and channel advertising and sales promotion activities such as collaborations with celebrity brand ambassadors, to promote and improve the visibility of our brands;
- (ii) an increase in freight and forwarding charges by 69.09% to ₹919.07 million in Financial Year 2022 from ₹543.53 million in Financial Year 2021, mainly on account of an increase in sales through our online channel; and

(iii) an increase in sales commission by 113.63% to ₹286.88 million in Financial Year 2022 from ₹134.29 million in Financial Year 2021, mainly on account of an overall increase in sales through e-commerce marketplaces.

Change in fair valuation of preference shares. There was no change in fair valuation of preference shares during Financial Year 2022 as compared to ₹13,612.43 million in Financial Year 2021. On April 1, 2021, as the NCCCPS holders had agreed to waive the buy-back rights granted to them pursuant to their shareholders' agreement with us, there was no change in fair valuation of preference shares during Financial Year 2022. Thus, the change in fair valuation of preference shares was only incurred as a non-cash expense in Financial Years 2021 and 2020. For details relating to change in fair valuation of preference shares, see Note 1 to the table under “— *Our Results of Operations*” above.

Total Tax expenses. Our total tax expenses increased by 5.13% to ₹79.96 million for the Financial Year 2022 from ₹76.06 million for the Financial Year 2021, primarily due to higher current tax and deferred tax charge during the financial year. Our tax expenses for the Financial Year 2022 comprised a current tax of ₹64.11 million and a deferred tax charge of ₹15.85 million; while our tax expenses for the Financial Year 2021 comprised a current tax of ₹61.89 million and a deferred tax charge of ₹14.17 million. Our deferred tax charge for the Financial Year 2022 was higher than the Financial Year 2021 primarily on account of higher deferred tax charge in relation to intangible assets acquired and fair value gain on investments.

Restated profit/(loss) for the year. As a result of the foregoing, we reported a restated profit of ₹144.43 million in Financial Year 2022 as compared to a restated loss of ₹13,322.15 million in Financial Year 2021. During Financial Year 2021, our restated profit/(loss) for the year was significantly impacted by the change in fair valuation of preference shares, which was only incurred as a non-cash expense in Financial Year 2021. For details relating to change in fair valuation of preference shares, see Note 1 to the table under “— *Our Results of Operations*” above. For details on reconciliation of EBITDA and Adjusted EBITDA to restated profit/(loss) for the year, see “— *Non GAAP Measures – EBITDA and Adjusted EBITDA*” below.

Certain items related to our financial position

Our trade receivables. Our trade receivables increased to ₹1,385.58 million as at June 30, 2023, from ₹1,277.04 million as at March 31, 2023, ₹727.86 million as at March 31, 2022, and ₹338.43 million as at March 31, 2021, primarily due to an increase in our revenue from operations to ₹4,644.87 million for the three months period ended June 30, 2023 as compared to ₹3,122.45 million for the three months period ended June 30, 2022, and an increase in revenue from operations to ₹14,927.48 million for Financial Year 2023 from ₹9,434.65 million for Financial Year 2022 and ₹4,599.90 million for Financial Year 2021. Our Days Sales Outstanding, which is calculated by multiplying the number of days for the year/period with the sum calculated by dividing trade receivables by revenue from operations, increased from 26.85 days in Financial Year 2021 to 28.16 days in Financial Year 2022 and 31.23 days in Financial Year 2023. Our Days Sales Outstanding increased from 20.66 days for the three months period ended June 30, 2022 to 27.15 days for the three months period ended June 30, 2023 primarily because of an increase in percentage of sales from our offline channel (as compared to our online channels).

Our trade payables. Our trade payables increased to ₹2,690.08 million as at June 30, 2023, from ₹1,966.72 million as at March 31, 2023, ₹1,703.52 million as at March 31, 2022 and ₹803.42 million as at March 31, 2021, primarily due to an increase in our revenue from operations to ₹4,644.87 million for the three months period ended June 30, 2023 as compared to ₹3,122.45 million for the three months period ended June 30, 2022, and an increase in revenue from operations to ₹14,927.48 million for Financial Year 2023 from ₹9,434.65 million for Financial Year 2022 and from ₹4,599.90 million for Financial Year 2021. Our Days Payable Outstanding, which is calculated by multiplying the number of days for the year/period with the sum calculated by dividing trade payables by revenue from operations, decreased from 63.75 days in Financial Year 2021 to 65.90 days in Financial Year 2022 and 48.09 days in Financial Year 2023 and from 63.64 days for the three months period ended June 30, 2022 to 52.70 days for the three months period ended June 30, 2023 primarily due to improvements in our payment cycle.

EBITDA Margin, NAV per Share and Net Worth

EBITDA Margin. Our EBITDA margin increased from (290.01)% for Financial Year 2021 to 1.21% for Financial Year 2022, 1.52% for Financial Year 2023 and 6.31% for the three months period ended June 30, 2023, primarily because we recognised a change in fair valuation of preference shares amounting to ₹13,612.43 million for Financial Year 2021, as compared to nil for Financial Years 2022 and 2023 and for the three months period ended June 30, 2023. For details relating to the accounting treatment of fair valuation of preference shares, see Note 1 to the table under “*Management’s Discussion And Analysis Of Financial Condition And Results Of Operations – Our results of Operations*” on page 343. Further, our EBITDA margin also increased because of an increase in our revenue from operations from ₹4,599.90 million for Financial Year 2021, to ₹9,434.65 million for Financial Year 2022 and ₹14,927.48 million for Financial Year 2023, and ₹4,644.87 million for the three months period ended June 30, 2023. Our EBITDA margins have increased by 4.79% from 1.52% in financial year 2023 to 6.31% for the three months period ended June 30, 2023 primarily due to procurement efficiencies, lower employee cost and reduced other expenses.

NAV per Share. Our NAV per share increased from ₹(61.80) as of March 31, 2021 to ₹23.42, ₹19.27 and ₹20.29 as at March 31, 2022, as at March 31, 2023 and June 30, 2023, respectively, primarily because during the Financial Year 2021, the NCCCPS were classified as liability at fair value and thus, our equity attributable to equity holders of the parent included fair value adjustments of ₹19,539.99 million as at March 31, 2021, which resulted in a lower NAV per share as at March 31, 2021. Subsequently, on April 1, 2021, as the Company and the NCCCPS holders agreed to waive the buy-back rights granted to the NCCCPS holders pursuant to the shareholders’ agreement, the fair value of NCCCPS amounting to ₹19,539.99 million was classified from borrowings to instruments in the nature of equity to the extent of ₹17,929.34 million and ₹1,610.65 million, representing securities premium on the NCCCPS that have been reclassified to other equity, resulting in an increase in NAV per share as at March 31, 2022, as at March 31, 2023 and as at June 30, 2023. For details relating to the reclassification of the NCCCPS from liability to equity, see Note 1 to the table under “*Management’s Discussion And Analysis Of Financial Condition And Results Of Operations – Our results of Operations*” on page 343.

Further, the increase in NAV per share to ₹23.42 as at March 31, 2022 from ₹(61.80) as at March 31, 2021, was also attributable to the premium on issue of NCCCPS which amounted to ₹4,863.85 million as at March 31, 2022. In addition, NAV per share decreased slightly from ₹23.42 as at March 31, 2022 to ₹19.27 as at March 31, 2023, on account of the impairment loss on goodwill and other intangible assets in Financial Year 2023. For details, see “*Other Financial Information – Reconciliation of Equity attributable to the Equity holders of the parent to NAV per share*” on page 311.

Net Worth. Our Net Worth increased from ₹(17,651.43) million as at March 31, 2021, to ₹7,056.24 million, ₹6,059.01 million and ₹6,382.63 million as at March 31, 2022, March 31, 2023 and June 30, 2023, respectively, primarily because during the Financial Year 2021, the NCCCPS were classified as liability at fair value and thus, our Net Worth included fair value adjustments of ₹19,539.99 million as at March 31, 2021, respectively, which resulted in a lower Net Worth as at March 31, 2021. Subsequently, on April 1, 2021, as the Company and the NCCCPS holders agreed to waive the buy-back rights granted to the NCCCPS holders pursuant to the shareholders’ agreement, the fair value of NCCCPS amounting to ₹19,539.99 million

was classified from borrowings to instruments in the nature of equity to the extent of ₹17,929.34 million and ₹1,610.65 million, representing securities premium on the NCCCPs that have been reclassified to other equity, resulting in an increase in Net Worth as at March 31, 2022, as at March 31, 2023 and as at June 30, 2023. For details relating to the reclassification of the NCCCPs from liability to equity, see Note 1 to the table under “*Management’s Discussion And Analysis Of Financial Condition And Results Of Operations – Our results of Operations*” on page 343.”

Liquidity and capital resources

Our primary source of liquidity is cash generated from operations and funding from our investors. As of June 30, 2023, we had cash and cash equivalents of ₹110.08 million and bank balances other than cash and cash equivalents of ₹659.62 million.

For the Financial Years 2021, 2022 and 2023, and the three months periods ended June 30, 2022 and June 30, 2023, our net cash flows generated from / (used in) operating activities was ₹297.26 million, ₹445.88 million, ₹(515.54) million, ₹78.79 million and ₹486.62 million, respectively, and our net cash flows generated from / (used in) investing activities was ₹(206.06) million, ₹(4,997.57) million, ₹428.63 million, ₹(101.81) million and ₹427.10 million, respectively. Over the Financial Years 2021, 2022 and 2023, and the three months period ended June 30, 2023, we have raised an aggregate of ₹4,915.17 million from equity fundings.

Our funding requirements are primarily for advertisement expenses and capital expenditure towards the setting up of EBOs by our Company and of salons through investments in our Subsidiary, BBlunt. For details, see “*Objects of the Offer*” on page 110. We expect that cash generated from operations and the Net Proceeds will continue to be our principal source of funds in the short to medium term. We evaluate our funding requirements periodically in light of our net cash flow from operating activities, the requirements of our business and operations, acquisition opportunities and market conditions.

Capital Expenditure

For the Financial Year 2021, 2022 and 2023, and the three months period ended June 30, 2022 and June 30, 2023, our cash outflow towards purchase of property, plant and equipment (including capital work in progress, capital advances and payable for capital goods) was ₹10.20 million, ₹14.08 million, ₹117.19 million, ₹14.79 million and ₹24.42 million, respectively, and our cash outflow towards purchase of other intangible assets was nil, ₹12.20 million, nil, nil and nil, respectively.

For the Financial Year 2025, we expect to incur planned capital expenditure of approximately ₹202.31 million towards maintenance, expansion of EBOs and further expansion into the salon space.

Our Statutory Auditors have provided no assurance or services related to any prospective financial information in this Prospectus.

Contingent liabilities

The following table sets forth our contingent liabilities as at June 30, 2023, as per Ind AS 37:

Nature of Contingent Liability	As at June 30, 2023
	(₹ in million)
Claims against the Group not acknowledged as debts	–
Bank guarantee	201.99
Disputed statutory demands pending before the Appellate Authorities	8.83

Notes:

(1) We have certain disputes, lawsuits and claims, which arise in from time to time in the ordinary course of business. We believe these matters are not expected to have a material impact on the Restated Ind AS Summary Statements.

(2) RSM General Trading LLC ('RSM'), an overseas distributor of the Company has filed a case against the Company during the Financial Year 2023 on the ground that the Distributorship Agreement between RSM and the Company has been terminated illegally by the Company without complying with provisions of the Distributorship Agreement and RSM has claimed damages to the tune of AED 45,000,000 (equivalent to ₹1,001.25 million) citing various reasons such as loss of future business opportunities, moral damage, recovery towards damaged inventory etc. The matter is in the court of UAE for hearing. The management, based on litigating counsel's legal confirmation, is of the view that there are no merits in the aforesaid case and is hopeful of a favourable decision. Accordingly, no provision has been made in this regard against the claim as at March 31, 2023 and June 30, 2023.

(4) Represents demands raised by income tax and service tax authorities pending before appellate authorities.

Non GAAP Measures – EBITDA and Adjusted EBITDA

We believe that the presentation of certain non-GAAP measures provides useful information to prospective investors regarding the performance and trends related to our results of operations and accordingly, we believe that when non-GAAP financial information is viewed with Ind AS financial information, prospective investors are provided with a more meaningful understanding of our ongoing operating performance and financial results. However, these financial measures are not measures determined based on Ind AS, IFRS or any other internationally accepted accounting principles, and prospective investors should not consider such items as an alternative to the historical financial results or other indicators of our cash flow based on Ind AS. The non-GAAP financial measures included herein, may not be directly comparable with metrics bearing similar names as presented by other entities due to differences in the way such non-GAAP financial measures are calculated. For further details, see “*Risk Factors — External Risk Factors — Significant differences exist between Indian Accounting Standards (Ind AS) used to prepare our financial information and other accounting principles, such as the United States Generally Accepted Accounting Principles (U.S. GAAP) and the International Financial Reporting Standards (IFRS), which may affect investors’ assessments of our Company’s financial condition.*” on page 66.

Earnings before interest costs, taxes, depreciation and amortization

EBITDA is a supplemental measure of performance that is not required by, nor presented in accordance with, Ind AS or IFRS. EBITDA is not a measurement of financial performance or liquidity under Ind AS, IFRS or any other internationally accepted accounting principles, and should not be considered as an alternative to profit or any other performance measures derived in accordance with Ind AS, nor as an alternative to cash flow from operating activities as a measure of liquidity. In addition, EBITDA is not a standardized term, hence, a direct comparison between companies using this term may not be possible. EBITDA is presented because we believe that it is frequently used by securities analysts, investors and other interested parties in evaluating companies. For further details, see “*Risk Factors — Internal Risk Factors — We track certain operational and key business metrics with internal systems and tools. Certain of our operational metrics are subject to inherent challenges in measurement which may adversely affect our business and reputation*” on page 62.

Off-balance sheet commitments and arrangements

We do not have any off-balance sheet arrangements, derivative instruments, swap transactions or relationships with affiliates or other unconsolidated entities or financial partnerships that would have been established for the purpose of facilitating off-balance sheet arrangements.

Related party transactions

We have engaged in the past, and may engage in the future, in transactions with related parties. For details of our related party transactions, see “*Other Financial Information — Related Party Transactions*” on page 313.

Quantitative and qualitative analysis of market risks

Our activities expose us to market risk, credit risk and liquidity risk.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and price risk. Financial instruments affected by market risk include investments, loans and borrowings, trade receivables, trade payables and lease liabilities. See “*Risk Factors — External Risk Factors — A substantial portion of our business and operations are located in India and as such, we are subject to regulatory, economic, social and political uncertainties in India, many of which are beyond our control.*” for details on page 63.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As we do not have any floating interest rate borrowings or deposits, we are not exposed to interest rate risk.

Foreign currency exchange rate risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. Our exchange risk arises from our foreign currency assets and liabilities. Our exposure to the risk of changes in foreign exchange rates arises on account of purchases from foreign countries and export sales. We have not taken any derivative instrument during the Financial Years 2021, 2022 and 2023 and the three months period ended June 30, 2023, and there is no derivative instrument outstanding as at June 30, 2023.

Price risk

We invest our surplus funds in liquid mutual funds. We are exposed to market price risk arising from uncertainties about future values of the investment. We manage the equity price risk through investing surplus funds in liquid mutual funds on a short term basis.

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instruments or customer contract, leading to a financial loss. We are exposed to credit risk from our operating activities (primarily trade receivables) and from our investing activities (primarily deposits with banks and investment in mutual funds).

Further, other of our significant assets include security deposits for leased assets. We monitor the exposure to credit risk on an ongoing basis through ageing analysis and historical collection experience. Outstanding customer receivables are regularly monitored by our senior management. Accordingly, we consider the credit risk low.

Unusual or infrequent events or transactions

Except as disclosed in this Prospectus, to our knowledge, there have been no unusual or infrequent events or transactions that have in the past or may in the future affect our business operations or future financial performance.

Known trends or uncertainties

Our business has been subject, and we expect it to continue to be subject, to significant economic changes arising from the trends identified above in “— *Significant Factors Affecting Our Results of Operations*” and the uncertainties described in “*Risk Factors*”, beginning on pages 322 and 36, respectively. Except as disclosed in this Prospectus, there are no known trends or uncertainties that have or had or are expected to have a material adverse impact on revenues or income of our Company from continuing operations.

Seasonality

Our business is not subject to seasonal variations.

Competitive conditions

We face intense competition from a number of competitors, some of which are larger and have substantially greater resources than us, including the ability to spend more on advertising and marketing and offer substantial discounts. We also face competition from new entrants that may have more flexibility in responding to changing business and economic conditions than us. For further details, see “*Risk Factors — Internal Risk Factors — We face intense competition which may lead to a reduction in our market share, cause us to increase our expenditure on marketing and promotion as well as cause us to offer discounts, which may result in an adverse effect on our business and a decline in our profitability.*” on page 45.

Future relationship between cost and income

Other than as described in “*Risk Factors*”, “*Our Business*” and above in “— *Significant Factors Affecting our Results of Operations*” beginning on pages 36, 154 and 322, respectively, to our knowledge, there are no known factors that may adversely affect our business prospects, results of operations and financial condition.

Significant developments occurring after June 30, 2023 or significant economic changes that materially affected or are likely to affect income from continuing operations

Except as disclosed below and in this Prospectus, there are no circumstances that have arisen since June 30, 2023, the date of the last financial statements included in this Prospectus, which materially and adversely affect or is likely to affect our operations or profitability, or the value of our assets or our ability to pay our material liabilities within the next twelve months.

SECTION VI: LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS

Except as stated in this section, there are no outstanding (i) criminal proceedings; (ii) actions taken by statutory or regulatory authorities; (iii) claims related to direct and indirect taxes; and (iv) other pending material litigations, in each case involving our Company, Directors, Promoters or Subsidiaries. Further, except as stated in this section, there are no disciplinary actions including penalties imposed by the SEBI or stock exchanges against our Promoters in the last five Financial Years, including any outstanding action. Our Company does not have a Group Company as on the date of this Prospectus.

For the purpose of disclosure of pending material litigation in (iv) above, our Board in its meeting held on October 13, 2023, has considered and adopted the Materiality Policy, in terms of which, any outstanding litigation involving a claim or an amount which exceeds ₹ 0.72 million, being the amount equivalent to 0.01% of the Net Worth for Fiscal 2023 as per the Restated Ind AS Summary Statements, which was ₹ 6,059.01 million, would be considered 'material'. In case of pending civil litigation proceedings wherein the monetary amount involved is not quantifiable, such litigation has been considered 'material' only in the event that the outcome of such litigation has a material adverse bearing on the business, operations, performance, prospectus, reputation, results of operations or cash flows of our Company. This will also include civil litigations where the decision in one case is likely to affect the decision in similar cases even though the amount involved in an individual litigation may not exceed the amount equivalent to 0.05% of the Restated Profit/(Loss) for Fiscal 2023 as per the Restated Ind AS Summary Statements.

For the purposes of this section, pre-litigation notices (excluding statutory/ regulatory/governmental/ tax authorities or notices threatening criminal action) and matters in which summons have not been received, have not been considered material and/ or have not been disclosed as pending matters until such time that our Company, Directors, Promoters or Subsidiaries, as the case may be, is impleaded as a defendant in litigation before any judicial or arbitral forum.

Except as stated in this section, there are no outstanding material dues to creditors of our Company. In terms of the Materiality Policy, outstanding dues to any creditor (on the basis of trade payables) of our Company having a monetary value which exceeds 5% of the total trade payables of our Company as of June 30, 2023 shall be considered as 'material'. Accordingly, as on June 30, 2023, any outstanding dues exceeding ₹ 134.50 million have been considered as material outstanding dues for the purposes of identification of material creditors and related information in this section. Further, for outstanding dues to MSMEs, the disclosure is based on information available with our Company regarding status of the creditors under section 2 of the Micro, Small and Medium Enterprises Development Act, 2006, as amended read with the rules and notifications thereunder.

All terms defined in a particular litigation disclosure below correspond to that particular litigation only.

Material Civil Litigation

1. VLCC Personal Care Limited (“**Plaintiff**”) has filed a civil suit (“**Suit**”) before the Court of District and Sessions Judge, Saket District Courts (South-East), New Delhi against Ashish Mishra and our Company (“**Defendants**”). It was alleged by the Plaintiff that Ashish Mishra was employed with the Plaintiff vide an agreement dated April 7, 2014 (“**Employment Agreement**”). On March 3, 2020, Ashish Mishra tendered his resignation to the Plaintiff, citing personal reasons and later joined our Company. The Plaintiff has alleged that Ashish Mishra has sabotaged its business by poaching one of its clients in the distribution business, making a group of seven employees previously employed with the Plaintiff join our Company, divulging confidential information to our Company, thereby contravening the confidentiality clause, restrictions on competitive practices and stipulations related to secrecy of the affairs of the Company in the Employment Agreement. The Plaintiff has sought relief of (i) permanent and mandatory injunction under section 38 of the Specific Relief Act, 1963, (ii) damages amounting to ₹ 6.05 million, (iii) order from the Court to cease and desist from exploiting or divulging any confidential information belonging to the Plaintiff and furnish proof of its destruction, and (iv) produce a rendition of the accounts of our Company in relation to its business with the Plaintiff’s client and to pay, jointly and severally, any amounts due. The matter is currently pending.
2. R S M General Trading LLC (“**Plaintiff**”), an overseas distributor of our Company has filed a suit before the Dubai court (“**Court**”) on December 12, 2022 against our Company, our Promoter, Varun Alagh, our subsidiary, Honasa Consumer General Trading LLC, Mukesh Agarwal, and Tarun Aggarwal (“**Defendants**”). Our Company had engaged

the Plaintiff as a distributor to undertake the marketing and distribution of its products in Middle East and Africa (excluding Tanzania and Kenya) (“**Territory**”) pursuant to an authorised distributor agreement dated July 30, 2020, as amended vide the amendment to the agreement dated May 27, 2021 (collectively, the “**Agreement**”). Subsequently, our Company issued a termination notice to the Plaintiff dated October 17, 2022 invoking their right under the Agreement, pursuant to which the Agreement was terminated with effect from January 17, 2023. The Plaintiff has alleged that our Company has breached the terms of the Agreement entered into, by wrongfully appointing our subsidiary, Honasa Consumer General Trading LLC as our authorised distributor, which therein resulted in a breach of the obligation of exclusivity. It was also alleged that the Agreement was wrongfully terminated by the Defendants. The Plaintiff has sought damages to the tune of AED 45 million (equivalent to ₹ 1,001.25 million assuming conversion price of ₹22.25), as relief along with payment of legal interest at the rate of 5% from the date of the final judgement till full payment. Our Company had replied to the suit denying the allegations made stating that the termination was in compliance with the Agreement and that the suit should be dismissed due to lack of evidence supporting the claims being made. The Court had thereafter, passed an order appointing an expert specialising in the field of commercial agencies and distribution contracts to analyse the matter, review case documents and correspondences. Pursuant to this, our Company has submitted a memorandum for the examination of the accountant in the instant matter. The subject matter expert appointed has issued the final report opining that our Company did not breach the Agreement by terminating it in accordance with the provisions of the same. The subject matter expert further opined that the extent of damages sustained by the Plaintiff is unascertainable. The matter is currently pending.

Notices

1. Our Company is in receipt of 38 notices (“**LM Notices**”) from relevant authorities of the central and different state Legal Metrology departments in relation to alleged non-compliance of mandatory declarations and labelling requirements for our products under the Legal Metrology Act, 2009 and Legal Metrology Packaged Commodities Rules, 2011 including inter alia, non-disclosure of maximum retail price, incorrect disclosure of mandatory declarations on the packages, incorrect disclosure of net quantity, non-inclusion of customer care number and non-usage of appropriate weight/ metrology symbols. Our Promoters and Directors have also been made parties to several LM notices. Our Company has responded in writing or orally and is in the process of responding to all the remaining LM notices and no further communication has been received by our Company in relation to any of the LM Notices.
2. Our Company received a criminal defamation notice dated April 30, 2022 (“**Notice**”) from Uprising Science Private Limited (“**Minimalist**”) alleging that our Company through social media handles belonging to ‘The Derma Co.’ brand has published inaccurate, misleading and defamatory statements against the products of Minimalist (“**Minimalist Products**”). Minimalist, through the Notice demanded immediate removal of all alleged defamatory and other references to Minimalist Products from all social media platforms (“**Corrective Actions**”). Further, an unconditional apology on social media handles, an undertaking to not engage in the alleged defamatory publications in the future, and intimation within forty-eight hours for corrective steps taken pursuant to the Corrective Actions, failing which Minimalist threatened an action under sections 499, 500, 501, and 502 of the Indian Penal Code, 1860. Our Company has responded to and denied the alleged claims made pursuant to the Notice and has not received any communication post our letter dated May 4, 2022.

Litigation by our Company

Criminal Litigation

1. Our Company filed a complaint dated January 5, 2022, with the Cyber Crime Police Station, Gurugram, and FIR no. 0004 of 2022 dated January 13, 2022 was registered under sections 66C and 66D of the Information Technology Act, 2000 and sections 415, 416, 420, 425, 468, 469, 471, read with sections 34 and 120B of the Indian Penal Code, 1860. This was pursuant to the complaints received by our Company from over 471 customers in relation to fraudulent promotional offers made by unknown persons falsely impersonating as authorised representatives of our Company, who had gained unauthorised access to personal information of our customers like name, shipping address and order history, and lured such customers into making online payments for products of our Company to fraudulent accounts. Our Company has also filed a complaint dated May 18, 2022, with Indian Computer Emergency Response Team (“**CERT-In**”), Ministry of Electronics and Information Technology, Government of India, in relation to this matter and a re-occurrence of attempted cyber fraud. Our Company has not received a response from CERT-In. A detailed response dated July 6, 2022, requested under section 91 of the Code of Criminal Procedure, 1973 was submitted by our Company to the Cyber Crime Police Station, Gurugram. The matter is currently pending.
2. Our Company filed an application before the Court of Chief Judicial Magistrate at Srinagar under section 156, Code of Criminal Procedure seeking direction for lodging an F.I.R. against Sajjad Ahmad Wani (the “**Accused**”). The matter arose on grounds of offences of cheating, criminal conspiracy, breach of contract and confidentiality committed by the Accused under the relevant sections of the Indian Penal Code, 1860, the Code of Criminal Procedure, 1973 and the Information Technology Act, 2000. The Accused was employed as a sales officer of our Company in 2022 for the second time post his resignation as a sales officer in the year 2020. Pursuant to the employment agreement dated April 11, 2022 entered into between our Company and the Accused, the scope of work assigned to him primarily involved supervision of sales and managing services ancillary to such sale of products. However, the Accused misrepresented himself as an authorised representative of the Company to collect payment owed from sub-distributors to the main

distributor of our Company and thereby wrongfully gained an amount of ₹ 3.43 million. On learning this, our Company approached the Station House Officer, Srinagar, Jammu and Kashmir in order to register an F.I.R. against the Accused. The matter is currently pending.

Material Civil Litigation

1. Our Company has filed a commercial suit dated May 24, 2022 (“**Suit**”) against Manchanda Herbal Products Private Limited, Prashant Manchanda, and Triple Play Technologies Pvt Ltd (“**Defendants**”) before the High Court of Delhi seeking permanent injunction and damages, against infringement of trademark, passing off, and unfair competition. We have contended through this Suit that the Defendants were engaging in passing off their products as that of our Company’s by using deceptively similar name, packaging, and overall impression. Our Company has claimed an aggregate amount of ₹ 20 million in this Suit. The High Court of Delhi granted an ad-interim injunction in favour of our Company pursuant to an order dated May 31, 2022. Our Company has also filed a contempt petition dated August 2, 2022, to restrain the continuing infringement by the Defendants in violation of the orders of High Court of Delhi, to which the Defendants have filed a reply dated December 5, 2022. Subsequently, the High Court of Delhi passed an order dated March 21, 2023 in favour of our Company and directed the Defendants to remove the listings. However, the same was not done and our Company approached the High Court of Delhi with this grievance who, vide its order dated July 18, 2023, directed the Defendants to deactivate their accounts within the prescribed time period, with the interim orders passed earlier to continue to remain in force. The matter is currently pending.
2. Our Company has also filed two petitions dated May 19, 2022, and November 9, 2021, for cancellation of the registered mark “Mamaveda” obtained by Prashant Manchanda and “Mamaearth” obtained by Malika Sadani, before the High Court of Delhi and the High Court of Bombay respectively. No monetary amounts have been claimed in the petitions. The matters are currently pending.
3. Our Company has filed a petition dated August 22, 2023 (“**Petition**”) against Visage Beauty and Health Care Private Limited (“**Defendants**”) before the High Court of Delhi seeking removal of the trademark from the trade marks registry (“**Trade Marks Registry**”). The Defendants had issued a notice dated April 14, 2023 addressed to our Company on alleged infringement of the Defendants’ mark by virtue of our product named ‘Aqualogica Detan + Dewy Sunscreen’ and called upon our Company to cease and desist from usage of the trademark on its products, publications and advertising material, render an unconditional apology and to pay damages amounting to ₹ 2 million (“**Infringement Notice**”). Our Company thereafter responded to the Infringement Notice stating that our products are well known in nature and the ‘detan’ word being used is generic and in the interest of describing the nature of the product, to which the Defendants denied all claims made by our Company and demanded compensation. Pursuant to the Petition, our Company has contended that the registration of the trademarks under the name of the Defendants is in contravention of Section 47 and Section 57(2) of the Trade Marks Act, 1999 and continue to wrongfully remain on the Trade Marks Registry. Our Company has contended that the impugned trademark, namely ‘D-TAN’, is inherently non-distinctive in nature and is common to trade in the industry. The registration of such trademark impairs the right of our Company to use the word ‘detan’ as a product descriptor for our brand, Aqualogica. The matter is currently pending.

Material Civil Litigation

Just4Kids

Just4Kids filed a suit for recovery, against K12 Techno Services Private Limited (“**Defendant**”), for whom it had provided services of organising several events and promoting the Defendant’s institutions across schools in various cities. Pursuant to the communication received from the Defendants on the services required and events to be conducted, Just4Kids made necessary arrangements, *inter alia*, obtaining license to use licensed characters, hiring a local event management company and bore the expenses for organising the events. Subsequent to rendering of services, the Defendant made only part payments of the amount invoiced to our subsidiary, Just4Kids. Just4Kids made multiple requests for payment in this regard. Thereafter, a legal notice was sent to the Defendant to which reply was sent to Just4Kids refusing to pay the balance amount claimed. It filed a suit for recovery before the Court of the District and Sessions Judge, Patiala House Courts, New Delhi for an amount of ₹ 0.87 million along with a claim for interest of 18% p.a. since the date of non-payment of dues. The matter is currently pending.

Redressal and Disposal of Investor Grievances by our Company

The Registrar Agreement provides for retention of records with the Registrar to the Offer for a period of at least eight years from the date of listing and commencement of trading of the Equity Shares to enable the Bidders to approach the Registrar to the Offer for redressal of their grievances.

All grievances, other than of Anchor Investors may be addressed to the Registrar to the Offer with a copy to the relevant Designated Intermediary with whom the ASBA Form was submitted, giving full details such as name of the sole or First Bidder, ASBA Form number, Bidder's DP ID, Client ID, PAN, address of Bidder, number of Equity Shares applied for, ASBA Account number in which the amount equivalent to the Bid Amount was blocked or the UPI ID (for UPI Bidders who make the payment of Bid Amount through the UPI Mechanism), date of ASBA Form and the name and address of the relevant Designated Intermediary where the Bid was submitted. Further, the Bidder shall enclose the Acknowledgment Slip or the application number from the Designated Intermediary in addition to the documents or information mentioned hereinabove. All grievances relating to Bids submitted through Registered Brokers may be addressed to the Stock Exchanges with a copy to the Registrar to the Offer.

All grievances of the Anchor Investors may be addressed to the Registrar to the Offer, giving full details such as the name of the sole or First Bidder, Bid cum Application Form number, Bidders' DP ID, Client ID, PAN, date of the Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for, Bid Amount paid on submission of the Bid cum Application Form and the name and address of the Book Running Lead Managers where the Bid cum Application Form was submitted by the Anchor Investor.

In case of any delay in unblocking of amounts in the ASBA Accounts exceeding four Working Days from the Bid / Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹ 100 per day for the entire duration of delay exceeding four Working Days from the Bid / Offer Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLMs shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

In terms of the SEBI master circular SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023, SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and subject to applicable law, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days. Further, in terms of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLMs, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

The following compensation mechanism has become applicable for investor grievances in relation to Bids made through the UPI Mechanism for public issues opening on or after May 1, 2021, for which the relevant SCSBs shall be liable to compensate the investor:

Scenario	Compensation amount	Compensation period
Delayed unblock for cancelled / withdrawn / deleted applications	₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher	From the date on which the request for cancellation / withdrawal / deletion is placed on the bidding platform of the Stock Exchanges till the date of actual unblock
Blocking of multiple amounts for the same Bid made through the UPI Mechanism	1. Instantly revoke the blocked funds other than the original application amount and 2. ₹ 100 per day or 15% per annum of the total cumulative blocked amount except	From the date on which multiple amounts were blocked till the date of actual unblock

Scenario	Compensation amount	Compensation period
	the original Bid Amount, whichever is higher	
Blocking more amount than the Bid Amount	1. Instantly revoke the difference amount, i.e., the blocked amount less the Bid Amount and 2. ₹ 100 per day or 15% per annum of the difference amount, whichever is higher	From the date on which the funds to the excess of the Bid Amount were blocked till the date of actual unblock
Delayed unblock for non – Allotted / partially Allotted applications	₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher	From the Working Day subsequent to the finalisation of the Basis of Allotment till the date of actual unblock

Further, in the event there are any delays in resolving the investor grievance beyond the date of receipt of the complaint from the investor, for each day delayed, the Book Running Lead Managers shall be liable to compensate the investor ₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher. The compensation shall be payable for the period ranging from the day on which the investor grievance is received till the date of actual unblock.

Our Company, the Selling Shareholders and the BRLMs and the Registrar to the Offer accept no responsibility for errors, omissions, commission or any acts of SCSBs including any defaults in complying with its obligations under applicable SEBI ICDR Regulations. In terms of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/22, dated February 15, 2018, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days.

For helpline details of the Book Running Lead Managers pursuant to the SEBI/HO/CFD/DIL-2/OW/P/2021/2481/1/M dated March 16, 2021, see “*General Information – Book Running Lead Managers*” on page 80.

Further, the Bidder shall also enclose a copy of the Acknowledgment Slip duly received from the concerned Designated Intermediary in addition to the information mentioned hereinabove.

All grievances relating to Bids submitted with Registered Brokers may be addressed to the Stock Exchanges with a copy to the Registrar to the Offer. The Registrar to the Offer shall obtain the required information from the SCSBs and Sponsor Banks for addressing any clarifications or grievances of ASBA Bidders. Our Company, the Selling Shareholders, the BRLMs and the Registrar to the Offer accept no responsibility for errors, omissions, commission or any acts of SCSBs including any defaults in complying with its obligations under the SEBI ICDR Regulations. Bidders can contact our Company Secretary and Compliance officer or the Registrar to the Offer in case of any pre-Offer or post-Offer related problems such as non-receipt of letters of Allotment, non-credit of Allotted Equity Shares in the respective beneficiary account, non-receipt of refund intimations and non-receipt of funds by electronic mode.

Disposal of Investor Grievances by our Company

Our Company estimates that the average time required by our Company or the Registrar to the Offer or the relevant Designated Intermediary, for the redressal of routine investor grievances shall be 10 Working Days from the date of receipt of the complaint, provided however, in relation to complaints pertaining to blocking/unblocking of funds, investor complaints shall be resolved on the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, our Company will seek to redress these complaints as expeditiously as possible. Each of the Selling Shareholders, severally and not jointly, has authorised our Compliance Officer and the Registrar to the Offer to redress any complaints received from Bidders in respect of its respective portion of the Offered Shares.

Our Company has also appointed Dhanraj Dagar, Company Secretary of our Company, as the Compliance Officer for the Offer. For further details, see “*General Information*” on page 79.

Our Company has constituted a Stakeholders’ Relationship Committee comprising Namita Gupta as its Chairperson and Ghazal Alagh and Subramaniam Somasundaram as its members which is responsible for redressal of grievances of security holders of our Company. For further details on the Stakeholders’ Relationship Committee, see “*Our Management – Committees of the Board – Stakeholders’ Relationship Committee*” on page 207.

Our Company has obtained authentication on the SCORES in terms of the SEBI circular bearing number CIR/OIAE/1/2013 dated April 17, 2013 read with SEBI circular bearing number SEBI/HO/OIAE/IGRD/CIR/P/2021/642 dated October 14, 2021 and has complied with SEBI circular bearing number CIR/OIAE/1/2014 dated December 18, 2014 in relation to redressal of investor grievances through SCORES.

Our Company estimates that the average time required by our Company or the Registrar to the Issue or the SCSB in case of ASBA Bidders, for the redressal of routine investor grievances shall be 10 Working Days from the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, our Company will seek to redress these complaints as expeditiously as possible.

Our Company has not received any investor grievances in the last three Financial Years prior to the filing of this Prospectus. As on the date of this Prospectus there are no outstanding investor grievances.

Our Company does not have any listed group companies or listed subsidiaries.

Exemption from complying with any provisions of SEBI ICDR Regulations

Our Company has not applied for or received any exemption from complying with any provisions of SEBI ICDR Regulations.

Face Value, Offer Price and Price Band

The face value of each Equity Share is ₹10 and the Offer Price is ₹324 per Equity Share. The Floor Price is ₹308 per Equity Share and the Cap Price is ₹324 per Equity Share, being the Price Band. The Anchor Investor Offer Price is ₹324 per Equity Share.

The Price Band and the minimum Bid Lot was decided by our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders, in consultation with the Book Running Lead Managers and shall be advertised in all editions of English national daily newspaper The Financial Express and all editions of Hindi national daily newspaper Jansatta (Hindi also being the regional language of New Delhi, where our Registered Office is located) each with wide circulation, at least two Working Days prior to the Bid/ Offer Opening Date and was made available to the Stock Exchanges for the purpose of uploading the same on their websites. The Price Band, along with the relevant financial ratios calculated at the Floor Price and at the Cap Price, was pre-filled in the Bid cum Application Forms available on the websites of the Stock Exchanges. The Offer Price and the Employee Discount was determined by our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders, in consultation with the Book Running Lead Managers, after the Bid/ Offer Closing Date.

At any given point of time there shall be only one denomination of Equity Shares, unless otherwise permitted by law.

Compliance with disclosure and accounting norms

Our Company shall comply with all disclosure and accounting norms as specified by SEBI from time to time.

Employee Discount

Employee Discount was offered to Eligible Employees bidding in the Employee Reservation Portion. Eligible Employees bidding in the Employee Reservation Portion at a price within the Price Band could make payment at Bid Amount applicable to them, that is, Bid Amount net of Employee Discount, at the time of making a Bid. Eligible Employees bidding in the Employee Reservation Portion respectively at the Cut-Off Price had to ensure payment at the Cap Price, less Employee Discount, as applicable, at the time of making a Bid.

Rights of the Equity Shareholders

Subject to applicable laws, rules, regulations and guidelines and our Articles of Association, our Shareholders shall have the following rights:

- Right to receive dividends, if declared;
- Right to attend general meetings and exercise voting rights, unless prohibited by law;
- Right to vote on a poll either in person or by proxy or “e-voting”, in accordance with the provisions of the Companies Act;
- Right to receive offers for rights shares and be allotted bonus shares, if announced;
- Right to receive surplus on liquidation, subject to any statutory and preferential claim being satisfied;
- Right of free transferability of their Equity Shares, subject to applicable laws including any RBI rules and regulations; and
- Such other rights, as may be available to a shareholder of a listed public company under the Companies Act, the SEBI Listing Regulations and our Articles of Association.

For a detailed description of the main provisions of the Articles of Association of our Company relating to voting rights, dividend, forfeiture and lien, transfer, transmission, consolidation or sub-division, see “*Description of Equity Shares and Terms of the Articles of Association*” on page 404.

Allotment only in Dematerialised Form

Pursuant to Section 29 of the Companies Act and the SEBI ICDR Regulations, the Equity Shares shall be Allotted only in dematerialised form. As per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialised form. In this context, two agreements have been signed amongst our Company, the respective Depositories and the Registrar to the Offer:

- Tripartite agreement dated August 5, 2022 amongst our Company, CDSL and the Registrar to the Offer; and
- Tripartite agreement dated December 6, 2021 between our Company, NSDL and the Registrar to the Offer.

Market Lot and Trading Lot

Since trading of the Equity Shares is in dematerialised form, the tradable lot is one Equity Share. Allotment in the Offer will be only in dematerialised and electronic form in multiples of one Equity Share subject to a minimum Allotment of 46 Equity Shares. For further details on the Basis of Allotment, see “*Offer Procedure*” on page 386.

Joint Holders

Subject to the provisions contained in our Articles of Association, where two or more persons are registered as the holders of the Equity Shares, they shall be entitled to hold the same as joint tenants with benefits of survivorship.

Nomination facility to Bidders

In accordance with Section 72 of the Companies Act read with the Companies (Share Capital and Debentures) Rules, 2014, as amended, the sole Bidder, or the first Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest to the exclusion of all other persons, unless the nomination is modified or cancelled in the prescribed manner. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale, transfer or alienation of Equity Share(s) by the person nominating. A nomination may be cancelled or modified by nominating any other person in place of the present nominee, by the holder of the Equity Shares who made the nomination, by giving a notice of such cancellation or variation to our Company. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or to the registrar and transfer agent of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act shall upon the production of such evidence as may be required by our Board, elect either:

- a) to register himself or herself as the holder of the Equity Shares; or
- b) to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, our Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, our Board may thereafter withhold payment of all dividends, interests, bonuses or other monies payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Offer will be made only in dematerialised mode there is no need to make a separate nomination with our Company. Nominations registered with respective Depository Participant of the Bidder would prevail. If the Bidder wants to change their nomination, they are requested to inform their respective Depository Participant.

Withdrawal of the Offer

Our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders, in consultation with the Book Running Lead Managers, reserve the right not to proceed with the Fresh Issue, and the Selling Shareholders, severally and not jointly, reserve the right not to proceed with the Offer for Sale, in whole or in part thereof, to the extent of their respective Offered Shares, after the Bid/ Offer Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Offer advertisements were published, within two days of the Bid/ Offer Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Offer. The Book Running Lead Managers, through the Registrar to the Offer, shall notify the SCSBs and the Sponsor Banks (in case of UPI Bidders using the UPI Mechanism), to unblock the bank accounts of the ASBA Bidders and the Escrow Collection Bank to release the Bid Amounts to the Anchor Investors, within one Working Day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchanges on which the Equity Shares are proposed to be listed. In terms of the UPI Circulars, in relation to the Offer, the Book Running Lead Managers will submit reports of compliance with the applicable listing timelines and activities, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it. Further, in case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding three Working Days from the Bid/ Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹ 100 per day for the entire duration of delay exceeding three Working Days from the Bid/ Offer Closing Date by the intermediary responsible for causing such delay in unblocking. The Book Running Lead Managers shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

Notwithstanding the foregoing, the Offer is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment, and (ii) the final RoC approval of the Prospectus after it is filed with the RoC. If our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders, in consultation with the Book Running Lead Managers, withdraw the Offer after the Bid/ Offer Closing Date and thereafter determine that they will proceed with a public offering of the Equity Shares, our Company shall file a fresh draft red herring prospectus with SEBI and the Stock Exchanges.

The Bidder shall be compensated in the manner specified in the SEBI circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI Circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, which for the avoidance of doubt, shall be deemed to be incorporated in the deemed agreement of the Company with the SCSBs, to the extent applicable.

The above timetable is indicative and does not constitute any obligation or liability on our Company or the Selling Shareholders or the Book Running Lead Managers.

Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchanges are taken within such time as prescribed by SEBI, the timetable may be subject to change due to various factors, such as delay in receipt of final certificates from SCSBs, etc resulting in delay in receiving the final listing and trading approval from the Stock Exchanges. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges and in accordance with the applicable laws.

In terms of the UPI Circulars, in relation to the Offer, the BRLMs will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the allotment and listing procedure within such time as prescribed by SEBI, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

Any circulars or notifications from SEBI after the date of this Prospectus may result in changes to the listing timelines. Further, the offer procedure is subject to change to any revised SEBI circulars to this effect.

Submission of Bids (other than Bids from Anchor Investors):

Bid/ Offer Period (except the Bid/ Offer Closing Date)	
Submission and Revision in Bids	Only between 10.00 a.m. and 5.00 p.m. Indian Standard Time (“IST”)
Bid/ Offer Closing Date	
Submission and Revision in Bids	Only between 10.00 a.m. and 3.00 p.m. IST

* UPI mandate end time and date was at 5:00 pm On Bid/Offer Closing Day i.e., Thursday, November 2, 2023.

On the Bid/ Offer Closing Date, the Bids were required to be uploaded until:

- (i) 4.00 p.m. IST in case of Bids by QIBs and Non-Institutional Bidders, and
- (ii) until 5.00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by RIBs or Eligible Employees under the Employee Reservation Portion.

On Bid/ Offer Closing Date, extension of time could have been granted by Stock Exchanges only for uploading Bids received from the RIBs and Eligible Employees under the Employee Reservation Portion, after taking into account the total number of Bids received and as reported by the Book Running Lead Managers to the Stock Exchanges.

The Registrar to the Offer submitted the details of cancelled/ withdrawn/ deleted applications to the SCSBs on daily basis within 60 minutes of the Bid closure time from the Bid/ Offer Opening Date till the Bid/ Offer Closing Date by obtaining the same from the Stock Exchanges. The SCSBs unblocked such applications by the closing hours of the Working Day and submit the confirmation to the BRLMs and the RTA on a daily basis.

To avoid duplication, the facility of re-initiation provided to Syndicate Members shall preferably be allowed only once per bid/batch and as deemed fit by the Stock Exchanges, after closure of the time for uploading Bids.

It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, were rejected.

Due to limitation of time available for uploading the Bids on the Bid/ Offer Closing Date, Bidders were advised to submit their Bids one day prior to the Bid/ Offer Closing Date and in any case no later than 1:00 p.m. IST on the Bid/ Offer Closing Date. Any time mentioned in the Red Herring Prospectus was IST. Bidders were cautioned that, in the event a large number of Bids are received on the Bid/ Offer Closing Date, some Bids could not have gotten uploaded due to lack of sufficient time. Such Bids that could not be uploaded were not considered for allocation under the Offer. Bids and any revision in Bids were accepted only during Monday to Friday (excluding any public/ bank holiday). Investors noted that as per letter no. List/smd/sm/2006 dated July 3, 2006 and letter no. NSE/IPO/25101- 6 dated July 6, 2006 issued by BSE and NSE respectively, Bids and any revision in Bids shall not be accepted on Saturdays and public holidays as declared by the Stock Exchanges. Bids by ASBA

Bidders were uploaded by the relevant Designated Intermediary in the electronic system to be provided by the Stock Exchanges. None of our Company, each of the Selling Shareholders or any member of the Syndicate was liable for any failure in uploading the Bids due to faults in any software or hardware system or otherwise, or blocking of application amount by SCSBs on receipt of instructions from the Sponsor Banks due to any errors, omissions, or otherwise non-compliance by various parties involved in, or any other fault, malfunctioning or breakdown in the UPI Mechanism.

In case of any discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid cum Application Form, for a particular Bidder, the details as per the Bid file received from the Stock Exchanges was taken as the final data for the purpose of Allotment.

In case of discrepancy in data entered in the electronic book vis-à-vis data contained in the Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges was taken as the final data for the purpose of Allotment.

Minimum Subscription

If our Company does not receive the minimum subscription in the Offer as specified under Rule 19(2)(b) of the SCRR or the minimum subscription of 90% of the Fresh Issue on the Bid/ Offer Closing Date; or subscription level falls below aforesaid minimum subscription after the Bid/ Offer Closing Date due to withdrawal of Bids or technical rejections or any other reason; or in case of devolvement of Underwriting, aforesaid minimum subscription is not received within 60 days from the date of Bid/ Offer Closing Date or if the listing or trading permission is not obtained from the Stock Exchanges for the Equity Shares in the Offer, our Company and the Selling Shareholders, severally and not jointly, shall forthwith refund the entire subscription amount received in accordance with applicable law including the SEBI circular bearing no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021. If there is a delay beyond four days after our Company becomes liable to pay the amount, our Company, and every Director of our Company, who are officers in default, shall pay interest at the rate of 15% per annum. It is clarified that each of the Selling Shareholders shall, severally and not jointly, be liable to refund money raised in the Offer together with any interest for delays in making refunds as per applicable law, only to the extent of its respective portion of Offered Shares. Notwithstanding the foregoing, no liability to make any payment of interest shall accrue on any Selling Shareholder and such interest shall be borne by the Company unless any delay of the payments to be made hereunder, or any delay in obtaining listing and/or trading approvals or any approvals in relation to the Offer is solely and directly attributable to an act or omission of such Selling Shareholder.

The requirement for minimum subscription is not applicable to the Offer for Sale. In the event of under-subscription in the Offer, subject to receiving minimum subscription for 90% of the Fresh Issue and compliance with Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957, the Allotment for the valid Bids will be made in the following order: (i) In the first instance towards subscription for 90% of the Fresh Issue; (ii) If there remain any balance valid Bids in the Offer, the Allotment for the balance valid Bids will be made: (a) first towards Equity Shares offered by the Investor Selling Shareholders in proportion to the Offered Shares being offered by the Investor Selling Shareholders; (b) secondly, towards Equity Shares offered by the Promoter Selling Shareholders and Other Selling Shareholders in proportion to the Offered Shares being offered by the Promoter Selling Shareholders and Other Selling Shareholders; (c) only after the sale of all of the Offered Shares, towards the balance Fresh Issue.

Undersubscription, if any, in any category except the QIB portion, would be met with spill-over from the other categories at the discretion of our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders, in consultation with the Book Running Lead Managers, and the Designated Stock Exchange.

Further, our Company shall ensure that the number of prospective Allottees to whom the Equity Shares will be Allotted shall not be less than 1,000 in compliance with Regulation 49(1) of SEBI ICDR Regulations failing which the entire application money shall be unblocked in the respective ASBA Accounts of the Bidders. In case of delay, if any, in unblocking the ASBA Accounts within such timeline as prescribed under applicable laws, our Company shall be liable to pay interest on the application money in accordance with applicable laws.

Arrangements for Disposal of Odd Lots

Since the Equity Shares will be traded in dematerialised form only, and the market lot for our Equity Shares will be one Equity Share, no arrangements for disposal of odd lots are required.

New Financial Instruments

Our Company is not issuing any new financial instruments through this Offer.

Restrictions, if any on Transfer and Transmission of Equity Shares

Except for the lock-in of the pre-Offer equity share capital of our Company, lock-in of the Promoters' minimum contribution and the Anchor Investor lock-in as provided in "*Capital Structure*" on page 87, there are no restrictions on transfer or transmission of Equity Shares and their consolidation or sub-division. Eligible Employees Bidding in the Employee Reservation Portion could Bid up to a Bid Amount of ₹500,000 (net of Employee Discount). However, a Bid by an Eligible Employee in the Employee Reservation Portion was considered for allocation, in the first instance, for a Bid Amount of up to ₹200,000 (net of employee discount). In the event of under-subscription in the Employee Reservation Portion, the unsubscribed portion was made available for allocation and Allotment, proportionately to all Eligible Employees who have Bid in excess of ₹200,000 (net of Employee Discount), subject to the maximum value of Allotment made to such Eligible Employee not exceeding ₹500,000 (net of employee discount). An Eligible Employee Bidding in the Employee Reservation Portion could also Bid in the Retail Portion, and such Bids were not be considered multiple Bids. However, Bids by Eligible Employees Bidding in the Employee Reservation Portion and in the Non Institutional Portion were treated as multiple Bids. The unsubscribed portion if any, in the Employee Reservation Portion was added back to the Net Offer. In case of under-subscription in the Net Offer, spill-over to the extent of such under-subscription was permitted from the Employee Reservation Portion.

(1) Our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders, in consultation with the Book Running Lead Managers allocated up to 60% of the QIB Category to Anchor Investors at the Anchor Investor Offer Price, on a discretionary basis, subject to there having been (i) a maximum of two Anchor Investors, where allocation in the Anchor Investor Portion was up to ₹ 100 million, (ii) minimum of two and maximum of 15 Anchor Investors, where the allocation under the Anchor Investor Portion was more than ₹ 100 million but up to ₹ 2,500 million under the Anchor Investor Portion, subject to a minimum Allotment of ₹ 50 million per Anchor Investor, and (iii) in case of allocation above ₹ 2,500 million under the Anchor Investor Portion, a minimum of five such investors and a maximum of 15 Anchor Investors for allocation up to ₹ 2,500 million, and an additional 10 Anchor Investors for every additional ₹ 2,500 million or part thereof was permitted, subject to minimum allotment of ₹ 50 million per Anchor Investor. An Anchor Investor was required to make a minimum Bid of such number of Equity Shares, that the Bid Amount was at least ₹ 100 million. One-third of the Anchor Investor Portion was reserved for domestic Mutual Funds, subject to valid Bids having been received at or above the price at which allocation was made to Anchor Investors, which price was determined by the Company, the Promoter Selling Shareholders and the Investor Selling Shareholders in consultation with the BRLMs.

(2) Subject to valid Bids having been received at or above the Offer Price. This is an Offer in terms of Rule 19(2)(b) of the SCRR and Regulation 6(2) of the SEBI ICDR Regulations, wherein not less than 75% of the Offer was made available for allocation to QIBs on a proportionate basis, provided that the Anchor Investor Portion may be allocated on a discretionary basis. The General Information Document is available on the websites of the Stock Exchanges and the Book Running Lead Managers. Please refer to the relevant provisions of the General Information Document which are applicable to the Offer.

Additionally, all Bidders could refer to the General Information Document for information in relation to (i) category of investors eligible to participate in the Offer; (ii) maximum and minimum Bid size; (iii) price discovery and allocation; (iv) payment instructions for ASBA Bidders; (v) issuance of CAN and Allotment in the Offer; (vi) general instructions (limited to instructions for completing the Bid cum Application Form); (vii) designated date; (viii) disposal of applications; (ix) submission of Bid cum Application Form; (x) other instructions (limited to joint bids in cases of individual, multiple bids and instances when an application would be rejected on technical grounds); (xi) applicable provisions of the Companies Act relating to punishment for fictitious applications; (xii) mode of making refunds; and (xiii) interest in case of delay in Allotment or refund.

SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“UPI Phase I”). The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with its circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIBs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds was discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”). Subsequently, however, SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 extended the timeline for implementation of UPI Phase II till March 31, 2020. However, given the prevailing uncertainty due to the COVID-19 pandemic, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, had decided to continue with the UPI Phase II till further notice. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual bidders in initial public offerings whose application sizes are up to ₹500,000 shall use the UPI Mechanism. The final reduced timeline of T+3 days for the UPI Mechanism for applications by UPI Bidders (“UPI Phase III”) and modalities of the implementation of UPI Phase III was notified by SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 and made effective on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023 (“T+3 Press Release”). Accordingly, the Offer will be undertaken pursuant to the processes and procedures under UPI Phase II, subject to any circulars, clarification or notification issued by the SEBI pursuant to the T+3 Press Release.

Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 (as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021) and its circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. Subsequently, vide the SEBI RTA Master Circular, consolidated the aforementioned circulars to the extent relevant for RTAs, and rescinded these circulars. The provisions of these circulars are deemed to form part of this Prospectus. Additionally, SEBI vide its circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021 has reduced the time period for refund of application monies from 15 days to four days.

Pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings (opening on or after September 1, 2022) shall be processed only after application monies are blocked in the bank accounts of investors (all categories).

Our Company, the Selling Shareholders and the Members of the Syndicate, severally and not jointly, were not liable for any amendment, modification or change in the applicable law which may occur after the date of this Prospectus. Bidders were advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and did not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in the Red Herring Prospectus and this Prospectus.

Book Building Procedure

The Offer was made in terms of Rule 19(2)(b) of the SCRR, read with Regulation 31 of the SEBI ICDR Regulations, through the Book Building Process in accordance with Regulation 6(2) of the SEBI ICDR Regulations wherein in terms of Regulation 32(2) of the SEBI ICDR Regulations, not less than 75% of the Offer was made available for allocation on a proportionate basis to QIBs, provided that our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders, in consultation with the Book Running Lead Managers, allocated up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third was reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription, or non-allotment in the Anchor Investor Portion, the balance Equity Shares were added to the Net QIB Portion.

Further, 5% of the Net QIB Portion was made available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the Net QIB Portion was made available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not more than 15% of the Offer was made available for allocation to Non-Institutional Bidders out of which (a) one third of such portion was reserved for applicants with application size of more than ₹ 0.20 million and up to ₹ 1 million; and (b) two third of such portion was reserved for applicants with application size of more than ₹ 1 million, provided that the unsubscribed portion in either of such sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders and not more than 10% of the Offer were made available for allocation to RIBs in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price.

Further, the Offer included a reservation of 34,013* Equity Shares, aggregating up to ₹ 10 million*, for subscription by Eligible Employees. The Employee Reservation Portion did not exceed 5% of our post-Offer paid-up equity share capital subject to valid Bids having been received at or above the Offer Price.

**Subject to finalisation of Basis of Allotment*

Subject to valid Bids being received at or above the Offer Price, under-subscription, if any, in any category except in the QIB Portion, was allowed to be met with spill-over from any other category or combination of categories, at the discretion of our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders, in consultation with the Book Running Lead Managers, and the Designated Stock Exchange and subject to applicable laws. Under-subscription, if any, in the QIB Portion, was not be allowed to be met with spill-over from any other category or a combination of categories.

The Equity Shares, on Allotment, shall be traded only in the dematerialised segment of the Stock Exchanges.

Investors must have their PAN linked with Aadhaar in compliance with CBDT notification dated February 13, 2020 and press release dated June 25, 2021 and September 17, 2021.

Bidders should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialised form. The Bid cum Application Forms, which did not have the details of the Bidders' depository account, including DP ID, Client ID, UPI ID (in case of UPI Bidders using the UPI Mechanism) and PAN, were treated as incomplete and were rejected. Bidders will not have the option of being Allotted Equity Shares in physical form. However, they may get the Equity Shares dematerialized subsequent to Allotment of the Equity Shares in the Offer, subject to compliance with applicable laws.

Phased implementation of UPI

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of *inter alia*, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIBs and later, all UPI Bidders, through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an RIB had the option to submit the ASBA Form with any of the Designated Intermediary and use his/ her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 had extended the timeline for implementation of UPI Phase II till March 31, 2020. Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 decided to continue Phase II of UPI with ASBA until further notice. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds was discontinued and is replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continued to be six Working Days during this phase.

SEBI through its circular (SEBI/HO/CFD/DIL2/CIR/P/2022/45) dated April 5, 2022, has prescribed that all individual investors applying in initial public offerings opening on or after May 1, 2022, where the application amount is up to ₹ 500,000, shall use UPI. Individual investors bidding under the Non-Institutional Portion bidding for more than ₹ 200,000 and up to ₹ 500,000, using the UPI Mechanism, shall provide their UPI ID in the Bid-cum-Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 (“**T+3 Notification**”). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the SCSBs only after such banks provide a written confirmation, in compliance with the SEBI RTA Master Circular in a format as prescribed by SEBI, from time to time, and such payment of processing fees to the SCSBs shall be made in compliance with circulars prescribed by SEBI and applicable law. Accordingly, the Offer will be undertaken pursuant to the processes and procedures under UPI Phase II, subject to any circulars, clarification or notification issued by the SEBI pursuant to the T+3 Press Release.

All SCSBs offering facility of making application in public issues also provided facility to make application using UPI. Our Company has appointed ICICI Bank Limited and HDFC Bank Limited as a Sponsor Banks to act as a conduits between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the UPI Bidders using the UPI.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022. Such payment of processing fees to the SCSBs were undertaken pursuant to an application made by the SCSBs to the BRLMs, and such application were made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the Book Running Lead Managers.

Bid cum Application Form

Copies of the Bid cum Application Form (other than for Anchor Investors) and the Abridged Prospectus were made available with the Designated Intermediaries at the relevant Bidding Centres, and at our Registered Office. An electronic copy of the Bid cum Application Form was also available for download on the websites of NSE (www.nseindia.com) and BSE (www.bseindia.com) at least one day prior to the Bid/ Offer Opening Date. Copies of the Anchor Investor Application Form were made available with the Book Running Lead Managers.

UPI Bidders Bidding using the UPI Mechanism must provide the valid UPI ID in the relevant space provided in the Bid cum Application Form and the Bid cum Application Forms that do not contain the UPI ID are liable to be rejected. Applications made by the UPI Bidders using third party bank account or using third party linked bank account UPI ID are liable for rejection.

All Bidders (other than Anchor Investors) were required to mandatorily participate in the Offer only through the ASBA process. ASBA Bidders (other than UPI Bidders using the UPI Mechanism) must provide the bank account details and authorisation to block funds in their respective ASBA Form. The ASBA Forms that did not contain such details were liable to be rejected. Anchor Investors were not permitted to participate in the Offer through the ASBA process.

ASBA Bidders were required to ensure that the Bids are made on ASBA Forms bearing the stamp of the Designated Intermediary, submitted at the Bidding Centres only (except in case of electronic ASBA Forms) and the ASBA Forms not bearing such specified stamp are liable to be rejected. UPI Bidders using UPI Mechanism, were required to submit their ASBA Forms with Syndicate Members, sub-Syndicate Members, Registered Brokers, RTA or Depository Participants. ASBA Bidders are also required to ensure that the ASBA Account has sufficient credit balance such that an amount equivalent to the full Bid Amount can be blocked by the SCSB or the Sponsor Bank, as applicable at the time of submitting the Bid. In order to ensure timely information to investors, SCSBs are required to send SMS alerts to investors intimating them about Bid Amounts blocked/ unblocked.

The prescribed colour of the Bid cum Application Form for the various categories is as follows:

Category	Colour of Bid cum Application Form*
Resident Indians, including QIBs, Non-institutional Bidders and RIBs, each resident in India and Eligible NRIs applying on a non-repatriation basis	White
Non-Residents including Eligible NRIs, their sub-accounts (other than sub-accounts which are foreign corporates or foreign individuals under the QIB Portion), FPIs or FVCIs registered multilateral and bilateral development financial institutions applying on a repatriation basis	Blue
Anchor Investors	White**
Eligible Employees Bidding in the Employee Reservation portion	Pink

* Excluding electronic Bid cum Application Form

** Bid cum Application Forms for Anchor Investors will be made available at the office of the Book Running Lead Managers.

Electronic Bid cum Application forms and the Abridged Prospectus will also be available for download on the website of NSE (www.nseindia.com) and BSE (www.bseindia.com).

In case of ASBA forms, the relevant Designated Intermediaries were required to upload the relevant Bid details in the electronic bidding system of the Stock Exchanges, For ASBA Forms (other than in the case of UPI Bidders using the UPI Mechanism), the Designated Intermediaries (other than SCSBs) were required to submit/deliver the ASBA Form to the respective SCSB,

where the Bidder has an ASBA bank account and could not submit it to any non-SCSB bank or any Escrow Bank. Further, SCSBs were required to upload the relevant Bid details (including UPI ID in case of ASBA Forms under the UPI Mechanism) in the electronic bidding system of the Stock Exchanges. Stock Exchanges validated the electronic bids with the records of the CDP for DP ID/Client ID and PAN, on a real time basis and bring inconsistencies to the notice of the relevant Designated Intermediaries, for rectification and re-submission within the time specified by Stock Exchanges. Stock Exchanges allowed modification of either DP ID/Client ID or PAN ID, bank code and location code in the Bid details already uploaded.

For UPI Bidders using UPI Mechanism, the Stock Exchanges were required to share the Bid details (including UPI ID) with the Sponsor Banks on a continuous basis through API integration to enable the Sponsor Banks to initiate UPI Mandate Request to UPI Bidders for blocking of funds. The Sponsor Banks initiated request for blocking of funds through NPCI to UPI Bidders, who were required to accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. The NPCI was required to maintain an audit trail for every Bid entered in the Stock Exchanges bidding platform, and the liability to compensate UPI Bidders (Bidding through UPI Mechanism) in case of failed transactions was with the relevant intermediary at whose end the lifecycle of the transaction has come to a halt. The NPCI shared the audit trail of all disputed transactions/ investor complaints to the Sponsor Banks. The Sponsor Banks and the Bankers to the Offer were required to provide the audit trail to the Book Running Lead Managers for analysing the same and determining the liability. For all pending UPI Mandate Requests, the Sponsor Banks initiated requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5:00 pm on the Bid/ Offer Closing Date (“**Cut-Off Time**”). Accordingly, UPI Bidders Bidding using through the UPI Mechanism should accept UPI mandate requests for blocking off funds prior to the Cut-Off Time and all pending UPI mandate requests at the Cut-Off Time lapses. For ensuring timely information to investors, SCSBs were required to send SMS alerts for mandate block and unblock including details specified in SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021.

The Sponsor Banks will undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and will also ensure that all the responses received from NPCI are sent to the Stock Exchanges platform with detailed error code and description, if any. Further, the Sponsor Banks will undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the Book Running Lead Managers in the format and within the timelines as specified under the UPI Circulars. Sponsor Banks and issuer banks shall download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do a three-way reconciliation with Banks UPI switch data, CBS data and UPI raw data. NPCI is to coordinate with issuer banks and Sponsor Banks on a continuous basis.

The Sponsor Bank(s) were required to host a web portal for intermediaries (closed user group) from the date of Bid/ Offer Opening Date until the date of listing of the Equity Shares with details of statistics of mandate blocks/unblocks, performance of apps and UPI handles, down-time/network latency (if any) across intermediaries and any such processes having an impact/bearing on the Offer Bidding process

Electronic registration of Bids

- a. The Designated Intermediary could register the Bids using the on-line facilities of the Stock Exchanges. The Designated Intermediaries could also set up facilities for off-line electronic registration of Bids, subject to the condition that they would subsequently upload the off-line data file into the on-line facilities for Book Building on a regular basis before the closure of the Offer, subject to applicable laws.
- b. On the Bid/Offer Closing Date, the Designated Intermediaries could upload the Bids until such time as was permitted by the Stock Exchanges and as disclosed in the Red Herring Prospectus and this Prospectus.
- c. Only Bids that were uploaded on the Stock Exchanges Platform were considered for allocation/Allotment. The Designated Intermediaries were given until 5:00 pm on the Bid/Offer Closing Date to modify select fields uploaded in the Stock Exchange Platform during the Bid/Offer Period after which the Stock Exchange(s) sent the bid information to the Registrar to the Offer for further processing.

Participation by Promoters, Promoter Group, the Book Running Lead Managers, the Syndicate Members and persons related to Promoters/Promoter Group/the Book Running Lead Managers

The Book Running Lead Managers and the Syndicate Members were not allowed to purchase Equity Shares in this Offer in any manner, except towards fulfilling their underwriting obligations. However, the associates and affiliates of the Book Running Lead Managers and the Syndicate Members could Bid for Equity Shares in the Offer, either in the QIB Portion or in the Non-Institutional Portion as may be applicable to such Bidders, and such subscription may be on their own account or on behalf of their clients. All categories of investors, including associates or affiliates of the Book Running Lead Managers and Syndicate Members, were required to be treated equally for the purpose of allocation to be made on a proportionate basis.

Except as stated below, neither the Book Running Lead Managers nor any associate of the Book Running Lead Managers could apply in the Offer under the Anchor Investor Portion:

- (i) mutual funds sponsored by entities which are associate of the Book Running Lead Managers;
- (ii) insurance companies promoted by entities which are associate of the Book Running Lead Managers;

- (iii) AIFs sponsored by the entities which are associate of the Book Running Lead Managers; or
- (iv) FPIs other than individuals, corporate bodies and family offices, sponsored by the entities which are associate of the Book Running Lead Managers.

Further, the Promoters and members of the Promoter Group were not allowed to participate by applying for Equity Shares in the Offer. Further, persons related to the Promoters and Promoter Group were not allowed to apply in the Offer under the Anchor Investor Portion. A qualified institutional buyer who had any of the following rights in relation to the Company was also deemed to be a person related to the Promoters or Promoter Group of our Company:

- (i) rights under a shareholders' agreement or voting agreement entered into with the Promoters or Promoter Group of our Company;
- (ii) veto rights; or
- (iii) right to appoint any nominee director on our Board.

Further, an Anchor Investor was deemed to be an "associate of the Book Running Lead Managers" if:

- (i) either of them controls, directly or indirectly through its subsidiary or holding company, not less than 15% of the voting rights in the other; or
- (ii) either of them, directly or indirectly, by itself or in combination with other persons, exercises control over the other; or
- (iii) there is a common director, excluding nominee director, amongst the Anchor Investors and the Book Running Lead Managers.

Bids by Mutual Funds

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate was required to be lodged along with the Bid cum Application Form. Failing this, our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders, in consultation with the Book Running Lead Managers, reserved the right to reject any Bid without assigning any reason thereof, subject to applicable law.

Bids made by asset management companies or custodians of Mutual Funds were required to specifically state names of the concerned schemes for which such Bids were made.

In case of a Mutual Fund, a separate Bid could be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund were not treated as multiple Bids provided that the Bids clearly indicated the scheme concerned for which such Bid had been made.

No Mutual Fund scheme shall invest more than 10% of its NAV in equity shares or equity-related instruments of any single company, provided that the limit of 10% shall not be applicable for investments in case of index fund or sector or industry specific scheme. No Mutual Fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

Bids by Eligible Employees

The Bid was for a minimum of 46 Equity Shares and in multiples of 46 Equity Shares thereafter so as to ensure that the Bid Amount payable by the Eligible Employee does not exceed ₹ 500,000 on a net basis (net of employee discount).

However, the initial allocation to an Eligible Employee in the Employee Reservation Portion shall not exceed ₹ 200,000 (net of Employee Discount). Allotment in the Employee Reservation Portion is as detailed in the section "*Offer Structure*" on page 383.

However, Allotments to Eligible Employees in excess of ₹ 200,000 (net of employee discount) was considered on a proportionate basis, in the event of undersubscription in the Employee Reservation Portion, subject to the total Allotment to an Eligible Employee not exceeding ₹ 500,000 (net of Employee Discount). Subsequent undersubscription, if any, in the Employee Reservation Portion was added back to the Net Offer.

Eligible Employees Bidding in the Employee Reservation Portion could Bid at the Cut-off Price.

Bids under the Employee Reservation Portion by Eligible Employees was:

- (i) Made only in the prescribed Bid cum Application Form or Revision Form (i.e. pink colour form).
- (ii) Only Eligible Employees (excluding such other persons not eligible under applicable laws, rules, regulations and guidelines) were eligible to apply in the Offer under the Employee Reservation Portion.

- (iii) In case of joint bids, the sole/ First Bidder were required to be the Eligible Employee.
- (iv) Bids by Eligible Employees could be made at Cut-off Price.
- (v) Only those Bids, which were received at or above the Offer Price would be considered for allocation under this portion.
- (vi) If the aggregate demand in this portion is less than or equal to 34,013 Equity Shares at or above the Offer Price (net of Employee Discount), full allocation shall be made to the Eligible Employees to the extent of their demand.
- (vii) Bids by Eligible Employees in the Employee Reservation Portion and in the Net Offer portion were not treated as multiple Bids. Our Company reserved the right to reject, in its absolute discretion, all or any multiple Bids in any or all categories.
- (viii) Eligible Employees were required not to Bid through the UPI mechanism. Under-subscription, if any, in the Employee Reservation Portion was added back to the Net Offer.

In the event of under-subscription in the Employee Reservation Portion, the unsubscribed portion was made available for allocation and Allotment, proportionately to all Eligible Employees who have Bid in excess of ₹ 200,000 (net of Employee Discount), subject to the maximum value of Allotment made to such Eligible Employee not exceeding ₹ 500,000 (net of Employee Discount).

If the aggregate demand in this portion is greater than 34,013 Equity Shares at or above the Offer Price, the allocation shall be made on a proportionate basis. For the method of proportionate basis of Allotment, see “*Offer Procedure*” beginning on page 386.

Bids by Eligible NRIs

Eligible NRIs Bidding on non-repatriation basis were advised to use the Bid cum Application Form for residents (white in colour). Eligible NRIs Bidding on a repatriation basis were advised to use the Bid cum Application Form meant for Non-Residents (blue in colour). Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange were considered for Allotment.

Eligible NRIs could obtain copies of Bid cum Application Form from the Designated Intermediaries. Eligible NRI Bidders Bidding on a repatriation basis by using the Non-Resident Forms should authorize their SCSB (if they were Bidding directly through the SCSB) or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident External (“**NRE**”) accounts, or Foreign Currency Non-Resident (“**FCNR**”) Accounts, and eligible NRI Bidders Bidding on a non-repatriation basis by using Resident Forms were required to authorize their respective SCSBs (if they were Bidding directly through SCSB) or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident Ordinary (“**NRO**”) accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form.

Participation of Eligible NRIs in the Offer was subject to compliance with the FEMA NDI Rules. In accordance with the FEMA NDI Rules, the total holding by any individual NRI, on a repatriation basis, shall not exceed 5% of the total paid-up equity share capital on a fully diluted basis or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

NRIs were permitted to apply in the Offer through Channel I or Channel II (as specified in the UPI Circulars). Further, subject to applicable law, NRIs may use Channel IV (as specified in the UPI Circulars) to apply in the Offer, provided the UPI facility is enabled for their NRE/ NRO accounts.

For further details of restrictions on investment by NRIs, see “*Restrictions on Foreign Ownership of Indian Securities*” on page 403.

Participation of Eligible NRIs in the Offer was subject to the FEMA NDI Rules.

Bids by HUFs

Bids by Hindu Undivided Families or HUFs was required to be made, in the individual name of the *Karta*. The Bidder/applicant should specify that the Bid was being made in the name of the HUF in the Bid cum Application Form/Application Form as follows: “Name of sole or first Bidder/applicant: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the *Karta*”. Bids/Applications by HUFs were considered at par with Bids/Applications from individuals.

Bids by FPIs

An FPI may purchase or sell equity shares of an Indian company which is listed or to be listed on a recognised stock exchange in India, and/or may purchase or sell securities other than equity instruments.

FPIs were permitted to participate in the Offer subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

In terms of the SEBI FPI Regulations, the investment in Equity Shares by a single FPI or an investor group (which means multiple entities registered as FPIs and directly or indirectly having common ownership of more than 50% or common control) must be below 10% of our total paid-up equity share capital on a fully diluted basis. Further, in terms of the FEMA NDI Rules, the total holding by each FPI (or a group) shall be less than 10% of the total paid-up equity share capital of our Company on a fully diluted basis and the aggregate limit for FPI investments shall be sectoral caps applicable to our Company, which is 100% of the total paid-up equity share capital of our Company on a fully diluted basis.

In terms of the FEMA Non-debt Instruments Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

In case the total holding of an FPI increases beyond 10% of the total paid-up equity share capital, on a fully diluted basis or 10% or more of the paid-up value of any series of debentures or preference shares or share warrants issued that may be issued by our Company, the total investment made by the FPI will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company and the Selling Shareholders reserved the right to reject any Bid without assigning any reason. FPIs who wished to participate in the Offer were advised to use the Bid cum Application Form for Non-Residents (blue in colour).

As specified in the General Information Document, it is hereby clarified that bids received from FPIs bearing the same PAN were treated as multiple Bids and were liable to be rejected, except for Bids from FPIs that utilize the multiple investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants issued to facilitate implementation of SEBI FPI Regulations (“**MIM Structure**”), provided such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs. Accordingly, it should be noted that multiple Bids received from FPIs, who do not utilize the MIM Structure, and bear the same PAN, were liable to be rejected. In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, were required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilize the MIM Structure and indicate the name of their respective investment managers in such confirmation. In the absence of such confirmation from the relevant FPIs, such multiple Bids were liable to be rejected. Further, in the following cases, the bids by FPIs will not be considered as multiple Bids: involving (i) the MIM Structure and indicating the name of their respective investment managers in such confirmation; (ii) offshore derivative instruments (“**ODI**”) which have obtained separate FPI registration for ODI and proprietary derivative investments; (iii) sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration; (iv) FPI registrations granted at investment strategy level/sub fund level where a collective investment scheme or fund has multiple investment strategies/sub-funds with identifiable differences and managed by a single investment manager; (v) multiple branches in different jurisdictions of foreign bank registered as FPIs; (vi) Government and Government related investors registered as Category 1 FPIs; and (vii) Entities registered as Collective Investment Scheme having multiple share classes.

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Offer to ensure there is no breach of the investment limit, within the timelines for issue procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with ‘know your client’ norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instruments issued by or on its behalf, is carried out subject to *inter alia* the following conditions:

- (a) such offshore derivative instruments are transferred only to persons in accordance with Regulation 21(1) of the SEBI FPI Regulations; and
- (b) prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred to are pre-approved by the FPI.

Participation of FPIs in the Offer was subject to the FEMA NDI Rules.

Please note that in terms of the General Information Document, the maximum Bid by any Bidder including QIB Bidder was required not to exceed the investment limits prescribed for them under applicable laws. Further, MIM Bids by an FPI Bidder utilising the MIM Structure shall be aggregated for determining the permissible maximum Bid. Further, please note that as disclosed in the Red Herring Prospectus read with the General Information Document, Bid Cum Application Forms were liable to be rejected in the event that the Bid in the Bid cum Application Form “*exceeds the Offer size and/or investment limit or maximum number of the Equity Shares that can be held under applicable laws or regulations or maximum amount permissible under applicable laws or regulations, or under the terms of the Red Herring Prospectus.*”

For example, an FPI was required to ensure that any Bid by a single FPI and/ or an investor group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) (collective, the “**FPI Group**”) was required to be below 10% of the total paid-up equity share capital of our Company on a fully diluted basis. Any Bids by FPIs and/ or the FPI Group (including but not limited to (a) FPIs Bidding through the MIM Structure; or (b) FPIs with separate registrations for offshore derivative instruments and proprietary derivative instruments) for 10% or more of our total paid-up post Offer equity share capital were liable to be rejected.

Bids under Power of Attorney

In case of Bids made pursuant to a power of attorney or by limited companies, corporate bodies, registered societies, eligible FPIs, AIFs, Mutual Funds, insurance companies, insurance funds set up by the army, navy or air force of India, insurance funds set up by the Department of Posts, India or the National Investment Fund and provident funds with a minimum corpus of ₹ 250 million and pension funds with a minimum corpus of ₹ 250 million registered with the Pension Fund Regulatory and Development Authority established under sub-section (1) of section 3 of the Pension Fund Regulatory and Development Authority Act, 2013 (in each case, subject to applicable law and in accordance with their respective constitutional documents), a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws, as applicable was required to be lodged along with the Bid cum Application Form. Failing this, our Company and the Selling Shareholders reserved the right to accept or reject any Bid in whole or in part, in either case, without assigning any reasons thereof.

Our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders, in consultation with the Book Running Lead Managers in their absolute discretion, reserved the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application Form.

Bids by SEBI registered VCFs, AIFs and FVCIs

The SEBI FVCI Regulations as amended, *inter alia*, prescribe the investment restrictions on VCFs, and FVCIs registered with SEBI. Further, the SEBI AIF Regulations prescribe, amongst others, the investment restrictions on AIFs. Accordingly, the holding in any company by any individual VCF or FVCI registered with SEBI should not exceed 25% of the corpus of the VCF or FVCI. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds in various prescribed instruments, including in public offerings.

Category I AIFs and Category II AIFs cannot invest more than 25% of the investible funds in an investee company directly or through investment in the units of other AIF. A Category III AIF cannot invest more than 10% of the investible funds in an investee company directly or through investment in the units of other AIF. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than one-third of its investible funds by way of subscription to an initial public offering of a venture capital undertaking. Pursuant to the repeal of the SEBI VCF Regulations, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations until the existing fund or scheme managed by the fund is wound up and such fund shall not launch any new scheme after the notification of the SEBI AIF Regulations. Our Company, the Selling Shareholders, severally and not jointly, and the Book Running Lead Managers will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

Participation of VCFs, AIFs or FVCIs in the Offer was subject to the FEMA NDI Rules.

All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

Bids by Limited Liability Partnerships

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, was required to be attached to the Bid cum Application Form. Failing this, our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders, in consultation with the Book Running Lead Managers reserved the right to reject any Bid without assigning any reason thereof.

Bids by banking companies

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company’s investment committee were required to be attached to the Bid cum

Application Form, failing which our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders, in consultation with the Book Running Lead Managers reserved the right to reject any Bid without assigning any reason.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended (“**Banking Regulation Act**”). and the Master Direction - Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended, is 10% of the paid-up share capital of the investee company, not being its subsidiary engaged in non-financial services, or 10% of the banking company’s own paid-up share capital and reserves, whichever is less. Further, the aggregate investment by a banking company in subsidiaries and other entities engaged in financial and non-financial services company cannot exceed 20% of the bank’s paid-up share capital and reserves.

However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid-up share capital of such investee company, subject to prior approval of the RBI, if (i) the investee company is engaged in non-financial activities permitted for banking companies in terms of Section 6(1) of the Banking Regulation Act; (ii) the additional acquisition is through restructuring of debt, or to protect the banking company’s interest on loans/investments made to a company; (iii) hold along with its subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank; and mutual funds managed by asset management companies controlled by the bank, more than 20% of the investee company’s paid up share capital engaged in non-financial services. However, this cap doesn’t apply to the cases mentioned in (i) and (ii) above.

Further, the aggregate investment by a banking company in all its subsidiaries and other entities engaged in financial services and non-financial services, including overseas investments, cannot exceed 20% of the banking company’s paid up share capital and reserves.

The banking company was required to submit a time-bound action plan for disposal of such shares within a specified period to RBI. A banking company would require a prior approval of RBI to make investment in a (i) subsidiary or a financial services company that is not a subsidiary (with certain exceptions prescribed); and (ii) non-financial services company in excess of 10% of such investee company’s paid-up share capital as stated in para 5(a)(v)(c)(i) of the Master Direction - Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended.

Bids by SCSBs

SCSBs participating in the Offer were required to comply with the terms of the circulars bearing numbers CIR/CFD/DIL/12/2012 and CIR/CFD/DIL/1/2013 dated September 13, 2012 and January 2, 2013, respectively, issued by SEBI. Such SCSBs were required to ensure that for making applications on their own account using ASBA, they had a separate account in their own name with any other SEBI registered SCSBs. Further, such account was used solely for the purpose of making application in public issues and clear demarcated funds were available in such account for such applications.

Bids by Insurance Companies

In case of Bids made by insurance companies registered with the IRDAI, a certified copy of certificate of registration issued by IRDAI was required to be attached to the Bid cum Application Form. Failing this, our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders, in consultation with the Book Running Lead Managers reserved the right to reject any Bid without assigning any reason thereof, subject to applicable law.

The exposure norms for insurers are prescribed under the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016, as amended (“**IRDAI Investment Regulations**”), based on investments in the equity shares of a company, the entire group of the investee company and the industry sector in which the investee company operates. Insurance companies participating in the Offer are advised to refer to the IRDAI Investment Regulations for specific investment limits applicable to them and shall comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time.

Names of entities responsible for finalising the basis of allotment in a fair and proper manner

The authorised employees of the Designated Stock Exchanges, along with the Book Running Lead Managers and the Registrar, shall ensure that the Basis of Allotment is finalised in a fair and proper manner in accordance with the procedure specified in SEBI ICDR Regulations.

Method of allotment as may be prescribed by SEBI from time to time

Our Company will not make any allotment in excess of the Equity Shares offered through the Offer through the Red Herring Prospectus and this Prospectus except in case of oversubscription for the purpose of rounding off to make allotment, in consultation with the Designated Stock Exchange. Further, upon oversubscription, an allotment of not more than 1% of the Offer may be made for the purpose of making allotment in minimum lots.

The allotment of Equity Shares to applicants other than to the RIBs, Non-Institutional Bidders and Anchor Investors shall be on a proportionate basis within the respective investor categories and the number of securities allotted shall be rounded off to the nearest integer, subject to minimum allotment being equal to the minimum application size as determined and disclosed. The Allotment of Equity Shares to Anchor Investors shall be on a discretionary basis.

The allocation to each NIB shall not be less than ₹200,000, subject to availability of Equity Shares in the Non-Institutional Portion and the remaining available Equity Shares, if any, was not allocated on a proportionate basis in accordance with the conditions specified in this regard in Schedule XIII of the SEBI ICDR Regulations.

The allotment of Equity Shares to each RIB was not permitted to be less than the minimum bid lot, subject to the availability of shares in RIB category, and the remaining available shares, if any, shall be allotted on a proportionate basis.

Payment into Anchor Investor Escrow Accounts

Our Company, the Promoter Selling Shareholders and the Investor Selling Shareholders, in consultation with the Book Running Lead Managers decided the list of Anchor Investors to whom the CAN was sent, pursuant to which, the details of the Equity Shares allocated to them in their respective names were notified to such Anchor Investors. For Anchor Investors, the payment instruments for payment into the Anchor Investor Escrow Account were required to be drawn in favour of:

- (a) In case of resident Anchor Investors: “HONASA CONSUMER LIMITED – RESIDENT ANCHOR INVESTOR ACCOUNT”
- (b) In case of Non-Resident Anchor Investors: “HONASA CONSUMER LIMITED – NON RESIDENT ANCHOR INVESTOR ACCOUNT”

Anchor Investors were required to note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Selling Shareholders, the Syndicate, the Escrow Banks and the Registrar to the Offer to facilitate collections of Bid amounts from Anchor Investors.

Pre-Offer Advertisement

Our Company after filing the Red Herring Prospectus with the RoC, published a pre-Offer advertisement, in the form prescribed under the SEBI ICDR Regulations, in all editions of English national daily newspaper The Financial Express and all editions of Hindi national daily newspaper Jansatta (Hindi also being the regional language of New Delhi, where our Registered Office is located) each with wide circulation.

In the pre-Offer advertisement, we stated the Bid/ Offer Opening Date and the Bid/ Offer Closing Date. This advertisement was in the format prescribed in Part A of Schedule X of the SEBI ICDR Regulations.

Allotment advertisement

Our Company, the Book Running Lead Managers and the Registrar shall publish an allotment advertisement before commencement of trading, disclosing the date of commencement of trading in all editions of English national daily newspaper, The Financial Express and all editions of Hindi national daily newspaper Jansatta (Hindi also being the regional language of New Delhi, where our Registered Office is located) each with wide circulation.

The information set out above was given for the benefit of the Bidders/applicants. Our Company, the Selling Shareholders, severally and not jointly and the Book Running Lead Managers are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Red Herring Prospectus, the Bid/ Offer Closing Date and this Prospectus. Bidders/applicants were advised to make their independent investigations and ensure that the number of Equity Shares Bid for did not exceed the prescribed limits under applicable laws or regulations.

Signing of the Underwriting Agreement and Filing with the RoC

- (a) Our Company, the Selling Shareholders and the Underwriters have entered into an Underwriting Agreement on November 2, 2023.
- (b) After signing the Underwriting Agreement, this Prospectus had been filed with the RoC in accordance with applicable law. This Prospectus contains details of the Offer Price, the Anchor Investor Offer Price, the Offer size, and underwriting arrangements and is complete in all material respects.

Impersonation

Attention of the Bidders was specifically drawn to the provisions of sub-section (1) of Section 38 of the Companies Act, which is reproduced below:

“Any person who:

- (a) *makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or*

- that if the Offer is withdrawn after the Bid/ Offer Closing Date, our Company shall be required to file a fresh offer document with SEBI, in the event a decision is taken to proceed with the Offer subsequently; and
- that our Company shall not have recourse to the Net Proceeds until the final approval for listing and trading of the Equity Shares from all the Stock Exchanges where listing is sought has been received.

Undertakings by the Selling Shareholders

Each of the Selling Shareholders specifically undertakes and confirms, as applicable, severally and not jointly, in relation to itself and its Offered Shares that:

- it is the legal and beneficial holder of and has clear legal, valid and marketable title to its respective portion of the Offered Shares, and that such Offered Shares shall be transferred in the Offer, free and clear of any encumbrance;
- its respective portion of the Offered Shares shall be transferred to an escrow demat account in dematerialized form accordance with the Share Escrow Agreement to be executed between the Company, the Selling Shareholders and the Share Escrow Agent for the Offer;

- it shall not have recourse to the proceeds from the Offer for Sale until final listing and trading approvals are received from the Stock Exchanges, until which time all monies received shall be kept in a separate bank account in a scheduled bank, within the meaning of Section 40(3) of the Companies Act, 2013.

Only the statements and undertakings in relation to each of the Selling Shareholders and its respective portion of the Offered Shares which are specifically “confirmed” or “undertaken” by such Selling Shareholder in this Prospectus, shall be deemed to be “statements and undertakings specifically confirmed or undertaken” by such respective Selling Shareholders. All other statements and/ or undertakings in this Prospectus shall be statements and undertakings made by our Company even if the same relates to the Selling Shareholders.

Utilisation of Net Proceeds

Our Board of Directors certifies and declares that:

- all monies received out of the Fresh Issue shall be credited/transferred to a separate bank account other than the bank account referred to in sub-section (3) of Section 40 of the Companies Act;
- details of all monies utilized out of the Fresh Issue shall be disclosed, and continue to be disclosed till the time any part of the Net Proceeds remains unutilized, under an appropriate separate head in the balance sheet of our Company indicating the purpose for which such monies have been utilized; and
- details of all unutilized monies out of the Fresh Issue, if any shall be disclosed under an appropriate separate head in the balance sheet of our Company indicating the form in which such unutilized monies have been invested.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment. The Government has from time to time made policy pronouncements on foreign direct investment (“**FDI**”) through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“**Consolidated FDI Policy**”), which, with effect from October 15, 2020 consolidated and superseded all previous press notes, press releases, circulars and clarifications on FDI issued by DPIIT that were in force and effect prior to October 15, 2020. The Consolidated FDI Policy will be valid until the DPIIT issues an updated circular. FDI in companies engaged in sectors/ activities which are not listed in the FDI Policy is permitted up to 100% of the paid-up share capital of such company under the automatic route, subject to compliance with certain prescribed conditions.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and such transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“**Restricted Investors**”), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA NDI Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA NDI Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Bid/ Offer Period.

In accordance with the FEMA NDI Rules, participation by non-residents in the Offer is restricted to participation by (i) FPIs under Schedule II of the FEMA Non-debt Instruments Rules, in the Offer subject to limit of the individual holding of an FPI below 10% of the post-Offer paid-up capital of our Company on a fully diluted basis and the aggregate limit for FPI investment currently not exceeding the sectoral or statutory cap; and (ii) Eligible NRIs only on non-repatriation basis under Schedule IV of the FEMA NDI Rules.

As per the existing policy of the Government, OCBs cannot participate in the Offer.

The Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act or any other applicable law of the United States and, unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Equity Shares are only being offered and sold (i) within the United States only to persons reasonably believed to be “qualified institutional buyers” (as defined in Rule 144A under the U.S. Securities Act) in transactions exempt from, or not subject to, the registration requirements of the U.S. Securities Act, and (ii) outside the United States in offshore transactions in compliance with Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

For further details, see “*Offer Procedure*” beginning on page 386.

The above information is given for the benefit of the Bidders. Our Company, the Selling Shareholders, severally and not jointly, and the Book Running Lead Managers are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Red Herring Prospectus and this Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares Bid for do not exceed the applicable limits under laws or regulations.

SECTION VIII: DESCRIPTION OF EQUITY SHARES AND TERMS OF THE ARTICLES OF ASSOCIATION

Capitalised terms used in this section have the meanings that have been given to such terms in the Articles of Association of our Company. The main provisions of the Articles of Association of our Company are detailed below.

This set of Articles of Association has been approved pursuant to the provisions of Section 14 of the Companies Act, 2013 and by a Special Resolution passed at the Extraordinary General Meeting of our Company held on October 3, 2023. These Articles have been adopted as the Articles of Association of the Company in substitution for and to the exclusion of all the existing Articles thereof.

Authorised share capital

The authorised share capital of the Company shall be such amount, divided into such class(es), denomination(s) and number of shares in the Company as stated in Clause V of the Memorandum of Association, with power to increase or reduce such capital from time to time and power to divide the shares in the capital for the time being into other classes and to attach thereto respectively such preferential, convertible, deferred, qualified, or other special rights, privileges, conditions or restrictions and to vary, modify or abrogate the same in such manner as may be determined by or in accordance with the Articles of the Company, subject to the provisions of applicable law for the time being in force.

New capital part of the existing capital

Except so far as otherwise provided by the conditions of issue or by these Articles, any capital raised by the creation of new shares shall be considered as part of the existing capital, and shall be subject to the provisions herein contained, with reference to the payment of calls and installments, forfeiture, lien, surrender, transfer and transmission, voting and otherwise.

Sub-division, consolidation and cancellation of share certificate

Subject to the provisions of the Act, the Company in its General Meetings may, by an Ordinary Resolution, from time to time:

- (a) increase the share capital by such sum, to be divided into shares of such amount as it thinks expedient;
- (b) divide, sub-divide or consolidate its shares, or any of them, and the resolution whereby any share is sub-divided, may determine that as between the holders of the shares resulting from such sub-division one or more of such shares have some preference or special advantage in relation to dividend, capital or otherwise as compared with the others;
- (c) cancel shares which at the date of such General Meeting have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount of the shares so cancelled;
- (d) consolidate and divide all or any of its share capital into shares of larger amount than its existing shares; provided that any consolidation and division which results in changes in the voting percentage of Members shall require applicable approvals under the Act; and
- (e) convert all or any of its fully paid-up shares into stock, and reconvert that stock into fully paid-up shares of any denomination.

Reduction of capital

The Company may, by a Special Resolution as prescribed by the Act, reduce in any manner and in accordance with the provisions of the Act—

- (a) its share capital; and/or
- (b) any capital redemption reserve account; and/or
- (c) any share premium account

and in particular without prejudice to the generality of the foregoing power may be: (i) extinguishing or reducing the liability on any of its shares in respect of share capital not paid up; (ii) either with or without extinguishing or reducing liability on any of its shares, cancel paid up share capital which is lost or is unrepresented by available assets; or (iii) either with or without extinguishing or reducing liability on any of its shares, pay off any paid up share capital which is in excess of the wants of the Company; and may, if and so far as is necessary, alter its Memorandum, by reducing the amount of its share capital and of its shares accordingly.

Dematerialisation of securities

- (a) The Company shall recognise interest in dematerialised securities under the Depositories Act, 1996.

Subject to the provisions of the Act, either the Company or the investor may exercise an option to issue (in case of the Company only), deal in, hold the securities (including shares) with a Depository in electronic form and the certificates in respect thereof shall be dematerialized, in which event, the rights and obligations of the parties concerned and matters connected therewith or incidental thereof shall be governed by the provisions of the Depositories Act, 1996 as amended from time to time or any statutory modification(s) thereto or re-enactment thereof, the Securities and Exchange Board of India (Depositories and Participants) Regulations, 2018 and other applicable laws.

(b) Dematerialisation/Re-materialisation of securities

Notwithstanding anything to the contrary or inconsistent contained in these Articles, the Company shall be entitled to dematerialise its existing securities, re materialise its securities held in Depositories and/or offer its fresh securities in the dematerialised form pursuant to the Depositories Act, 1996 and the regulations framed thereunder, if any.

(c) Option to receive security certificate or hold securities with the Depository

Every person subscribing to or holding securities of the Company shall have the option to receive the security certificate or hold securities with a Depository. Where a person opts to hold a security with the Depository, the Company shall intimate such Depository of the details of allotment of the security and on receipt of such information, the Depository shall enter in its Record, the name of the allottees as the beneficial owner of that Security.

(d) Securities in electronic form

All securities held by a Depository shall be dematerialized and held in electronic form. No certificate shall be issued for the securities held by the Depository.

(e) Beneficial owner deemed as absolute owner

Except as ordered by a court of competent jurisdiction or by applicable law required and subject to the provisions of the Act, the Company shall be entitled to treat the person whose name appears on the applicable register as the holder of any security or whose name appears as the beneficial owner of any security in the records of the Depository as the absolute owner thereof and accordingly shall not be bound to recognize any benami trust or equity, equitable contingent, future, partial interest, other claim to or interest in respect of such securities or (except only as by these Articles otherwise expressly provided) any right in respect of a security other than an absolute right thereto in accordance with these Articles, on the part of any other person whether or not it has expressed or implied notice thereof but the Board shall at their sole discretion register any security in the joint names of any two or more persons or the survivor or survivors of them.

(f) Register and index of beneficial owners

The Company shall cause to be kept a register and index of Members with details of securities held in materialised and dematerialised forms in any media as may be permitted by law including any form of electronic media in accordance with all applicable provisions of the Companies Act, 2013 and the Depositories Act, 1996. The register and index of beneficial owners maintained by a Depository under the Depositories Act, 1996 shall be deemed to be a register and index of Members for the purposes of this Act. The Company shall have the power to keep in any state or country outside India, a branch Register of Members, of Members resident in that state or country.

Buy back of shares

Notwithstanding anything contained in these Articles, but subject to all applicable provisions of the Act or any other law for the time being in force, the Company may purchase its own shares or other specified securities.

Annual general meetings

- (a) The Company shall in each year hold a General Meeting as its Annual General Meeting in addition to any other meeting in that year and not more than fifteen months shall elapse between the dates of two annual general meetings.
- (b) An Annual General Meeting of the Company shall be held in accordance with the provisions of the Act.

Extraordinary general meetings

All General Meetings other than the Annual General Meeting shall be called "Extraordinary General Meeting". Provided that, the Board may, whenever it thinks fit, call an Extraordinary General Meeting.

Extraordinary meetings on requisition

The Board shall, on the requisition of Members, convene an Extraordinary General Meeting of the Company in the circumstances and in the manner provided under the Act.
